## THE WEATHER

For Keokuk and vicinity: Unsettled tonight and Saturday. Probably showers tonight.

## PESSIMISTIC IN SPEECH BUT PROSPEROUS IN POCKET

Too Many Autos and Big Crops for Hard Times Talk to Carry Weight.

## HOTTEST DAY OF SEASON

Mercury Went Up Into the Nineties Yesterday in Kansas Towns.

[United Press Leased Wire Service.] KANSAS CITY, Mo., June 5.—Yesterday was the hottest day of the season, the thermometer registering 92. In Kansas the mercury climbed to 94 at Leavenworth; 91 at Topeka; 94 at Concordia; 97 at Manhattan; 95 at Atchison. Bartlesville, Okla., reported 101. Crops are not suffering owing to a plentiful rainfall this spring and summer.

**Bad Electrical Storm.**—Four known dead, many injured, extremely heavy damage to growing crops and other property and demoralized wire service, was the result today of the heaviest electric wind, rain and hail storms in northern Ohio in many years, according to reports here.

Early reports that the town of Hella, Ohio, Sandusky county, was demolished by a tornado, were discredited today. The heaviest damage was to crops and wires.

## AMAZED AT SUIT BY WOMAN

State Auditor of Illinois is Sued for \$50,000 on Breach of Promise Charge.

[United Press Leased Wire Service.] CHICAGO, June 5.—Political circles here today learned with amazement that State Auditor James J. Brady of Illinois, had been sued for \$50,000 breach of promise by Mrs. Mary Quinlin Kuhns-Brady.

Mrs. Kuhns-Brady, a blonde, who was a favorite in the social group revolving around the state house at Springfield, declared in her bill filed yesterday that while she was introduced everywhere as the state auditor's wife she never had been legally married to him. A secret ceremony was performed at Detroit two days after she obtained a divorce from Chas. A. Kuhns, a telegraph operator, she says, but this marriage is invalidated by Illinois laws preventing the remarriage of divorced persons within one year of the decree. Brady, she says, has several times agreed to have a second ceremony performed but has failed to keep his promise.

"He told me that nobody would ever question our marriage," said the pretty Mrs. Kuhns-Brady today, "and he said they wouldn't dare on account of his position. He expected to be the next governor of Illinois."

The state auditor, she said, offered her \$5,000 at one time if she would leave him. He finally agreed to pay her \$200 a month for her maintenance she said, but when he stopped paying, she decided to file the suit.

## One of the Blomfield Girls.

LONDON, June 5.—Misses Mary and Eleanor Blomfield were the young women who last night made the sensational suffragette demonstration before King George at the Buckingham palace court. Their identity was established this afternoon. The youthful advocates of votes for women are the daughters of the late Sir Arthur Blomfield and the family moves in good society. The Womens Social and Political Union officials disavowed connection with the episode when one of the young women prostrated herself at the king's feet and declared the Misses Blomfield were not connected with their organization. The Blomfield women are granddaughters of the late Rt. Rev. Chas. James Blomfield, lord bishop of London and are connected with some of the best British families. The identification of court suffragettes confirmed one of the early stories that the women were members of the aristocracy.

## Gets One Year in Pen.

[United Press Leased Wire Service.] DES MOINES, Iowa, June 5.—Geo. H. York, 62, Colfax grocer, convicted in federal court yesterday of white slavery, was today sentenced by Judge McPherson to a year and a day in Leavenworth prison and will be taken there next week. York was calm when sentence was passed. Mrs. O. B. Jackson, of Kansas City, who confessed to the relations with York for the past ten years, has gone before the Polk county grand jury to tell anything she may know concerning the disappearance of Cashier M. B. Wheelock, the Colfax banker, whom York owed \$30,000 when Wheelock's body was found in the Des Moines river. Later she will return to Kansas City.

## Rate Justified.

WASHINGTON, June 5.—Increase from \$8 to \$10 on lumber rates from northern California, to points east by way of Colorado, was held today to be justified by the interstate commerce commission.

## ASKED FOR VOTE AT KING'S FEET

Royal Court at Buckingham Palace Was Thrown into Hysterical Uproar.

## QUEEN IS INDIGNANT

Famous Old Church Containing Many Priceless Old Relics Has Been Burned by Suffragettes.

## HURRICANE AND VOLCANO

Japan and Philippines Are in Distress as Result of the Disturbances.

## SHE BROKE ALL OCEAN RECORDS

New Ship Came Across on Her Maiden Trip in Five Days, Sixteen Hours.

## HAD 1,072 PASSENGERS

Ran Full Speed Ahead All of the Way Excepting Through Fog in Iceberg Region.

## CARRANZA'S NEW CABINET

Has Picked Out Nearly All of the Men to Serve in the Various Offices.

## NAVAL BATTLE AT TAMPICO PORT

Possibility of Mexican Situation Should Huerta Attempt to Blockade Harbor.

## THREE LITTLE BOATS

Rebels Have Ship Load of Arms and Ammunition Coming From the United States.

## PLUMBER AMAZED AT INDICTMENT

Cannot Understand Why His Name Was in the Grand Jury's List.

## BUTCHER KNIFE FOR HIS WIFE

American Was Prepared to Kill Her to Save Her From Crazy Mexicans.

## THE WEATHER

For Keokuk and vicinity: Unsettled tonight and Saturday. Probably showers tonight.

## PESSIMISTIC IN SPEECH BUT PROSPEROUS IN POCKET

Too Many Autos and Big Crops for Hard Times Talk to Carry Weight.

## HURRICANE AND VOLCANO

Japan and Philippines Are in Distress as Result of the Disturbances.

[United Press Leased Wire Service.] TOKIO, June 5.—Western and southern Japan were today swept by a terrific hurricane which is believed to have drowned several hundred persons. Fishing boats along the coast were sunk by the hundreds, according to meagre dispatches and many buildings were blown down. The principal damage is said to have been done at Nagasaki.

## Volcano in Action.

MANILA, June 5.—A message here today said a volcanic eruption on the island of Sangur, a Dutch possession, had destroyed several score houses and done enormous damage. Advices do not mention if any lives were lost. Sangur is a small mountainous island on which there are several active volcanoes. It is about 150 miles below Mindanao.

## CLAIMS MYSTERIOUS "J. C. R." AS HER SON

But Brother and Sister of Missing Man Say He is No Relation

[United Press Leased Wire Service.] CHICAGO, June 5.—"J. C. R." the man of mystery whose case has attracted nation-wide interest was still a man of mystery today.

Mrs. H. E. Pitkin, who removed the noted aphasia victim from the Oak Forest infirmary of her home last night, was positive today that he is her son Earl W. Hes, a civil engineer who disappeared eight years ago while working near Goldfield, Nev. Both her son and daughter were equally positive that the mystery man is not their missing brother and J. C. R., smiling and uttering unintelligible phrases was unable to throw any light on his identity.

Mrs. Pitkin today was at a loss to explain how, if "J. C. R." is her son, he came to scribble the three initials "J. C. R." when he was found unconscious near Waseca, Minn. She has summoned other relatives to come to Chicago and make the identification more positive.

## Hard on the Constitution.

[United Press Leased Wire Service.] WALKER, Minn., June 5.—Cut out the firing, was the ultimatum issued by Dr. George William Beach, superintendent, to patients at the Minnesota state hospital for tuberculars today. Dr. Beach declared scientific observations have proven that sanitarium patients who are in love have a poor chance at recovery.

## THE WEATHER

For Keokuk and vicinity: Unsettled tonight and Saturday. Probably showers tonight.

## Weather Conditions.

The pressure has increased in the Lake Superior region, where it is decidedly cool this morning, and cooler weather has followed rains in the upper Mississippi valley, where high temperatures prevailed yesterday. West of the Mississippi the weather continues unsettled, with a depression central in Utah, and conditions indicate unsettled weather for this section tonight and Saturday, with possibly showers tonight.

## Daily River Bulletin.

Station	Stage	Height	Change	W'th'r
St. Paul	14	4.1	x0.1	Cl'dy
La Crosse	12	5.5	0.0	Cl'dy
Dubuque	18	8.0	x0.1	Rain
Davenport	15	6.9	x0.5	Rain
Keokuk	14	6.5	-0.1	Cl'dy
St. Louis	30	13.6	x1.4	Clear

The river will rise rapidly from Davenport to Keokuk during the next forty-eight hours.

## PESSIMISTIC IN SPEECH BUT PROSPEROUS IN POCKET

Too Many Autos and Big Crops for Hard Times Talk to Carry Weight.

## CARRANZA'S NEW CABINET

Has Picked Out Nearly All of the Men to Serve in the Various Offices.

[United Press Leased Wire Service.] TORREON, Mexico, June 5.—Constitutionalist officials in the confidence of General Venustiano Carranza today declared the new constitutional cabinet has been selected and would be announced by the "first chief" himself when he reaches Saltillo. The portfolios of public instruction and agriculture have not yet been assigned, although Carranza has in mind men for the positions. The informants declare seven cabinet positions have been filled as follows: Gobernacion—Rafael Zubaran Capmany. Fomento—Fernando Iglesias Calderon. War—Felipe Angeles. Communications—Ignacio Bonillas (acting). Justice—Eliso Arredondo. Foreign relations—Luis Cabrera. Hacienda (interior)—Felicitas Villarreal.

## General Panofl Natara, commanding the rebels in the central military zone, reports that continued fighting for several days on the outskirts of Zacatecas has resulted uniformly in constitutionalist successes. Constitutional losses have been fewer than 100, he says, and federal losses about 400. The railroad south of Zacatecas for a distance of 25 miles has been so badly torn up by constitutionalist that there is no hope of escape by train, should the federals decide to evacuate.

General Francisco Villa and General Felipe Angeles are expected to return here from Chihuahua for a conference with General Carranza before the latter goes to Saltillo. The old Mexican Central railway has been repaired to a point five miles north of Zacatecas and the vanguard of General Villa's army has advanced from Fresnillo.

Today a trainload of uniforms, clothing, food and ammunition arrived from Juarez and was sent south. Regular train service between Saltillo and Eagle Pass was inaugurated today.

## BUTCHER KNIFE FOR HIS WIFE

American Was Prepared to Kill Her to Save Her From Crazy Mexicans.

[United Press Leased Wire Service.] OAKLAND, Calif., June 5.—That he planned to kill his wife with a butcher knife rather than have her fall into the hands of a Mexican mob, was the statement made today by John C. Allen, deputy U. S. consul at Monterey, who arrived here from the state of Coahuila, Mexico.

"A mob surrounded our home" crying "death to the gringos" when Monterey learned of the landing of American marines at Vera Cruz," said Allen. "For four days they argued about the consulate but they could not force their way in. My only weapon was a butcher knife, but Mrs. Allen made me promise to stab her to death if the mob rushed the house."

The capture of Monterey by the constitutionalists, ended the Allen-four-days imprisonment. They were treated hospitably by the rebels, he said.

## City Officials End Sessions.

[United Press Leased Wire Service.] AUBURN, N. Y., June 5.—Mayors and other municipal officials of New York state, after three days of discussion of municipal problems today adjourned, after the last routine of committees appointed last year had been heard.

## SHIP ASHORE ON A REEF SAFELY TRANSFERS PASSENGERS

Maine shore, the Northland struck about midnight. At first she sent out wireless calls for a revenue cutter, but later said one was not needed.

The ship was feeling her way through the muck when she went aground at the bow. There was little excitement among the passengers, all having time to dress at leisure after officers of the ship had assured them that there was absolutely no danger. When the Tasco arrived, the sea was comparatively calm and the transshipment of passengers was made with little trouble. Reports that her hold is full of water had not been verified here early today. The Northland is a steel built single-screw steamer of 2,731 tons and 304 feet long. She was built at Wilmington, Del., in 1910 and has seven water-tight safety bulkheads.

## Summer Vacationists Called Out of Berths When Boat Hit Rocks.

[United Press Leased Wire Service.] NEW LONDON, Conn., June 5.—Fast ashore on Bartlett's Reef, twenty-seven miles from here on Long Island sound, the Maine Steamship company's vessel Northland today loaded her seventy-five passengers on the wrecking tug Tasco for transshipment here en route to Portland, for which port the Northland sailed last night from New York.

Carrying a small passenger list of summer vacationists going to the

## NAVAL BATTLE AT TAMPICO PORT

Possibility of Mexican Situation Should Huerta Attempt to Blockade Harbor.
