GRADUATES GIVEN DIPLOMAS AGAIN

Lackawadom Female Seminary Exercises Were Repeated Last Night Before an Appreciative Audience

LAUGHS WERE FREQUENT

President of Board of Trustees Presided in His Usual Graceful Fashion and Created Much Amusement

The graduating exercises of the Lackawadom Female Seminary were repeated last night and a large audience showed their appreciation of the efforts of the graduates who received their diplomas from the literary and musical departments of the school. The old time gowns, the flowery speeches delivered in equally flowery oratorical fashion, and the general atmosphere of the affair created amusement every minute for the spectators in the Y. W. C. A. auditorium. In the absence of the preceptors, Edward Fointainebleau Carter, president of the board of trustees presided and announced the numbers. That in itself was worth the price of admission. Carter appeared at his best, and had the crowd laughing from the very start. His introductions had the word originally written all over them, and anyone who knows Ed Carter's ability along this speech-making line, can imagine what twists and turns he gave the story of the "Pied Piper of Hamilton," who was full of pie, but who would have been just as good had he been full of cheese, considering the nature of his job. The graduates themselves were all good. It was hard to pick out any one better than the others. The audience appreciated all of them and gave them a good hand. One of the young ladies so far forgot her dignity as to laugh out in a manner which called forth a rebuke from the chairman, much to the edification of the audience. The graduates from the literary department were Mamie Arabella McFarland, Eleanor Jane Brown, Josephine Patience Matless, Cora Stephanie Parsons and Ruth Constance Boyd. Those from the musical department were Clara Sophronia Fry, Louise Almada Klein, Caroline Florence Baldwin, Kathie Ann Tucker, Florence Niziginsale Schouten and Martha Phoebe Baldwin. The ushers whose duty it was to carry car loads of flowers to the stage were Fane Bell, Edith Louise Dysart and Eugenia Maxwell.

Melancholy Women
 Women should understand that melancholy is commonly called the "Blues," is the sine times out of ten a pure symptom of some organic derangement which should have attention. For nearly forty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for such conditions, as proved by many testimonials which we are constantly publishing from women who have been restored to health by its use.—Advertisement.

HONOR SYSTEM IS NOT KILLED

Convict Who Committed Murder, was One of the Trustees and Not Honor Man.

[United Press Leased Wire Service.]
 JOLIET, Ill., June 22.—The trusty who attacked and murdered the wife of Warden Edmund M. Allen, of Joliet pen, early Sunday morning as she lay in her bed, did not kill the honor system which was the bereaved husband's life work. This was made plain today when the warden pointed out that it was not an "honor man" who was suspected of killing his wife, but a trusty. The trusty system, it was explained, is in vogue in every prison in the world—even those conducted on theories and practices of ages ago. An announcement was expected from Warden Allen today that he would leave the penitentiary, but would keep up his work of advance for men sentenced to prison.

Prison officials expected developments that may lead to discovery of the murderer. The inquest was scheduled to be resumed sometime before noon. The trustees who have been isolated as suspects or as knowing more than they have told will be the witnesses.

"Chicken Joe" Campbell, the six-foot negro who was the Allen's personal servant and who is believed to know as much as any other man of Mrs. Allen's last moments, will be the last witness. Proof that even the murder of his wife, under such shocking conditions, has not shaken Warden Allen's faith in his system and in "his boys," as he always called the prisoners, was shown in the brief but gripping message he sent to them, shortly after they had turned the dining hall into a bedlam yesterday in their fury to "get" one of the suspects. "In this, the greatest trial of my life," was the word the warden sent his boys, "I want at least the knowledge that the boys for whom I and mine have tried to do, are doing the right thing. I will do nothing until I have talked in the chapel. If you want to help lighten my grief, be 100 per cent men." The message struck home like the words of the bishop to Jean Val Jean after the theft of the candles. The promise that they would in no more demonstrations against the murderer, refused yesterday.

A Message To Thin Weak, Crawly folks

An Easy Way to Gain 10 to 30 lbs. of Solid, Healthy, Permanent Flesh

This, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste. What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each body angle and projecting point. Wilkinson & Co. and other good druggists have Sargol, or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee. It is easy to take and highly efficient. Caution—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh-builder.

readily given today after that message. Word was sent to the acting warden that the prisoners' cell guards in the cell rooms be dismissed. The request was granted today and a nearly normal routine was resumed. Deputy Warden Ryan, in a formal statement at 10 a. m., declared the name of the murderer would be known by noon. He told of a midnight sweating given "Chicken Joe" Campbell for three hours early today. "We got no confession from Campbell," said Ryan. "We did learn of facts that will cause a sensation when they become known. Our efforts now are narrowed down to one man. We will name the murderer by noon, when the inquest is expected to close."

IDEAL RIVER BOAT IS MAKING CRUISE

Polly of St. Louis Visits Keokuk on Her Way Up River to St. Paul

Thinking of a vacation? How would you like to take a trip from St. Louis to the head of navigation of the Mississippi on an all steel river cruiser, 130 feet long, fitted to accommodate a party of 25 people comfortably? Carry along with your own automobile, a high-powered roadster, with an expert chauffeur to drive you about, whenever you tire of the river. Such is the fate of Anderson Gratz, and family of Kirksville, Mo., who stopped here for a short time this morning, while en route up the river on their cruiser Polly. The boat is 130 feet long with a 20 foot beam constructed entirely of steel, and equipped with two six cylinder 60 horse-power engines, which are capable of pushing the craft along at a rate of more than 15 miles per hour.

AVIATOR MARRIES WAYLAND GIRL

Miss Jessie Johnson Was Pupil of Jesse Carpenter, the Bird Man. Nebraska City Press: Jesse Carpenter, who operates a school of aviation at Omaha, and who the officers of the race association induced to come here yesterday to make the three days air flights with his biplane, was accompanied by his student, Miss Jessie Johnson, of Wayland, Mo. Yesterday was the birth anniversary of Mr. Carpenter and the young people had decided to celebrate the same by getting married, but Dr. Norden and James Kastner persuaded them to wait until they came to this city and were married beside their machine at the Driving park. They consented and came here. The putting of the machine together and getting it ready for the flight required some time and it was nearly dark when Rev. Henry Zimmerman in the presence of a large crowd performed the ceremony. After the ceremony, President G. W. Leidigh of the race association presented the couple with a check for \$25 from the association. Dr. C. J. Norden and James Kastner, who were the gentlemen that induced the couple to come here to make the flights, presented them with a monster bouquet of American Beauty roses and then followed many boxes of candy and cigars from those who witnessed the ceremony. This was the first marriage ceremony of this kind that has ever taken place on the grounds and perhaps may be the last under the conditions and be witnessed by as large a crowd as was present. Mr. and Mrs. Carpenter are stopping at the Grand Hotel and will on July 3 give an exhibition at Hamburg, Iowa, and make a flight from Hamburg to Sidney and back.

NIGHTS MAY BE SHORT.

NEW YORK, June 22.—As yesterday was the longest day in the year it naturally follows that last night was the shortest night. That didn't keep it from being a big one, however, for many folks along Broadway. The usual crowds were out and were still out early this morning. The summer resorts have lured away many who spent their winter nights tangoing and trotting, but wherever there is a nice slick floor bounded on three sides by tables and on the fourth by an orchestra and kitchen, there can always be found a perspiring crowd of lively dancers. Some of the dancers are more lively than others for another essential is that the slick floor be located convenient to a good supply of plain and fancy, but all expensive, drinks. Food is of minor importance. The big nights are no bigger than they ever were. So last night being the shortest of the year there was no more of a tendency to crowd things into it than any other night. The crowds stayed out just so long anyhow and then went home with the milkmen this morning.

In Constant Training.

St. Paul Pioneer Press: An eastern daily is now discussing in its columns the important question whether married men make better soldiers than bachelors. Well, they possess one advantage, at any rate: they are already trained for war.
