

WAYLAND PEOPLE SHOW ENTHUSIASM

Meeting Last Night to Talk Over the Road From Keokuk Was Profitable One for all Parties.

SUBSCRIPTION IS RAISED

Proposed Highway Will be Graded and Dragged and Can be Used At Once in That Shape.

The proposed permanent road between Keokuk and Wayland, Mo., was talked over last night at a meeting held at the school house two and a half miles south of Wayland, and which was attended by about forty from that section and eleven from Keokuk, and was addressed by Col. F. W. Buffum, Missouri highway commissioner.

When the subscription list was opened, \$600 was pledged by the Wayland people present. A like amount will be asked from the people of the other part of the county. This it was stated would be sufficient to establish a road and maintain it, until it was ready to have the rock binder put on, when more money would be needed.

The proposed road will be of great benefit to people in the vicinity through which it will pass, it was brought out at the meeting, and there was considerable enthusiasm displayed in the meeting. It is proposed by Colonel Buffum to make this road a permanent rock road and to have it part of the Red Ball route. The work for the present at least will be to grade and drag the highway and improve it generally until the rock will be put on.

When the Keokuk crowd got to the school house where the meeting was to be held they found a big crowd of the men who live in the vicinity present, and all of them seemed quite enthusiastic over the proposed road. There was a general discussion of the project.

Colonel Buffum, highway commissioner, told of the plans for building the road, and explained what could be done, and suggested ways of carrying out the proposed road building idea. The financing of the project was explained in a general way.

O. S. Towne, manager of the Keokuk Industrial association made a short talk, following the address by the highway commissioner.

E. Frazee and Chairman McCutcheon made short talks, and there were a number of speeches made by others present.

The trip from Keokuk was made by auto and the following attended: F. T. F. Schmidt, commissioner of streets; Karl Kling, Frank Anderson, Roy H. King, J. D. Ecker, Joseph Carwalho, H. C. Duncan, M. E. Justice, G. A. Kiedaisch, James M. Fulton and O. B. Towne.

ILLEGAL FISHING REPORTS ARE FALSE

Deputy Warden Reichmann Says He Finds Nothing Irregular at Montrose.

Henry Reichman, deputy fish and game warden, made a trip to Montrose yesterday. He stated today that he found the law was being obeyed to the letter in that city. Mr. Reichman said that reports which he had received of seining operations and unlawful fishing in the waters near Montrose were false. He found strict compliance with the law, he said.

The deputy warden has received reports from various sources that Montrose anglers were catching fish out of season, and that seining operations were being carried on there. On

For Sallow, Wrinkled, Freckled, Pimped Skin

If you have any cutaneous blemish, don't use paint, powder or anything else to cover it up. Too often this only emphasizes the defect. Besides, it's much easier to remove the disfigurement with ordinary mercolized wax. Applied nightly, the wax will gradually remove freckles, pimples, blackheads, moth-patches, sallowness, red or yellow blotches, or any surface eruptions. The affected cuticle is absorbed, a little each day, until the clear, soft, youthful and beautiful skin beneath is brought wholly to view. Ask the druggist for an ounce vial. Use the druggist for an ounce vial of mercolized wax and use this like you use cold cream. Remove in the morning with soap and water. Many who have tried this simple and harmless treatment report astonishing results.

Soother with wrinkles or crow's feet, a wash lotion made by dissolving an ounce of powdered saxolite in a half pint witch hazel will prove remarkably effectual.

Let your Painter make this test

Take two brushfuls of paint—one of "High Standard" and one of the other brand—and see for yourself how much farther "High Standard" goes. Then figure how much less paint it would require to cover your building when you use

the paint of proven performance. You will see that even if it cost more per gallon it will still cost less by the job. For the paint that gives best results always look for the "Little Blue Flag" on the label. You will get a job of painting that will retain its freshness and beauty and give your building the best protection from the destructive action of the elements. Come in and ask us for information about painting, color cards and booklets.

J. F. Kiedaisch & Son DRUGGISTS Corner 11th and Main Sts., Keokuk, Iowa.

investigation he brands these reports as false.

This is the first of a number of trips the deputy expects to make over his entire jurisdiction.

Meet Prompt and Effectual Cure for Bad Colds.

When you have a bad cold you want a remedy that will not only give relief, but effect a prompt and permanent cure, a remedy that is pleasant to take, a remedy that contains nothing injurious. Chamberlain's Cough Remedy meets all these requirements. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and restores the system to a healthy condition. This remedy has a world wide sale and use, and can always be depended upon. Sold by all dealers.—Advertisement.

WHITE HOUSE BRIDE HAS MANY GOWNS

Unofficial List of Miss Wilson's Trouseau Shows About Forty Different.

[United Press Leased Wire Service.] WASHINGTON, May 6.—All details of the wedding of the fourteenth white house bride are completed. The chosen few who will witness the ceremony have received notes of invitation. It was said that no engraved invitations were sent. Nearly every one in official and social life in the city will receive an announcement.

Miss Eleanor Wilson's trousseau was stated today to include eight evening gowns, seven "tango" gowns; two cloth coat suits; five taffeta coat suits; four taffeta street dresses; a dozen warm weather frocks; six white skirts and silk waists; nineteen hats; twelve pairs of shoes and seven parasols.

It was expected that the wedding rehearsal of Secretary McAdoo and Miss Wilson will be held tomorrow. Decorators began today transforming the white house interior into a fairy land of flowers.

In addition to a stone cottage at Chevy Chase, Md., suburb of the city, which Secretary McAdoo is understood to have leased for the summer, it is understood today he has decided to take a room in a big house on a fashionable downtown street for next winter's season. After the wedding trip the secretary does not expect to be able to leave his work this summer.

FREEMAN MAKES PUBLIC STATEMENT

Former Police Officer Tells His Side of Story, Claiming Friction Cause.

Thomas Freeman, policeman, who was relieved from duty two weeks ago, today made a statement to the public concerning his side of the matter. Mr. Freeman claims that no charges were preferred, and that his resignation which has been accepted by Commissioner Collins is the result of friction between himself and Chief Kenney.

Freeman's statement on the matter follows: "As various inquiries have arisen concerning my retirement as police officer, I deem it expedient that the public should know that there have been no charges preferred against me. My resignation which has been accepted by Commissioner of Public Safety J. A. M. Collins was the result of a mere personal friction between myself and Chief Kenney."

Mr. Freeman would have fought the discharge order if he had had the right to an appeal from the decision of the civil service board. As there is no appeal from this decision he said he decided not to fight.

WHITE CARNATIONS FOR NEXT SUNDAY

Mother's Day Will be Officially Observed Then All Over World by Wearing This Symbol.

OBJECT IS WORTHY ONE

Well Being and Honor of Home is the Keynote of This Globe-Wide Movement.

Sunday, May 10, will be Mother's day. It is always the second Sunday in May, and house and senate of the United States last year passed a resolution taking note of its observance. Several of the states have taken cognizance of the day, and others probably will in the future. The official badge of Mother's day is the white carnation. The flower is supposed to be worn in honor of the "Best Mother Who Ever Lived."

The object of Mother's day as given in the official notices of the founding of the organization or idea, is the simultaneous observance by all nations for the well being and honor of the home.

The prescribed observance of the day is through some act of kindness, visit, letter or gift in remembrance of the mother and father to whom grateful affection is due. It is the intention of the Mother's day association to make this equally father's day and to thereby deepen the home ties. The day is so called because in most countries there is no national celebration in honor of home and motherhood.

The slogan of the association is "The Best Mother Who Ever Lived." The time of observance has been officially set for the second Sunday in May. Schools may observe the day on Friday and business houses on Saturday.

On May 10, 1913, a resolution passed the United States house of representatives and the senate commending Mother's day for observance by the house and senate, the president of the United States, his cabinet, and other heads of the government departments.

Last year, too, the legislature of Nebraska made Mother's day a state flag day in honor of Nebraska's true homes and mothers. In May last, the legislature of Pennsylvania made Mother's day a state holiday, and since 1912, Governor Colquitt of Texas has made it a practice to pardon prisoners on that day.

The promotion of Mother's day is planned for all countries. Associations have been formed in all countries to forward the work. Roosevelt, Taft and Wilson are honorary presidents and the governors, or prominent men in each state are honorary vice presidents.

Mother's day and the Mother's Day International association were founded by Anna Jarvis of Philadelphia. Doan's Regulax cure constipation without griping, nausea, nor any weakening effect. Ask your druggist for them. 25 cents per box.—Advertisement.

Railroad Hearings On.

WASHINGTON, May 6.—Hearings were opened before the Interstate Commerce Commission today on the applications of eastern railroads to retain control of their water lines after July 1, when the provisions of the Panama Canal Act, prohibiting such ownership without the authority of the commission, becomes operative. The Pennsylvania railroad was to be heard today and tomorrow. The remaining scheduled hearings are: Erie, May 8; Lehigh Valley, May 13-16; New York Central, May 18-21; Rutland, May 22 and 23, and Grand Trunk, May 25 and 26.

Attacks of Indigestion

"I believe Chamberlain's Tablets have saved my life, writes Mrs. Maggie Coil, Golden City, Mo. 'I had pains in my stomach so bad I thought I could not live. Our doctor said it was congestion of the stomach. I would get to bed perfectly well and wake up in the night as bad as I could be and live. Our doctor said it would do no good to give medicine internally. He had to inject medicine in my arm. Since taking Chamberlain's Tablets I can eat anything I want without hurting me.' This form of indigestion is extremely painful and often dangerous. By taking Chamberlain's Tablets after eating,

and especially when you have fullness and weight in the stomach after eating, the disease may be warded off and avoided. Chamberlain's Tablets not only aid digestion, but strengthen and invigorate the stomach.

PRODUCTION TO BE AN ELABORATE ONE

"Everywhere" at St. John's Next Week Will Have Great Care in Attention to Detail.

PARTICIPANTS ARE BUSY

Games and Costumes of Various Lands Will Not be Neglected—Musical Play is Educational.

The one hundred seventy-five people engaged in the production of "Everywhere" is to be given at St. John's parish house next week, as they are actively engaged in the final preparations for this beautiful exposition. As announced previously in The Gate City, "Everywhere" is an attempt to bring before the people of Keokuk a collection of the productions of various nations illustrating the life and customs of the people and showing the influence of the work of the church in changing their habits and producing christian civilization. The end in view will be attained through the setting up of scenes depicting the life of various peoples, the production of a great mystery play and the addresses of noted men and women who are familiar with the problems confronting the carrying of the gospel to far different races.

As nothing like this exhibit has ever been attempted in Keokuk, the preparations involved are far reaching and those engaged in the production have been studying the countries to be illustrated for many weeks past. St. John's parish house will be used exclusively for the various sections which comprise China, Japan, the Philippines, Alaska, Cuba, Porto Rico, Mexico, Brazil, Africa, Haiti and the American Indians and the Philippines. The domestic work will not be neglected, as a section will be devoted to the great west and to the display of the progress that has been made in uplifting the negro race. The parish house will be filled under these sections with curios and products from the countries illustrating the life of the people. The attendants at each of these booths will be dressed in the native costume, and during the exhibit a series of native games will be played by children dressed in the costumes of the countries they represent.

To Erect Large Tent. In front of St. John's parish house, facing Fourth street, will be erected a large tent seating several hundred people, in which will be a stage completely equipped with scenery and lighting effects. Each evening on this stage will be given a mystery play, "The Gift of Self," or "The Great Trail," alternating. "The Great Trail" is a play intended to illustrate the teaching of the christian church and its effect upon the Indians. About seventy-five characters will take part in this play, and costumes and stage effects will add much to the beauty of this production.

On this same stage during the afternoons and evenings of the exposition prominent speakers from various parts of the country will deliver addresses. Rev. Mr. Sage has been furnished in securing a number of the most prominent clergymen and workers of the church throughout the nation, including Bishop Tuttle of St. Louis, presiding bishop of the American church; Bishop Partridge of Kansas City, who spent thirty years of his life in China and Japan; Archbishop Parahall of Minnesota, whose work among the Indians is notable; Rev. Dr. Bishop of New York City, who is the secretary of the American church institute for negroes; Miss Babcock who represents the woman's auxiliary of the diocese of Iowa, as a missionary in Japan, and Miss Mary Collins of our own city, whose work among the Indians is so well known.

Elaborate Effects. It is expected that the scenery, costumes and effects will arrive to-night, when they will be immediately placed in position. "Everywhere" has been produced heretofore only in the large cities of the country, New York, Chicago and St. Louis, and Keokuk is the only city of its size to attempt this production, which from the above description will be seen to be one of more than ordinary

CONVICT LABOR IS UPHELD BY COSSON

Attorney General Says Board Has Right to Use Men on Roads.

The board of control has the power today to exercise an authority in liberating prisoners from the state reformatory and penitentiary that is practically the same as the authority vested in the board of parole, says the Des Moines Capital.

Attorney General George E. Cosson in an opinion yesterday held that the board of control can release men from prison without guards and send them anywhere in the state to work on public highways. Any attempt to escape constitutes the same offense as an attempt to break prison and adds five years to the term of the convict.

It is expected that many counties will ask for road labor this summer. Attorney General Cosson declares that gangs of three, four and more may be sent out without guard to such counties for work.

DADANT TO SPEAK AT MT. PLEASANT

Hamilton Man will Address Bee Keepers Association Picnic This Summer.

ATLANTIC, Iowa, May 6.—The Iowa Bee Keeper's association has announced a series of summer meetings to be held in different parts of the state. The meetings will be in the nature of all day picnics to which everybody interested in bees is invited. The dates and places of meetings are as follows: At the heights in McGregor May 19, a joint meeting with Wisconsin bee keepers with Hon. N. E. France as speaker. At Colo. Story county, June 10, at the Hall apiary with Prof. C. E. Bartholomew as speaker. At Forest City June 17 at the Secor apiary with Frank C. Pellet, state bee inspector speaker. At Delmar, July 7, at the Coverdale apiary with speaker to be selected. At Des Moines July 15, at the Dustman apiary at Bowsher station. Mt. Pleasant, July 28, with C. P. Dadant, editor of the American Bee Journal and E. J. Baxter, president of the Illinois association as speakers. At Clarinda, Aug. 12, at the Strong apiary and Sioux City, Aug. 20, at Riverside park. Basket dinners in the open are planned at most of these meetings.

Industrial Association Bulletin No. 35

Some Reasons for Being Proud of Keokuk NO. 1

The American Cement Machine Company, a factory, brought here from Madison, Wisconsin, seven months ago, has now doubled the number of men in its employ and is working night and day to turn out goods enough to meet the demand of the cash trade. At present fifty men are in the employ of this concern. Approximately a dozen carloads of machines have been delivered to the trade and orders for as many more are on the books. New orders are coming in every day.

The Weber-Kirch Manufacturing Company occupies a part of the factory building with the Cement Machine Company. Now the great building of the old Anderson Canning Company, formerly silent, vacant and dispiriting in its influence has become a veritable beehive of activity.

REPLY TO REQUEST FOR FUNDS SOON

Industrial Association Directors to Act on Booster's Call Tomorrow.

There is much interest in bee keeping in Iowa and these meetings will attract many from adjoining states.

Keokuk's definite reply to the request from the Greater Iowa committee for funds for the Iowa building at the Panama-Pacific exposition will be made tomorrow when a meeting of the board of directors will be held. Today a letter was sent Secretary Bolton saying that Keokuk would take final action in the matter tomorrow.

A Splendid Tonic.

Cora, Ky.—Mrs. Iva Moore, of this place, says, "I was so weak, I could hardly walk. I tried Cardui, and was greatly relieved. It is a splendid tonic. I have recommended Cardui to many friends, who tried it with good results." Testimony like this comes unsolicited, from thousands of earnest women, who have been benefited by the timely use of that successful tonic medicine, Cardui. Purely vegetable, mild, but reliable, Cardui well merits its high place in the esteem of those who have tried it. It relieves women's pains, and strengthens weak women. It is certainly worth a trial. Your druggist sells it.—Advertisement.
