

MILK THAT IS SAFE TO USE

That is what the people are getting when they use milk from the A. and V Sanitary Milk Company. All milk that goes from our plant is thoroughly pasteurized, heated from 140 to 150 degrees Fahrenheit. All bottles and cans are thoroughly sterilized, in fact every precaution is taken to insure good, clean, sanitary service. November 10th, there appeared an article in the St. Louis Republic, in which Dr. Starkloff, health commissioner makes this statement.

"Milk properly pasteurized is absolutely safe so far as the transmission of diseases are concerned. Test made by bacteriologists here and elsewhere demonstrate that disease producing germs cannot survive the process." He further states that the only way the housewife may be assured that her milk is free from disease producing germs is to obtain her milk from dairies she knows properly pasteurize every drop of milk they supply to customers.

The last public test as shown by your local inspector showed our concern used something over 6,000 gallons of milk for the month ending, and the test was 380. Compare this with others and then decide if you are not getting milk much better than the average, and another thing, we are selling 12 quarts for \$1, delivered to your door, but we do not guarantee this price much longer as it is impossible to sell a good grade of pasteurized milk at this price and make money. By inquiry we find most all cities are getting from 10 to 12 cents per quart for such milk. We solicit a part of your patronage, and will do our best to please you both in service and quality. Our driver, perhaps, passes your door every day.

SUIT FOR DAMAGES HAS BEEN FILED

Quincy People Bring Action Against Gillers of Warsaw for \$5,000 for Accident.

Yesterday afternoon in a suit for damages filed in the office of Circuit Clerk Erdo W. Beey, by Clarence Schwartz of this city, through his next friend, Joseph Schwartz, W. J. Giller, Florence Giller and J. H. Giller, part owners of the Poper & Giller brewery in Warsaw, are made defendants in the sum of \$5,000, says the Quincy Journal.

The claim is set forth that Clarence Schwartz is a minor child of Mr. and Mrs. Joseph Schwartz of 1818 Spring street, and several weeks ago while riding a bicycle near the corner of Fourth and Maine streets, was struck by the automobile owned by the named defendants. At that time they were occupants of the automobile.

The lad, it is claimed, was removed to his home and at that time it was thought that his injuries were minor ones, but it has since developed, according to the declaration, that internal injuries resulted.

While the Warsaw party was en route to Quincy the same day of the accident, Mr. Giller's mother, who was in the machine, was thrown to the top of the auto, when it hit a bump in the road, and she suffered an ugly wound to her head.

In returning his campaign expense statement to the county auditor, W. D. Patterson of Keokuk, whose name appeared on the ballot as progressive candidate for county attorney, enclosed the following note:

"I wish to say that my name appeared on the official ballot for the office of county attorney of the progressive party, but I had no official knowledge of this nomination and, of course, made no acceptance of same, was not a candidate on the primary ballot and took no part in any convention and was not a candidate for this office. I should think official notice and acceptance of a nomination would be essential."

AT THE GOVERNORS' BANQUET.

[United Press Leased Wire Service.] MILWAUKEE, Wis., Nov. 14.—Governor David R. Walsh, democrat, of Massachusetts, tonight warned Wisconsin people against being too hasty in repudiating "progressive politics." He was one of the speakers at the governors' banquet in a local hotel. He added that he was surprised at the overwhelming defeat of constitutional amendments in this state at the recent election.

"I have heard a good deal of murmuring against the cost to maintain the Wisconsin idea," he said, "but you ought to be proud of your state. Its form of government is providing a model for other states."

WILSON STROLLS ON GREAT WHITE WAY

Little Jaunt on Broadway Soon Attracted an Enormous Crowd.

[United Press Leased Wire Service.] NEW YORK, Nov. 14.—President Wilson took in the "Great White Way" tonight, accompanied by Colonel E. M. House, whom he is visiting here. Dr. Cary Grayson, his aide, and secret service men, he viewed the landscape over, along Broadway between Fifty-third and Thirty-fourth streets. He was recognized numerous times and forced to bow his acknowledgement of cheers and Broadway hasn't had such a thrill for a long time—and Broadway is real blue. The president left Colonel House's residence shortly after 8 o'clock. He made a big line for Broadway and strolled down the famous thoroughfare at the time when the lights are brightest. He reached Forty-sixth street before Broadwayites suspected his presence. There a crowd formed. It grew with every step he took. Passersby returned the president's nod of greeting and then joined the procession. At Forty-third street the following had grown in proportion. There his eye was attracted by Mrs. Florence Harmon who was making a suffrage speech. He listened a few seconds, until gallantry told him he was attracting more of a crowd than the fair speaker. Then he moved on. As he reached Thirty-ninth street he caught the impassioned tones of a socialist orator discussing the Mexican situation with a sidewalk audience and he stopped again for a moment. But by this time the crowd was becoming too big for comfort. Hurrying along Broadway and cutting across Thirty-fourth, the president slipped into the Waldorf while the crowd that followed him cheered and demanded a speech. He sped upstairs on an elevator, walked across the building and emerged on the Forty-third street side unnoticed. The party then went out in comparative quiet on Fifth avenue. There a few recognized him, Dr. Grayson—with the omnipresent secret service guard—walked down to Madison square. There the party boarded a Fifth avenue bus. The president alighted at Fifty-third street and went back home.

The president had the thrills of Haroun Al Raschid of Arabian Nights fame, during his evening jaunt. Just a few minutes before he entered Colonel House's apartment in Fifty-third street, two "bums" engaged in a lively street brawl, one of them being knocked down. A woman who was accompanying one of them, screamed until the street echoed and as the president passed to enter the apartment, the woman was weeping. One of the men had his arm around the girl. This president glanced across, but passersby speaking to him attracted his attention and the incident passed. Just a few minutes later, while the president was on Fifth avenue, near Twenty-eighth street, he stopped to look at a portrait of Mrs. Wilson, which was exhibited in Marceau's, a photographer's. And during those few minutes, everyone was quiet.

The president reached his apartment about 10 o'clock and retired immediately.

RALPH CONNOR'S BIG NEW BOOK "THE PATROL OF THE SUN DANCE TRAIL"

The most popular hero ever created by the famous author of Black Rock, The Sky Pilot and The Doctor is Corporal Cameron, hero of the book of that name, The Patrol of the Sun Dance Trail is a new story of Cameron, though it is entirely independent of the other.

Here is the great brave book into which Ralph Connor has put his best, most intense writing, and in which he has—and seizes—his biggest chance for strong drama. It is the story of a savage uprising of Indians and half-breeds, through which the Northwest Mounted Police fight for home and country against tremendous odds—the real, inside story of the actual Louis Riel rebellion, now first revealed.

Here is the sheer gold of Corporal Cameron's wedded love, Married to Mandy, the brave girl of the frontiers, Cameron has left the Northwest Mounted, and on the Big Horn ranch, in the purple shadows of the Rockies, he lives a life that is the most perfect idyl man can know. Crisp winds from the snowy peaks, the roaring

fire-place at night, leaping rivers filled with trout, perfect freedom, honest work, the noble love of a virile man and a clean woman—such is their life. There comes the sinister Indian rebellion led by Copperhead, the Sioux plotter. Ranches and hamlets are threatened with horrible death; the Dominion needs action quick and sure. The gallant little band of the Northwest Mounted is driven to death. They must have Cameron to patrol the perilous Sun Dance trail. And, backed by the true heart of his wife, he answers the call.

From here the story rises step by step, through an exciting narrative of man's endurance to a climax of intensity. How Cameron finally won out, makes Connor's biggest, surest, most interesting tale.

Through the Patrol of the Sun Dance trail, an exquisite minor note, runs the shy young love of Cameron's girl sister, little Moira, from the glens of Scotland, which—but that is the unexpected end of this story, tender and true and strong—Ralph Connor's triumph.

are the negroes, to a large extent, in the south. But no longer this would concern Japan. They would have passed from her jurisdiction. What the Japanese bill insist on when this question is put up to the state department as it surely will be in the near future, according to the belief of the Japanese embassy, is that Japanese either be given the right to become American citizens or the flow of immigration into this country should be checked by closing the door to immigrants of other nationalities as well.

JAPANESE QUESTION IS NOT FORGOTTEN

Country is Too Busy Fighting the Germans to Give it Immediate Attention.

[United Press Leased Wire Service.] WASHINGTON, Nov. 14.—Were it not for the fact that Japan is involved in the war, a strong request for final action by the government on the Japanese alien land question would be made by Japan, it was said tonight by a high diplomatic source close to the Japanese embassy. As it is, the tension has been severely strained as a result of the elections in California and Washington. A majority of the members chosen for the California legislature are said to be anti-Japanese with the result that it is likely an amendment will be passed to the alien land law which will not only bar aliens from owning land but even will bar them from leasing it.

Japan does not care for the individual who wishes to settle in this country, but she does object to her constant excuse furnished to her on "jingoists" by this discrimination against her people, according to the same authority. Once the Japs were permitted to become citizens of the United States under the same terms as those offered men of other nations, the Japanese would view with indifference any discrimination which might be practiced against them. That would be absolutely the problem of the new citizenized Japs. It is pointed out the Japan-se-American might be denied the ballot, as

TORTURED AGED RANCHER.

[United Press Leased Wire Service.] MARSHFIELD, Ore., Nov. 14.—Charged with having beaten and tortured with fire Frank Cuean, an aged rancher, living alone in the isolated Moon Lake district north of here, and robbing him of \$400, Ray S. Bunc-

day, was arrested at Gardiner late today. Cuean is in a critical condition. Last night a man appeared at Cuean's lonely cabin and asked for food and shelter. He was invited into the cabin by Cuean who shared his bed with him. Late in the night Cuean, it is alleged, was attacked by the man he had befriended and was beaten into insensibility with a club. His cabin was then searched but nothing of value was found. It is alleged the visitor, after Cuean regained consciousness, poured kerosene on the bed upon which the rancher was lying, set it on fire and allowed the flames to envelop his body until he revealed the hiding place of \$400.

Wonder if She Did?

CHICAGO, Nov. 14.—Judge Caverly ordered Emil Schlinger to write the combination to his safe, holding \$1,000 when Schlinger's wife swore this afternoon that he failed to support her. "Now," said the court, handing the paper to Mrs. Schlinger, "go home and help yourself."

"The Black 29." CHICAGO, Nov. 14.—A raid on a south side flat, where detectives said to have found several high school youths and a number of girls engaged in a risqué tango party, it was reported tonight, started the investigation that led to the suspension from school today of more than a score of high school boys and girls of prominent south side families. A secret society of school youths known as the "black 29" is said to have occupied the flat. The girls came from a nearby dance hall and beer from several breweries. Detec-

SALTS FINE FOR ACHING KIDNEYS

We Eat Too Much Meat Which Clogs Kidneys, Then the Back Hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Stock Yards to Open.

[United Press Leased Wire Service.] CHICAGO, Nov. 14.—Final preparations were made tonight for the reopening of the Chicago stock yards Monday at the expiration of the ten day period of quarantine because of the foot and mouth disease.

"I expect a good run of cattle Monday morning," said President Leonard of the U. S. Yards and Transit company. Farmers have been notified to ship cattle in sealed cars for immediate slaughter only. There will be no transshipments from here.
