ALLEGED VIOLATION OF ICE CREAM LAW

Three Local Dealers are Made Defendants in Informations Filed by Commissioner Barney.

MUST HAVE 12 PER CENT

Under This Act Butter Fat Percentage Must be Acquired or Food is Called Adulterated.

Informations were filed by W. B. Barney, state dairy and food commissioner, against three local firms alleged violation of the ice cream law. The informations are filed against Burke Brothers, Buffalo Candy Kitchen, Lambros & Pappa, props., and Rose Candy Kitchen, W. T. Short, manager.

The informations allege that each of these places sold to F. W. Crowley a product called ice cream, adulterated in not conforming to the standard set by the statute, being deficient in butter fat.

The ice cream law which was passed by the thirty-fourth general assembly provides that for ice cream there must be 12 percent of butter fat in the product. Failure to keep the butter fat standard up to 12 percent lays the producer liable to the penalty provided in the statutes, of a fine. The violation of the law is made a misdemeanor, Justice Burrows finds, and the penalty is a fine up to \$100.

Warrants were placed in the hands of Constable Hollowell to be served this afternoon, and the alleged violators of the law were ordered to appear in court at the earliest possible moment. As this is the first offense under the statutes they may be given minimum fines.

The state food and dairy department has been looking into the ice cream violations throughout the state. These are the first to be filed here.

BELIEVE BOY WAS IN ON ROBBERIES

One of Two Boys Who Robbed Spicer's Store Being Held Now by the Police.

CANDY STOLEN BY BOYS

Johnny Page and Fred Bregenzler Confess to Police—Entered Buck-Reiner Wholesale House.

The police today took into custody Fred Frazier, a young boy, who with another boy, Edward Hamlin, were recently paroled to the charge of Noble Weaver after having confessed to the robbery of the Spicer jewelry store in this city not long ago. Chief Kenney examined the boy today and is of the opinion that he and the Hamlin boy had something to do with the large number of robberies that were reported to the police recently. Several houses were entered within a period of three or four days and money and valuables taken from some of them.

The Frazier boy says that the Hamlin boy left this city last Friday. However, another boy, Ray Clancy, who ran away from his home in East St. Louis, has been here with young Frazier for several days. The police have been suspicious of the two boys for some time. They have been spending their nights sleeping in the park most of the time since they were paroled, and the police say, the boys have avoided them on the streets both day and night.

Two other boys, Johnny Page, 17, and Fred Bregenzler, 16, were arrested by the police this morning for entering the wholesale house of Buck-Reiner company some time last evening and stealing a bucket of candy and some canned goods. The two boys were seen on the levee this morning with the candy and the matter was reported to the police. An officer was sent for the boys and they confessed to Chief Kenney to having entered the place last evening, going in through a coal hole in the cellar. The stolen goods were found in the houseboat of the Page boy, near the elevator. When Chief Kenney informed the Buck-Reiner company of the fact that their place had been entered it was learned that the company did not know the goods had been stolen, but an investigation corroborated the boys' confession.

THE LAWN FETE OF THE Y. W. C. A.

On the Beautiful Lawn at the H. W. Hulskamp Residence, Given Last Night.

The excellent success attained and the large measure of enjoyment afforded by the well planned and pleasantly conducted lawn fete on the attractive lawn at the H. W. Hulskamp residence, was gratifying to the Y. W. C. A. management under whose auspices it was given. About two hundred and fifty or perhaps more attended and enjoyed the many pleasing features presented, which lack of space prevents a special mention. Many passing automobiles were forced to halt by the attractiveness of the pleasant scene presented. It must be said in defiance of a lack of space, that the Rosemaiden club was at its best and the songs they sang brought them into the light as the bright particular feature of the event, each particular Rosemaiden shining beneath a halo as a stary feature, the combination winning the earnest and enthusiastic plaudits of the admiring auditors.

Everybody, old and young, pronounced it as one of the most pleasing events of the season and regretted that some of their friends failed to be present. Those who enjoyed the fete are the envied of those who neglected the opportunity of an evening of exquisite enjoyment.

CHARGES GREEK SWINDLED YOUTH

Court Asked to Disaffirm Contract in Petition at Law Filed in the Superior Court.

SHINE SHOP FOR \$2,000

Sold Half Interest in Two Shoe Shining Shops and Park Stand for the Sum of \$2,000.

Leonidas Sakellareous, 19 year old Greek boy, today brought suit in the superior court by his next friend, Nick John, another Greek, to disaffirm a contract entered into between Sakellareous and Nick Lambrakis, also a native of Greece, who owns several shoe shining parlors, a half interest in which the boy contracted to purchase for what is alleged to be an exorbitant amount.

In January of this year Lambrakis and the boy entered into a contract whereby the boy was to buy a half interest in two shoe shining parlors, located at 306 and 418 Main street, and a stand at Rand park for the sum of \$2,000. \$200 of this amount was paid in cash at the time the contract was made. The remainder was to be paid in a period of five years by one half of the net earnings of the business after wages of \$40 a month had been deducted for the boy. It is claimed in the petition filed that Lambrakis took advantage of the minority of the boy by making false, fraudulent, and misleading representations to him as to the actual value of the property, and the receipts and earnings. It is claimed that the boy has received from Lambrakis in wages the sum of \$125 since the time the contract was made, January 15. The court is asked to disaffirm the contract, to cause Lambrakis to return to the boy the \$200 paid at the time the contract was made, together with 6 per cent interest, and to cause Lambrakis to pay the boy \$162, the balance due on his wages, and also to issue a restraining order on Lambrakis to prevent him from selling the property until the rights of the boy have been determined by the court. Frank M. Ballinger is the attorney representing the plaintiff.

PREACHERS MAKE SOME MEN CRAZY

Sermon About the Fires of Hell Are Not Good for Brains of the Congregation.

[United Press Leased Wire Service.] CHICAGO, July 15.—"Hell's fire" religions and preachers who hurt the fear of a brimstone existence at their congregations were attacked by Dr. Henry S. Munro of Omaha, Neb., in an address before the national convention of alienists and neurologists.

Dr. Munro declared the promulgation of "hell fire" doctrines is increasing the insanity rate. Much of the church's hold on men and women, he declared is due to fear, and fear, he said is utterly destructive to both mind and body.

"Fear, whether inspired by the preacher or the hold-up man, has the same result," said Dr. Munro. "It arrests the normal activity of every bodily organ and cell. It kills us."

"Under existing educational and religious training, a child is taught that his natural instincts are vile, low and sinful. A conflict is thus eternally going on between the acquired intellectual components of his personality and his instinctive prompting and he is unprepared to meet it."

Dr. J. Chester King, of Atlanta, Ga., who termed the Chicago down town district a mad house when he attended last year's convention here, was just as gloomy in his opinions today. After dodging automobiles, street cars and trucks in an hour's tour of the loop, Dr. King declared that less than 25 per cent of the loop workers are normal. The remaining 75 per cent, the doctor said, would be adjudged abnormal and subject to nervous disturbances.
