## Speaking of the Weather

February and March bring weather conditions very trying to most people.

Colds, coughs, sore throat, tonsillitis, catarrh, bronchitis, pneumonia, are all prevalent.

These are all catarrhal conditions. All dependent upon the same cause, climatic changes. Sloppy weather underfoot. High winds, chilling blasts, changing from day to day. Thermometer dancing a jig. Barometer following suit.

All of the acute catarrhal conditions above referred to, call for

They call loudly, too. If Peruna's neglected these catarrhal conditions are liable to become chronic. One bottle of Peruna used at the right time will save months, even years, of suffering and sickness.

The twenty-seventh annual meeting of the stockholders of the Hamilton Loan and Building association was held the past week and three directors elected. The retiring directors were C. P. Dadant, H. M. Cueden and A. B. Agnew. So efficient have these gentlemen proven in the discharge of their duties that they were re-elected for a three year term unanimously. If our memory is true to past happenings, Mr. C. P. Dadant and Mr. A. B. Agnew have been directors continuously since the organization of the association. In looking back over the twenty-seven years' life of this enterprise, one can truly say it has been of more real value to this community than has any other commercial enterprise that has been a feature of our business life. In the past year the association has received nearly \$27,000.00, carried \$76,200 in loans and paid six percent to its investors. Certainly a splendid showing for the past twelve months, which cannot be regarded as fat months or fruitful by this community.

The farmers' short course came to an end Friday with two very interesting addresses by C. O. Reed of Urbana, Ill. The oats and corn contests resulted in Claude Layman getting first prize, Ed Herberts second prize and L. E. Thomas third prize on oats, and Perry Fullin, first, Wayland Robinson, second, and L. E. Thomas, third, on corn. This short course was arranged by the farmers of the community and not by the Retail Merchants' association as was at first reported. In order to further the interest of the series, the retailers offered three prizes each day for a farm product.

## You Must Have Plenty of Iron in Your Blood to Be Strong, Says Doctor

Nuxated Iron Will Increase Strength of Delicate, Nervous, Run-Down People 200 Per Cent in Ten Days in Many Instances.

NEW YORK, N. Y.—Most people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine; secret nostrum or narcotic drug, said Dr. Sauer, a specialist of this city, when, as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get strength out of their food because they haven't enough iron in their living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what, so they generally commence doctoring for stomach, liver or kidney trouble or symptoms of some other ailment caused by the lack of iron in the blood. This thing may go on for years, while the patient suffers unrelieved agony. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while double and even triple their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form, and this after they

had in some cases been doctoring for months without obtaining any benefit. But don't take the old form of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance, and filled his blood with iron before he went into the fray, while many another has gone down to inglorious defeat simply for the lack of iron.

NOTE—Nuxated Iron recommended above by Dr. Sauer is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents is widely prescribed by eminent physicians everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as for nervous, run-down conditions. The Manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 200 per cent or over in four weeks' time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Wilkinson & Co., and all other druggists.
