—The Water Power company has furnished large, snug fur coats for its chauffeurs. The men who drive the big cars about will keep warm this winter in the new overgarments which are expensive and well made. Oil skin coats are also furnished the workmen on the dam during heavy rains or bad weather. The coats are checked out and each man is responsible for the one he wears.

—Select oysters and home made mince meat at C. M. Laubersheimer's. Both phones.

—Mrs. Clara Jollden Iliff of Hamilton has returned from Love and Marshall counties, Ok., where she has extensive land interest which she manages herself and reports land values have trebled in that vicinity within the past three years, there never being so much demand for farms. The cotton crop this season has been the greatest in the history of the country and much of it is wasting in the fields because of the inability to secure enough help.

### SAW MILL CLOSED AT BURLINGTON

Lumber Company Quits, Marking the Passing of Concern After Forty-five Years.

BURLINGTON, Nov. 15.—The Burlington Lumber company's saw mill closed down permanently last Saturday, after having been active for almost forty-five years. The closing of this big mill marks the passing of a very extensive local industry, and between two and three hundred men will be thrown out of employment as a result. It is unfortunate that so large an industry has to be discontinued, but the supply of logs was becoming so scarce that this action was necessary.

The planing mill, however, will be kept running for about a year in order to dispose of the material now on hand. It was customary for the big mill to close down each year from the middle of November to the first of April, and the employees were not kept in constant employment for this season, but it will be a hard blow to many families, as there is not any too much employment to be obtained at the present time.

Two hundred and sixty-five men were employed and salaries which ranged from \$1.60 to \$5.50 a day were paid, so it can be easily seen that the concern was an important one. The big mill was started in this city in 1867 and has been in operation ever since except in the winter season. Business was pretty good during the past summer, as about fifteen and a quarter million feet of lumber were brought down the river by the concern.

Dr. Edmund W. Limons of Summitville, S. C., is in the city for a visit.
