

COMMITTEES HAVE MUCH TO REPORT

Reorganization of Industrial Association Will be Taken up in the Near Future.

PROJECTS INVESTIGATED

Clay Beds on Tract May be Developed—Joy Reports on the Inter City Bridge

Bill.

Directors of the Keokuk Industrial Association held their regular monthly meeting at the Y. W. C. A. last night. Reports of committee chairmen took up the greater part of the evening's work. The largest number of reports from committees in the history of the association was submitted for the consideration of the board, and unusual activity along all lines of industrial work was indicated. Manager O. B. Towne, in his report for the last month, stated that about one hundred and twenty-five industrial projects had been taken up by his office during that time. Press clipping bureaus, the sole business of which is to keep in touch with manufacturing concerns seeking new locations, have enabled Manager Towne to give this field of work a great deal of attention. The clipping service puts the association in touch with everything that is going on in the industrial world. The number of factory propositions submitted by the bureau in the course of one month often reaches as high as five hundred. One of the important points to be taken up by the Industrial Association within the near future is the question of reorganization. President Joy recently appointed a committee to handle the matter, consisting of Theodore Craig, G. S. Tucker, J. A. Kiedatsch and L. A. Hamill. Mr. Joy also will be on the committee. The existing subscription agreements expire March 1. Looking toward the continuation of the association, recommendations have been made for an increase in the capitalization of the association from \$50,000 to \$150,000 or \$200,000.

May Develop Clay Fields.

Mr. Towne spoke of the investigations being conducted by the state department of chemistry into the value of the clay discovered south of the city on the industrial tract of the Mississippi River Power company. A number of manufacturing concerns have also become interested in similar investigations, and the chances are reported as favorable that a field of valuable tile and pottery clay may be developed.

Recent conferences were reported between the Industrial Association and the Mississippi River Power company relative to changes in the schedule of rates for electric power, and there is little doubt that announcements soon will be made which will be especially advantageous to local consumers.

President Joy briefly discussed the situation relative to the Inter-city bridge. Plans are now under foot, he said, for the entertainment of the sub-committee of congress on harbors and bridges early in January. It is probable that United States Senators Cummins and Kenyon also will be in Keokuk at an early date. Mr. Joy emphasized the necessity of getting early action relative to the new bridge, not only from the standpoint of conditions favoring its early construction but also because of what it

Cheap and Easily Made, But Ends a Cough Quickly
How to Make the Very Best Cough Remedy at Home. Fully Guaranteed.

This pint of cough syrup is easily made at home and saves you about \$2.00 as compared with ordinary cough remedies. It relieves obstinate coughs—even whooping cough—quickly, and is splendid, too, for bronchial asthma, spasmodic croup and hoarseness.

Mix one pint of granulated sugar with 3/4 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle, and add the Sugar Syrup. Take a teaspoonful every one, two or three hours. Tastes good.

This takes right hold of a cough and gives almost instant relief. It stimulates the appetite, and is slightly laxative—both excellent features.

Pinex, as perhaps you know, is a most valuable concentrated compound of Norway white pine extract, rich in ginseng and the other natural healing pine elements.

No other preparation will do the work of Pinex in this mixture, although strained honey can be used instead of the sugar syrup, if desired.

Thousands of housewives in the United States and Canada now use this Pinex and Sugar Syrup remedy. This plan has often been imitated, but the old successful combination has never been equalled. Its low cost and quick results have made it immensely popular.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

Jelly Roll Recipe

Only Two Eggs Required
By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

K C Jelly Roll
One cup sifted flour; scant half teaspoonful salt; 2 level teaspoonfuls K C Baking Powder; grated rind of 1 lemon; 2 eggs beaten light; 1 cup sugar; 1/2 cup hot milk; glass of jelly; powdered sugar.

Beat the sugar into the eggs; add the lemon rind, then the flour, sifted three times with the salt and baking powder; and, lastly, the milk. Bake in a buttered dripping pan; turn out on a damp cloth, trim off the crisp edges; spread with jelly and turn over and over into a roll while still warm. Dredge the top with powdered sugar.

Hot milk used in the jelly roll enables it to be rolled without danger of cracking. Have the milk scalding hot, also be careful to have the eggs and sugar beaten together until very light and creamy. Bake in a moderate oven.

K C Jelly Roll is illustrated on page thirty-two of the new and handsomely illustrated 64-page K C Cook's Book, which may be secured free by sending the certificate packed in every 25-cent can of K C Baking Powder to the Jagers Mfg. Co., Chicago, Ill.

POSTPONS PUBLISHING BOOK

The board last night decided to postpone the publication of the industrial booklet until after the association has been reorganized. It was definitely voted to get out the booklet at that time, and it is probable that Mr. Green, whose contract expires January 1, will return to Keokuk some time late in the spring to take charge of the publication.

The streets and alleys committee reported plans for forty galvanized iron waste paper cans, to be placed a few feet from the intersection of the streets. The civic league of Keokuk probably will co-operate with the committee in its work in that regard. Definite plans for better street markings are being considered.

Dr. Frank M. Fuller of the committee on public health reported that according to word received from Dr. A. L. Grover, professor of bacteriology at the University of Iowa, Keokuk will have an excellent source of city water supply as soon as a few present existing conditions are corrected. The situation is in good shape, Dr. Grover as yet has not submitted his detailed report, but his general report is satisfactory to those who were somewhat worried over local conditions.

CONSIDER BUILDING BRIDGES

The good roads' committee is considering the construction of a bridge over the Des Moines river at St. Francisville. It undoubtedly would bring much additional business to Keokuk, and there seems to be a vital necessity for such a bridge. Relative to the marking of poles from Wayland to Donnellson, it was reported that they are marked with white bands from Donnellson through New Boston, all turns being indicated by an arrow, these to be followed later by the rd ball. Bal roads completed the committee to abandon the rest of the work for the present. It will be taken up later.

The convention committee is doing excellent work, judging by the report submitted last night. The best means to finance convention expense still is under consideration. Indications are that about ten conventions will meet in Keokuk during 1914, and the number may far exceed that. Considering that 1913 is still with us, the results reported by the committee in bringing important meetings here is most commendable.

THREE SUITS FILED IN DISTRICT COURT

Two Are on Alleged Bills of Goods Sold—One on Contract.

Three new suits have been filed in the office of Curtis M. Hart, clerk of the district court. One of them is to recover on an alleged contract, the other two are suits on bills alleged to be due.

Louise B. Field has brought action against Sophie Knozen, claiming that in August, 1913, she entered into a contract to sell a piece of real estate for defendant. She claims she made a deal with F. T. Hughes who was ready to buy the place in October, when the defendant changed her mind. Mrs. Field claims defendant is indebted to her in the sum of \$250.

FIRST SHOPPING TRAIN IN TODAY

Rock Island Special Carrying Goods Crowd Arrives in the City Two Hours Late.

ANOTHER ONE TUESDAY

North Road Will Hold Passenger Until 5:30 O'clock Tomorrow and the Twenty-Third.

The first of the trade excursions under the patronage of the Keokuk Retail Merchants' Association arrived today over the Rock Island. There were about 150 on board, and although the train was delayed in arriving, there was ample time for shopping given when the people reached the city.

The second of these excursions on the Rock Island will be run next Tuesday. Tomorrow the North road train will be held until 5:30 o'clock. This schedule will be used again on the twenty-third.

Unfortunately the excursion was delayed in getting into Keokuk today by two hours. Failure to get water at Mount Zion and the necessity to run back into the Keosauqua loop is given as the reason for the delay. It is hoped by the merchants that this will not occur on the second trip. It was unfortunate that it occurred on this excursion.

However, the crowd which made the trip from Eldon to this city had plenty of time in the afternoon to shop, and to see the dam. The train arrived at 12:05 o'clock, and the shoppers were soon on Main street.

The members of the Retail Merchants' Association had made extra plans for the handling of the trade today. The windows were in excellent shape and displayed goods to the best advantage. The windows alone proved a great incentive to the buyers.

The second of these excursions will be run next Tuesday over the Rock Island, when the train will come from Eldon as it did today. A large number of the people were from Eldon, Keosauqua, and that territory.

The train on the North road will be held two hours later tomorrow and next Tuesday in order to give the people along this route ample time to shop in the city.

SEARCH FOR ACCOMPLICE

[United Press Leased Wire Service.] PARIS, Dec. 16.—Search for a possible accomplice of Vincenzo Perugia in the theft of the "Mona Lisa" was begun here today under the direction of Prefect of Police Hennion.

The police here also is investigating to ascertain how Perugia made his escape with the painting when the Paris police knew that he worked in the Louvre and also had his finger prints on record.

TWO LAWYERS ACCUSED

[United Press Leased Wire Service.] SPRINGFIELD, Ill., Dec. 16.—The state supreme court today granted leave to the Chicago Bar Association to file information to disbar Attorneys Edward J. Sandberg, licensed in 1905, and Jas. E. Gibbons, licensed in 1895, both accused of misappropriating money given them to use as counsel in contract cases.

OFFICIAL REPRIEVE FILED

[United Press Leased Wire Service.] SPRINGFIELD, Ill., Dec. 16.—The official reprieve for Henry Spencer, convicted of the murder of Mrs. Mildred Allison-Rexroat at Wayne, Ill., and sentenced to hang December 19, was filed today by Governor Dunne, staying execution until January 16. The action will allow attorneys to file petition for a writ of supersedeas before the supreme court.

ATTRACTIVE HAIR

Always Fascinates—Parisian Sage Makes Hair That is Dull, Faded or Thin, Abundant and Gloriously Radiant.

Every girl and woman, too, wants to be beautiful and attractive—it's her birthright—but unsightly, or thin and characterless hair destroys half the beauty of the most attractive face.

If your hair is not fascinating, is thinning out, full of dandruff, dry or if the scalp itches and burns, begin at once the use of Parisian Sage. It will double the beauty of the hair, cool and invigorate the scalp and the first application removes dandruff. It is the hair tonic per excellence, containing the proper elements to supply hair needs and make the hair soft, wavy, lustrous and abundant.

Parisian Sage as sold at all drug and toilet counters in 50 cent bottles is pleasant and refreshing, daintily perfumed—neither greasy or sticky.

Wilkinson & Co. recommend it—

CELEBRATED BY GETTING DRUNK

(Continued from page 1.)
hua. When the powers agreed to wait the pleasure of this government and not interfere in Mexico, the state department agreed to protect all foreigners. This they have been able to do. But should Villa prove obdurate, a new problem will have been presented. But Secretary Bryan was hopeful today that many of the stories emanating from Texas border towns are exaggerated.

The situation at Tampico was unchanged today. Most of the refugees are being properly cared for and the tension has been slackened. But fighting there is certain to be resumed.

IS PROBABLY FALSE RUMOR

LONDON, Dec. 16.—No confirmation was forthcoming today of the alleged \$20,000,000 British loan to the Huerta government, which the Mexico City El Imparcial said had been arranged. The London newspapers today regarded the rumored loan as improbable.

ANOTHER FALSE REPORT

MEXICO CITY, Dec. 16.—Another of the false reports emanating from Mexico City was nailed as a lie here today when Nelson O'Shaughnessy, American charge d'affaires, denied that General Huerta thanked him, officially or otherwise, for the alleged aid that Rear Admiral Fletcher gave the federals at Tampico. O'Shaughnessy told the United Press that the story was untrue in every particular. Querido Moheno, Mexican foreign minister likewise contradicted the story and denied, in the first place, that Rear Admiral Fletcher had any right to advise the federals.

SALVATION ARMY HOME IS BURNED

(Continued from page 1.)

Fred Meyer, 44, no home, is being held pending the police investigation. He was identified by Fireman Justice Cole, as the man who a few days ago Cole had heard making threats against the home because he had been refused a bed. Adjutant Malcolm Salmons, in charge of the lodging house, also identified Meyer as the man he had ordered away twice last night.

The registrar recovered from the house showed there were 109 persons in the building when the fire was discovered. Several are still unaccounted for.

FIRE MARSHAL ROE ISSUES WARNING

Gives Suggestions to Merchants and Parents to Avoid Holiday Burnings.

Ole O. Roe, state fire marshal, has issued a holiday fire warning to merchants and to parents. The bulletin from the fire marshal follows:

To merchants: Inflammable decorations increase the fire hazard. Look out for the wiring of your electric decorations. Keep fire extinguishers in condition for instant use.

Watch the smoker and his clear, and the ubiquitous match. Protect your lights. A breeze may blow a flimsy fabric against an unprotected light and start a fire.

Guard against spontaneous combustion among your piles of holiday goods, by providing for reasonable ventilation.

Impress upon each one of your employees the importance of exercising the utmost care in guarding against fire.

Clean up your packing rooms and basements daily. Excelsior and wrapping paper are highly inflammable. Permit no amount of "busyness" to interfere with this precaution.

"Safety first." To parents: Inflammable Christmas decorations often cause destructive fires in home and church.

Don't hang tissue paper bells or other inflammable decorations in close proximity to a light or fire. Don't use a quantity of highly inflammable cotton to represent snow. Asbestos fiber makes fine snow and will not burn.

Santa Claus should not wear cotton whiskers. Many a life has been lost by fire starting in such adornment.

Decorations that will burn have no place on a Christmas tree. Use tinsel or other non-inflammable material. Children should not experiment with matches and candles or other things that produce fire.

Don't hang celluloid presents on the Christmas tree nor place them anywhere near a fire or light. Celluloid is among the most inflammable of substances.

Watch the tree closely as long as the candles are lighted and have means at hand to put out instantly any fire that may start among the branches.

Set the tree securely so that it can't tip over. Don't let the children light the candles.

Inquire as to the safety of the place of amusement which your children may attend during the crowded holiday season.

Don't let the holiday spirit make you careless in the matter of guarding against fire.

LATEST MARKET QUOTATIONS

United Press Associations Telegraph Market Report Over Gate City Leased Wire.

GRAIN REVIEW

[United Press Leased Wire Service.] CHICAGO, Dec. 16.—The government crop report issued late yesterday had no great effect on any of the grain markets today. Wheat opened a trifle lower because of an easier market at Liverpool and was at about opening prices at noon.

Corn opened fairly firm with December 1/4 higher, but other months showing a decline. During the forenoon December and May both advanced to 70 cents, a gain of 1/4 for December and 1/4 for May.

Oats was steady at the start and there was a rush to buy when corn displayed strength. December futures advanced 1/2 in the morning and May 3/4.

Provisions started easier because of a weak hog market but heavy buying on the early dip sent prices above those prevailing at yesterday's close.
