FRECKLE -- FACE

Sun and Wind Bring Out Ugly Spots, How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling. Simply get an ounce of ethine—double strength from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength ethine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

Date of Hearing.

[United Press Leased Wire Service.] WASHINGTON, July 24.—In issuing an order putting into effect its intermountain rate decision, the Interstate Commerce Commission fixed August 6 as the date and Chicago as the place for hearing the application by the railroads for relief from some more drastic reductions ordered.

THE WEATHER

For Keokuk and vicinity: Partly cloudy and continued warm tonight and Saturday. Possibly local thunderstorms this afternoon or tonight. For Iowa: Partly cloudy tonight and Saturday. Possibly local showers or thunderstorms this afternoon or tonight in the east portion. No important change in temperature. For Missouri: Generally fair tonight and Saturday. Not much change in temperature.

Weather Conditions. The persistent high pressure in the southeastern states caused continued warm weather in the central valleys yesterday, the temperature reaching 100 at Keokuk, Davenport, St. Louis and Chicago, while it was moderately cool in the lower lake region and northeastern states.

Conditions indicate partly cloudy continued warm weather for this section tonight and Saturday, and local thunderstorms are possible this afternoon or tonight.

Texas Crop Conditions. [United Press Leased Wire Service.] DALLAS, Texas, July 24.—Holding out the hope that things are never as bad as the seem, the Texas Industrial Congress today issued a formal statement estimating the corn yield in Texas at 65 to 75 per cent of normal and showing that cotton will be ten to twenty per cent under normal. Early frosts followed by rainy May weather and floods, and topped off with an eight weeks hot drought, were blamed for the unsatisfactory conditions. The pan handle fared better than other sections.

Lewis' Single Binder 5c Cigar

is smoked by more men who have been smoking 10c cigars than any other 5c cigar made. Not only is the tobacco extra quality, and carefully selected, but it is aged from two to three years under our own direction and by our own process. That's why it makes a mild, fragrant smoke. The Lewis Single Binder comes to you fresh and clean from the maker's table, wrapped in its Famous Tin Foil Smoker Package—handy for the pocket.

The enormous sales of Lewis Single Binder cigars prove their quality. Tell the dealer you want a Lewis Single Binder Cigar.

DIRECTORS VOTE TO RETAIN CLUB

\$800 Still Needed to Finance Club Through Season—Players Are Paid Today.

DOUBLE BILL SUNDAY

Special Arrangement Made With Egan for Sunday Games—But One Admission Will be Charged.

At a joint meeting of the baseball directors and members of the soliciting committee held just before noon today, the financial situation was talked over and the directors decided to go ahead with baseball and retain the franchise. The players, who have been waiting for their salaries since July 15, were paid this afternoon.

According to the report of the soliciting committee, only a little over \$1,200 has been raised to date. This amount is about \$800 short of what is needed to run the club the rest of the season, and, in fact, more money than has already been raised, will be needed within a very short time. For this reason the soliciting committee will go ahead with its work of raising the funds. It is believed that they will be successful, although it will require an enormous amount of hard work. Before the club directors consented to going ahead with the game they required that the members of the committee pledge themselves to continue their work until the \$2,000 is raised.

One thing that would be a big help to the club is a big attendance at all the games played here during the present home series. If you have any interest at all in baseball make it a point to attend all the games you possibly can during this series. The boys played a fine game yesterday and with the crowd behind them they ought to take a big share of the games played here this time.

Arrangements have been made with Ned Egan to play a double header here Sunday, and play the Tuesday game on Monday. This will give Egan's club an off day on Tuesday which will allow them time to get things straightened up at Galesburg before they open there.

The directors are going to make this Sunday double header another big bargain day attraction in an effort to draw out every red blooded fan in the city. But one admission price will be charged for the two games. The first will be started at 2:15. If the right kind of a crowd can be induced to come out it will go a long way toward making up what's needed to run the team the rest of the year.

MORE POLITICS THAN TESTIMONY

(Continued from page 1.)

der of Gaston Calmette opened, Mme. Gueydan appeared. She was not present when court opened but swept in with great dignity when summoned. "You played a trick yesterday," said Labori, as she stepped to the witness box. "I return your letters. Three are uninteresting and two only might be revealing." Labori then extended his hand toward the witness holding the packet of letters she gave him yesterday, saying he might do what he pleased with them. Mme. Gueydan flushed and refused to take the letters. The crowded court room buzzed with excitement created by the sudden move of Mme. Caillaux's attorney. Mme. Gueydan was firm in her refusal to accept the missives still left the stand with the missives still in the care of Labori and Maître Chenu, representing the Calmette heirs.

Etienne Grosshaude, of the Figaro staff and close friend of Calmette was then called as a witness. He testified that he knew Calmette never dreamed of publishing personal letters written by Caillaux to Mme. Rainaud before their marriage. He declared Calmette might well have published other portions of the "Ton Jo" letter but withheld all but the part he deemed of political import.

Disorder marked the progress of the trial from the beginning today. As Ceccaldi proceeded with his defense of Caillaux which was in the form of a political speech, shouts of disapproval came from the crowd. He was hissed and jeered by friends of the dead editor, but insisted that he would not leave the stand until he had said all that he had in mind. He criticized former Premier Barthou for reading reports in connection with the Rochette swindle in the chamber of deputies. Disorder finally became so great that it was necessary for Judge Abanel to threaten those causing the disturbance with arrest. With the appearance of Mme. Gueydan, Mme. Caillaux completely lost her composure. She appeared nervous and frightened and did not look at her husband's former wife as she stepped to her place. Henry Bernstein, noted playwright and author, and an intimate friend of Calmette, vigorously defended the

Blood Tonic Has Important Meaning

Puts the Right Sort of Vim Where Most Needed.

To tone the blood means to enable it to throw off accumulated impurities, to increase the red corpuscles and to put the blood-making organs into such active condition as to produce that conscious sensation of what we feel as health. This is the logical effect of using the famous blood purifier, S. S. S. Half the people you meet complain of weary muscles, stagnant brains, jangled nerves, and a wonderful desire to lay down and just quit. Most of these people have been using nervines that spasmodically flare up the nerves only to die down again, as die they must. Avoid nerve stimulants. Bear in mind that this worn-out feeling is due to poor blood, to bacteria in the water you drink; to the multiplying of destructive germs in the blood faster than they can be overcome by the white corpuscles; and to what is known as auto-toxemia, that condition where the venous or impure blood accumulates faster than it can be replaced by the red arterial blood.

S. S. S. has long been famous as a blood purifier, and its action by elimination of the irritating poisons that infest the blood, is one of the very important things to know. You can get S. S. S. at any drug store, but take no other so-called blood purifier. S. S. S. is purely a vegetable product, and you will make no mistake to have some enthusiastic palm off a mercury, arsenic or iodine of potash preparation that may do you irreparable harm. S. S. S. is prepared by The Swift Specific Co., 533 Swift Bldg., Atlanta, Ga., and if you have any deep-seated or obstinate blood trouble, write to their Medical Dept. for free advice. It will be worth your while to do so.

dead editor. He declared that from things Calmette had told him he was convinced that he had not offered Mme. Estrader 30,000 francs or any other amount to arrange an interview for him with Mme. Gueydan. To substantiate further contention that Calmette did not hold other letters he intended to publish, Frantz Reichel, sporting editor of Le Figaro, was called. He said that on the Sunday night before the shooting he left the office with Calmette and mentioned the publication of the fabre memorandum the day the debate was scheduled. "I would like to publish it, but I promised not to," he said. He declared the editor continued, this statement being intended to establish that Calmette did not have private letters of the Caillauxs.

Georges Bonnamour, chamber of deputies reporter for L'Equipe, said he was with others when Auguste Avril made the remark that the "Ton Jo" letter was just the beginning of Calmette's campaign and that others were to follow. He said it was his impression from Avril's statements, however, that the documents in question were of a political instead of a private nature.

Immediately after the shooting of Calmette, all papers in his pockets were removed, according to Lucien Quinterd, Calmette's wallet, all papers and his keys were placed in an envelope by two other members of the staff and given Quinterd, who locked them in the safe. The following day, the envelope was opened and the copy of the Ton Jo letter written in Calmette's hand, taken out and the other papers sealed up and given Dr. Albert Calmette at the hospital at Neuilly. Quinterd identified the wallet which was introduced in court.

A bullet had pierced some of the papers which were in the wallet and which extended beyond the ends of the wallet.

Illinois Coal Mines. [United Press Leased Wire Service.] SPRINGFIELD, Ill., July 24.—Through praying for rain to help the suffering corn crop, central Illinois contributed its voice in the chorus of coming prosperity today with the announcement that coal mines which have been suspended for the summer months, will reopen August 1, earlier than usual. Heavy coal demand for the fall and winter is predicted by operators.

Dandruff Soon Ruins the Hair

Makes It Lifeless, Dull, Dry, Brittle and Thin.

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means, get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every sign and trace of it. You will find, too, that all itching and itching of the scalp will stop, and your hair will be silky, lustrous, soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

GALESBURG GETS EGAN'S ORPHANS

Illinois City Gets Vacant Berth in Association, Its Decision Which Was Reached Last Night.

TO HOLD BOOSTER DAY

Six Hundred and Fifty \$1 Tickets Have Already Been Pledged—Very Enthusiastic.

Galesburg, Illinois, is now a full fledged member of the Central association and Rock Island is a thing of the past as far as Central association baseball is concerned. Ned Egan and President Justice were in Galesburg yesterday and at a big mass meeting last night the "bugs" of the town showed much enthusiasm and followed it up by pledging six hundred and fifty one dollar tickets.

Egan made no demand on the people of the Illinois city, but suggested that a big booster day be pulled off and this was agreed to but no date set for the occasion. It is thought, however, it will be held after the first series, when the team returns from the road. The team will play in Galesburg next Wednesday and after six days will go on the road again and upon its return the big day will be staged.

Two Conferences.

Two conferences were held. One in the afternoon and one in the evening. At the afternoon meeting the matter was thoroughly gone over and representatives of the street car company were also present. These representatives stated that the best of service would be given and that they would also aid in the sale of the booster tickets.

At the night session there were many enthusiasts present and as no money was asked and no demands made on the fans they readily agreed to this one proposition: a booster day. Many asked Egan what the chances were for keeping the team in Galesburg in 1915, and the wily manager answered that it all depended upon the way the game was supported the remainder of this season. The fans gave assurances that they would give the team all kinds of support and it was brought out that Galesburg was ripe for baseball.

Last night Egan was very optimistic concerning the outlook and thinks that the people of Galesburg will give him a square deal, which is all he asks.

President Justice was very enthusiastic over the way Galesburg fans discussed the subject of C. A. ball.

Rock Island Out.

Rock Island is now out of the question and the people of that city have given up hope of ever capturing Central association ball. The merchants, however, are sore at the national commission and the moguls of the Three-Eye league and if they can prevent, Rock Island will not give a great deal of patronage to the Three-Eye clubs near by.

Cotton Futures Bill.

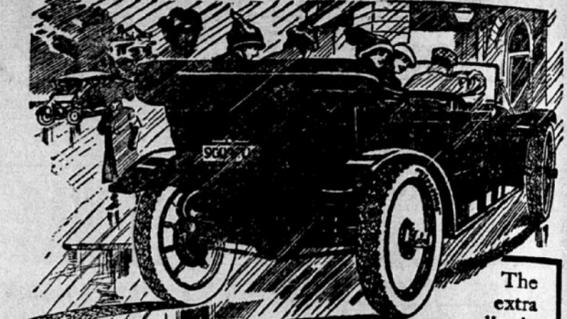

[United Press Leased Wire Service.] WASHINGTON, July 24.—The bill for the dealing in cotton futures was whipped into final shape today and will probably be reported late this afternoon. The bill imposes a tax of \$10 per bale on all sales of cotton futures which are not made with cotton standards fixed by the department. Avoid tax settlements must be made at prices brought by the various standards of cotton in the open market. Should there be no sale in the grade specified, the prices at the five largest exchanges in the United States are to be averaged to determine the selling price.

Baby of Future is Considered

Much thought has been given in late years to the subject of maternity.

In the cities there are maternity hospitals equipped with modern methods. But most women prefer their own homes and in the towns and villages most prefer them. And since this is true we know from the great many splendid letters written on the subject that our "Mother's Friend" is a great help to expectant mothers. They write of the wonderful relief, how it seemed to allow the muscles to expand without undue strain and what a splendid influence it was on the nervous system. Such help as "Mother's Friend" and the broader knowledge of them should have a helpful influence upon babies of the future.

In a little book for such women these points are more thoroughly brought out and a copy will be mailed to anyone who will send us their name and address. "Mother's Friend" is sold in all drug stores and highly recommended for its timely usefulness, its safety and the real help it affords. Ask for it at the store and write us for the book. Bradfield Regulator Co., 311 Lamar Bldg., Atlanta, Ga.

The extra quality in Firestone tires would make them cost much more under ordinary conditions. But Firestone conditions are not ordinary.

LATEST MARKET QUOTATIONS

United Press Association Telegraph Market Report Over Gate City Lead Wire.

Grain Review.

[United Press Leased Wire Service.] CHICAGO, July 24.—Wheat weakened in the early trading today, the advance started yesterday being checked by weak cables from Liverpool, where leaders were engaged in profit taking on the higher prices. Later, private advices here of the spread of the black rust in South Dakota caused prices to firm somewhat, December being most affected.

Corn was under selling pressure from the start and at noon showed losses of 3/4 to 1/2 compared with last night's closing prices. Wire houses were heavy sellers on account of heavy rains last night and today over the corn belt. Oats were weak at the start and developed a slump that brought prices down 1/4 to 1/2 in sympathy with the lower corn market. Provisions were lower on account of lower hog prices. July pork was the only exception, a buying rush sending the contracts for that month up 15 cents.

Daily Range of Prices. CHICAGO, Ill., July 24.—Open. High. Low. Close.

Table with columns for WHEAT, CORN, OATS, PORK, LARD, RIBS, and various grades of wheat, corn, and oats with their respective prices.
