

SOUVENIR PROGRAM WILL BE STUNNER

Eagles Are Having Fine One Printed for State Convention Which is Held Here in June.

WILL BE REAL BOOSTER

Costumes Have Arrived for Local Aerie in Big Parade Scheduled for Wednesday Night.

The souvenir program which Keokuk aerie, Fraternal Order of Eagles has prepared for the state convention next month is a unique bit of printers' art, and will contain much of interest to the visiting Eagles as well as to the local lodge. The program has been liberally patronized by local merchants and will be a magnificent advertisement for Keokuk. The Eagles did not solicit from the merchants, the latter, however, have been liberal in taking space in the program. A meeting will be held early this week to complete this program.

The program will contain pictures of the past state presidents of the order, and also the present officers of the state society. Officers of the local lodge which is entertaining the convention will have their pictures in, also.

Besides the pictures there will be two interesting articles, one of a booster spirit dealing with Keokuk and the other on the power plant and dam by Dr. G. Walter Barr, which will contain a great deal of interesting data.

The publicity committee of the Eagles has received word from aeries all over the state, saying that big delegations are coming to attend the convention which opens on June 23, and continues through June 25. There will be a number of bands in the list and there will be no lack for music. The streets will be gaily decorated, and the entire three days will be big ones, chuck full of entertainment and amusement for the delegates.

The costumes which will be worn by the local aerie have been ordered, and will be displayed on the night of the big parade which will be Wednesday, June 24. The costumes are elaborate, and the local bunch expects to make the best showing of all the lodges which will be in line.

Large batches of inquiries have been received by the local officials as to rates and accommodations at the local hotels. Judging from the number of inquiries and the number already declared to be coming, the convention here will be a notable one.

Waterloo Courier and Reporter: Yellow journals are always interesting reading whether we look at them with genuine crudality or just out of curiosity. There is no question but what such newspapers stir up a great deal of concern over the subjects with which they deal.

But even with all their big circulations they suffer a disadvantage.

On Sunday, May 31, at half past ten o'clock in the morning he will conduct his first solemn mass in St. Francis de Sales church. The music for the occasion will be furnished by the choirs of the three Catholic churches of the city, sixty voices in all. The music is under the direction of Mrs. J. M. Why Do You Say "Picnic?" Quincy Whig: Just when the first picnic was held is not a matter of record, but even so picnics are of ancient and honorable lineage, as the basket party in the woods was a favorite amusement of kings and queens years and years ago. As to the origin of the word, it is said that it was coined when the first picnic made up its list of good things for the picnic basket. Each person who contributed to the basket looked at the list, picked out the article he or she wished to contribute and then "nicked" or checked it off. Pick and nic were soon joined together and in the course of time shortened into the word picnic.

The call was to the home of Howard Baker, on Crawford street, between Sixth and Seventh and originated in the attic of the one story addition, from some unaccountable source. The fire was quickly extinguished by a few buckets of water and the Babcock fire extinguishers. The loss is slight, mostly by smoke and water.

He was here not long after his bridge jump, and then suddenly disappeared, and people wondered what had become of him. On Wednesday he suddenly turned up, saying that since he left here he had been living at Mendon. His actions since his return have been very queer, hence the trip to Carthage was decided on by the authorities.
