KAHOKA MO. BAND MAKES HIT HERE

Organization Composed Partly of Young Women, Plays Before Parade, in Front of Gate City Office.

LARGE CROWD GATHERS

Work of Organization is Warmly Praised in First Appearance in This City—Personnel of the Band.

The Kahoka band of twenty-seven pieces, under the leadership of Director W. H. Bowers, that played in the Shriners' parade here this afternoon, made quite a hit in Keokuk by giving a concert before the big doings, in front of The Gate City office where quite a large crowd gathered, attracted by the excellent music and the strange sight of an organization composed partly of young women. It was a young woman, mind you, who played the snare drum, while others quite capably handled flutes, cornets and basses.

This is the first time that this organization has ever appeared in Keokuk, although it made quite a hit at the Kahoka fair this year, and it was largely because of this success that the Keokuk Shriners decided to have the band here. The band is one of the best that has ever been in Keokuk and its work was warmly praised.

With the exception of the director, all members of the band are Kahoka residents. It was organized last December. The personnel is as follows: Director—W. H. Bowers. Clarinets—Wayne Murphy, James Matlock, Roland Trump, Elizabeth Whiteside, Cordonna Hays, Amy Hess, Mary Greger.

Cornets—Elmer Elwell, Harold Karl, Mabel Sherwood, Elsie Seyb, Ella Seyb, Lena Seyb. Alto—Miss Seyb, Samuel Shaffer. Saxophones—Muriel Faulk, Velma Thompson. Trombones—Clark Ehrhart, Charles Seyb, Verne Crear, Pearl Davis. Bartones—Albert McKee, Merle Goldsberry. Tuba—Andrew Wylie. Drums—Esten Murphy. Traps—Lella Karle.

The Ousted Preacher. [United Press Leased Wire Service.] SIOUX CITY, Iowa, Oct. 14.—Rev. William M. Short, ousted from the pastorate of the First Congregational church because he signed the saloon consent petition, is waiting for replies from his ministerial friends throughout the country before he makes his next move. Meanwhile he is in charge of the Central Independent church and busy circulating his book, "The Deeper Meaning of the Temperance Question."

Daily Stock Letter. [Copyright 1915 by the New York Evening Post.] NEW YORK, Oct. 14.—The course of today's market showed that a curb was in some sort being applied. In the railway shares it was continued European selling which forced back prices. In speculative industrials it was a mass of realizing sales with probably a closer restriction by the banks of credits granted against such collateral. All this resulted in a reactionary tendency for the market as a whole, though with the greatest irregularity developed.

Declines of 2 to 5 points in various war stocks and of a point or thereabouts in the active railway shares, really made up the market's movement of the day. But sudden and rapid changes in the direction of the movement were frequent and it was difficult to determine its actual course at times in the closing hour. No attention whatever was paid to the news of the day and in fact, so far as war developments were concerned, the news was most obscure.

Beware the Boll Weevil. [United Press Leased Wire Service.] WASHINGTON, Oct. 14.—Texas and Oklahoma cotton planters were warned today by the department of agriculture to begin vigorously to combat the boll weevil. camp, and Fred Howe at the second; the men made no resistance, but were handcuffed and brought to Warsaw, and were that evening taken to Carthage to answer the charge of bootlegging. At the second camp—about the distance of two blocks from the first—there were about sixty men drinking, drunk and playing cards, but at the first camp there were but few. The raid was well and shrewdly planned and executed, and shows vigilance and bravery on the part of our marshal and the sheriff, who took great chances in alone facing possibly desperate men. This raid will break up the camps.

The Warsaw Gate City

Warsaw, Ill., Oct. 14, 1915.

"What did you say, Tom? The U. S. government is talking of establishing a second West Point military academy on the Mississippi river and is considering the bluff land between Hamilton and Warsaw as the best place for its location, hundreds of acres being available and all because it is close to the big water power dam, which will supply power at low rates." "No, Jim, I did not exactly say so, though that would be all right, you are certainly drawing on your imagination, and are getting ahead of my story; what I did say was this: In his speech at the dedication of the new armory at Quincy, yesterday, speaking of citizen soldiers, and our preparedness for war, Governor Dunne said he favored the building and equipment of armories and ammunition factories on the bank of the Mississippi river in the state of Illinois, and further said "why not locate a second West Point on the Mississippi river; now I say so far so good, but why not locate those armories, and ammunition factories, yes and that second West Point at Warsaw, just below the dam, where cheap power would be available, and hundreds of acres already waiting. Don't we forget Warsaw if the deal is ever seriously discussed, for she is centrally located."

That Hunt lot on southeast corner of Fourth and Webster street is the most central site for the Roessler library building, in the city; it is only two blocks from Main street, is well drained, has a beautiful lawn, and the neighborhood is of the best. Fourth street is one of the main arteries leading into our city and no street is more traveled than it by our citizens as well as strangers, and best of all, the site is a free gift to the library by our generous fellow citizen, Postmaster Hunt. Some filling is necessary, but that will be easily taken care of, and a fund of \$7,000 is or will be available, to be expended on the lot and building; besides this, several private donations are available, and offers have been made to keep the lot beautified with flowers. A large number of our citizens have warmly expressed themselves as in favor of this site to the exclusion of any other.
