### Watching the Score Board

By Hal Sheridan

Written for the United Press

Comiskey's White Sox look like champions of the world—for the month of April, 1914.

Continuing a stiff pace they pushed the victory-less Naps deeper into the sub-cellar.

Meanwhile Tris Speaker was standing the Macks off to another tie with the Red Sox, his double scoring three. Clark Griffith's crowd climbed to second place because the Highlanders pulled a series of misplays, giving Warhop miserable backing.

The Cobb-Crawford combined fleets worked effectively again, sheeling Branch Rickey's college craft for three runs and the game in the third.

While prelims for the Cubs season opening were under way Charlie Murphy late magnate, picked the Cubs as pennant winners.

Charley Herzog's Reds then licked them, 4 to 3.

The Fed-raided Phillies continue to prove that a house cleaning is worth while. With Alexander going good, they beat Stallings' Braves, 3 to 1.

In four Federal games yesterday the number of hits totaled 84 or 21 to the game. Seven former big leaguers were the victims of this considerable trouble. Yet they told us that big league twirlers would mow down bush league swatters.

### Sporting Views

By the Editor

It was the same story today for the tribe. The workouts are made interesting each afternoon by a seven or eight inning game between the regulars and the yannigans. Some of the contests are interesting and many fans have been holding down boards on the bleachers while the boys play.

After the 18 to 13 defeat by Ft. Williams Tuesday, Burlington came back and won by a small score of 4 to 2 in yesterday's game. McCabe, the big pitcher secured from the St. Louis Browns, pitched a great game for the Manushers. He let the Canadians down with four hits, two of these scratches, struck out nine men, allowed one pass, and batted out two hits in four times up.

The Grand Forks club, which comes here Sunday for a four game series, was bumped by Boyl's men at Muscatine, 11 to 9, in yesterday's game. They won the day before, however, by a good margin. Their club seems to be about as strong as some of the clubs in the league.

The first extra inning contest registered in the league this year was played at Clinton Tuesday when Hough's men lost a 13 round contest to Dubuque by a score of 10 to 7. Hough used sixteen men in the game.

The Bunnies hit the road today for Marshalltown where they play a pair of games with the Ansons. Saturday and Sunday they will be entertained by Doc Andrews for two more games.

The Grand Forks club is playing at Burlington today. They will play a series of three games with the Manushers before coming here for the four game series starting Sunday.

**McMahon to Meet Kenneth.**  
[United Press Leased Wire Service.] NEW CASTLE, Pa., April 23.—Tom McMahon, white hope destroyer, left here today for Los Angeles where he will fight Kid Kenneth May 8. Plans made by Promoter McCarney to bring George Chip and Patsy Brannigan to the coast for a series of fights, have fallen through.

**Denies Cheney Will Jump.**  
[United Press Leased Wire Service.] CHICAGO, April 23.—President Chas. H. Thomas declared today that he was positive Larry Cheney, star Cub hurler, would not jump to the Feds. This statement followed a long conference between Cheney and the new Cub boss.

**Found a Cure for Rheumatism.**  
"I suffered with rheumatism for two years and could not get my right hand to my mouth for that length of time," writes Lee L. Chapman, Mapleton, Iowa. "I suffered terrible pain so I could not sleep or lie still at night. Five years ago I began using Chamberlain's Liniment and in two months I was well and have not suffered with rheumatism since." ### DRUNKARDS FINES AS AID TO SCHOOLS

Justices of Peace Fees Aid to Increase Apportionment in Lee County.

Owing to the unusually large number of fines collected by Lee county justices of the peace during the past six months, the semi-annual school apportionment has been increased from 63c per child of school age to 90c per child of school age in each district. This apportionment was made this month by County Auditor A. P. Meyer. Fort Madison received \$2,439.00 and Keokuk \$3,276.90.

Schools may credit a part of their new prosperity to the poor drunks and delinquents who persist in getting arrested by the police and fined by the justices. Fines collected for the past six months amounted to \$1,630.50 of which \$1,325.00 was turned in last December by Judge McNamara of the superior court at Keokuk. The average apportionment just made is a gain of 27c per child of school age over the previous apportionment, the two being 90c and 63c respectively.

Besides the justices' fines, this school fund is created from school fund interest, the 1-mill school tax.

Wendell Sack and wife of Chicago are visiting Mr. Sack's parents, Mr. and Mrs. Halsey K. Sack.

The school election resulted in M. T. Hunt and Geo. A. Wemhaner being chosen as members of the board of education, Mr. Hunt being re-elected. Though a light vote was cast as usual, the election of these gentlemen meets the approval of our citizens.

The lecture on the Panama canal by Mr. P. Berry of Carthage at Presbyterian church last night was largely attended and gave his hearers an excellent conception of one of the greatest wonders of the age. The speaker held his audience for an hour and a half in wrapt attention. It was a great treat that will not soon be forgotten.

**Public Men's Meeting.**  
Connection of business and ethics—testimony of City Commissioner Crawford.

Manager O. B. Towne, of the Keokuk Industrial association spoke at the crowded public men's meeting last Sunday at the Evangelical hall on the important theme, "Christian Citizenship." He said in part:

In spite of the different churches, creeds and parties we belong to, there are certain principles in history and human law, common to all and recognized by all civilized nations. Some of these fundamental principles are: Honor; the belief in the almighty creator of the universe; duty, consisting in working for the greatest good for the greatest number; patriotism, being a spiritual symbol of God. In the course of his forceful and eloquent address the enthusiastic speaker showed the inseparable connection between commercial life and christian ethics; for the greatest thing in the world of business is credit—credit, however, is founded on faith in the moral character of our fellow man. This faith is one of the tenets of modern business. If we want the best men for great enterprises, for offices of the commonwealth, these men must be developed spiritually, morally and mentally. They must be able to lead to be predominant in service for the common good.

Physical development without spiritual development creates the brute; mental development without moral means the devil. Christian citizenship embodies all that is good and great in humanity. There is danger, to lose some of the worthy things of christian citizenship. These public men's meetings, with malice to none and good will to all are the need of the hour to promote everything that makes life more beautiful; justice, charity, brotherly love, care for all. The present as well as the coming generation will derive the benefit of such institutions. For the better education of our children we should gladly give the highest amount possible. To be really useful let the greatest among you be your servant. Let us work together in the service for the present and coming generation, a service prompted by love, manifested in Christ, the son of God.

The discussion was most interesting, helpful and partly dramatic, the following eleven speakers participating in it: Mr. Longnecker, Commissioner Crawford of Hamilton, Rev. E. H. Jagdstein, O. B. Towne, Mr. Jackson, A. Derksen of Hamilton, Geo. Risto, J. Fasthopp, F. W. Lemken, Mr. Maddose and Mr. Strake.

The question of Mr. Fasthopp, whether a business man under the present system can be a christian was answered by Mr. Towne emphatically with "yes." F. W. Lemken's question as to interest taking, was

### 30,000 Voices

And Many Are the Voices of Keokuk People.

Thirty thousand voices—What a grand chorus! And that's the number of American men and women who are publicly praising Doan's Kidney Pills for relief from backache, kidney and bladder ills. They say it to friends. They tell it in the home papers. Keokuk people are in this chorus. Here's a Keokuk case:

Mrs. William Fritch, 918 High St. Keokuk, Iowa, says: "I have taken Doan's Kidney Pills when suffering from pain and lameness in the back and trouble with the kidney secretions and they have always brought me prompt relief. A short time ago, my back became weak. I got a supply of Doan's Kidney Pills at Wilkinson & Co.'s Drug Store, and they acted as promptly as before. I give this remedy my most hearty endorsement."

replied to, that interest in excess is blood money, but interest at the legal rate is not unchristian. Geo. Risto, Mr. Longnecker and Commissioner Crawford expressed their satisfaction about the noble work done by these public men's meetings in the interest of the welfare of the community. Rev. E. H. Jagdstein made the statement that the idea of arranging permanent public men's meetings for the promotion of christian citizenship, according to a despatch, has sprung over to the old country. The next meeting will be on May 3 at Hamilton.

**Other Items.**  
The fancy brick front of the rejuvenated "Dreamland" is almost completed and work is rapidly progressing with the ornamental steel wall covering the new addition.

Dr. J. R. Hollowbush of Rock Island arrived Sunday, having been called hither to attend Phil Dallam who is ill with appendicitis but whom he found much better.

The remains of the late Valda Schaaf arrived Saturday from Lansing, Mich., and were consigned to their last resting place in Oakland cemetery, beside his father and mother who did here some years ago. The following relatives were present at the funeral which occurred at 1 p. m., Saturday, April 18, the remains being taken direct to the cemetery where a short service was held, Rev. J. M. Thompson officiating: Mrs. Ella Stone, Mr. and Mrs. Harry Turner of Lansing, Mich., Mr. and Mrs. McGrath and Mr. and Mrs. Price, Sioux City, Ia.; Valda Stone, St. Louis, Fred Boyce of Sedalia, Mo., Geo. Boyce and wife, Keokuk, Chas. Boyce of Galesburg, Ill.

Mrs. Flora Crane Standler of Peoria arrived Saturday to attend the funeral of Valda Schaaf and visited a few days with her cousins Miss Katherine Crane and Mrs. Mabelle Buckert, returning home Tuesday morning.

On last Friday about 6 p. m., Capt. J. R. Williams, who it is well known is quite advanced in years and is of course not sure-footed, fell his full length on the back porch of his residence, badly bruising his left side, it having struck the corner of a bench, but fortunately no bones were broken. Internal hemorrhage resulted, but that has been checked and today he is much improved and is in fair way to recovery though it may be some time before he can leave his bed, the shock in addition being very great.

R. H. Bowen of Hamilton was a business visitor Tuesday.  
There were more autos than bangles on the streets Tuesday.  
Alderman Schwarz of the third ward is quite ill and has been taken to a sanitarium.

### SOME MORE ABOUT ALL OUR WEDDING

Engineering News Investigates Onslaught of Cupid During Dam Construction Days.

The Engineering News of April 9 contains the following concerning the large number of weddings which were reported to have followed the building of the dam. The story was reprinted from Colliers and was originally written by George Fitch. The editor of the Engineering News seems to consider it worth an investigation as the note will show in the following:

The enclosed clipping is from "Colliers' Weekly." I have been a subscriber to Engineering News for fifteen years and have read many articles in it relating to failures, damages and benefits of dam construction but I have never seen any discussion in your columns about the feature of dam construction which "Colliers" refers to, and the engineering that 's involved.

Oswego, N. Y., April 1.  
Notwithstanding the date of our correspondent's letter, it is no joke but a serious matter, as will be evident to any reader from the clipping sent, which we reprint as follows:

In Keokuk, Iowa, an enterprising firm of capitalists built a dam across the Mississippi river and set the peerless Daddy of American waters to work running the trolleys, lighting the streets, and turning the washing machines in a hundred cities and towns. It was a tremendous job of work which involved the wiping out of farms and villages and railroads, the rearrangement of a hundred square miles of scenery, and some minor changes in climate; and, as usual with gigantic enterprises, it produced some unexpected results.

For one thing it brought great numbers of young engineers to Keokuk. They had worked all over the world

on water powers, usually in spots well concealed from civilization and well isolated from feminine charm. Then they came to the Keokuk job, where, fifteen minutes from the roaring rapids were the homes of Iowa's finest families, full of young women ready and willing to admire the wild, free life of the engineer. The result was over a hundred weddings in two years and when the dam was completed and the young engineers moved on, they took with them the young women of Keokuk en masse.

[In the interest of scientific accuracy we have investigated the above story and are informed that the exact number of weddings celebrated in Keokuk traceable to the dam is sixty-eight, up to the present time. Evidently engineers are prolific enough in this branch of engineering work to need no instruction from technical journals. We sincerely trust that in this important aspect of dam construction there may be no failures and no suit for damages.—Ed.]

**COLDS THE MOST DANGEROUS OF THE MINOR AILMENTS BUT EASILY CURED**

By Far the Most Dangerous of All Minor Ailments Are Colds, Not in Themselves But the Dreadful Diseases Which They So Often Lead To.

A child is much more likely to contract diphtheria or scarlet fever when it has a cold. Pneumonia and consumption always start with a cold. Why take such desperate chances, when a cold could be depended upon to relieve a cough quicker and to cure a cold and affections of the throat and lungs. My children never took anything else when suffering from the effects of a cold.

Mrs. Charles Overacre, Manchester, N. Y., writes, "A year ago last winter when my boy was sick with a cold and began to cough dreadfully, I got a bottle of Chamberlain's Cough Remedy and gave it to him according to the directions. It checked the cough promptly and in a few days' time all symptoms of the cold had disappeared. It is the best cough medicine any of us ever used."

Mrs. Mary Daly, Manchester, N. Y., writes, "When my children were growing up I always kept Chamberlain's Cough Remedy in the house because through my own use of it I found it could be depended upon to relieve a cough quicker and to cure a cold and affections of the throat and lungs. My children never took anything else when suffering from the effects of a cold."

Mrs. Fred E. Warren, Manchester, N. Y., writes, "I had occasion to use Chamberlain's Cough Remedy in my family a couple of years ago when my little girl was sick with a cold, and I am pleased to say that I found it to be a very good medicine. It quickly loosened her cough, aided expectoration and in the course of a few days' time entirely cured her of the cold."
