Signet Rings

The signet ring is a sort of extra ring, and has its vindication in the same good reason that prompts one to wear a locket. The old feeling of sentiment that hovers around a fine old piece of jewelry finds its truest expression in the signet ring. So when we tell you that we have the best assortment of signet rings, it means great variety, beautiful designs, high quality, and lowest prices. And the reputation of this store is sufficient emphasis to establish the importance of this announcement.
