These tests have proven that this paint wears longer than ordinary paints—and that it leaves the surface in better condition for repainting when that becomes necessary.

On houses—it has been found to wear years longer than ordinary paint—think what this saves when your painting cost is figured per years of wear.

## Luther Burbank Says---

One of the causes of lack of success in starting flower seeds is planting too deep. The general rule is to cover the seed a little more in depth than the diameter of the seed; this is for moderately moist climates. In dry climates, it is necessary to plant them deeper, but small dry seeds cannot push up through much weight of dirt." This is an excerpt from "How to Plant and Raise Flowers," a pamphlet written by Luther Burbank himself, containing most valuable information about the planting and the raising of flowers. We will be glad to give you a copy with every \$1.00 purchase of original Luther Burbank seeds. The price of most of these seeds is 10 cents a package. There is only one place in Keokuk where you can buy them—from us, exclusive representatives of the Luther Burbank Company, sole distributor of original Burbank Horticultural Productions.
