The Nauvoo Gate City

Nauvoo, Ill., April 5, 1914

The Nauvoo city council members will hold the regular meeting next Monday evening.

Nauvoo's Ladies' Priscilla club will not meet next week on account of it being holy week in the church calendar.

Geo. Baumert, senior editor of the Nauvoo Independent is ill with erysipelas of the face. It is hoped he will soon be about again and as well as ever.

There was a social ball in the Nauvoo opera house last Thursday evening and which a large number from Keokuk attended.

The kids will soon be heard on the banks of Lake Cooper here in Nauvoo, saying: "Come on out, boys; the water is fine."

There isn't anybody ever going to whip Old John Harleycorn until the majority gets together on the proposition to stop the manufacture.

C. O. Starr of the Keokuk Daily Gate City was among our people Wednesday, soliciting new names for the best paper in this section. When the interurban passes through Nauvoo, it will keep The Gate City people hustling to take care of their subscription list here.

Miss Emma Hauptman of Davenport, Iowa, was a visitor in Nauvoo the forepart of the week, among relatives. She returned Friday, accompanied by her mother who will visit for a short time in the up-river city.

Mr. and Mrs. J. G. Schneider who have been visiting in the south for about two months, returned to Nauvoo last Tuesday. This popular couple enjoyed their visit and look much benefited in health.

Nauvoo authorities have had the mud scraped from the street in our business section.

The long period of unseasonably pleasant weather being passed, we are all wishing for the real article of spring.

A Nauvoo fellow told us that we should write the honorable records along with the bum ones, just as often as we run across them. So now look out and be good.

We have noticed that in some sections you can get all the publicity you want by raising something and taking a little bundle of it to the editor.

Louis Schoell returned his collector's books to Carthage last Monday.

James Farren was a Chicago business visitor for a few days recently. Miss Helen Wolley of Keokuk has been visiting with Mrs. J. W. Bertschi during the week.

Mrs. Carl Pfaffe of Keokuk has been visiting Nauvoo relatives during the week and while here she took sick at the home of her sister Mrs. John M. Bachtold.

We will omit the name of the "party" for obvious reasons: One evening the forepart of the week, Miss

gave a party in celebration of her twenty-ninth birthday. The evening was spent with delicious refreshments and playing old-fashioned games. Lots of young people were present, who before departing for their homes wished Miss many more returns of the day.

Not much news to send in at present. Everything very quiet. April fool day went off very splendidly, not an accident of any sort happened here this year, such as finding pocket books with real coin or kicking a hat with a brick under it from off our cement sidewalks.

It looks like a first class photographer ought to make a gallery a paying venture in Nauvoo. There is a fine opening here. Who wants to come and try it?

Nauvoo's electric light company has sold its large Pocs gas engine to some Jeffersonville, Ohio, parties. The weight of the engine is about twenty tons and C. R. Montgomery of this city has the contract to move and place it on cars in Niota, opposite Ft. Madison.

Well, the weather man may make good anyway, after Easter.

A farmer in the southeast part of the state has figured out, and proves it, too, that the raising of pop corn is a prosperous industry. He has raised over 500 bushels. On the market pop corn is quoted at about \$3.00 per bushel, shelled, and ordinary corn at about 70 cents. Pop corn will yield nearly as many bushels to the acre as the regular corn does. This farmer grows the white rice variety, which brings the highest market prices. His venture has proved so successful last season that this spring he intends to double his acreage. Why not try it in and about Nauvoo. Everything growable grows in old Nauvoo.

The Keokuk Consumers Supply company's wagon was in Nauvoo last Friday, delivering goods among customers.

The ladies in Nauvoo want the weather man to send us a fine article of sunshine and warmth for Easter in order to exhibit their new bonnets and suits. It is believed that the head gear of Nauvoo ladies will be more elaborate than ever this year for the dear ones had four millinery stores to select from.

Many in Nauvoo are wondering how many of our women are going to vote next Tuesday, and if Nauvoo will go wet or dry. If it is left to the male population this town will remain as it is. It is believed there will

not be enough votes of women to change the matter.

It seems nearly everybody here has a cold or something or other, and hacking and coughing is the order of the day.

John Reimbold is repairing two more residence properties which he possesses in Nauvoo, so as to make them fit to occupy.

A mass meeting of women was held in the Nauvoo opera house last Wednesday afternoon to organize a civic club. President Hoover of Carthage college made an address. He also addressed our citizens in the evening at the same place.

Nearly all of our farmers are through sowing oats. The late rains have set back some of them but they will soon catch up. Country roads are very muddy on account of the rains.

It is about time to overhaul our fish poles, for a citizen was spotted coming up from the big stream with a small string.

Today, Sunday, is Palm Sunday, a day when sprigs of palm are distributed among the faithful in the Catholic church. The balance of the week is observed as Holy week.

Not many of our people have made garden and some very few have planted spuds. Some call this fruit potatoes, and other refer to them as Murphys.

One of our farmers says there are the best prospects for wheat here he ever saw, and the apple and peach buds are all right so far, said a Nauvoo citizen.

Several meetings of women were called to meet in Nauvoo opera house but so far so few responded that all were called off. It seems that not many of our women voters are overly interested in the local option question, so it appears from the slim attendance at these called "dry" meetings.

The opera house was secured by some of the temperance fanatics for every evening for a week up to and including the night before election. They forgot that the "wets" could have used the city park had they wished to make any sort of demonstrations.

The Nauvoo ball club will give a social dance Monday evening, April 13, and Turner's orchestra of Hamilton will furnish the music in the Nauvoo opera house where the dance takes place.

The Nauvoo ferryboat is now making regular trips which is glad news to the traveling public. The steamer is also touching Nauvoo three days a week. On her first trip up and down she unloaded a tremendous lot of freight.

Nauvoo people are all anxious to see or hear of the work on the Nauvoo part of the Marsh interurban line commence soon. Of course we are all glad to learn that grading has commenced on the lower section of the Warsaw end, which means that the road will surely be constructed and that, during this year. With this great interurban railway line and splendid crops around and in Nauvoo, things will surely be moving.

Nauvoo's city election will occur on Tuesday, April 21, when three aldermen will be selected. The present mayor will hold over another term. It is hoped that when the new council takes up the city reins that it will plan some improvements noteworthy of mention through our local and daily press.

ANARCHISTS AND I. W. W. IN MOB

Heads Were Cracked and Scores Were Knocked Down by the Police.

[United Press Leased Wire Service.] NEW YORK, April 4.—Welding their clubs freely, mounted police this afternoon charged a fighting, cursing mob of several thousand I. W. W. agitators and anarchists in Union Square when foot police and detectives who attempted to disperse them, were attacked. Heads were cracked, scores were knocked prone by the horses and at least one man, "Joe" O'Carroll, I. W. W. leader, was seriously hurt.

It was the worst riot that has occurred in the famous old "Labor Forum" since the bomb throwing incident of years ago. O'Carroll and five others were arrested. An attempt of the I. W. W. to parade Fifth avenue without a permit, started the rioting. The central federated union, armed with permits, started a mass meeting to arrange for parades as a protest against conditions in the Calumet, Mich., mining district.

Urged on by Emma Goldman, "Becky" Adelson and Adolph Wolf, 2,000 or more anarchists and I. W. W. members suddenly poured into Union Square from the streets which converge there. All day long foot and motorcycle police and detectives, anticipating trouble, had patrolled the square. Every one had been kept moving until the federated union speakers, among whom was Lincoln Steffens, started their meeting. Then the thousands of I. W. W. members and anarchists began pouring into the square. The leaders urged a parade of protest down Fifth avenue. The foot police and detectives, numbering several hundred, went into the crowd to disperse it as two squads of mounted blue coats drew up at either end

Rupture and Its Cure

The old idea that rupture cannot be cured except through an operation is exploded, and has been proven erroneous. We live in the age of progress, and the science and practice of Medicine and Surgery have been influenced by the wave of progress as much as every other branch of science.

Take as an illustration the work by a skilled specialist like Dr. Waldron of 420 Main street, Keokuk.

He treats rupture without the use of the knife, and without drawing blood. There is no detention from business pursuits. All is accomplished within a few weeks, and no one pronounced cured until the opening through which the intestines protrude is entirely closed and permanently healed. This is accomplished by building up new tissue, commencing at the edge of the ring; by repeating the treatment several times, the ring is finally closed in a natural manner with new tissue, a growth similar to that over a wound that has healed.

Dr. Waldron treats men, women and children and will be pleased to examine anyone free who calls at his office between 10 and 12 mornings, 2 to 4 afternoons any day except Sunday or Saturday evening from 7 to 8.

If you want a truss that is guaranteed to work, call and he will show you the "Honest John Truss," free.

of the square. Suddenly at all points in the square fists began to fly and then the police began to swing their long night sticks. When several police were seen to go down in the melee, the mounted men rode into the fighting, screaming mob, knocking men right and left. It took two charges before the rioters broke and fled. A dozen or more were carried or helped from the scene. O'Carroll, fighting to the last, received a terrific beating. Twelve stitches were taken in his scalp at the hospital before he was locked in a cell.

A dozen or more policemen tonight were nursing bad bruises, black eyes, sprained hands and fingers, as a result of the affray.

SHUSTER TALKS ON AMBASSADORS

Diplomatic Department Needs Revision to Create More Efficiency.

[United Press Leased Wire Service.] PHILADELPHIA, Pa., April 4.—To accomplish a constructive foreign policy we must teach a new definition of patriotism a real patriotism that demands that national honor shall be placed above national welfare. I would rather see my government pay \$100,000,000 a year ship subsidy to our coast wise trade than to be even suspected of violating or evading a treaty stipulation.

This was the gist of an address delivered here tonight at the meeting of the American Academy of Political and Social Science by W. Morgan Shuster, formerly financial adviser to the Persian government. His subject was the "elements of a constructive American foreign policy."

"We should regard it as a paramount national duty," declared Shuster, "to observe strictly the spirit of all our treaty obligations with large countries or small. Some years ago we grossly violated a long standing treaty with a friendly but minor Latin American nation. We did it by force and fraud. We have not made amends.

"We should revise our diplomatic
