

Remedy Used By Three Generations

Mothers Who Took it When Children Now Giving it to Their Children.

There must be genuine merit to an article that has stood the test of two generations of users. In the field of medicine none has had greater success, nor retained that success to a greater degree, than Dr. Caldwell's Syrup Pepsin, which is now being used by three generations of people. Its use in families is constantly becoming more general. The reason, primarily, is that it has merit. It is what is represented itself to be, a laxative-remedy; it does not make exaggerated claims nor use coarse language to set forth its virtues.

It is a medicine, but so mild and gentle a medicine that thousands of mothers give it to tiny infants, and yet, in a slightly larger dose, it is equally effective for grown-ups. It is for any disorder of the stomach, liver or bowels, for constipation no matter how chronic, for dyspepsia no matter how severe, for biliousness, sour stomach, gas on the stomach, headaches, drowsiness after eating and similar complaints arising from a clogged-up condition of the bowels. It is pleasant to taste and does not grip. It can be used with safety and good results by anyone at any age or in any condition of health, and that person's health will improve. Every druggist sells it and the price is only fifty cents and one dollar a bottle.

WM. ROSWELL TAYLOR

Thousands of families throughout the country are never without Syrup Pepsin in the house, among them Mrs. W. A. Taylor, 717 Lincoln Ave., Beloit, Wis. She has five children and gives Dr. Caldwell's Syrup Pepsin to all of them as needed. Little William used to cry half the night with cramps and pain, but since being given Syrup Pepsin he does so no longer. The use of this remedy will teach you to avoid cathartics, salts, purgatives and physics, generally as they are entirely too harsh. Syrup Pepsin cures gradually, but the cure is comfortable, safe and permanent.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

CAPITAL AND LABOR AS THE ISSUE

Last Week of Municipal Campaign is a Red Hot Affair.

DES MOINES, Iowa, March 23.—The last week of the city campaign opened today with a bitter war between capital and labor impending, and the newspapers fearful of printing the details of the battle as it is talked on the street.

Labor leaders assert that Mayor Hanna and Candidates Mitchell and Galbraith are backed by the Business Men's association that broke the teamsters' strike a year ago and want to make Des Moines an "open shop" town. The business men assert that the labor unions are trying to elect Roe as mayor and Leonard, Conroy and Frase with a view of having the police keep quiet during strikes so that manufacturers can be intimidated into granting more wages during strikes.

Behind these issues is the water works purchase for \$2,300,000 to be voted upon. Business men generally are opposing it, while the people favor it. Then there is the street car franchise question. If the city officials follow the order of the supreme court, the street car company must vacate streets within a year, having no franchise. The company is moving heaven and earth to elect a council which will grant a rich franchise. Then there is the fight of the liber-

als for an open town and the dregs for a closed town, even to closing the saloons. As a result there will be a heavy vote next Monday and probably 16,000 votes will be cast, making it necessary for the victors to have better than 8,000.

German, Myerly, Hamezy are trying to keep out of the factional strife and it looks as though they would do so and win. Mayor Hanna apparently has such a big lead over Roe that he is expected to win.

Don't You Believe It.

Some say that chronic constipation cannot be cured. Don't you believe it. Chamberlain's Tablets have cured others—why not you? Give them a trial. They cost only a quarter. For sale by all dealers.—Advertisement.

CROWD CHURCH TO HEAR PATTERSON

Originator of Catch-My-Pal Movement Speaks at Union Meeting at Local Sanctuary Last Night.

HISTORY OF HIS SLOGAN

Started With Six Men and Has Grown Until Converts Would Make An Army.

The Westminster Presbyterian church was crowded last night and people were standing in the back of the auditorium, and nearly one hundred were turned away, the occasion being the appearance of the Rev. R. J. Patterson, founder of the Catch-My-Pal movement, in an address before a union meeting of Keokuk churches.

Dr. Patterson's talk covered the history of the movement in the country of his birth and ended in his asking how many here would join in some similar movement in the interest of temperance. Pledge cards were passed among the congregation.

With Dr. Patterson on the pulpit were seated Dr. E. B. Newcomb, the Rev. J. O. Ladbetter and the Rev. William H. Neill. Dr. Newcomb invited the Rev. R. W. Lilley and the Rev. J. F. Sanders and other pastors, if they were in the audience to come forward and occupy seats on the platform.

Dr. Patterson told how the catch-my-pal movement started. He said that six men who had been celebrating one of the holidays in Ireland were coming along the street the following day, when one of them decided to take the pledge. Dr. Patterson took all six into his study and they formed a compact to go out and bring six more into his study within a week. This was to be a campaign to catch-my-pal, as he put it.

In a week the crowd had grown to twelve. These twelve were told to bring twelve more, and the result was thirty-one.

"What Presbyterian preacher has thirty-one chairs in his dining room," Dr. Patterson humorously inquired. "Not in my country at least."

Crowd Still Grows.

In another week the proportion was 105, and the crowd still grew.

Dr. Patterson said he was out lecturing only on his salary as pastor. There was no additional bonus to his salary as is the case in some evangelistic work.

The speaker related his experiences with the "old soaks," most of whom were caught and straightened up in this movement which he inaugurated. He told a number of stories concerning the conversions and his experiences with the work.

Politics and Dress.

Politics and dress were also considered by the speaker. He briefly sketched the history of the home rule movement in Ireland and told something of the troubles which are brewing now in the Emerald Isle.

As for dress, Dr. Patterson had some rather scathing remarks to make on the present day styles. He said that he heard some women from the tenderloin district in Chicago discussing the style of clothes worn by one of the society women whom they met on the street. They thought this woman was dressed in a style which invited criticism of the bluntest kind.

Dr. Patterson humorously described the fashions of the day when he said that some of the women were down and he was inclined to believe "outers," also.

Butter, Vegetables, Fruit and Poultry Can All be Sent by Mail Now.

[United Press Leased Wire Service.] NEW YORK, March 23.—Fresh eggs, butter, vegetables and fruit at your door each day right from the hen, the churn, the garden and the orchard. That is what we have been working for, and in opening the parcel post to such commodities, the postoffice department has struck a terrible blow at the high cost of living. Mrs. Ellis Logan, president of the district federation of women's clubs today told the United Press.

Postmaster General Burleson has issued an order permitting the shipment of crates of eggs, poultry, butter, vegetables and fruit by parcel post. The innovation, which will be tried out at Washington, Boston, St. Louis, San Francisco, Atlanta, Baltimore, Detroit and half a dozen other postoffices, will soon be extended to all parts of the country.

"We are expecting this move," Mrs. Logan said, "and have been preparing for it. Already there is a cylindrical paper-mache egg case on the market, in which from one to three dozen eggs may be shipped for six cents.

"This new departure will place the housewife in direct communication with the producer and help her in countless ways. It will 'cut out' the troublesome marketing, reduce the
