

EAGLE CONVENTION HERE NEXT WEEK

Preliminary Plans for Entertainment of State Aerie Are About Completed by Local Committees.

PARADE PLANS UNIQUE

Parade May Move Through Battery of Railroad Lights Which Will Line the Streets.

The convention of the state aerie of the Fraternal Order of Eagles will be held in Keokuk next Tuesday, Wednesday and Thursday. Plans for the entertainment of the 2,000 delegates and members who will attend the sessions are practically complete.

All that remains now is for the weather man to do his duty. The Keokuk Eagles have elaborated plans for the convention, and if the weather is good the sessions here will be of the calibre to be long remembered by all who attend. The streets and buildings will be decorated profusely in a new scheme of decoration which has been planned especially for this convention.

On Wednesday evening the grand parade will be held. There are some new features to be sprung at this parade which will no doubt tickle the big crowd of spectators who will attend the function. There will be special fireworks if the committee in charge can arrange for same. The committee in charge of the lighting has a unique plan for illuminating the streets during the procession.

If it is possible to secure them without too much expense, railroad fuses such as are used in signals on the big lines of the country and which are made to stick in the ground while burning, will be used. The plan is to stick these along the line of march and as they burn from 15 to 20 minutes, the illumination will be rich. Together with the other fireworks and the brilliant colors to be worn in the parade the whole will be spectacular.

There will be no dearth of music for the convention. Nine bands have been contracted for. They comprise Henry's of Des Moines, the U. C. T. cup winners, the Fifty-fourth Regiment band of Ottumwa, Fisher's of Burlington, the Keokuk band, five piece band from Warsaw, one from Chariton, coming with the Creston crowd, one from Centerville and one from Quincy.

Special trains will be run from Waterloo and Des Moines to bring the Eagles from these two cities and the surrounding territory.

FINAL COLLECTION UNDER OLD SYSTEM

Money for Eagles Convention Will be Last to be Gathered This Way.

The last collection to be made under the old convention system will be made for the Eagle convention. There is \$400 to be collected, and the collection will be commenced soon. The Eagle convention will be the largest one that has been held here this year, and there should be no trouble in getting the money, as the convention will bring a big crowd here, and the merchants will be benefited.

The present system of financing conventions will be replaced by a new plan which will be drafted by the special committee which has been appointed to consider a change in this system.

GEORGE EDLEN DIED AT LOCAL HOSPITAL

Prominent Citizen of Revere, Mo., Where His Remains Will be Taken for Burial.

George Edlen, a well known resident of Revere, Mo., died at a local hospital at about 11 o'clock this morning after an illness from which he had suffered for some time. He suffered a long and severe attack of pneumonia, developing into tubercular trouble. Recently he was brought from his home in the hope of relief and recovery to a Keokuk hospital, where he continued for some time, his long illness resulting in death from heart failure. He was about fifty years of age.

Mr. Edlen was a man who was held in high esteem in a neighborhood of which he had been a resident for a long period of years. He was an honored member of the I. O. O. F. lodge of Revere and his death will be a loss to that organization as well as to the citizenship of the vicinity.

The remains were taken to the undertaking rooms of Holbrook Bros., to be prepared for burial, whence they will be taken to the K. & W. train this evening to be borne to his home at Revere for burial, arrangements for which had not been made, but which will probably take place tomorrow or Saturday at the cemetery at Revere.

WATER TANK ROOF BURNS THIS MORNING

Roof of Tank Belonging to Rock Island Road Destroyed by Fire Early Today.

The roof of a water tank of the Rock Island railroad was destroyed this morning by a fire which started from a spark from a locomotive. The water tank is about sixty feet high and the fire department had quite a bit of trouble in getting water on the flames. It was finally found necessary to run a switch engine up to the tank so that the ladders, when placed on the roof of the engine, enabled the firemen to get to the flames. Two lines of hose were connected. The tank is located near H and Railroad streets. The damage, amounting to about \$100 was confined to the roof of the tank.

OBJECTIONS FILED TO THIS REPORT

In Matter of Estate of Gerard Hulskamp, Deceased, It is Claimed Collateral Tax is Due State.

TO LEVY ON BEQUEST

Money Which Was Sent to Los Angeles School Said to be Subject to Law.

Objections to the report and application in the matter of the estate of Gerard L. Hulskamp, deceased, have been filed in the district court by County Attorney E. W. McManus. There are several grounds to the petition filed, and the county attorney asks the court to make an order declaring all items mentioned in the application and report to be subject to the Iowa collateral inheritance tax.

According to the terms of the will there is a bequest made to the Hollenbeck home of Los Angeles, of \$100,000. The county attorney alleges that this is subject to tax since it is in Los Angeles and not an Iowa institution.

The second clause charges that a sum of \$3,620.48 paid New Jersey as a collateral inheritance tax is claimed to be subject to the Iowa tax.

The next objection is to the deduction of certain sums for debts which it is claimed have not yet been approved by the court. It is claimed by the county attorney "they cannot be deducted until so approved."

It is further claimed that the application shows on its face that certain questions on which construction is asked are not proper for court as the law is clear in such matters and the liability is clearly fixed by the statutes.

END IS IN SIGHT IN LENGTHY CASE

Attorneys Are Arguing in Watson Power Company Case Today in District Court.

That the case of John Watson vs. the Mississippi River Power company will go to the jury by tomorrow seems probable. The attorneys were today making their arguments to the jury and the court was preparing instructions for the jurors. The arguments probably will be finished tomorrow.

The case has been bitterly fought and there are all sorts of speculations as to the length of time it will stay with the jury. The trial of the case has consumed over two weeks. Judge Hamilton has filed his decree in the case of Emeline Chidester vs. Frank Harlan, et al. and Van Baldwin and Vivian Harlan, intervenors. He decrees that Emeline Chidester, Frank Harlan and Vivian Harlan shall be entitled to one-third of the estate, each, and that the property shall be sold by John S. Sprowles and the money divided between the three.

The convention adjourned at 1:15 until 8 o'clock tonight. The entire early session was given over to a discussion of whether contested delegations should be allowed on the temporary roll call. Daily Stock Letter.

[Copyright, 1914, by the New York Evening Post.] NEW YORK, June 18.—Notwithstanding the newspaper accounts of the crisis in Mexican mediation and further engagements of gold, prices gained ground today. The market displayed its familiar inactivity and the gains were fractional; but they doubtless reflected tendencies. The stock exchange showed some signs of being as surfeited with inside reports of date and character of railway rate decision as with intimations from Niagara. Of the days gold engagements, \$350,000 went to London. A noteworthy incident of the way was the violent rise of more than 1/2 point in British consul on the London market. This makes the recovery almost two full points this week—a movement which would be astonishing for such a security if we had not already seen consols rise 6 1/2 points in the first two months of the present year, fall 1/2 in the following month, recover 1/2 from that and fall back again in the fortnight ending last Saturday nearly 1/2. The least that can be said regarding so extraordinarily rapid and violent a series of fluctuations, in the soundest investment issue of the world, is that underground movements of unusual force must have at work throughout the year in Lombard street finance.
