What is Elastic Felt? Elastic Felt is made of light fibrous material, thoroughly cleaned and purified, and bleached to perfect whiteness. These layers are forced down by hand and closed in the tick and by the very nature of the fibre cannot get out of shape, or hard in spots, as is the case with all other mattresses.

The Elastic Felt Mattress does not absorb the moisture, is not affected by changes of atmosphere, and hence is dry at all times. Warranted against being infected by vermin a wonderful advantage possessed by no other material. MARCH SALE PRICE **\$9.80**
