

PARENT TEACHERS MEETING IS HELD

Three Speakers Discussed Matters of Considerable Interest in Life of Child at Session in High School Yesterday.

RESOLUTIONS PASSED

Memorial for Dr. A. B. Hughes Who Was Always Interested in the Association, to be Presented by Committee.

The Parent-Teachers association held a postponed meeting yesterday in the assembly room of the high school with about one hundred present.

It will be noted that Mrs. Beardsley's paper has been changed from the March to the February meeting.

Character Building. Mrs. R. L. Rife spoke on Character Building, prefacing her paper by saying that it is a hard matter to build the character of a child in fifteen minutes, even in theory.

Responsibility is important. "Responsibility is another important element in child character. He should feel the responsibility of regularity at school and the responsibility of returning promptly and directly from school."

While everything contributes to the building of the child's character, the burden of the responsibility rests with the mother. She closed by saying: "We shall one day see that the most private is the most public energy, that quality atones for quantity, and grandeur of character acts in the dark and succors them who never saw it."

Mrs. O. W. Weyer had for a subject "Art and Literature in a Child's Life." She said in part: "We cannot emphasize too strongly the need for good examples of art as the constant environment of the child. The contemplation of that which is beautiful stimulates, soothes, elevates and educates the child. There is an instinctive response in children to that which is beautiful. They will turn instinctively from pictures representing the hideous in form to pictures of peaceful landscapes, animals and flowers. The art we give a child should deal with subjects he can appreciate, those adapted to his phase of development. In each child's room should be a reproduction of a masterpiece, a madonna and child is always a beautiful subject for this purpose."

Great Magic in Color. "Color is a great magic in these early years and should have a distinct place in the art training of every child. While pictures true to art, refine, what about inartistic pictures that violate every canon of good

Dandruff Surely Destroys The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it.

There are pictures in show windows, on advertising boards and in moving picture shows which leave an impression on the child. To keep a child away from a demoralizing picture is of even greater importance than that of set before him fine art.

Each of the arts has its own peculiar excellence, but literature is the most accessible. A book often produces a more lasting impression upon the character of a child than a close companion does. President Eliot says: "There are bits of poetry learned in childhood which have stood by me in keeping me true to my idea of duty and life. Rather than lose these, I would have missed all the sermons I ever knew."

Following the reading of the papers, an open discussion was held in which Mrs. L. H. Ayer Sr., Mrs. Lillian McDowell, Professor Hayden, Mrs. H. L. Reid, Miss Helwig and Superintendent Aldrich took part. Tea, cheese sandwiches and wafers were served by Mrs. George Bunner assisted by a number of young girls.

GOLDEN WEDDING WAS CELEBRATED

Mr. and Mrs. Smith Van Ausdall of Sandusky were surprised by Their Children Yesterday.

Mr. and Mrs. Smith Van Ausdall were pleasantly surprised by their children, in honor of their golden wedding anniversary. The children with their families gathered at their home with well filled baskets, making the day one to be long remembered by this worthy couple.

CHARLES BEVERING DIES IN TEXAS

Brother of Ed. J. Bevering of This City Passes Away Suddenly in South.

Ed. J. Bevering received word today of the death in Henrietta, Texas, of his brother Charles Bevering. No particulars concerning his death were available in the telegram announcing his passing. The body will be brought here for burial.

E. R. COCHRANE'S FATHER IS DEAD

Local Man Received Notice of Sudden Death at Columbus, Ind., Yesterday Afternoon.

Edgar R. Cochrane left this afternoon for Columbus, Ind., called there by the death of his father, James Cochrane. Mr. Cochrane was informed last night of the death of his father, which occurred at 5:00 o'clock. No particulars were given concerning his passing. Death was believed to be sudden, as no information concerning his illness had been conveyed to his son here.

Iowa's Good Record. Marshalltown Times-Republican: Keep this in mind when speaking and thinking of the Iowa legislature and Iowa administration of the last decade or more—there hasn't been a real scandal in the state since—but let byzance be byzance.

A Sympathetic Suggestion. St. Louis Argus-Leader: Misery loves company. Hence, we are glad to note that Iowa is about to take on the initiative and referendum. To get the real benefit of the change, Iowa should put the percentage low.

AMUSEMENTS.

"The Wishing Ring" at the Grand. Arrangements have been made by the management of the Grand with World Film Corporation for the Schuber-Brady productions of their stage successes in photoplays. The first number, "The Wishing Ring," in five parts, will be presented tonight at the regular 5c and 10c prices, as a special introduction.

The following is a synopsis of the play, which will be shown at 7, 8, 9:15 tonight: Sally's father was the parson of a poor church. Sally, though in rags, had artistic instincts, and in order to get flowers for the church vases she invaded the garden of old Annesley and gathered them without formality of asking permission. Annesley was annoyed at the mysterious disappearance of his pet flowers, and in a quarrel with his gardener received the old servant's apron in his face. Giles, son of the gouty Earl of Bateson, is expelled from his college because of his boyish instincts of mischief. His father places him in the hands of a private tutor from whom he escapes. Annesley gives him the gardener's apron and puts him in charge of his roses. Sally makes another raid, is caught by Giles, but Giles takes pity on her and her poor little roses, and their acquaintance ripens into friendship. During one of their walks together they happen on a gypsy camp. One of the gypsies tells Sally that she will marry a nobleman's son and presents her with a wishing ring. Naturally superstitious, Sally construes coincidences as replies to her wishes. Her attempts to bring father and son together when she finds who Giles is, and her many curious adventures, form a beautiful and touching story, a real "Peg O' My Heart" of the films. The ending is the happy marriage of the young lovers, and in acting the story, the pictures will please and move you.

The second episode of "Runaway June" promises some greatly interesting situations. It will be shown this week on Friday, with matinees at 3 and 4 o'clock, evening at 7, 8, 9. Free souvenirs will be distributed at the matinees.—Advertisement.

Colonial. An entire change of program, both vaudeville and pictures at the Colonial theatre tomorrow, matinee. See Ida Burns, the great comedienne. Harry & Nelson, the singers and dancers, in their great tango dancing act where the lady dances the tango up-side-down. The only act of its kind in vaudeville. Slager & Estelle, entertainers of class—they'll make you laugh. A special attractive picture bill will be shown. Come to the Colonial, a big show, all for a dime.—Advertisement.

No Pain at Operation. [United Press Leased Wire Service.] CHICAGO, Jan. 27.—Physicians were today deeply interested in the application of scopolamin-morphine, heretofore used only as the twilight sleep for child birth, in an operation on a man for appendicitis. The operation, said to have been a complete success in every way, was performed by Dr. Chas. H. Parkes, in Shoridan Park hospital. The patient was the Rev. John Albert Johnson, pastor of the American Reformed church, of Norwood Park. Dr. Parkes used three injections of scopolamin-morphine at intervals of an hour, before operating. The patient said he felt no pain.

GOVERNMENT IN BUTTON INDUSTRY

Breeding of Mussels in River is Now Attracting Attention of Federal Authorities Who Establish Laboratory.

REALLY NEW INDUSTRY

It Has Been Found That Mussel Is In Reality a Parasite in Its Growth, Especially One Species.

The government of the United States has gone into the business of breeding pearl buttons. That, at least, is what the latest venture of the bureau of fisheries comes to in the long run, although it is the button material rather than the buttons themselves that result from this new field of administrative activity. In an illustrated article, the December Popular Mechanics magazine says: "Within the last few years the so-called 'pearl' button—really made of mother-of-pearl—has displaced almost completely all other kinds of buttons for the white garments of both sexes in America. One does not have to be very old to remember when the only cheap button in general use was made of porcelain. Today the old fashioned 'china' button has almost entirely disappeared. The change came about through the discovery that the shells of the fresh water mussels which abound in all the rivers and streams tributary to the Mississippi are the best of all raw material for button manufacture—easily worked, cheaply gathered, and in apparently inexhaustible quantities.

A short time ago, however, the alarming discovery was made that the mussel beds are giving out. The shell fish were not reproducing themselves as rapidly as they are being made up into buttons. The federal government stepped in and established limitations to the dredging of mussels to certain streams. Still the supply continued to diminish in spite of the known wonderful fertility of the parent mussels. So a more careful scientific study was made by biological experts employed by the government, and some curious and interesting facts in the life history of the mussels were disclosed.

The diminution in the supply of pearl button material, it was discovered, was due to the destruction of fish in the rivers. "It was learned that in its early stages of development the fresh water mussel is a parasite, its existence depending largely upon its ability to fasten itself in the gills or fins of a fish. Certain kinds of the mollusk attach themselves to only a particular kind of a fish. The 'niggerhead' mussel, for instance, one of the most prolific and valuable varieties, is parasitic to river herring almost exclusively, and the partial extermination of this fish has had a material effect upon the natural reproduction of mussels. With this and similar information as a guide, the government has now established a research laboratory a few miles from Muscatine and has gone into the business of mussel farming."

Every one I think wants to avoid a session after March 4, held solely for the purpose of passing appropriation measures scheduled for this short session, but which might be blocked by an unbroken filibuster. I can see no good in the shipping measure and my opposition to it is unalterable.

Judge Taft refused to be drawn into any political argument. He flatly refused comment on Wilson's Indianapolis speech. Sixty-five points below weight as president, Judge Taft appeared in perfect condition. He looked happy in his role as college professor and private citizen. Moreover, he smilingly said he was. He is traveling alone with a hand bag and a suitcase, and apparently enjoying his freedom from secret service men.

The shipping bill was the only public question which he would discuss for publication.

Only One "BROMO QUININE" Whenever you feel a cold coming on, think of the full name, LAXATIVE BROMO QUININE. Look for signature of E. W. Grove on box. 25c.

Bryan's Job Hunting Letter. Boston Herald: What Bryan said is the merest commonplace of politics. The chief trouble is that it does not look very well for a secretary of state to say such things, particularly when the cost of the enterprise falls on an impoverished and dependent people.

Duffy's Assists Stomach. MR. PHILIP TREUDE "I have used Duffy's Pure Malt Whiskey for five years and find it the best medicine and tonic I can take. I was often troubled with stomach and bowels, and my position on the cars is very trying on the nerves, but now I feel fine every day, and I can heartily recommend Duffy's Pure Malt Whiskey as the finest medicine that can be used for the stomach." Philip Treude, 1838 Albert St., Phila., Pa.

Duffy's Pure Malt Whiskey. is a medicine for all mankind, which favors able influences weak digestion, increases the appetite, corrects faulty assimilation of food, gives force to the circulation, and brings restfulness to the nervous forces. Why don't you "Get Duffy's and Keep Well?" Sold by most drug-gists, grocers and dealers, \$1.00. If they can't supply you, write us. Medical booklet and doctor's advice free, if you write. The Duffy Malt Whiskey Co., Rochester, N. Y.

A Valuable Suggestion

IMPORTANT TO EVERYONE

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

During the winter months especially, when we live an indoor life, the kidneys should receive some assistance when needed, as we take less exercise, drink less water and often eat more rich heavy food, thereby forcing the kidneys to do more work than Nature intended. Evidence of kidney trouble, such as lame back, annoying bladder troubles, smarting or burning, brick-dust or sediment, sallow complexion, rheumatism, may be weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

Many physicians claim that an herbal medicine containing no minerals or opiates has the most healing influence. An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp-Root.

You may receive a sample bottle of Swamp-Root by Parcels Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Keokuk Daily Gate City.

TAFT IS OPPOSED TO SHIPPING BILL

Former President Hopes Filibuster in Congress Will Result in Killing It.

[By Perry Arnold, United Press Staff Correspondent.] [Copyright, 1915, by United Press.] NEW YORK, Jan. 27.—Determined opposition to the administration shipping bill pending in the senate, was declared here today by Wm. Howard Taft, former president. In an interview with the United Press, he also vigorously commended the filibuster against the bill, led by Senator Burton of Ohio.

"I am positively opposed to the shipping bill," said the former chief executive. "Do I think it will pass? That seems to depend now on the success of the filibuster."

Judge Taft passed through this city from New Haven early today on his way to the University of Virginia to deliver a lecture. He is intensely interested in the shipping bill in its relation to commerce and economic conditions.

American private capital will certainly not be invested in business which comes in competition with the government," Taft said. "That is exactly the situation presented in the shipping bill. I am vigorously opposed to government ownership in any form. I have had some experience with a type of government ownership—the Panama railroad, and the Panama steamship line. But they were of a different character."

"I agree with Senator Root. I do not know how long the republican filibuster in the senate can prevent passage of the bill—but Senator Burton has had considerable experience as a filibuster. It also depends on the extra session."

LATEST MARKET QUOTATIONS

United Press Associations Telegraph Market Report Over Gate City Leased Wire.

Grain Review. [United Press Leased Wire Service.] CHICAGO, Jan. 27.—High freight rates on Argentine grains and a heavy foreign demand sent wheat to still another record high price today. At noon the market receded 147¢. At 1:00 the market receded 147¢ and 1 point up over yesterday's close at today's opening. Scattered offerings and strong buying demand caused advances early. Later there were slight recessions, followed in turn by demands that sent prices skyward at 12:15. May wheat had gone to 148 1/2. July futures continued their higher trend, touching 133 1/2 at one time.

Much cold weather, foreign buying in quantity and the action of wheat, tended to send corn prices up. Corn was up 1/4 over yesterday's close at the start and later went still higher. Then came recessions which caused prices to fall back to the opening for May and up a fraction over the opening for July options.

Oats opened unchanged and 1/4 up over yesterday's close. Water advances sent May oats prices up 1/4 while July futures were unchanged over the opening.

Provisions, starting lower than yesterday's close, were affected by the grain advances and were generally higher.
