—Chicago women are facing prosecution for wearing stockings in which have been worked designs of the American flag. The stockings were manufactured by a progressive English manufacturer at the outbreak of the present war. The American women in Paris and London immediately took up the fad and displayed their patriotism every time they crossed a street. The fad is worked into the ankle of the stocking. The fad spread to this country, and at a meeting of the American Flag Day association there recently, steps were taken to prosecute the wearers of the patriotic hosiery claiming it is a desecration of the flag.
—There are no two things just alike. There are no canned fruits and vegetables just like "Palm Brand."

WHAT will your new Coat or Suit look like after you've worn it awhile?

Two garments may look very much alike when new, but it's the honest workmanship, the stitching and tailoring that cannot be seen, that give permanence and durability not only to the garment itself, but to the graceful lines you admire so much when you first put on your new garment.

Wooltex garments are famous for their perfection of style, for the beauty of the fabrics used, but especially for the superb tailoring which gives them exquisite lines and the unequalled air of refinement which you see in the garments.

And all of this good character and good looks stay with the garments, to return with all its original beauty every time the garment is pressed.

The guarantee insures the purchaser of two seasons of satisfactory wear.

COMB SAGE TEA INTO GRAY HAIR
Darkens Beautifully and Restores its Thickness and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wythe's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wythe's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.
