

### TO MAKE FARMS MORE PRODUCTIVE

Polk County Will Vote Next Tuesday on Special Issue, How to Add to the Wealth of the Farms.

### TO EMPLOY AN EXPERT

Scientific and Unscientific Farming is Difference of Raising Sixty instead of Thirty to an Acre.

Polk county will next Tuesday vote upon the proposition to levy a yearly tax of not to exceed \$5,000 for advancing the cause of scientific agriculture, horticulture, animal husbandry and other lines of farming.

Some of the counties are already organized along this line. The object is to provide for the appointment of agricultural experts to instruct farmers in the art of intensive farming.

The means and methods by which said conspirators were to use in bringing said other common carriers beside the New Haven company under their influence—were means and methods involving certain unfair, undue, unreasonable and unlawful practices and practices of a kind to exclude others from carrying on or attempting to carry on lawful commerce.

What it Means. Scientific and unscientific farming is the difference between raising thirty bushels of corn or sixty bushels of corn to the acre. It is the difference between a soil that will not produce and one that will produce the best of everything. This applies to every form of farming.

In Blackhawk county where the plan is already in action the revenues of the farmers the first year were increased \$300,000 per year. A similar increase will be made next year. Georgia adopted the system ten years ago with marvelous results and crop failures wherever it is wet or dry are practically unknown in that state, while the productivity of the state has been multiplied from year to year.

Nine Counties Organized. Nine counties in Iowa are organized and have crop experts. Any farmer may have the benefit of the expert by becoming a member of the Farm Improvement association which is organized in accordance with a bill passed by the thirty-fifth general assembly of this state.

The experts work with the assistance of the United States agricultural department and under the direction of J. W. Coverdale, the state supervisor. They receive \$100 per month from the government for the service.

### Mystery of Submarine.

LONDON, Nov. 2.—Mystery surrounds the noted submarine U-9 which has left a trail of sunken British warships in its wake. One report from Amsterdam says that it is floating in a disabled condition fifteen miles off the coast of Holland, having snapped its propeller by getting it entangled in a fishing net. Another declares that it was caught in a net placed by a trawler but that it was able to proceed toward its home port.

### A SIMPLE WAY TO REMOVE DANDRUFF

Prevent Falling Hair and End Itching Scalp.

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy, every single dandruff you may have.

### Appetite Follows Good Digestion

Nearly everyone indulges their appetite and the digestive organs are abused, resulting in a congestion of poisonous waste that clogs the bowels and causes much misery and distress. The most effective remedy to correct this condition is the combination of simple laxative herbs with pepsin known as Dr. Caldwell's Syrup Pepsin. This is a natural, pleasant-tasting remedy, gently yet positive in action, and quickly relieves indigestion, constipation, sick headaches, belching, etc. Drug stores sell Dr. Caldwell's Syrup Pepsin at fifty cents and one dollar a bottle, and in thousands of homes it is the indispensable family remedy. For a free trial bottle write Dr. W. R. Caldwell, 451 Washington St., Monticello, Ill.

### MILLIONAIRES ARE INDICTED

(Continued from Page 1.)

carriers and maintaining the competition which rightfully should have existed between them.

The means and methods by which said conspirators were to use in bringing said other common carriers beside the New Haven company under their influence—were means and methods involving certain unfair, undue, unreasonable and unlawful practices and practices of a kind to exclude others from carrying on or attempting to carry on lawful commerce.

Said conspirators during the period of time complained of were to use certain railroads controlled by New Haven ownership or otherwise New England Tps. Co., Boston Co., Billard Co., the New England Securities Co., Eastern Sec. Co., the Pacific Co., the Chikmark Co., the Pacific Nevada Co., the St. Lawrence Securities Co., the U. S. Transportation Co., the New England Steamship Co., and the Millbrook Co., corporations and the New England Investment and Securities Co., a voluntary concern and the properties of said concerns and the influence, credit, funds and properties of New Haven company and their own funds and credits to secure by purchase all of capital stock of some rival transportation companies as majority of stock of other companies; to lease other properties, and to impose upon all of these common carriers contracts and working arrangements and induce them to engage in combinations, insuring the carrying on of all said common carriers in harmony with the designs of these said conspirators and free from the effects of competition.

### NOT FRIGHTENED BY TURKS ENTRY

(Continued from page 1.)

still retreating while notable gains are being made in Galicia and Bukovina.

### ALLIES MAKE HEADWAY.

[By Wm. Philip Simms, United Press Staff Correspondent.]

PARIS, Nov. 2.—At only one point along the entire northern front has the German right wing been able to check the slow but steady advance of the allies. This is at the Messines which has been taken by the Germans in a series of desperate bayonet charges, heavily supported by artillery. The Germans heavily reinforced made a supreme effort against the suburbs of Arras and against Lisons and Lequesnot-en-Santerre. The fighting was sanguine and long drawn out, but the Germans were finally driven back, leaving thousands of dead behind them.

The allies are making headway in the region of the Aisne having moved toward Travy-Leval and to the north of the forest of L'Aigle. Between this forest and Soissons before Vaillay, an attack was directed against the troops holding the right bank of the river but the war office declares that it was repulsed. In this connection direct issue is taken with the Germans who claim material advances at this point. The Germans have indulged in a series of night attacks here, but at no point have they been able to pierce the allied line.

In general, according to the latest confirmation from Bordeaux, the outlook is constantly improving from the standpoint of the allies. It is declared that although the enemy is bringing his heaviest artillery into play along the right center and the right wing, he has been unable to extend his battle front while the French right is moving forward and gaining ground in the Vosges.

### BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the little that calomel does but have no bad after-effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids.

It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place. Most headaches, "biliousness" and that lary feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy."

Note how they "clear" clouded brain and how they "refresh" the spirits. At 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.

### FRANCE

(Continued from page 1.)

are making progress at several points in that vicinity. The German artillery bombardment continues in the regions of Rheims, the Argonne and the heights of the Meuse, but it is characterized as generally ineffective.

### GERMANY

(Continued from page 1.)

Galicia seems to be approaching a decisive period.

"The progress of the battle in the northern French front localities is considered here as highly favorable," the statement declared. "Yesterday's report, which shows that the French have been thrown across the Aisne near Soissons and that the operations have also extended to the west front of Verdun, is regarded as the best issued in some time. Letters from the front describe the fighting between Nieuport and Ypres as probably the fiercest of the entire war. The Germans have forced their way southward by repeated night attacks. The toll on both sides is very great."

"The battle in Poland has not yet been re-commenced. In Galicia, the battle, however, seems to be approaching the decisive stage. A dispatch from Cracow says that the Russians have been thrown back across the San and have been ejected from Lesaizk whence the Austrians have pursued them twenty kilometers. The Austrian official report says the Austrians are retaining all of their recaptured positions in Galicia.

"The exploits of the Turkish fleet which bombarded Odessa and Sevastopol, destroying two Russian warships, minesweepers and several oil tanks has created the wildest enthusiasm here. "The impartial Madrid reports dangerous unrest in Algeria where the natives are refusing military service and are killing French police sent against them.

"The semi-official Echo de Bulgaria at Sofia says that the relations between Bulgaria and Turkey are splendid, both countries remembering the lessons of 1912-1913. The secretary of the king of Bulgaria went to Constantinople to confer with the Turkish officials. Leading Turkish statesmen say the declaration of England that there would be strained relations in the Balkans before long, made on October 20, shows that Turkey did not precipitate the war.

"The German government is organizing civil administrations in the French mining district of Longwy and Briey where ore pits worth 225,000,000 francs are located.

"Bitter quarrels between the French and the British at the detention camp at Darmstadt have made it necessary to separate the prisoners of each nationality from the British, including Colonel Grey, brother of the British foreign minister, having been transferred to another camp."

### ENGLAND

(Continued from page 1.)

tion between church and state so far as the Mohammedans are concerned has been greatly emphasized in the last few years and the sultan's edicts are no longer accepted. It is reported here, a new Turkish cabinet is being formed which will be made up entirely of young Turks and which will eliminate the few ministers who have opposed war. Enver Bey will remain at his post as war minister but the new cabinet will be picked by General Leman Van Sanders, the German dic-

### RUSSIA

(Continued from page 1.)

rupny promises to keep her hands tied.

The Russian forces advancing through Russian Poland continue to press back the Germans in the government of Suwalki while beyond the Vistula they have occupied Piotrkow, Opoczno and Ozarow. The Germans have now been pushed within twenty miles of their positions along the Warta river. It is declared here that when the Germans found themselves unable to move their artillery through the deep mud which marked their entire line of retreat, they buried many guns, most of which have now been recovered by the Russians. Among the prisoners captured are officers and members of the Konigsburg and Posa garisons, indicating that the Germans drew on these fortresses for men to aid the campaign against Warsaw which has ended in disaster.

### RETAKE THE TOWN.

SUCHAREST, Nov. 2.—Czerowitz, capital of Bukovina, which was re-occupied by the Hungarian troops following the withdrawal of the Russian left wing to aid in the fighting along the San, was retaken by the Russians Sunday, following a severe battle, according to a special dispatch from there today. The Hungarians, it is stated, were defeated with heavy losses.

The special alleges that during the occupation of the city by the Hungarian troops, all native soldiers of Slav or Roumanian origin, were publicly tortured and hanged.

### B. I. SALINGER.

For Supreme Judge.

Mr. Salinger has been in active practice for thirty-two (32) years, having been admitted to the bar when twenty-one (21) years of age. He served eight years as supreme court reporter and the work done by him while filling that position has never been excelled.

At the primary in June he received almost the unanimous vote of his neighbors. He lives at Carroll in the sixteenth judicial district, composed of six counties.

He has the endorsement of three former judges, two present judges and over eighty of the ninety-two lawyers of his district. He also has the unqualified endorsement of United States Judge Walter I. Smith, Joseph R. Reed, former chief justice of the supreme court of Iowa, W. S. Kenyon, United States senator, and other great lawyers of Iowa.

Mr. Salinger has had large practice in the United States supreme court, the circuit court of appeals and has presented over two hundred cases in our own supreme court. He has great economy in the law, analytical power, intense application, remarkable capacity for work and his ability to use English so that an opinion written by him would be a clear guide to the profession.

He has special fitness for supreme judge and the voters of Iowa would make no mistake in electing him to this high and honorable position.

### Turkish Cable Closed.

[United Press Leased Wire Service.] WASHINGTON, Nov. 2.—All cable communications with Turkey was completely shut off today. The state department was notified that a message which it was attempting to send Ambassador Morgenthau at Constantinople had to be stopped at London.

### THE WEATHER

For Keokuk and vicinity: Fair tonight and Tuesday, with mild temperature.

For Iowa: Fair tonight and Tuesday. Warmer in the east and cooler in the northwest portion tonight. Cooler Tuesday.

For Missouri: Fair tonight and Tuesday. Continued mild temperature.

For Illinois: Fair tonight and Tuesday, except unsettled in the north portion tonight. Warmer tonight. Slightly cooler in the north portion Tuesday.

Weather Conditions. The pressure remains high in the southeastern states, with a depression over the northern plains states, is causing continued mild temperature, and conditions indicate fair weather with mild temperature for this section tonight and Tuesday.

### LATEST MARKET QUOTATIONS

United Press Association Telegraph Market Report Over Gate City Leased Wire.

Grain Review. [United Press Leased Wire Service.] CHICAGO, Nov. 2.—The European situation looked decidedly bullish to wheat traders today and prices advanced sharply. At noon December was 3/4c and May 1 1/2c above Saturday's closing price.

Corn futures were easier at the start because of fine weather for husking, but turned higher with wheat later in the forenoon, going 1/4c to 1/2c above last Saturday's close. Oats were steady at the start and then advanced 3/4c to 1/2c, inspired by the advance in wheat. Provisions opened firm and had a sharp advance on the news that a government quarantine had been placed on the stock yards because of prevalence of the foot and mouth disease in the middle west.
