

Green Gold

The Gold of Character
From the Ancient Egyptians

The famous Green Gold of the ancient Grecians and Egyptians—the "Gold of Character"—is again in vogue and vies with platinum in popularity.

It enhances the beauty of the new gold designs by lending a more delicate color to the light chasings and filligree now so very stylish.

The new Green Gold is shown in the Ayres and Chapman stocks in a wide variety of solid gold goods, as well as in the higher grades of gold filled and quarter gold.

The prices, too, are very attractive, amounting to very little more than the regular finishes.

Hot Curling Iron Goes—No More Broken Hair

(Beauty's Mirror.)
Every woman knows that continual use of the hot curling iron means brittle, blistered, parched, dead-looking hair with burnt, uneven ends. There's no need of anyone using that instrument of torture, now that we know what can be accomplished by the occasional application of ordinary liquid siltmerine. This is not only more effective, giving the hair a softer and prettier curl, but tends to preserve its health, luster and beauty. Any druggist can supply siltmerine in liquid form and a few ounces will last many weeks, so it is quite economical to use.
The approved way is to part the hair in several strands and with a clean tooth brush apply the liquid the full length of each strand. The overnight transformation is agreeably surprising to one who has never tried this simple and harmless method.
