RUN SPECIALS TO LEE COUNTY FAIR

Donnellson Paper Urges Keokuk to Send Big Crowd on Aug. 13.

Special trains will be run on Thursday, August 13, from Milton on the west and Keokuk on the south to enable everyone along these lines to attend the Lee county fair. Schedule of these trains will be published later, says the Donnellson Review.

The Keokuk train, however, will leave that city at 12:30 p. m., and returning leave Donnellson at 5:30 p. m. Keokuk should brace up and send a good delegation for that one day at least to our fair. The people of this section do thousands of dollars worth of trading in Keokuk every year, but that city generally sends the smallest crowd to the fair of any of the surrounding towns. As a friend used to say: Keokuk should "reop-erate."

Don't Be Misled if You Have Lung Trouble

If you have Lung Trouble, do not be misled by reports of discoveries of specific to relieve that affection. No specific has as yet been found. Eckman's Alternative, however, is a medicine for throat and lung trouble which has been successfully used in many cases. If you are sick, it might be wise for you to investigate its merits and its use may be of lasting benefit to you. Read of this case: 283 Seventh Ave., New York. "Gentlemen: Five years ago last August I was taken to St. Francis' Hospital to be treated for Bronchitis and congested lungs. After several weeks' treatment I was advised by the doctor to go to a convalescent sanitarium, but could not be admitted because the doctor at the hospital, after a thorough examination, declared my case Lung Trouble, and gave me a certificate to that effect. I showed the certificate to Father Stark, and he advised me to take Eckman's Alternative. I took the Alternative faithfully as directed, and soon found myself free from night sweats and fever, and gradually got better. I have not taken the Alternative now for two years, and can truthfully say I am well. I feel better and am stronger than before my sickness."

Hon. Truman Plantz is in Rock Island on M. W. A. business.

The man hunt fizzled out, it having been proven that the man supposed to be Henry Maples was Fred Hoffman who has been in the bottoms for some time with no apparent means of support. A second "hunting party" started out Wednesday morning early with the Strumpfer dogs, but flushed no game, at least not the game being sought. It is believed that Maples is not far from his home which is near Meyer. Orders were given the party yesterday to take him dead or alive.

About 9 o'clock Wednesday night fire destroyed the barn of Chris Wirth in Stumptown, in the southern border of the city. The distance was so great that the fire almost burned out before the fire ladders reached there, though they responded promptly. A high wind from the north hastened the destruction of the property. The loss is about \$700. The barn loft had recently been filled with new hay and it is supposed this becoming heated caused the fire, through spontaneous combustion.

The ice cream social of the high school orchestra boys on St. Pauls rectory lawn Tuesday evening was well attended and the lawn brilliantly lighted with electricity. Music by phonograph enlivened the evening.

The lawn of the Catholic school that did scores of good to vegetation.

Warsaw's fall celebration, monument unveiling, home coming, etc., is in the hands of a good finance committee, that is a unit in the desire to give our visitors something clean, elevating and entertaining in the way of a celebration and will show them that she has risen above the street fair and carnival idea. Warsaw wants to make good and will do so, then our friends will leave us with a pleasant taste in their mouths, so to speak, and will rise up and call us blessed. Warsaw has the one opportunity in her life to become a "top notcher" in every way and to remain one. In the meantime, every citizen, however humble should feel that he or she has a part in the coming festivities and should be eager to be represented in the financial part, be his mite ever so small. "Many mickles make a muckle," "little drops of water make the mighty ocean," the larger the fund the better celebration can be given.

In the months intervening it will be well for all of us to cultivate a cheerful, generous spirit, a brotherly spirit and also not forget that "smile that won't come off" so that we will be in proper spirit to extend the glad hand to new friends as well as old.

United Press Association Telegraph Market Report Over Gate City Leased Wire.

Grain Review.
[United Press Leased Wire Service.]

CHICAGO, July 17.—Liverpool cables were higher today but cooler weather northwest caused wheat to open at an advance of only ¼ to ½ and to decline later in the day. The cool weather was regarded as unfavorable for the spread of black rust was reported in some sections and prices eased off.

Corn ignored a higher cable and July futures lost half an account of generally cooler weather and rain in the corn belt. Activity on the buying side held September futures firmer at last night's closing prices.

Oats was down ¼ today in sympathy with the break in corn and because of rains over those portions of the oats belt that had been complaining of dry weather.

Trade in provision was confined mostly to ribs. Prices were higher on account of an advance in the hog market.
