

SALE OF GRAND NOW PENDING

Prospective Buyers Were in Keokuk Today Negotiating With S. B. Harrington, the Owner.

NOTHING DEFINITE YET

Sale No Nearer Consummation Than Before, Says Harrington in Discussing the Deal.

After a conference here today with prospective buyers of the Grand opera house, S. B. Harrington, of Peoria, the well known theatrical magnate who is interested in a circuit of theatres in Iowa and Illinois, announced that no conclusion had been reached in the matter and sale of the local plant is no nearer consummation than before.

Mr. Harrington would not confirm the report that the theatre is certain of being sold at the end of the present season.

Several parties have been in negotiation with the owner of the house here for some time, and yesterday it was believed the conference today would result in some definite announcement. Propositions submitted, however, have been taken under advisement and the deal may go through within a short time.

There have been persistent reports that a moving picture magnate was negotiating for the house. Regarding this, Mr. Harrington said: "Keokuk is too good and too large a city to have its only theatre turned over for the purpose of playing motion pictures and vaudeville only, and I would hardly let it go unless the purchaser put on good shows—the standard we have been giving the people during the past two seasons."

"The house today could be enlarged to seat 200 more people," continued the owner. "This could be done without the re-location of the walls. The property is of sufficient size to accommodate a city of 50,000 should the city ever grow to such a size. We have eighteen feet on either side. To build a new theatre of such proportions would cost \$30,000."

Although discussing theatre matters quite freely with a reporter, Mr. Harrington declined to make known the parties who have been dickering with him for the plant. That they are local men was denied.

AMUSEMENTS.

At the Colonial. Billy Fields, that funny little character singer, commences his engagement at the Colonial theatre tonight and will sing two great songs, "Bring Back My Lovin' Man," and "Creator," a great Italian song. Everybody should hear him, better than ever.

Four shows will be given tonight, commencing promptly at 6:30, 7:30, 8:30 and 9:30. A great program of pictures will be shown. A Vitagraph military picture, a screaming Essanay comedy and a feature Selig picture, portraying a true to life tale of the sea.

Big night tonight. Follow the crowds to the theatre of quality. Hear Dick Bertram and Fred Weisgerber's classy overtures.

"Baby Mine" Drew Small House.

"Baby Mine," a comedy by Margaret Mayo, was poorly patronized at the Grand opera house last evening, but the few present got the fun they anticipated and were hardly disappointed in the performance. The audience warmed up to the fun and amusement rather slowly in the first act. In the second more comedy got across the footlights, while the third was so uproariously funny that almost a continuous laugh was provoked.

The part of Zoe, Alfred's wife, was played especially well by Arabelle Rae, and the cast throughout was good.

Simplicity of Hair Dressing Now Fashionable

Women Favor Parted Locks, Puffs, Pompadours, Coronet Braids Going Out.

The present fashion of wearing the hair softly parted, without puffs and braids, demands a naturally fine head of hair, and women with thin, faded locks are at their wits' end to know how to make their hair look well. The first step toward this end is to keep hair and scalp in a healthy condition by the systematic use of a stimulating tonic.

HAY'S HAIR HEALTH contains all the health-giving ingredients needed by the starved hair roots. It destroys dandruff germs and encourages rapid growth of strong, new hair. Those hopelessly dry, faded looking locks grow soft, lustrous and youthful and the whole appearance is improved. You can get it at any drugist's for 50c. or \$1.00 per bottle or from the Philo Hay Spec. Co., Newark, N. J.

AN IMPROVEMENT ON MAIN STREET

Three Business Places in Keokuk Are to be Made Into Two Handsome Buildings.

THE DEAL NEAR CLOSE

Some of the Old Landmarks of the City to Pass Away in the Remodeling of This Property.

A business deal has been on for some time and known to The Gate City, by which a noticeable improvement will be made on the south side of Main street, between Sixth and Seventh streets. The contemplated improvement is on the one-story property consisting of three business places, occupied respectively by Eisenhuth's cigar store White's barber shop and the Singer Sewing Machine office.

The deal is so far along that the occupants of these places are making preparations to vacate the premises that the reconstruction may be commenced.

Sam Miller, the shoe man, one of the principal promoters, has a family interest in the property, and was somewhat reluctant about giving out details, saying that "there's many a slip betwixt the cup and the lip," and that a former deal on the property had progressed farther along than this and then failed, so he was not at all certain but that any announcement at this time might be premature.

But with the notification of the tenants to vacate and their preparation to do so seem to make "assurance doubly sure" that the old one-story buildings occupying the ground so long will be soon relegated to the memory of the old inhabitants and replaced by two business houses which will be a credit to the progress of the city.

It has been understood that the two business places to supercede the three are to be one-story buildings, made by tearing out the old front, putting in new modern fronts and remodeling the building, but these details have not yet been arranged and the building may be higher than one-story. Probably one story will be their height if the deal is finally consummated and possibly another story will be the final determination. John Eisenhuth has occupied the building for thirty-six years. The others are much younger tenants.

VIEWING THE WATER POWER

A Pennsylvania Business Man One of Keokuk's Guests Seeing the Big Dam.

Lloyd S. Newton one of the prominent young business men of Coudersport, Penn., is in the city today the guest of J. E. Mitchell. Mr. Newton is connected with the clerkship of one of the Pennsylvania courts and has other interests in industrial promotion. He was attending the Modern Woodmen meeting at Chicago, with an eye all the time on Keokuk and her big water power, in the interest probably of some eastern people who are looking out for chances all the time. Mr. Newton is only one of hundreds who come here every month to take a look at this the greatest industrial enterprise now in progress in the country and seemed much interested in the great work.

On his return to his eastern home he can have no other than a most favorable report to make of the great Keokuk dam and the industrial outlook hereabouts.

DICTATORSHIP FOR CHINA

As Soon as Royal Family Abdicates There Will Be More Complications.

[United Press Leased Wire Service.] SHANGHAI, Feb. 1.—That Yuan Shi Kai plans a dictatorship for China, as soon as the royal family has abdicated and that he will refuse to recognize either the new republic or President Sun as its head is considered certain here today. Yuan has lost little of his prestige despite the uprising and the failure of the negotiations to end the revolution, and would probably be able to rally to his support not alone Manchus but Chinese as well.

Evidence that he is already planning to meet this situation is shown by his order to the commanders of the imperial troops outside of Peking to bring their forces into the city. His public reason is that he fears disorder. The republican army was today reported to be advancing from Ku Cheng in Ngan Hwei province toward Su Show on the line of the Tientsin Pukow railroad.

Martial law prevails in Tientsin.

As Monte and his passenger flew over, making maps and dropping bombs, the Turks fired constantly finally wounding the captain.

With the assistance of his passenger, however, Monte kept his monoplane in control.

RACE WAR AMONG SCHOOL CHILDREN

Japs and Chinamen Win First Point by Murder of Young American.

[United Press Leased Wire Service.] SAN FRANCISCO, Feb. 1.—The discovery today of the body of James Kane, aged 14 with a bullet in his head and his skull crushed, lying in the rear of the Oriental school here, has convinced the police that the lad was murdered in a juvenile race war between white and oriental school children. The boy was a pupil at Washington school which is near the oriental school attended by children of the Chinese and Japanese races. There have been many quarrels between the white boys and orientals, and recently policemen arrested a number of Chinese boys who were carrying revolvers.

The entire detective force has been on the case and a general search is being prosecuted among the Chinese and Japanese boys living in the vicinity of the oriental school.

BRYAN NOT AT ALL INTERESTED

Slayden's Resolution Has Nothing Whatever to do With Mere Candidates.

[United Press Leased Wire Service.] WASHINGTON, Feb. 1.—A resolution, calling upon the house to express its disapproval of a third term for any president, was introduced today by Representative Slayden (democrat, Texas).

The resolution, in its text, follows that adopted by the house on December 15, 1874, aimed at President Grant.

The resolution provides that it be "the sense of the house that third terms of president are unwise, unpatriotic, and contrary to a republican form of government."

MEXICANS ARE DRUNK AGAIN

(Continued from page 1.)

news that he was to leave the army is taken as one of the causes which led to the revolt of the garrison at Juarez.

It is stated that if Juarez is retaken by the government troops, the entire garrison which mutinied may be court martialed and shot.

Just a Bandit.

ST. LOUIS, Mo., Feb. 1.—"Emiliano Zapata is not a leader of a Mexican revolution, but just a bandit with several hundred followers who must be annihilated," declared Salvador Madero, an uncle of President Madero, of Mexico, here today. "I do not think the Juarez outbreak has anything to do with the Zapata rebellion. These men were raw recruits who are hard to accustom to military discipline."

Salvatore Madero is the managing director of the Madero enterprises in Mexico valued at approximately \$100,000,000. He declared Zapata secured his followers by telling them that the vast land and resources now in the hands of a few families in Mexico belonged to the mass of the people by right of their ancestors having owned the lands. If General Orozco leads an expedition against the rebels and continues to serve the army, Madero declared he would probably be made governor of the state of Chihuahua.

Six Were Killed.

EL PASO, Texas, Feb. 1.—The mutiny by which the garrison of Juarez seized that city cost the lives of six Mexicans, according to estimates made public by newspaper reporters across the river. Only one of the corpses has been identified. Although the mutineers are still in control of the city they released the commandant, Captain Martinez, leader of the mutineers, is endeavoring to restore order. At noon he had subdued most of the drinking and had stationed guards on the downtown streets in an effort to prevent further robberies. Martinez has thrown twenty persons into jail.

Several Americans are reported imprisoned in a cafe in Juarez where they have been since yesterday noon, fearing to venture forth into the streets. Col. Stever commanding the U. S. troops at Ft. Bliss, today issued an order prohibiting Americans, excepting a few reporters to cross on the international bridge to Juarez.

ALASKA SHAKEN BY EARTHQUAKE

Filmy Shacks Collapsed and Goods Were Knocked From Store Shelves.

[United Press Leased Wire Service.] VALLEZ, Alaska, Feb. 1.—Reports today from all parts of Alaska indicate that considerable minor damage was done by a series of earthquakes which shook the southwestern part of the territory yesterday. Four shocks were felt here, each followed by numerous minor tremors. Goods were shaken from the shelves of the stores, and a few filmy shacks collapsed, but there was no other damage.

Cordova, Seward and Fairbanks also report several distinct shocks. At Cordova the first shock lasted fifteen seconds.

The weather throughout Alaska is remarkably warm for this season of the year and this fact is attributed to a change in the course of the Japanese current. It is generally believed that a submarine earthquake has caused this change.

Daily New York Stock Letter. [Copyright, 1912, by New York Evening Post Company.]

NEW YORK, Feb. 1.—Yesterday's sales of nearly a million shares, on a disordered market, represented the culmination of the "drive" at prices, as such days are apt to do. Today the sellers were buying back their stocks, and while the professional element resisted the advance at first, and broke prices again in the midday hours, the market at the close got fairly out of hand, running up rather violently in the last half hour.

Many stocks gained one to three points from the lower forenoon prices, most of them closing strong at net advances. It was natural that the stock exchange should have ascribed the midday weakness to the death of Edwin Hawley. But Wall street knows that selling movements based on the death of an active financier are traditionally futile. Whether it is Gould or Harriman or Gates, one always hears for an hour or so that the holding of stocks in the name of the deceased capitalists are about to descend in a mass upon the market, but somehow they do not come, and presently it is learned what restraining part is placed by "syndicate connections."

Yesterday afternoon Wall street talked with feverish interest of the forthcoming answer by the steel corporation in the government suit under the anti-trust law; but when the text of the reply appeared this morning the market lost all interest in the matter.
