Y.W.C.A. NOTES

Last night at the business meeting of the Girl's Council the heads of the departments gave most flourishing reports of the work done. The treasurer, Miss Hensel, reported that the auto ride had brought in thirty-two dollars toward the Geneva expenses for three delegates. The next issue of Every Girl was discussed and the committee are hoping to make it a big issue full of the doings of girls out of doors. Because the rent of the cottages for the camp is heavy, the camp committee suggested that the Council give a big market or lawn social to meet this deficiency.

New Arrangement.

Miss Henrietta Ayres will take up her work as cafeteria director at the local association next Wednesday. At this time the general secretary will go to the camp and take charge of this work for most of the month of July.

Picnic Anticipated.

On July first the members of the woman's social committee and their friends will enjoy a picnic at the Bluffs.

Finance Committee Meeting.

The regular meeting of the finance committee will be held Thursday afternoon July 2 at 4 o'clock.

ANOTHER MOTION IN MALEY CASE

Attorney Ballinger Objects to Setting of Time for Trial but is Overruled.

A motion to revoke the order made in the Mailey case setting time for trial July 21, was filed today by F. M. Ballinger, attorney for the defendant. Judge McPherson overruled the motion.

Judge McPherson's order in the Mailey case sets its hearing on July 28.

NARROWLY ESCAPE DEATH IN RIVER

Eight Warsaw Men Are in Touring Car Which Slides Into Water Last Night and Tips Over.

ONLY ONE IS INJURED

Charles Hollingshead, Driver, Nearly Drowned—Work Water Out of Lungs by Rolling Him Over Companion.

Eight Warsaw Eagles had a narrow escape from death last night when they were returning from Keokuk in an automobile driven by Charles Hollingshead, which slipped off the road in the dark and precipitated the on-tire party into the water at the side of the road. The high stage of the river caused the water to overflow almost to the edge of the road, and it was about four feet deep at the point where the machine went over the road.

The only serious injury was that suffered by the driver, Charles Hollingshead. He was pinned under the car, and when taken out of the water he was unconscious. Using the heaviest member of the party, a man weighing 250 pounds, as a barrel, they rolled Mr. Hollingshead over this man and after working on him for two hours managed to restore him to consciousness. It was found that his shoulder was dislocated, also.

The party was returning from the convention at Keokuk and they had with them two silver cups won by the Warsaw Eagles. These cups were grasped by one of the party as the machine slipped into the water and he was found standing in the river up to his neck holding the cups high in the air. If the situation had not been so serious it would have been ludicrous to have seen this man standing there.

Car Goes into Water.

The touring car had reached the narrow about half way down the road between Hamilton and Warsaw when it grew dark, and Mr. Hollingshead was not able to see the road distinctly. He drove closer to the edge of the road than he intended to, owing to the high water having blotted out part of the embankment. The car tipped and threw everyone into the river and then turned over. Mr. Hollingshead was caught at the wheel and was under the car. His seven companions immediately righted the machine, and took him from under the wheel in an unconscious condition.

They commenced working on him as soon as they had carried him to the road. No barrel was in sight and they struck upon the expedient of using the biggest man in the party as a barrel. By rolling the prostrate driver over this man they managed to work most of the water out of his lungs. After two hours he was restored to consciousness.

This morning Mr. Hollingshead was reported as resting fairly well, and it was found that he had a dislocated shoulder which was giving him much pain, and he sustained a number of serious bruises.

Iowa State Bar.

[United Press Leased Wire Service.]

BURLINGTON, Iowa, June 26.—F. F. Dawley of Cedar Rapids, president of the Iowa State Bar association, delivered an address before the convention today in which he favored an increase in salary for district judges. He claimed this method was the only way to secure men of ability for the district bench whose opinions would not be reversed by the supreme court. After a hot debate the association adopted a resolution increasing the required term of residence of lawyers from other state before they can practice in Iowa, from one to three years.

Had Lung Trouble and Expected to Die

With the civilized world anxiously seeking a specific for Lung Trouble, the number of recoveries brought about through the use of Eckman's Alternative, a medicine for Throat and Lung Troubles, is attracting universal attention. For fifteen years Eckman's Alternative has been used and the reports of recoveries in many supposed hopeless cases indicate that this medicine is doing a vast amount of good. Read this:—
"33 St. Keyser, W. Va. November, 1908, with a very bad cold and dizzy spells, the doctor then pronounced my case as Malaria Fever. I grew steadily worse. Had two consultations held over me, and the verdict was that the fever had affected my lungs and that my case was hopeless; only gave me two months to live. My physician had tried most all kinds of treatment and none did me any good, so he called my husband if he objected to him trying a proprietary medicine. So I began on your Alternative. I was in bed from November 30, 1908, until February 25, 1909, and was thought dying several times. Today I am healthier and stronger than ever.
(Signed) MRS. H. K. BRILEY.
(Above abbreviated; more on request.)
Eckman's Alternative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stubborn Colds and in upbuilding the system. Contains no narcotics, poisons or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists.

SOCIETY

Silver Wedding Anniversary.

A surprise party on the occasion of the twenty-fifth anniversary of the wedding of Mr. and Mrs. George E. Radasch, was tendered that estimable couple last evening at their home 611 North Tenth street. A number of the friends of Mr. and Mrs. Radasch called during the evening, and presented them with some fine silverware. Refreshments were served and a fine musical program was rendered by Miss Madeline Radasch. Those who were present at this eventful celebration were: Mrs. Marie Radasch, Mrs. Fred Busch and son Edwin of Peoria, Ill., Mr. and Mrs. E. C. Welsman, Mr. and Mrs. John Wustrow, Mr. and Mrs. Cleve Eads and son Howard, Mr. and Mrs. Chas. Radasch and daughter Doris, Miss Marguerite Radasch, Miss Madeline Radasch and Henry Radasch. Mr. and Mrs. Radasch were married twenty-five years ago by the Rev. Robert Hassel at the home of the bride's parents Mr. and Mrs. Henry Schouten. Mr. Schouten being a pioneer baker here. A big wedding reception was held at Gibbons opera house following the ceremony. Mr. and Mrs. Radasch have lived in Keokuk continuously with the exception of two years spent at Canton, Mo. Five children were born to them of whom all are living in the city. They have two grand children, Howard Eads and Doris Radasch.

Eightieth Birthday.

The following from the Creston Advertiser will be of interest to the Keokuk friends of the lady in whose honor the party was given, and of especial interest here as Mr. Frank Waugh, son of Mrs. Waugh, is a resident of this city:

A most delightful surprise was perpetrated upon Mrs. Waugh yesterday afternoon at the home of her daughter, Mrs. A. P. Healey, 302 1/2 South Birch street.

Mrs. Healey, aware that her mother was about to pass the eightieth milestone of her life quietly invited in quite a large number of her mother's friends who spent a most delightful afternoon with Mrs. Waugh and her sister, Mrs. Wilson of Chicago.

Delightful refreshments were served Mrs. Healey being assisted by her sister, Mrs. Roy James. A birthday cake with its tell-tale candles was the chief attraction. Mrs. Waugh received several pretty birthday offerings. Her friends, and they are many and sincere, will wish for her many more birthdays.

Pretty Home Wedding.

At nine o'clock last evening, at the home of W. H. Wyatt on the Hilton road, occurred the marriage of Miss Mae Loomis Wyatt and Dr. Oliver T. Clark. The wedding was a beautiful but quiet affair. The ring service used was read by the Rev. Long of Warsaw in the absence of Dr. John C. Sage. The wedding march was played by Frank E. Fuller. Both bride and groom are well known here, where Dr. Clark was connected with the water power company as physician for the last three years, and has made numerous friends. The out of town guests were Mr. and Mrs. P. H. Clark and son Orion of Canton, parents and brother of the groom, Mr. Long and Mrs. Henry Long of Canton, uncle and grandmother of the groom and Dr. and Mrs. A. E. Chase of Guernsey, Ia. Dr. and Mrs. Clark left for Chicago where Dr. Clark will take a post-graduate course. They will return to Keokuk about Sept. 15, where Dr. Clark will locate.

Honors Mrs. Benner.

Mrs. Morris, 927 Bank St., was hostess to twenty-five ladies yesterday afternoon from 3 to 6 o'clock in honor of Mrs. M. C. Bever who will leave soon for her new home in Ft. Wayne, Ind. The guests of yesterday presented her with a handsome gift. Refreshments were served and the afternoon passed delightfully. Mrs. Hall of Ottumwa was an out of town guest.

Trinity M. E. Picnic.

One of the largest of the Sunday school picnics which have ever gone to Wild Cat this summer was the picnic of the Trinity M. E. church and Sunday school today. The picnicers left on the ten o'clock interurban and expect to return early this evening.

Country Club Program.

At the Country club tomorrow afternoon at 3 o'clock there will be a bridge party. Because of rain on one Saturday earlier in the month the party was not given, hence two parties in succession. The hot weather will attract a large crowd to the club house tomorrow as there is always a breeze on the high bluff and the porch is usually comfortable.

Hamilton Girl Weds.

The Galesburg Evening Mail of June 23 contains an account of the marriage of Miss Grace Weyand of Hamilton to Raymond N. Roelse of Des Moines. Miss Weyand was a former resident of Keokuk and has many friends who will read with interest the following item:

"Miss Grace Weyand was united in marriage on June 23 to Raymond N. Roelse at high noon at the home of Miss Hester A. Miller the bride's aunt 1041 North Kellogg St., Dr. L. F. Demmitt of the M. E. church officiating. Little Miss Coral Roelse, sister of the groom acted as ring bearer, carrying the ring in the center of a full blown rose. The bride wore a gown of em-

brodered crepe, trimmed in shadow lace and carried bride's roses. A two course luncheon was served following the ceremony. The bride is a well known teacher of Galesburg and the groom is a student at Knox college, a member of Tau Kappa Epsilon fraternity. They will make their home at Des Plaines, Ill. Among the out of town guests were Mrs. Roelse, and Miss Coral Roelse of Hastings, Nebr., Misses Florence and Ruth Weyand of Hamilton, Miss Mary Weyand of Huntley, Mont."

Family Reunion is Held.

Yesterday afternoon a family reunion and picnic was held at Rand park in honor of Mr. and Mrs. Roelse and Mr. Benjamin F. Martin of Huntley, Mont. There were present at the picnic besides the guests of honor: Mrs. Weyand, Miss Cochran, Misses Florence and Ruth Weyand of Hamilton, Elmer J. Weyand of Kirksville and Miss Mary Weyand of Huntley, Mont.

CITY NEWS.

Special sale on wool and cotton skirts, silk and cotton waists at greatly reduced prices, Saturday. Miss Ella Fanning, 601 Main street.

Mrs. E. C. Weisman of 1109 Blondeau street had the misfortune to fall in the yard and fracture and dislocate her left elbow.

As noted in The Gate City last night in the report of the council proceedings, permission was granted the Civic league to place a bubbling drinking fountain on Third and Franklin street to replace the water barrel and the rust yin cup. The cement fountain itself was given to the league by the J. C. McManus Construction Co. The Civic league pays cost of installing and the plumbing expense connected with it and the city maintains it. The committee having the placing of the fountain in charge is Mrs. Wm. Lowitz and Mrs. Henry Hulekamp. This makes four public bubbling fountains on the Keokuk streets placed there through the efforts of the Civic league.

Manager Towne of the Industrial association received a letter from the manager of the trap shooting division of the Du Pond Powder Co., asking if there is a live trap shooting organization here, and telling of some of the possibilities of such a club as a booster organization for a city.

The Keokuk Motor Boat club held a meeting last night at 8 o'clock, to discuss the regular business of the club.

PERSONALS.

L. C. Worley of Peoria, Ill., is in the city visiting with friends. Mrs. Worley has been the guest of Mrs. Robert Richardson for several days. Miss Florence Talbot returned home Wednesday from an extended visit in the east.

Leaped From Steamer.

[United Press Leased Wire Service.]
MOLINE, Ill., June 26.—B. B. Kennehan, thought to be from Denver, Colo., and a passenger of the steamer Helen Blair, which left Burlington, Iowa yesterday for Rock Island, Ill. is thought to have committed suicide by jumping into the Mississippi river near Muscatine. The man was first missed at 10:30 p. m. The engineer noticing the man walking outside the rail of the lower deck and hearing a splash, reported a man overboard and the captain ordered all boats lowered. Aided by search lights, the steamer's crew searched for over an hour for the body. No trace of the man could be found and the steamer continued on its trip.

Killed Under Auto.

MASON CITY, Iowa, June 26.—George W. Parkhurst, a wealthy farmer living four miles northeast of Dougherty was instantly killed at 9:30 today when his automobile went over an embankment and turned turtle, pinning him under the car. He is survived by a wife and two children.

Worth of Knowledge.

There must be a best way to build a house and a best way to train a child (because there is always a best and a worst in everything in all the world); and the immeasurable value of a well-trained child should be quite sufficient inducement to determine mothers and fathers to master the matter at any cost.

The New Baby is World's Wonder

Every tiny infant makes life's perspective wider and brighter. And whatever there is to enhance its arrival and to ease and comfort the expectant mother should be given attention. Among the most real helpful things is an external abdominal application known as "Mother's Friend." It is so well thought of by women that most drug stores throughout the United States carry "Mother's Friend" as one of their staple and reliable remedies. It is applied to the abdominal muscles to relieve the strain on ligaments and tendons.

In a little book are described more fully the many reasons why "Mother's Friend" has been a friend indeed to women for more than two generations. This book was prepared not only to aid the inexperienced but to enable so many women to have at hand the timely hints, suggestions and helps in concise and neatly printed form for ready reference. It should be in all homes. "Mother's Friend" may be had of almost any drug store but if you fail to find it write us direct and also write for book to Broadhead Regulator Co., 304 Lamar Bldg., Atlanta, Georgia.

Members—Men, any time; intermedates or older boys, 7:30 each evening; younger boys, 4:00 to 4:30, Tuesday, Wednesday, Friday and Saturday.

Non-members—Men, any time; boys, 4:00, 7:00, or 7:30 daily, by paying fee.

SMALL FIRE LOSS AT CEREAL WORKS

Fire Breaks Out in Meal Bins of the Grain Building During the Noon Hour Today.

STARTED FROM SPARK

Believed Spark in Mill Started the Flames—Company Officials Say Loss Very Low.

A fire occurred in the grain building at the cereal works during the noon hour today. Although it required nearly an hour to put it out, the damage was said to be very small. The grain building is a large three story brick structure directly behind the office building.

The fire was inside a number of large bins, located between the first and second floors. The bins contained a fine meal known as gluten, a by-product of the plant that is exported to Europe where it is used for stock feeding purposes.

Directly above the bins are a number of machines, or mills, that grind the meal. Conveyor belts run from this floor into the bins. It is believed that the fire originated inside one of these mills where the meal is ground up. A spark caused from a small piece of steel coming in contact with the metal of the machines would be sufficient to start the fire, it is said. It is believed that some foreign substance, such as a small nail, or a bolt got mixed in with the feed, and coming in contact with another piece of metal set off a spark that caused the fire.

On account of the fact that the fire was confined inside the bins which have but few openings, it was very hard to get water directly on the flames. Great volumes of dense smoke also proved a big hindrance in fighting the fire.

When the fire department from the Sixth street station reached the plant, employees of the cereal works were already at work fighting the fire with the equipment that is maintained there. Several additional lines of hose were connected and a number of streams directed on the bins. It was nearly an hour before the flames had been extinguished completely.

As soon as the fire had been extinguished men were set to work cleaning up the machines. It is believed the damage is not sufficient to cause any great delay in running this department of the plant. The mill machines are believed not to be damaged and but little damage was done to the bins. Officials of the company say that the value of the cereal in the bins did not exceed \$15 at the time of the fire.

Y. M. C. A. ITEMS

Buttons Awarded.

The Y. M. C. A. free swimming campaign closed last night. Eighty-seven boys learned to swim efficiently, and won the button given by the association to each boy who learns to swim the length of the natatorium, or fifty feet.

The association is grateful for the help of the following men who took part in the instruction during the ten days: Prof. P. C. Hayden, Van Hayden, John Hulson, Ralph Leake, Charles Meister and Harry Drummond.

Swimming Exhibition Tonight.

Every boy who learned to swim is expected to be at the "Y" tonight for the public exhibition, which will also include diving and fancy swimming by the members of the Y. swimming team. A small fee will be charged to defray the expenses of the campaign. Exhibition begins promptly at eight o'clock.

The Campaign.

The campaign just closed is the third in the history of the association and it will henceforth likely be an annual affair. While boys who start at the age of eight are in most cases too young to learn to swim, yet they get used to the water, which will enable them to learn with ease their second year. In 1912, 110 boys were taught to swim the width of the pool; in 1913, the requirements were changed to fifty feet or the length of the pool, seventy-five getting buttons, and this year that record was beaten by a dozen.

Present Schedule.

Schedule for the rest of the summer:

Members—Men, any time; intermedates or older boys, 7:30 each evening; younger boys, 4:00 to 4:30, Tuesday, Wednesday, Friday and Saturday.

Non-members—Men, any time; boys, 4:00, 7:00, or 7:30 daily, by paying fee.

Saturday Special

In order to introduce our Famous Blend of Tea for making Ice Tea, we will give each customer three genuine Star Cut Tumblers FREE with each pound. Only one pound to a customer.

60c Pound

Home Tea Co.

Telephone 245 716 Main St.

GASOLINE EXPLODES STARTING BAD FIRE

Explosion Occurs in the Rear of Cleaning Establishment at 924 Main Street.

One man, Joe Blank, was slightly burned about the face and hands, and damage amounting to about \$300 occurred in a fire that followed an explosion of gasoline in the rear of Blank's cleaning establishment at 924 Main street at 11:30 this morning. The explosion occurred in a shed at the rear of the building in which were a number of cleaning machines and a gasoline engine. Gasoline vapor from one of the machines, coming in contact with the flames under a boiler, are believed to have caused the explosion. Blank was standing at the door when the explosion took place and escaped without serious injury, although his hair was singed and his hands and face painfully burned. The damage was confined chiefly to the machines.

REAL HOT WEATHER PREVAILS TODAY

Everyone is Talking About Extreme Heat Which Burned up Pavements.

Today was a regular corn growing kind of a day. Everyone was complaining about the heat. The thermometer in the government weather station here registered 92 at 11:30 o'clock this morning.

The temperature on the street, however was far in excess of this. The thermometer at one corner of Sixth and Main streets hit the high mark of 100 shortly before noon, and went over that mark during the afternoon. About all that afforded any sort of relief was the breeze which was blowing throughout most of the day. Sidewalks and street pavements resembled red hot stones.

Save the Peelings!

Among the innumerable expedients that have been suggested to reduce the cost of living, the use of potato peelings has not been sufficiently emphasized. These humble and usually despised parts of the potato are not without value. Instead of throwing them into the garbage can, the thrifty housewife, if she lives in the country and has a potato patch of her own, might better put them into a gunny sack and hang them in a woolshed or in some dry place where they will not freeze. If she does this she will not have to buy seed potatoes next spring, but can plant the peelings, which will sprout and reward her with as fine a crop as she could get from the potato itself, provided the "eye" or bud is on the peeling.

Another and more general use for the parings is as shavings or kindlings with which to start the kitchen fire. When dried thoroughly they are very inflammable, and even when not quite dry will burn as well as newspapers. The five or ten cents a week spent for kindling wood might thus be saved.

True Wealth.

There is no wealth but life, including all its powers of love, of joy and of admiration. That country is the richest which nourishes the greatest number of noble and happy human beings; that man is the richest who, having perfected the functions of his own life to the utmost, has also the widest helpful influence.—Ruskin.

Daily Stock Letter.

[Copyright, 1914, by the New York Evening Post.]
NEW YORK, June 26.—The action of the stock market today was peculiarly of that sort which reflects and embodies the feeling of the business community at large. These few people who knew, on Wednesday afternoon of the coming Claffin failure, undoubtedly looked for serious disturbance on the stock exchange the next day. But yesterday's market held surprising well, its final irregular weakness being clearly a result of professional pressure, not of outside liquidation. It still remained to see what the outside public east and

LOST.

LOST—English bull dog, brindle with white collar. Phone Red 1355. Reward.

west would do after twenty-four hours of specific information as to the trade disaster. Yesterday's market might have been only artificially supported. But this morning's market opened at over night advances, running in some stocks to 1/2 to 3/4 point, with London buying back what it sold here yesterday morning. Then after a fractional reaction in the next few hours, prices began to rise again, ending with a general showing of net gains of a point or thereabouts for many active shares. There was absolutely no indication of any liquidating sales from outside quarters. This is a highly significant comment on the financial view as to the bearing of the Claffin disaster on the general situation and in many respects it must be admitted that it bears out the general tenor of forecasts in the local trade and of dispatches from other business centres.

The best prices of the day in the stock market were made in the last hour when the market showed a good deal of strength.
