WHITTAKER LOSES HIS ONE HIT GAME

Bill Has Better of Pitchers' Battle With Flanagan, But Early Misces Bring Defeat.

TWENTY-FOUR WHIFF

Flanagan Retires Thirteen While Bill Strikes Out Eleven—Trumpe Made Tribe's Only Boot.

[Special to The Gate City.]

MUSCATINE, Ia., Aug. 17.—Manager Harry Sweet, chief of the Keokuk Indians, stayed in the game Sunday just long enough to afford the Muskies a chance to win another game, 1 to 0. With big Mike Flanagan wiggling like a veteran, the home folks needed just one run to defeat the hostiles from the Dam Town and that one tally appeared in the opening frame. Wild Bill Whittaker, who twirled a one-hit game, was a trifle wild for a moment in the initial semicircle and walked Jesse Runser. Jesse lost no time in pinching second, but Wild Bill had expurgated his system of that affliction and struck Dutch Wetzel out. This would have terminated the contest, inasmuch as there were two down, but Chief Sweet very kindly missed the third strike and Jesse Runser beat it for home and safety. Sweet after recovering the ball, pegged to first, but Wetzel beat the throw and the relay back to the plate didn't come fast enough to catch the nimble toed Jesse.

Both Hung Fast.

Big Mike and Wild Bill stayed right after them during the whole game and the Muskies never had a real chance to score after the first, except in the fifth. Ziggy Hasbrook, in the fifth, drove on to Trumpe at second which that gent kindly kicked and Ziggy then swiped the second and third sacks in succession. With Mike Flanagan at the bat Marshall who had succeeded Sweet behind the wicket after the first round, let one slip through him and Hasbrook started for home. Bill Whittaker covered the plate, however, and had little trouble in touching Bob when Marshall tossed the ball to the registering station. When Bill issued a walk in the fourth inning and Sour, who received it, swiped second, the Muskies celebrated the only inning that more than three men faced Whittaker.

Sets Some Pace.

Big Michael certainly set some pace and while he was in a hole several times, the abundant Celt took a tooth-hold and twirled himself out with ease. He started the engagement by whiffing ten men in the first five innings, but that old mid-game jinx showed up in the sixth and he issued transportation to a pair of redskins. Here he tightened again and got out of his difficulties as easy as drawing a month's pay check. In the seventh and ninth, he also had some trouble but kept right on pegging and ended the misery when Brennan and Runser succeeded in nipping Trumpe between home and third. For a moment it looked as though there might be a fluke sideshow as Mike and Eddie became mildly excited when Trumpe stamped on Brennan in trying to pass him. Dutch Wetzel's handsome brother secured two blows, one a clean one off Mike and Trumpe beat out an infield hit, which had been intended as a sacrifice, but aside from these Flanagan was alright and struck out thirteen Indians.

By the Editor

Two one-hit games were registered in the association yesterday—a record of unusual merit for any league. Bill Whittaker pitched a one blow fray for the tribe, but lost. Rowdy Miller, working on the slab for the Red Sox, also was touched for but one bingle, but won his game.

Pitcher Drohan and Catcher Askland, of the Jays, went to the mat during the game at Cedar Rapids yesterday and were chased off the field by Umpire Fleming. Fleming Justice was notified by Fleming this morning of the trouble and fines of \$25 were assessed each player.

It's hard to imagine how any of the players on the Waterloo club could get into a dispute, especially among themselves. None other than Doc Jay himself is responsible for the statement made while that club was last here, that the boys on the Waterloo team were as clean a bunch of young gentlemen one could meet anywhere. "They're all nice boys," said the doctor. "There's not a rowdy on the club."

*HOW IT STARTED.

Asklund: (Unbuckling protector and walking to bench at close of inning) Wynell didn't you keep it outside for that big bush. I told you to keep it outside. You put it right in the middle. It was right in the groove. I told you to keep it outside.
Drohan: Who told me to keep it outside? You called for a fast one right in the middle. I knowed he would hit it. You never knowed what you're doing up there.
Doc: Keep still over there.
Asklund: I never seen a left hander that wasn't nutty.
Drohan: "Who's nutty, you—(cut out) by the national board of censorship."
Asklund: You—(cut out).
Drohan: You—(cut out).
Asklund and Drohan: Bang! Biff! Biewie!
*Apologies to R. W. L.

PAVERS LOSE TWO—ONE HIT OFF MILLER

Exciting Time at Cedar Rapids When Jay Battery Fights and is Chased from Park.

GALESBURG, Ill., Aug. 17.—Miller of Burlington allowed Galesburg one hit in the second game. The first game was a pitchers' battle. Seaman struck out nine, but lost, 2 to 1. Score: Galesburg.....100 000 000—1 7 1
Burlington.....001 100 000—2 6 0
Batteries—Seaman and Hruska; Burg and Rolleg.
Second game—
Galesburg.....000 000 000—0 1 2
Burlington.....100 000 000—1 4 1
Batteries—Rojas and Hruska; Miller and Rolleg.

CEAR RAPIDS, Ia., Aug. 17.—

Waterloo errors came so frequently that Catcher Askland tried to punch Pitcher Drohan's face. Both were chased from the park. A crowd of 4,703 fans paid to see the game. Score:
Waterloo.....000 000 001—1 7 6
Cedar Rapids.....033 200 000—8 11 1
Batteries—Drohan, Blenner and Askland and Evans; Brown and Lingle.

LIPTON'S YACHT TO BE TRIED ON COURSE

Shamrock IV Docked at Brooklyn Early Today—Will Test Condition of Boat After Trip.

[United Press Leased Wire Service.]
NEW YORK, Aug. 17.—The yacht Erin, towing Sir Thomas Lipton's cup challenger Shamrock IV was off Sandy Hook early today and within a few hours will be docked at the James Showan and Sons ship yard in Brooklyn. Although the races for the America's cup have been postponed until at least next year, the Shamrock IV is to be put in racing trim and tried out over the cup course. This is to be done to determine how the challenger has stood the trip over.

Remarkable Cure of Dysentery.
"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief." writes B. W. Hill of Snow Hill, N. C. For sale by all dealers.—Advertisement.

SUN IN ILLINOIS MUST BE HOT ONE

Official Report Showing Damage It Rays Have Caused, Leads One to This Obvious Conclusion.

ALL SORTS OF TROUBLE

Window Shades Are Set Afire and Church is Damaged by the Heat of Old Sol.

In Carroll county, Ill., a disastrous fire occurred on the farm of John Shoemaker, according to an official report from Illinois. A large tank of stock dip was left in the barn yard exposed to the intense rays of the July sun. These rays evidently caused sufficient heat to ignite the fumes of the stock dip and cause an explosion which destroyed a number of buildings. No other cause can be assigned to this fire. The dip exploded at a time when the sun's rays were hottest and when they poured directly into the tank and when no one was in the immediate vicinity of the fire. A report of a fire in Lawrence county in which a large church building, the property of the United Brethren church, was destroyed would indicate that the fire was caused by spontaneous combustion. This building had just been completed at a cost of \$9,000 and was all ready for dedication. The day before the dedication services were to be held a number of women thoroughly cleaned the church, and used cloths saturated with a mixture of linseed oil, turpentine and gasoline for polishing the floors and wood work. In order that these cloths might be retained for future use they were stored away in a small cupboard and evidently became ignited from spontaneous combustion and destroyed the church.

Danger from Combustion.
Linseed oil is liable to cause such a fire, especially when spread over a large surface of easily ignited material such as a cotton cloth. This oil takes oxygen from the air so fast that the heat from the chemical union will, if not carried away by movement of air, rise to such a point the fire in the rags will take fire. Then the gasoline fumes would catch fire much more easily than the fibre of the rags and the mixture used in this case made it especially dangerous.

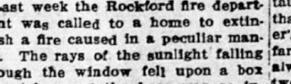

At a home in Peoria, Illinois, a window shade and sash curtain was discovered on fire during the hottest part of the day. It appeared that the rays of the sun were concentrated in a peculiar manner by the window pane which acted as a lens. The heat from this concentrated rays was sufficient to fire the window shade. The fire was extinguished with very little damage.

Last week the Rockford fire department was called to a home to extinguish a fire caused in a peculiar manner. The rays of the sunlight falling through the window fell upon a box or matches and the heat was so intense that the matches were ignited. It frequently happens in exceedingly hot places that some defect in the window glass will act as a lens to concentrate the rays of sunlight in such a manner as to cause fire and there can be no doubt that this fire at Rockford was caused in just a manner.

Costly Treatment.
"I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hines, of Whitlow, Ark. "I went to a St. Louis hospital, also to a hospital in New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right." Sold by all dealers.—Advertisement.

Gave Him A New Stomach

"There are thousands of sufferers from stomach and liver troubles whom I wish I could meet and tell what Chamberlain's Stomach and Liver Tablets would do for them," writes H. M. Youngspears, editor of the Sun, Lake View, Ohio. "One bottle of the tablets would end the trouble for most of them. I suffered intensely after eating and never felt well, and no treatment of medicine I tried ever seemed to do me any good until reading an advertisement for Chamberlain's Tablets. I tried a bottle. The first few doses gave me surprising relief, and the second bottle seemed to give me a new stomach and perfect good health. I didn't think anything would give me such a complete cure. They are wonderful."

FREE JUSTICE FOR THE POOR

Popular Reform Started in England Which Gives Everybody a Chance to Get into Court.

LAWYERS GIVE SERVICE

Taxicab Drivers of London Must go to School and be Able to Locate All the Streets.

[By Ed L. Keen, London correspondent of the United Press.]
LONDON, Aug. 17.—Free justice for the poor is the latest popular reform undertaken in England. A system has just been worked out by a committee composed of the lord chancellor and several leading judges and members of the bar whereby it will be possible for the man of little means to sue in the British courts, and have his case handled with the same care as that of the wealthy litigant, without cost.

The rush of applicants already indicates that the reform was needed and that full advantage of it will be taken. Within a week after the publication of the regulations under which this free justice will be dispensed, 2,000 persons applied for "legal assistance." Of these more than half are seeking divorces. Hitherto divorce has been a luxury available only to the well-to-do, on account of the high counsel fees and excessive costs attached to this sort of litigation.

The success of the system is assured by the generosity of some 900 lawyers who have agreed to render voluntary service. Under the new regulations the applicant merely fills up a form, stating his case briefly and affirming that his worldly resources are less than \$125. This he files with the clerk of the court, giving as references two persons who will certify to his respectability. The paper is then referred to a special committee of one or more members of the bar, who make a preliminary investigation as to the merits of the case. If the committee finds a prima facie case exists, the court then issues an order permitting the applicant to sue as "a poor man" and assigns counsel from among those on the "voluntary panel" to act for him free of charge. No court costs are assessed, and a fund is now being raised to take care of other necessary expenses, such as securing the attendance of witnesses, etc.

Unique among the varied educational institutions of the British capital is the recently inaugurated Knowledge of London school. It sprang into being as the result of a new and drastic taxicab regulations put into effect by Scotland yard. The lessons taught aim to satisfy Scotland yard that the candidate for a taxicab driver's license is prepared to pilot his fare by the best routes—which is not always necessarily the shortest—between any two points selected at random. As there are some 33,000 streets in London, and the same continuous thoroughfare may have as many as a score of names for its various sections, the necessity of considerable coaching before going up to Scotland yard for examination is apparent. Each candidate is subjected to two examinations. In the first 14 out of 18 questions concerning London's geography must be correctly answered, and the candidate is required to place correctly six squares, six clubs, six hospitals and six public buildings. In the second examination no mistakes are allowed; and the candidate is not permitted to correct an error once made.

The whirlpool idea is the latest wrinkle in futurism. Disgusted with the primitive cubic notions of Signor Marinetti, founder of the hitherto craziest of all modern art movements, a number of English artists of the advanced paint-spilling school plan to give the Italian brand of futurism a knockout blow. They call themselves Vorticists—"from vortex, you know," says their leader, Wyndham Lewis, "implying the whirlpool of everyday life." Just what this means they promise to explain later. Meantime, about a dozen of them, including Ezra Pound, American poet, have established community studios in Holborn, where they are preparing to launch the new movement.

The cities of England have no monopoly of slums. Shocking revelations are made as the result of a recent special inquiry by the local government board (a department of the national government) into housing conditions in Herefordshire, one of the most fertile agricultural districts in England. The inspectors found many persons living in stables, wash houses, and coal sheds, and some even in abandoned hen coops, while others were inhabiting tumble down and insanitary shanties that should have been condemned years ago. They found also numerous cases of over-
