MILLIONAIRE'S DEATH IN CALIFORNIA

Evidently Believed to Have Been Known by People in Keokuk—Death Announcement Sent.

Somebody, evidently a friend of the Gata City and presumably a former resident of Keokuk and continues a kind memory of the old town and its good people, sends a marked copy of the Los Angeles, Cal., Tribune, containing the following news story:

"The estate of the late John C. Coombs, who died May 29, is divided equally among his five children, according to the terms of his will filed yesterday in the superior court for probate. A trust is provided, to run until the youngest is twenty-one years of age, or about a year from now.

The children are Florence M. Sutton of South Pasadena; Edith Coombs, Helen J. Edgerton, wife of E. O. Edgerton, state railroad commissioner; Manuel H. and Palmer B. Coombs of Kalamazoo, Mich.

The value of the Coombs estate in this county exceeds \$10,000 and there is also real estate in New York and Michigan.

Thinking that probably the man whose death is announced was a former resident of the city or has relatives or friends still residing here, several of the older residents of the city were seen yesterday but they failed to identify the deceased named in the California paper. There lived here many years ago a man well remembered by some of those interviewed name Charlie Coombs who left here and died in Memphis many years ago. He was at one time connected with the late S. P. Pond in business here, but they could not connect him with the California deceased man. It may be, however, that some readers of The Gate City may know something of the dead millionaire and will be interested in the story.

NOT CARTHAGE MAN, MUCH MORE ROBUST

Sheriff Crimmins Making Strenuous Efforts to Locate Friends of His Charge.

Friday evening a brief story was told of a man who gave his name as Gottschalk, or something like that, claiming to be from Kansas City, being in the custody of Sheriff Crimmins. The man was held as non compos mentis. It was thought probable that this man might be an individual who had been missing from about Carthage, Ill., for several days, and for whom the country surrounding had been scoured. Sheriff Crimmins soon got in telephonic communication with those interested in the hunted man from that locality. The description of the two men appeared identical, even to the absence of teeth. The sheriff from Carthage came over last evening, bringing with him parties who knew the Carthage missing man and they failed to identify the stranger as the Carthage man whom they were hunting. He was absolutely not the man. The Carthage man was much more feeble than the man in custody here.

Sheriff Crimmins still has his non compos mentis stranger claiming to be from Kansas City, on his hands and no way of letting him go. He will make strenuous efforts to locate some of his friends with the view of

OFF THE TRACK; WEST KEOKUK CAR

No Damage Done and the Work Car Called into Service and the Trouble Soon Adjusted.

There was a short delay in street car traffic last evening when a car on the West Keokuk line went off the track at C and Park streets, caused by the heavy rain of the morning.

The track bed had become softened by the down-pour of the forenoon and the result was that the wheels left the track, without any material loss.

The work car was at once called to the miniature wreck and matters readily adjusted. The accident happened after 6 o'clock, and about 7 o'clock, following closely after the returning work car, the regular car with its passengers arrived at Fifth and Main, the regular stopping place for that line. No further trouble from that locality has been reported since the adjustment of matters last evening as detailed above.

COMMISSION FORM OF GOVERNMENT

Census Bureau Issues Some Interesting Figures Regarding Several Cities.

[United Press Leased Wire Service.] WASHINGTON, June 13.—Of 195 cities in the United States having more than 20,000 population, sixty-nine have adopted one of the several "commission forms of government," discarding mayors and city councils, according to census bureau statistics.

Of sixty-nine cities, sixty-one were in 1912, the period under review, at less cost per capita than the average "head" expense of the 195 metropolitan centers under consideration. Cities which adopted the commission plan since February, 1912, are not included in the report.

Of the commission cities, Allentown, Pa., was given the first place for cheap operation. Municipal per capita expense there was only \$6.47.

Washington, D. C., with a per capita expense of \$25.43, had the highest rate. The lowest per capita net debt was given at Denver, with \$3.32 and New Orleans had the highest, \$122.81.

The commission cities listed in the report are: Birmingham, Mobile and Montgomery, Ala.; Berkeley, Oakland,
