WOOLTEX

The Highest Type Tailored Coats and Suits

Men as a rule don't know clothes details, but they do know the general effect of what you wear. They do appreciate the smartness—the style—the trimness of your appearance.

Above all else, the men you know can tell at a glance whether your coat or suit is good style or not.

The air of quality that is the indefinable attribute of a custom-tailored suit of the highest type they recognize at a glance. This is the one—the indefinable but very definite something you find in a Wooltex coat, suit or skirt.

If it is worth while to dress in a way that will please the men of your family and your social circle—

In a way that will cause them to comment on the attractiveness of your appearance and your good judgment in the selection of clothes, choose and wear this spring a Wooltex coat, suit or skirt.

The infinite amount of painstaking work given to each Wooltex garment begins with the selection of the most advanced fashions by Mrs. Savaris at the Paris Branch of the Wooltex Style Bureau.

It goes from there with equal singleness of purpose to the selection of desirable and fashionable fabrics.

Then to the choice of linings and interlinings of known strength and durability—

And then to the hands of the tailors trained to produce only garments of the highest type.

When you purchase a Wooltex coat, suit or skirt this spring you will become one of the many well-dressed women who chose Wooltex coats, suits and skirts each succeeding season.
