

### 300,000 IS ASKED FOR SON'S DEATH

Lillian M. Hunter Sues Keokuk and Hamilton Bridge Company and Wabash Railroad Company.

### OTHER ACTIONS ON FILE

Receiver is Asked in Case of Sackowitz vs. Lambrakis—Railroad Receivers Are Sued.

Thirty thousand dollars is asked of the Keokuk and Hamilton Bridge company, and the Wabash Railroad company, by Lillian M. Hunter, administratrix of the estate of Russell Hunter, for the death of her son last November. Mrs. Hunter has filed a second suit against the two companies in which damages amounting to \$2,625 is asked.

In her petition, Mrs. Hunter, administratrix, alleges that her intestate came to his death November 10, 1915, when his foot was caught in a switch in the track of the Wabash railroad company on the property of the bridge company. She alleges that the defendant was negligent in permitting the switch to be exposed, open and unguarded. She alleges that defendant showed negligence in allowing it to be unguarded and not locked and lighted. She alleges that the defendants knew it was the custom of people to pass over these tracks, and that there was a well-departed path. She further alleges that defendant was negligent in running engine and permitting it to be run without warning, such as bells or whistles. She claims that it was through negligence of defendants that her son met his death and she asks \$30,000.

### Second Suit Asks Less.

Lillian M. Hunter also seeks damages of \$2,625 from the Keokuk and Hamilton Bridge company and the Wabash. She claims that her son Russell Hunter was a minor, 17 years old at time of death, and that she and her husband, A. M. Hunter, were entitled to the wages of her son and that this amount would be \$2,500. She also alleges that there was paid for doctor's bills and expense for funeral to the amount of \$125. She alleges that her son passed over tracks owned by defendants and that his foot was caught in a switch frog and that engine struck him.

John Clark and T. E. Burner are suing for damages to the amount of \$100 from Jacob M. Dickinson and U. Mudge, receivers for the Chicago, Rock Island and Pacific. It is alleged in the petition that plaintiffs who are stock shippers, had contracted to send five carloads of cattle from Potosi, Reinbeck and Dinsdale to Burlington, Cedar Rapids, and there, the wishes of plaintiff, fed by defendant's agents after being in transit five hours. It is further claimed defendant's train despatcher refused to allow train to proceed until morning. At Burlington it is alleged that the contract for delivery of the C. R. & Q. was not adhered to. The damage asked is alleged to be due to shrinkage in the shipment.

### Receiver is Asked.

Oscar Sackowitz has filed action against Nick Lambrakis, asking for appointment of receiver and dissolution of partnership between parties. It is alleged by plaintiff that he and defendant entered into contract to set up a shoe repair shop at 824 Second street. Plaintiff alleges that defendant has taken possession of the shop, refuses to let him see accounts and has served notice of dissolution of partnership in thirty days and refuses to make accounting. Plaintiff alleges that he was to receive \$6 per week wages, and one-half of profits.

Bowman-Boyer company has filed suit against Ida M. Maxey et al, asking for \$100.

### OLD AND NEW WAY TO TREAT CATARRH

Nothing a Germ Killing Air Enriched By Actual Results. The discovery of Hymel has brought about a wonderful change in the treatment of catarrh. Prior to three years ago the medicine ordinarily employed in the cure of this disease were drugs, sprays, ointments, etc. In some instances they were effective, but the improvement was temporary.

With Hymel you take into the air the germ killing power of the ozone, and restore health to the whole system. Many astonishing testimonials have been received from those who have been helped by Hymel. A complete outfit is inexpensive and includes an inhaler, dropper and sufficient Hymel for several weeks' treatment.

Perhaps the strongest evidence that can be given to doubters, is the fact that Wilkinson & Co. have so much success in Hymel that they sell every package under a positive guarantee to refund the money if it does not relieve.

Now is the time to begin the use of Hymel and rid yourself of the annoying and oftentimes dangerous illness. Nothing is gained by waiting. The vicious microbes of catarrh made still further inroads on your health.

### Indoor Life Makes Fat

Take Oil of Korein to Keep Weight Down, or to Reduce Superfluous Fat.

People who are confined within doors and who are deprived of fresh, invigorating air and exercise must take precaution to guard against overweight, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air weakens the oxygen-carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unsightly and unhealthy fat is the result.

If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying this excess burden. Any person who is satisfied in their own mind that they are too stout should go to a good druggist and get a box of oil of korein capsules, and take only after each meal and one just before retiring at night.

Even a few days treatment should show a noticeable reduction in weight, digestion should improve, energy return, footsteps become lighter and the skin less flabby in appearance. Oil of korein is inexpensive, cannot injure, helps the digestion and is designed to increase the oxygen-carrying power of the blood, any person who wants to reduce their weight 15 or 20 pounds should give this treatment a trial. There is nothing better. Wilkinson & Co. can supply you.

### ABUNDANCE OF FRESH FACTS.

First Aid to Happiness and Prosperity in the New Year.

Among first aids to a happy and prosperous New Year there is always the World Almanac. This standard reference book, fresh from the press, and bearing the date 1916, is now available to purchasers. A peep into the book shows that it comes to the public bringing, according to its annual custom, not only the election returns, crop reports, business figures, sporting records and other statements and statistics covering the transactions of the year just passed, but the abundance of fresh facts and features necessary to keeping up with a world that moves.

The great war in Europe receives attention in a summary of events and a chronological table. At another extreme of public interest, the development of the motion picture business is considered. There are two pages about Woman suffrage achievements and the recent vote. The substance is given of the constitution reflected at the New York polls last November. And among the other and unnumbered subjects of special attention are: Widowed Mothers' Pensions; Political Platforms; Congressional Committees; State Legislation in the United States; Peace Movements; The Lincoln Highway From New York to San Francisco and the Dixie Highway from the Lakes to the Gulf; War Relief Societies; Armed Strength of the World; Manufacture of Munitions and Explosives; 1915 State Census; Diplomats Dismissed from the United States; National Reading Circle; Public Library and School Libraries in the United States; Workmen's Compensation Laws; Gary School System; Health Laws in New York City; the Automobile Industry; New Advisory Board; Public School System in New York City; Unemployed in New York City. As to things not to be found in this almanac, it seems almost likely there are not any such things. Anyway, one must go out of his way to discover them.

### FINDING OUT WHY CHURCH SLIGHTED

Rev. F. B. McAllister Addresses Letters to Prominent Business Men Asking For Reasons.

### RECEIVES MANY REPLIES

He intends to Embody These in Sermons and to Answer Arguments Put up by Correspondents.

The problem of the neglect of the church and its services has been one of the chief concerns of the pastors all over the land, and especially has it been a problem in the churches in Keokuk. Now, in seeking to discover the cause, Rev. McAllister claimed he would go to the source and there learn the reason, why we do not attend church.

With this in mind, Rev. McAllister sent a letter to twenty-four business, trades, and professional men, who do not go to church, and has received many frank and pungent replies. The letter was as follows:

"Will you kindly do a favor for me? I am writing to twenty-four of the leading gentlemen of Keokuk asking for actual reasons why 'Mr. Man' does not attend church. This material is to be used in sermons given on the evenings of January 9th and 16th. Will you tell me frankly and briefly why you or other men do not attend church. We want the point of view of the man on the outside and you can assist."

Rev. McAllister stated emphatically he would divulge no names so that the men were able to write at will what they really thought of the church and their real reason why they did not attend church.

Here were a few of the replies: "It often interferes with a good picture show." "I am an Athiest, that is, I do not believe the Bible story of the creation." "Nearly all the dirt that has been done me has been done by self-styled christians." "Too many little Gods in the church." "I never got in the habit." "I see no difference in the church man and the man that does not attend church."

Pastor to Answer Men. The pastor says he will have to group some of the replies that are about the same in substance, but he will not elight any of the reasons that has come to his notice. He will answer them also frankly and seek to meet the arguments in such a way as it will not only assist others that are troubled with the same problems, but show the christians the importance of their place before the world.

Some of the men stated although they had not been to church for a long time, were coming out to hear the sermons which are based on their replies. Rev. McAllister stated that perhaps no better way could be devised for the church to get the point of view of the man outside and for the man outside to get the view of the church on these various pressing problems.

William Edgar Blake. Burlington Post: An active, aggressive, learned member of the Iowa bar was William Edgar Blake, who passed on to another world a few days ago after nearly half a century of busy professional labors. Mr. Blake's career was ended somewhat abruptly, and we think prematurely, as all recognized in the man the elements of a steadily growing force which had enabled him to rank among all practitioners in this enlightened section of the west. Mr. Blake was beloved very greatly by all those persons who recognized in him an inexhaustible fund of constructive resource a gift which experience and study had enabled him to employ in the most effective manner in their behalf. So great and profound were his mental gifts and so thorough were his deductions from his wealth of experience in law and his kindred phases that those who depended upon him in such matters had come to regard his judgment as little short of marvelous. In the midst of such a wonderful career, and while still in the early seventies, death called him. The thought here obtrudes itself: Of what use would it be for nature and society to grow and develop such a man if there is not another life of larger opportunities?

### EAT A SQUARE MEAL AND NOT FEAR INDIGESTION

There are hundreds of people in Keokuk who were not the least bit surprised when they read in the "Gate City" that Wilkinson & Co. are selling Mi-na on a guarantee to refund the money in case it did not relieve. This remarkable dyspepsia remedy will relieve the worst case of indigestion, headache, dizziness, or the general played-out condition that afflicts every one suffering with stomach trouble. Mi-na does not simply relieve, it aims to cure.

Wilkinson & Co. can tell you of many well known people in this city who by this remedy has restored to health, often after they have tried many other methods of treatment with little or no benefit. No other dyspepsia remedy has made so large a percentage of cures as Mi-na. It is so large that Wilkinson & Co. stands ready to refund the price to any customer whom it does not help. The best kind of advertising is the praise of a pleased customer, and there are hundreds in Keokuk today praising Mi-na because it does what it is advertised to do. A few months ago that they eat nothing without wondering what the result would be. Since using Mi-na, they eat what they want with no fear of suffering, and this medicine comes in the form of a small tablet and is very pleasant to take. It speedily and permanently relieves almost all forms of stomach trouble and is the only one sold under a positive guarantee without any restriction, to refund the money if it does not relieve. This is a good time to get well and you ought to take advantage of it.

### The Warsaw Gate City

Warsaw, Ill., Jan. 7, 1916.

James Cobb of Peoria, Ill., a competent watchmaker and jeweler, has come to make his home in Warsaw, arriving Wednesday night. He will assist our friend James W. Kirkpatrick, whose growing business has for some time called for more help. Mr. Cobb is a young man of good habits and prepossessing appearance, and comes to us highly recommended. We bid him a most cordial welcome. Preliminary work on the white way was begun Thursday, but the underground work cannot be installed until the frost is permanently out of the ground. The "burning question," not on of this country, but of all nations, is, at this time, whether the military spirit should be promoted or shunned. The different nations will take a different stand as to whether the military spirit should be promoted. This question touches the fundamental principles of this great republic of ours. What will be the attitude of the church? Since these questions are no party questions, the men's movement has decided to arrange for a public discussion of this vital subject next Sunday, Jan. 9, at Daugherty's hall in Hamilton. Mr. Geo. Hempen, one of the leaders of the men's movement, will discuss the following theme: "Would the cultivation of a military spirit be of mutual benefit to the American people?" Men

### GET IT FIRST—NOT LAST

When a cold grips your system it is convincing proof that your condition is weakened—remember that. It is risky indeed to simply trust your strength to throw it off, because neglected colds have brought more serious sickness than any other one thing, while weakening cathartics and stimulating syrups are often depressing and dangerous.

The one best treatment for any cold—the one so often relied on when others fail, is the powerful blood-nourishment in Scott's Emulsion, which feeds the very sources of bodily strength to suppress the present cold and generate strength to thwart further sickness. Get Scott's first, not last—and insist on the genuine—always free from alcohol and injurious drugs.
