CAN NOT FIGHT EASTER SUNDAY

Johnson-Willard Bout Is Postponed Until Following Day at Request of President Menocal.

Promoters Announce Seat Sale Already Has Reached $40,000—Principals Take Up Work.

SIXTH POSTPONEMENT

[United Press Leased Wire Service.]
HAVANA, March 27.—Postponement of the Jack Johnson-Jess Willard world's championship fight from Easter Sunday to Monday, April 5, tonight brought to a halt of "hoodoo" talk. Willard refused to take any stock in the hoodoo stuff. Neither did Johnson—publicly. But hangers-on at the big "digger's" training camp declared that Johnson was somewhat worried over the string of postponements, the decision today to put over the fight one day being the sixth since the big battle was broached.

Strong protests from both Cuba and the United States, the promoters admitted tonight, caused the last postponement. A "request" amounting to an order from President Menocal, of Cuba, that the fight be not held on Easter Sunday was granted. As Sunday is a holiday throughout Cuba, the management wanted the extra money. A agreement was on foot tonight to have Monday, April 5, declared a holiday.

Today both principals engaged only in light road work. The postponement caused noticeable slackening in strenuous training, both afraid of the possibility of getting too fine.

Word was received tonight that Bob Vernon, official stakeholder, sailed today from New York with the $10,000, the amount of the forfeit deposited by the two battlers.

Referee Welsh will arrive here Thursday. The promoters announced today that the advance sale already has reached $40,000.

REFEREE JACK WELSH ISSUES STATEMENT

Says Neither Man Need Expect to Win on a Technical Foul, Struck Accidentally.

[United Press Leased Wire Service.]
SAN FRANCISCO, March 27.—"Neither Jack Johnson nor Jess Willard need look to me to play any favorites when they meet in the ring in Havana, April 5. The man who gets the decision will get it on his merits. Neither man need expect to win on a technical foul."

This was the statement Jack Welsh made to the United Press tonight just before he started for New Orleans, when he will sail for Havana to referee the coming battle for the world's heavyweight championship. Welsh will reach Havana next Friday.

"By a technical foul," he said, "I mean a blow that is accidentally struck low and which doesn't inflict injury. I have no special instructions to give the boxers. The Queensberry rules will prevail. My statement about technical fouls doesn't mean that the contestants will be allowed to violate the rules without disqualification."

CADILLAC EIGHT SHOWS UNUSUAL TIRE MILEAGE

Los Angeles Demonstrator Runs 6,200 Miles Without Change, Puncture or Blowout.

The manufacturers' theory that among other things, continuous pulling power from the motor, and ability to start a car without a jerk, contribute to longer tire wear, seems to have been proved by a Cadillac Eight demonstrator in Los Angeles, Cal.

The fact that this car has been run 6,200 miles on the same set of tires, without a single change, puncture or blowout, is regarded by the Los Angeles tire men as one of the greatest demonstrations of many seasons.

The tires show but little evidence of their long service, and if their performance is to be relied upon they are good for several thousand miles over and above the 6,200 miles of service they have already contributed.

This showing is remarkable considering that this Cadillac is a seven-passenger model, and has been used almost exclusively for demonstrating. Almost without exception, it has carried seven passengers on the demonstrating trips, and it has been driven into the hills to show its action on heavy grades. Heavily loaded, it has also been driven at high speed, and the runs it has made have been far from easy, so far as the tires are concerned. It has also made one very fast round trip between Los Angeles and San Diego.
