

MUST HAND OVER SHARE OF FEES

Two Decisions Declare One-Half of Money in Naturalization Cases Shall be Turned In to County.

FORMERLY WAS CLERK'S

From January of This Year, However, Iowa Officials Decide Money Must be Accounted For.

Half of the fees in naturalization cases, which the government has been giving to the county clerks and superior court clerks, will have to be turned back to the county, according to the ruling from the assistant attorney general of Iowa, and the decision of the United States supreme court in a test case from California.

Curtis M. Hart, clerk of the district court, received notification from John L. Bleakley, auditor of state, and J. F. Wall, that all fees from January 1, 1914, must be turned into the county.

The letter from Auditor Bleakley quotes from the decision by C. A. Robbins, assistant to the attorney general, and from the decision by the United States supreme court on the California clerk's fight.

"In view of these authorities I am of the opinion that even though our present statutes no longer fix the office of clerk in naturalization matters, yet under the general provisions requiring the clerk to account, he is required to account to the county for one half the fees in such matters which the federal laws permit him to retain."

High Court Agrees. This is the view taken by Mr. Robbins. At subsequent times other rulings were made contrary to this view, but Mr. Robbins stood firm on his interpretation of the law.

Those for and against the plan to work for a federal amendment were expecting a chance to get at each other today in the discussion on the floor. The amendment advocates are anxious for the fray.

They condemn action of the congressional committee in blacklisting Senator Lodge, declaring such action stirred his antagonism. The convention last night held a big meeting welcoming Montana and Nevada.

Leaders in the losing and winning states both told of their experiences and future plans.

Ostriches Stamped.

PHOENIX, Ariz., Nov. 13.—Three hundred ostriches stamped from an ostrich ranch near here today and swarmed over a carriage driven by Mrs. L. D. Rousseau, instantly killing the woman and both of the horses she was driving.

The huge birds became frightened at something in their stockade and started down a country road, running at full speed. Mrs. Rousseau was trampled to death and her carriage demolished.

A panic ensued on the ranches in the neighborhood and families of ranchmen fled in terror. The alarm was sent out and country neighbors

HAVE YOU CATARRH?

It's a Dangerous Disease—Hyomei is the Effective Remedy.

Catarrh, which is indicated by sniffing, frequent colds and crusts in the nose is a serious disease and if not checked surely spreads to the delicate lining of the air passages, and frequently destroys the hearing.

To cure catarrh you must have something that will quickly reach the sore tissues, kill the germs, and drive out the poison.

Hyomei is just such a remedy. Being a mixture of antiseptic oils that you breathe through a small inhaler its health-restoring medication cannot help going direct to the raw and inflamed lining of the nose and throat, quickly relieving that choked-up feeling, stopping the unclear discharges, and healing the sore spots—you breathe freely. Even the worst cases respond at once.

There is nothing for the treatment of catarrh that is easier, more pleasant or so satisfying as Hyomei. Wilkinson & Co. sell it on the "No-cure-no-pay" plan.

YOUR KIND OF HEADACHE

The headache which in addition to the pain, gives the impression of tight band about the head, is caused by nervous exhaustion. It is a blessing in disguise because it gives warning that you are over-drawing your supply of nervous energy.

Rest is, of course, desirable, but not always possible and liable to be deferred. With sufficient rest the nerves will build themselves up. Falling in this, you need something that will build them up and sustain them while they are kept moderately at work.

Dr. Williams' Pink Pills are probably unequalled for this purpose. They build up the nerves in the only possible way, by enriching the blood with the elements the nerves need.

A little book on Nervous Disorders will be sent free on request by the Dr. Williams' Medicine Co., 233 N. Y. All druggists sell Dr. Williams' Pink Pills.

SUFFRAGETTES ARE IN CONVENTION

Dr. Anna Shaw Refuses to be Shelved by Being Named President Emeritus.

in the vicinity on fast horses are trying to lasso and round up the birds.

When delegates to the National American Woman's Suffrage association gathered today for the second day of the annual convention, the atmosphere was vibrant with the clash of opinions as to methods considered best in national campaigning and also as to the reofficing of the association.

Politics today strongly had the lead in general interest, among the delegates, even overshadowing future campaign activities. The candidacy of Mrs. Desha Breckenridge, Lexington, Ky., which was put forward by the caucus that offered a compromise slate of nominations with the suggestion that Dr. Anna H. Shaw, president, be made president emeritus, is receiving impetus from southern delegates, naturally her supporters. Having just completed their sectional convention at Chattanooga, the southerners came almost in a body to Nashville and numerically are strong.

On the reverse, Mrs. Breckenridge declared she would not be a candidate unless Dr. Shaw accepts the compromise plan.

Those for and against the plan to work for a federal amendment were expecting a chance to get at each other today in the discussion on the floor. The amendment advocates are anxious for the fray.

They condemn action of the congressional committee in blacklisting Senator Lodge, declaring such action stirred his antagonism. The convention last night held a big meeting welcoming Montana and Nevada.

Leaders in the losing and winning states both told of their experiences and future plans.

TEACHER-MOTHER MAY WIN FIGHT

Superintendent of Schools Has Come Down Off of His High Horse.

NEW YORK, Nov. 13.—(With victory for teacher-mothers in sight in the fight against the school board's ruling that married teachers who remain away from their duties to become mothers be dismissed, Superintendent of Schools Maxwell today backed down from the decision to suspend and held up the decision to suspend Miss Henrietta Rodman, Miss Rodman wrote the now famous "mother baiting" letter to a newspaper for which Maxwell ordered her suspended on a charge of insubordination.

In the meantime Mrs. Laura M. Wagner, to whom a child was born eight days ago, planned to fight through the courts any effort on the part of the board of education to keep her from returning to her teacher duties on Monday. She will contend that the board's attitude that illness following maternity is unlike other illnesses in that it is voluntary, is unconstitutional.

DISEASE IS FOUND IN HANCOCK COUNTY

Foot and Mouth Epidemic Has Broken Out at LaHarpe, Ferris and Burnside.

MACOMB, Ill., Nov. 13.—The hoof and mouth disease has entered Hancock county, the disease being found at LaHarpe, Ferris and Burnside. In every instance the disease was brought in by the use of hog cholera serum in vaccinating hogs. At Scotia some hogs are sick, but plain hog cholera is believed to be their ailment. The veterinarians use every effort to prevent the spread of the disease. They wear rubber clothing and rubber gloves. After an examination of cattle and hogs is made the clothing is washed in a strong solution of bicloride of mercury. When animals are suspected of disease they are not killed at once, but put under quarantine until the nature of the disease is determined.

Y. M. C. A. ITEMS

All Young People Invited—Swift Basketball and Other Items of Interest.

In commemoration of the superstition connected with Friday, and the number 13, the Y. M. C. A. has planned a "Hoodoo social" for this evening to entertain and give pleasure and enjoyment to the young people of the city. A varied program of stunts and music has been planned to counteract or disprove the contentions growing out of the prevalent superstition that this date is a date of misfortune and bad luck. Go an' 'joy yo'self. All young people of the city have a cordial invitation to attend by the anxious management of the Y. M. C. A., as the invitation reads, "Regardless of sex, or previous conditions of servitude."

The young ladies may meet at the Y. W. C. A. and go over to the young men's building in a body. It is the desire of the social committee to draw the young of Keokuk together in closer association this winter, and to that end a number of socials and parties have been arranged, of which this is the first, and it is thought that all young people should attend the party tonight.

It is suggested that all those attending should be sure to wear a rabbit's foot or swastika on their watch chain, or carry a horseshoe in their pocket to overcome the evil tendencies surrounding such things as walking under ladders, carrying a sharp hoe through the roof, or eating at a table with just thirteen present. "If you are 'extra-superstitious,'" commands the medicine man of the hoodoo tribe, "you had better tack a four-leaf clover in your shoe as a charm against the evil eye of the black cat which you will be sure to meet."

It has been the custom of some societies to make a charge for social stunts. This party will be free to all. And the medicine man of the tribe issues this final order which is written on the skin of a rattlesnake: "Come and bring a friend with you. All are welcome." It sounds kindly, yet it is imperative. Woe be unto the girl or boy who disregards the mandate. Better look out for de black cat's eyes.

Commercial League Games. The following interesting Commercial league basketball games are scheduled to be played tonight:

Kellogg-Birge vs. the fast M. R. P. Co. team, and the Purty Oats vs. C. B. & Q. Games will be called at 8 o'clock so as to close in time for the "hoodoo social" in the auditorium of the Y. M. C. A. The league is growing in interest and it is claimed that many times as fast a game can be seen as is seen between such teams as the high school or Y team. Get in early in order to be assured of a good seat.

Going to Carthage

The Y. M. C. A. junior team will go to Carthage tonight by auto to play the Y. M. C. A. Cubs of that city. The men who are in the local team are Siefert, captain; McQuoid, McGaw, Hoffman and Meador. They are expected to bring home the bacon.

MEN SNATCH PURSE FROM YOUNG WOMAN

Hazel Reiner Reports to Police Two Men Snatched Her Purse on High Street Last Night.

That two men had snatched her pocketbook from her hands at 9:00 o'clock last night, while she was on her way home, was reported to the police this morning by Miss Hazel Reiner, 1303 Concert street. Miss Reiner said the men approached her at Eleventh and High streets, snatched her purse, and ran down the alley. She described them as being young men, short, and stout. The purse, she said, contained but one dollar.

Once a Month.

[United Press Leased Wire Service.] MADISON, Wis., Nov. 13.—Senator LaFollette announced editorially today that beginning with today's number, LaFollette's Magazine will be issued monthly, instead of weekly as

SIMPLE WAY TO END DANDRUFF

Stop Falling Hair and Itching Scalp.

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

Help the Stomach Digest Your Food

When the stomach fails to digest and distribute that which is eaten, the bowels become clogged with a mass of waste and refuse that ferments and generates poisons that are gradually forced into the blood, causing distress and often serious illness.

Most people naturally object to the drastic cathartic and purgative agents that shock the system. A mild, gentle laxative, positive in its effect and that will quickly relieve constipation is Dr. Caldwell's Syrup Pepsin, sold by druggists at fifty cents and one dollar a bottle. It does not gripe or cramp, but acts easily and pleasantly and is therefore the most satisfactory remedy for children, women and elderly persons. For a free trial bottle write to Dr. W. B. Caldwell, 451 Washington St., Monticello, Ill.

In the past. The announcement said that the change was made for reasons similar to those that led Bryan's Commoner to take the same step. By publishing monthly, said Senator La Follette, the magazine could be enlarged to include new features.

SHIP ON FIRE OUT AT SEA

Five Hundred Arabian Soldiers Are on Board, Beside Other Passengers.

[United Press Leased Wire Service.] CATANIA, Nov. 13.—The steamer Citta Di Savena, with 800 passengers on board, is burning in the Mediterranean, and three Italian ships are rushing to her assistance in response to wireless calls for help which were received last night. The passengers aboard the burning ship include 500 Arab soldiers from the Italian colony at Erytres.

The Citta Di Savena sailed from Port Said for Naples late Thursday. Last night a wireless was received from her, stating she was burning, and assistance was needed immediately. The urgent plea for help was answered by the steamers Estella and Valparaiso and the torpedo boat Saffa. Last communication with the vessel was had at midnight. She then stated she was 150 miles from land.

Declare War on Colds.

A crusade of education which aims "that common colds may become uncommon within the next generation" has been begun by prominent New York physicians. Here is a list of the "don't's" which the doctors say will prevent the annual visitation of the cold:

- "Don't sit in a draughty car."
"Don't sleep in hot rooms."
"Don't avoid the fresh air."
"Don't stuff yourself at meal time."
Over-eating reduces your resistance."
To which we would add—when you take a cold get rid of it as quickly as possible. To accomplish that you will find Chamberlain's Cough Remedy most excellent. Sold by all dealers.—Advertisement.

KEOKUK PREACHER HOLDS REVIVAL

Rev. E. LeRoy Steffy of M. P. Church is Conducting Series of Sermons at Church.

[Contributed.] The revival meetings in progress in the First Methodist Protestant church, corner Twelfth and Exchange streets, is increasing in interest at each service. The congregations have been steadily growing, and a feast of good things has been found in each service. The pastor, Rev. Steffy, is doing the preaching, and is fearlessly and without favor, preaching the gospel truth. The revival is one in which the preacher is denouncing sin, not in a sensational way, neither in a way to appeal to a man's emotions alone, but in a way to appeal to his intellect. The subject of the sermon this evening will be, "Come, Tarry, and Go." If you are without a religious service in your own church tonight, come and worship with us, and if you are without God in the pardon of your sins, come and be convinced of your duty to yourself, your fellow man, and your God.

Cotton at the Ball.

[United Press Leased Wire Service.] NEW YORK, Nov. 13.—If anyone, up to this time, has the idea that cotton is not king, it was dispelled today. So far as researches into the history of Gotham show, no one ever has forced New York's "younger set" to discard silks and satins and velvets—that is, not until last night when the New York Southern society held its annual ball at the Waldorf. Those who were on duty last night said they had never seen anything like it, before, for a rustling silk, clinging satin or low cut velvet gown was an oddity on the floor. Nearly every woman wore a cotton dress. The men wore cotton gloves and cotton rolls as boutonnières and many of the girls wore cotton ornaments in their hair, some with jewels sparkling from the snowy whiteness. It was the New York Southern society's cotton ball.

11-13-14 and Friday at That

Did your furnace smoke this morning? Did your office boy smite you with a paper bad meant for his particular enemy, the book-keeper? Did your automobile buck, and refuse to go, no matter how much you coaxed? Was your mother-in-law more peevish than usual? Did everything go wrong? Well, it's no wonder. This is hoodoo day. It is Friday, the thirteenth, all day. So, whatever happens, just lay it onto the day.

Y.W.C.A. NOTES

Vesper Service. The vesper service for next Sunday will be in charge of the gymnasium department. Different classes are taking charge of the various parts of the program. Special work is being planned and Miss Nutting, the physical director, has taken for her subject, "Our Gift to God." It is hoped that not only the gym girls will be at the service, but as many more of the girls and women of Keokuk as possible, to get the larger and more vital view of the work which will be given at that time.

Basketball Game.

An interesting basketball event will be played at the Y. W. C. A. building this evening between the advanced business girls and the high school girls' team. The girls are advancing rapidly in basketball and some excellent playing is expected in this contest.

FIREMEN'S CONTEST IN GOOD OLD DAYS

Neptunes of Warsaw Competed With Unions and Rollas of Keokuk on July 4, 1868.

In the column "Days Beyond Recall" in the Warsaw Bulletin, the following story of the firemen's tournament in Keokuk in 1868 on July Fourth is to be found:

July 10, 1868: The 4th of July was celebrated in various ways and at various places by our citizens. At home the Germans held a picnic in Roosevelt's grove, and in spite of the heat, a large number attended. There was a large picnic at Sanford's grove and another at Wild Cat Springs. Many went to LaHarpe, where the program embraced a parade including representations of states by girls and other features; there were a number of speeches, a baseball game, etc. The firemen and a large number of citizens went to Keokuk, the Neptunes participating in the firemen's tournament. The Union hand engine company of Keokuk threw water through hose 172 feet; the Rolla company tried to beat this and fell short; the Neptunes of Warsaw made a record of 180 feet. The Warsaw boys felt highly elated over their victory. The Young America steam engine threw water through an inch and a half nozzle a distance of 180 feet.

May Study Agriculture.

[United Press Leased Wire Service.] YOUNGSTOWN, Ohio, Nov. 13.—An agricultural high school amidst the grime and dirt of Youngstown's steel and iron foundries is the plan that Dr. N. H. Chaney, Youngstown physician, will bring before the school board here today.

"My desire," says Dr. Chaney, "is a high school course to include an academic curriculum with special instruction in agriculture. I want to prepare children of the city for occupations which will take them into the pure wholesome air of the country and develop them into sturdy, self-reliant men and women."

Dr. Chaney's plan as submitted to the board contemplates a sixteen room building with ample farm land adjoining on the outskirts of the city. The course would include four years of academic and practical farm training.

A Hint for Coming Maternity

In a little book designed for expectant mothers more complete instruction is given in the use of "Mother's Friend."

This is an external embrocation applied to the abdominal muscles for the purpose of reducing the strain on ligaments, cords and tendons. It serves to ease the mind, indirectly the nervous system and thousands of women have delightedly told how they were freed of nausea, had no morning sickness and went through the ordeal with most remarkable success. "Mother's Friend" has been growing in popular favor for more than forty years. In almost every community are grandmothers who used it themselves, their daughters have used it and they certainly must know what a blessing it is when they recommend it so warmly. It is used very successfully to prevent caking of breasts.

"Mother's Friend" has been prepared in the laboratory of Bradford Regulator Co., 304 Lamar Bldg., Atlanta, Ga., for more than two generations and can be had almost any druggist from coast to coast. Write to-day for the little book.

French Fans Christmas Importations. From Paris and Vienna come the clever things in Christmas Fans and our 1914 importations offer many unusual gift suggestions. Feather Fans in all the new shades—Petrole Blue, Russian Green, Tete de Negre, Lavenders, White. Hand painted and Point Lace Fans in the most charming foreign born shapes and designs. Killed by Automobile. [United Press Leased Wire Service.] DES MOINES, Iowa, Nov. 14.—Hiram Chesley, eighty-one years old, father of O. G. Chesley, president of the Des Moines Mutual Hall and Cyclone Insurance association, and a wealthy farmer of Blue Earth, Minn., was struck by an automobile driven by John Cavanaugh, president of the German Savings bank, and died an hour later at Mercy hospital. Banker Brought Back. [United Press Leased Wire Service.] NEWTON, Iowa, Nov. 13.—L. Sherman, former president of the defunct bank at Sully, reached here today in charge of Deputy Sheriff Grove, who brought him from California to answer to an indictment charging him with cheating by false pretenses. He was released on \$5,000 bonds to appear for trial at the December term of court when he will be given a chance to explain what became of \$56,000 of the depositors' money which Trustee Macy says was given in exchange for worthless stock in a California corporation and mortgaged Canadian lands. Sherman's brother, arrested some time ago, is also under indictment. —Read The Daily Gate City, 10 cents per week.
