### The Memory of the Heart.

If stores of dry and learned lore we gain,  
We keep them in the memory of the brain;  
Names, things and facts—whatever we  
knowledge call—  
There is the common ledger of them all;  
And images on this cold surface traced  
Make slight impression and are soon effaced.  
But we've a page more glowing and more bright  
On which our friendship and our love we write,  
That these may never from the soul depart,  
We trust them to the memory of the heart,  
There is no dimming, no effacement there,  
Each new pulsation keeps the record clear:  
Warm, golden letters all the tablet fill,  
Nor lose their lustre till the heart stands still.

—Daniel Webster.
