—The last of the material for taking the 1915 state census was sent out yesterday afternoon by A. U. Swan, director of the census. Every assessor in the state has been given cards on which to register the name and date regarding every resident in Iowa, together with blanks for reporting to the state as the work progresses. On January the work of taking the census is expected to be begun in all rural districts in Iowa. It may also begin in the cities, but the instructions contain a suggestion that a little delay may be proper in cities so as to give the legislature time to consider a bill to postpone taking the census in cities until May or June.

POWELL ELECTED CAPTAIN OF CO. I

Smith Hamill Named as First Lieutenant at Meeting Held Last Evening.

Clarence E. Powell was elected captain of Company I at a meeting in the armory last evening. Smith Hamill was made first lieutenant.

Captain Powell is the greatest booster of the local national guard company and members feel certain that they have placed the organization in the hands of a capable man. He is also an excellent shot and will probably be heard from at the next encampment.

A campaign for new members will be launched after the holidays.

PLENTY OF LABOR FOR ICE FIELDS

Understood That Contractors are Having No Trouble Getting Men to Pick This Cold Crop.

Cutting ice may not be an alluring job, but nevertheless it is said that the ice men of Keokuk are having little trouble in getting men for the work. This gathering in of the frozen crop takes a large number of men and it is believed that this year there will be no trouble.

There have been a number of men out of jobs during the summer, and fall, and the work on the ice fields is welcome to many of those who have not been able previously to find work.
