#### FRIENDSHIP.

These are the things I prize  
And hold of dearest worth:  
Light of the sapphire skies,  
Peace of the silent hills,  
Shelter of forests, comfort of the grass,  
Music of birds, murmur of little rills,  
Shadows of clouds that swiftly pass,  
And after showers,  
The smell of flowers,  
And of the good brown earth.—  
Friendship and mirth.  
—Henry Van Dyke.

Bunnier, the president, presided. Miss Mary Harrington served as secretary, and the treasurer, Mrs. Maude Larson, reported \$97.75 in the club treasury. Miss Helwig, the principal of the building, announced the topic for the afternoon to be "Co-operation in Discipline, Home Study and Home Work." She introduced the Rev. H. B. McElree as the speaker of the afternoon. Dr. McElree was at one time a teacher and spoke very understandingly on the subject of "Co-operation in Discipline," being able to see the question from both the teachers' and parents' viewpoint. The questions of home study and home work were discussed informally by those present. Mrs. Elmer Welsmann sang two numbers, "O Heart of Mine" and "Perfect Day," by Carrie Jacobs Bond, with piano accompaniment by Miss Carrie Ralsch. Miss Helwig, by request gave a brief report of the Congress of Mothers which she attended in Des Moines during the State Teachers' association. Mrs. D. W. Bishop was greeted with much applause when she offered the use of any additional ground which the school may need for school gardens. L. A. Hamill re-

With their cars decorated in pennants and banners, with souvenirs for everybody and a whole slewful of hearty handshakes for the new friends they expect to make, sixty to seventy-five members of the Keokuk Retailers' league will leave here at 9 o'clock tomorrow morning on the first of the "get acquainted" trips along the Keokuk and Des Moines, and in the Des Moines valley.

There will be sixteen to twenty cars in the line-up which leaves the Industrial association. In the crowd will be C. H. Dodge and his motion picture camera. Mr. Dodge has been asked by the league to come along and to bring his camera. He is going to take some pictures in the various towns into which the Keokuk merchants will go. These films will be displayed later.

#### Meet at 8 O'clock.

The people who are going to take their cars are asked to be at the Industrial association at 8 o'clock in the morning. This will give sufficient time to put the banners and flags on the cars, and to give the drivers the itinerary and running instructions. The cars will maintain good speed, but there will be no attempt at racing or speeding.

#### AMUSEMENTS.

At the Hippodrome.

Thomas A. Wise, internationally famous for his characterizations in "Lights of London," "Are You a Mason?" "The Last Chapter," and throughout America for "The Gentleman from Mississippi," "The Song of Songs," "A Chip of the Old Block," "The Prince Chap," and hosts of other famous successes, will be seen at the Hippodrome theatre tonight, in his most recent film creation, "Blue Grass," adapted from the play of the same name by Paul Armstrong.

"Blue Grass" produced in five acts and over three hundred scenes by the Equitable Motion Picture corporation, is a play of southern atmosphere. In the days that the southern gentleman spent a great part of his time at the race track, and possessing a lust for gambling, there occurred many a tragedy. In these races, many horses were entered and many a human story was hidden behind the bare name of an entry. "Blue Grass" is a story of surprising interest.

## Late Market Quotations

Lamson Bros' Daily Grain Letter. (Furnished by Long Commission Co.) Wheat—There was general pressure in the wheat market early but the buying was of a good class and before the close was due prices had rallied to well over that of Saturday's close. Foreigners were credited with buying flour in the northwest and premiums in Minneapolis were higher. At Winnipeg however, it was reported that demand was not so good and premiums were lower. Clearances for the past week were large but a small portion of the total was domestic wheat. An increase of 4,981,000 bushels in the visible was a little less than last year. The total visible is now \$4,493,000 bushels against 73,476,000 last year. In spite of the large movement of wheat it is remarkable, that the increase in the visible has been so slow. Accumulations are more likely to be more noticeable after the close of navigation.

Corn—There was a considerable amount of hedging on the December delivery, which closed at a small loss. Profit taking in May and heavy selling by bears, was absorbed by discouraged shorts and by longs who were bullish throughout the session. Indications are for a larger movement from Illinois and other territory where there is a surplus. The government issue as the result of inquiries in the five north states as to the quality of this year's corn crop was bullish, had only a temporary effect as the information was discounted last week. The cash demand market was heavy, being unequal to the liberal receipts.

Oats—Interest in oats was limited but the market responded to strength in wheat and corn and closed near the top. Receipts keep up but the visible supply, although increasing every week, is smaller when compared with last year. The total being 18,506,000 bushels against 32,000,000 last year. Cash values were unchanged, with receipts 458 cars.

Provisions—Hogs receipts were in excess of expectations and prices ranged 15@20c lower. This had a bear effect of packing interests and stock yards traders were free sellers. Outside commission houses were largely for the January delivery and this demand was filled up by packers.

#### GRAIN REVIEW.

(United Press Leased Wire Service.) CHICAGO, Nov. 15.—A decreased spring wheat movement and bullish foreign news greatly encouraged buying today and as a natural result prices were firm. The opening—104 1/2 and 105 1/2—was down 1/2 and up 1/2, compared with Saturday's close. The buying soon showed its effect, however, prices later going 1/2 above today's opening for December, while May, after several sharp rises fell back a fraction.

Corn was easier, with fluctuations frequent. Oats prices followed the trend of corn.
