Nothing to Sneez At. Cedar Rapids Republican: Is the vice presidency so low that it is beneath Cummins or Kenyon? What has made them so suddenly great that they would have to despise the second office in the gift of the nation? Ought they not to be glad to get it, if they don't mind? Roosevelt began as vice president and he has made some stir in the world, to say the least about him. It is true that at the present time the office is held by a nine spot man and that it looks small enough, but the second place on the ticket is not beneath any man's consideration.
