

COL. W. P. HEPBURN WAS WELL KNOWN

Death of Former Iowa Congressman, Brings Active Life to an End, With Much Regret.

LONG TERM IN CONGRESS

Was Veteran of the Civil War Where He Rose Rapidly in the Ranks for Good Service.

The death of Colonel William Peters Hepburn on Monday at his home in Clarinda, Iowa, marks the end of the life of one of Iowa's most noted public men, at the age of 82 years.

Though Colonel Hepburn had long been recognized as one of the leaders on the republican side in congress, his most conspicuous activities were in the railroad rate legislation during the Roosevelt administration, when the regulatory measure bearing his name was enacted.

He served in congress until 1912, when he was defeated for re-election by W. D. Jamieson.

Following his retirement from congress he lived most of the time in Washington, spending part of each year at his home in Clarinda.

Colonel Hepburn served with distinction in the civil war, having resigned a civil position to enlist in the army.

Native of Ohio. Mr. Hepburn was born at Wells-ville in Columbiana county, Ohio, Nov. 4, 1833.

He was the son of Dr. James S. Hepburn, who died seven months before his son was born, and Ann Fairfax Catlett. Dr. Hepburn met his death in the midst of a fight he was waging against a scourge of cholera in New Orleans.

Colonel Hepburn's mother came from a line of French Huguenots and her own grandfather established her own grandfathers for military and congressional record which was to be followed by her son. Her grandfather was the only man to be elected to congress from three different states.

After Dr. Hepburn's death his widow was married in 1836 to George S. Hampton, who moved with his family to Iowa, then a territory and to the extreme western frontier of the civilized part of the United States.

Mr. Hampton took up a homestead near Iowa City, then the capital of the territory, in 1841. There were at that time no schools or mills in the state.

Later the Mechanics academy was founded and Colonel Hepburn received his first schooling there. He attended the Iowa Methodist college in 1848 when his entire faculty was but one man.

From 1849 to 1852 he was apprenticed at the printer's trade, which he learned in the offices of the Iowa City Republican.

He took up the study of law in the office of W. Penn Clark and remained in Iowa City studying until 1853 when he went to Chicago and was admitted to the Illinois bar several months before he had attained his majority.

Returning to Iowa City in 1855 he began his public service as an assistant in the offices of the clerk of the district court.

QUICKLY STOPS HEAD COLDS AND SNUFFLES

Cathartic Germs Cause of Most Colds. New Germicidal Air Treatment. Best Remedy For These Common Ailments.

Reliable authorities say that upwards of 90 per cent of the so-called colds in the head and throat are really dangerous and are the presence of acute catarrh. When you hear a person sneeze or cough its almost certain they are throwing catarrh germs into the air for some other person to breathe and its just as certain that the person breathing these germs will soon have catarrh or a catarrhal cold.

The time to make these germs harmless and drive out your catarrhal cold is the very instant you feel a desire to sneeze or cough, or start to snuffle and wipe your nose every few minutes. The quickest and surest way to stop a head cold and drive catarrh germs out of your system is to pour a few drops of the oil of Hyomei (pronounced High-o-mey) into one of the Hyomei inhaling devices which comes with each large package and place the inhaler between your lips and breathe the germicidal and pleasant smelling air into your nose, throat and lungs. This air utterly destroys all catarrh germ life, quickly opens all closed air passages, makes breathing easy, clears your stuffed up head, cleans out your throat and ends your snuffling and nose blowing. There certainly is no quicker or more satisfactory way of breaking up a cold, even after it is well started, and a few weeks' use will do away with all danger of chronic catarrh. Sold by druggists everywhere including Wilkinson & Co., who agree to return the full purchase price to any one who use it and are not satisfied. In buying Hyomei for the first time be very sure to get the large size which contains the inhaler as this is very essential for best results.

BANI H SCROFULA

Hood's Sarsaparilla Cleanses the Blood, Skin Troubles Vanish.

Scrofula eruptions on the face and body are both annoying and disfiguring. Many a complexion would be perfect if they were not present. This disease shows itself in other ways, as bunches in the neck, inflamed eyelids, sore ears, wasting of the muscles, a form of dyspepsia, and general debility.

Ask your druggist for Hood's Sarsaparilla. This great medicine completely eradicates scrofula. It purifies and enriches the blood, removes humors, and builds up the whole system. It embodies the careful training, experience, and skill of Mr. Hood, a pharmacist for fifty years, in its quality and power to cure.

Scrofula is either inherited or acquired. Better be sure you are quite free from it. Get Hood's Sarsaparilla and begin taking it today.

City. He was also clerk of the house for the first general assembly that met in Des Moines when that city was made the capital of Iowa. In 1858 he was elected district attorney for the judicial district but resigned that position in 1861 to enlist in the army.

His military career was a brilliant one. It started with his election as captain of Company B, second Iowa infantry, which company he organized himself under authority he had secured from Governor Kirkwood by a long ride from Marshalltown to Iowa City. His regiment was ordered to the front in February, 1862.

Captain Hepburn was soon promoted to the rank of major and placed in charge of the second battalion of his regiment and in that position he distinguished himself at the battle of Corinth.

In the same year he was placed on the staff of General Sheridan and later upon that of General Rosecrans, serving with him during his campaign in command of the army of the Cumberland.

He received his commission as lieutenant colonel in December, 1862, and was placed in command of the Second brigade, cavalry division, of the Sixth army corps. His regiment was mustered out at the expiration of his term of enlistment, but he re-enlisted and remained in command of a provisional cavalry regiment until after the close of the war.

Changing conditions greatly changed upon his return to Marshalltown, he moved further on and in 1867 established his home in Clarinda, where he has maintained his residence ever since. Here he secured a half interest in the Clarinda Herald and started stumping the country for the republican candidate for congress. He was first elected to congress himself in 1870, and in the twenty-two years of service during the time that followed until 1909 he established an enviable reputation in that body. He was elected to the two congresses successively following the first of which he was a member. His Harrison administration was solicitor of the treasury, which position he resigned to again enter congress from his old district, the eighth.

During his connection with the treasury he carried on investigations of the customs matters of the port of New York, and led to the establishment of a board of general appraisers and to many other reforms of the customs service.

In 1886 he was defeated for congress by Major Anderson, but was returned to his former seat in 1892. Activity in Congress. During his career in congress, Colonel Hepburn supported every measure that became law looking to the betterment of common carriers, including all legislation looking to the safety of employes and passengers on trains. Many of the bills that became law were introduced by him. While in congress he had a service of eighteen years on the committee on public lands in the senate, on Pacific railroads and on the judiciary.

For twelve years he was chairman of the committee on interstate and foreign commerce. During his chairmanship he introduced the "pure food" bill and presented it to four congresses before he secured its adoption. He also introduced during that time the Nicaragua canal bill, several bills providing for safety appliances, for the marine hospital service and for the present public health service. He participated actively in all the legislation resulting in general pensions, for the government of the canal zone, and finally the bill providing for the further control of railroads which bear his name today.

It is known as the Hepburn rate bill. Roosevelt on two public occasions said that the first session of the fifty-ninth congress would be memorable in the history of congress because of its constructive legislation. He gave it and he named the three bills that gave it that name. Four of these acts came from the committees over which Colonel Hepburn presided and three of them from bills he introduced.

Nominated Thirteen Times. He had been thirteen times the nominee of his party for congress, twelve times his nomination being practically unanimous and being carried the eighth Iowa district in congress for twenty-two years and in the days when the republican party was in the full strength of its power was recognized as the leading debater of the house of representatives.

In addition to Hepburn was always prominent in state politics. In 1888 he served as a candidate for United States senator and he served as a delegate from Iowa to the republican national conventions of 1860, 1888 and 1896. He was presidential elector at large from Iowa in 1876 and 1888.

Colonel Hepburn was a persistent and faithful worker for his community and for the country at large. His far-sightedness and his determination are responsible for many of the public welfare measures enacted upon the statute books of his own State. He was known to his own generation and will be known in his generation as a gallant soldier, an able lawyer, a clean politician and a splendid public officer.

BIG CROWD WILL BE AT MEETING

Keokuk Retailers League to Number of Seventy-five, Will Have Dinner in Dining Room of Iowa.

M'FARLAND TO SPEAK

New President Industrial Association Invited to Talk to Members—Other Matters of Importance.

Seventy-five members of the Keokuk Retailers league will be at the February meeting which will be held in the main dining room of the Hotel Iowa at 7 o'clock. A special dinner will be served the retailers by Manager Holmes. Following the dinner, the business session will be held.

C. F. McFarland, the new president of the Keokuk Industrial association, is expected to be present and to talk to the members of the league. Mr. McFarland will have something to say to the retailers about the smaller factories for the city.

It is probable that something will be said about the possibilities for a fall celebration of some sort. Other matters of importance will be taken up at the meeting, and the session is expected to be most interesting to the members.

The dinner menu will include turkey and all of the good things which go with it.

ENGLAND

(Continued from page 1.)

"K. of K." steps out of the war office. Lord Derby, who directed the recent recruiting campaign, was another civilian whose name was connected with the position.

No confirmation of rumors of Kitchener's impending resignation was obtainable from any authoritative source. It was generally agreed that if he quits, his new post will be in Egypt or Mesopotamia.

Two Scotchmen, it was pointed out today, are now directing the chief operations of Great Britain's armies. Sir William Robert Robertson has taken over Kitchener's most important task, that of directing all military operations and Sir Douglas Haig only recently became commander in chief of the British forces in France.

IOWA SEED CORN NEEDS ATTENTION

Special Seed Corn Week Will Be Proclaimed for the State by the Governor.

[United Press Leased Wire Service.] MOINES, Iowa, Feb. 8.—The seed corn situation is apparently so hopeless that Governor Clarke took official cognizance of the matter today and decided to issue a proclamation for a "special seed corn week."

The governor was preparing the proclamation this afternoon. The week will probably be February 28 to March 4. The attention of the entire state will be turned to the matter of seed corn at that time.

Reports of seed testing have been so uniformly poor that bankers and business men as well as the Ames extension department have become alarmed and have decided that heroic measures must be taken in plenty of time to insure the right kind of seed before the planting season arrives again.

The cold, damp season and early frost prevented maturing of the corn last fall and early tests from the mountains to the Mississippi valley, and light snow in the northern districts.

The week has been set aside so that every farmer's attention is urgently directed at his own supply of seed. It is reported that many sections, especially in the northern part of the state, will have to import all their seed.

THE WEATHER.

For Keokuk and vicinity: Unsettled weather tonight and Wednesday. Probably snow. Warmer tonight. For Iowa: Unsettled tonight and Wednesday. Probably snow. Warmer east portion tonight. Colder west portion Wednesday. For Missouri: Unsettled weather tonight and Wednesday. Warmer tonight. For Illinois: Unsettled weather tonight and Wednesday. Probably snow north and rain or snow south portions. Warmer tonight.

Weather Conditions. With high pressure in the eastern states, the weather is generally fair and colder east of the Mississippi river, this morning.

A depression in the mountain region is attended by unsettled weather, with rising temperature from the mountains to the Mississippi valley, and light snow in the northern districts.

FINO DEAD BODY OF AGED WOMAN

Mrs. Isadora Westerfield Passed Away in Bed in Her Rooms Some Time Last Night.

HEART LESION CAUSE

Physician Had Been Prescribing for Her for This Trouble—Had One Son Living.

Mrs. Isadora Westerfield, 63 years old, was found dead this morning in her rooms over 1105 Main street. Death was due to a lesion of the heart. Dr. Robert Fegers who has been attending Mrs. Westerfield, said that she suffered from heart trouble which would cause death. No inquest will be held, Acting Coroner James S. Burrows decided.

Mrs. Westerfield was in bed, and the condition of the body indicated that death had come during last night. A small lamp on the table near the foot of the bed was found burning, but there was little oil in the lamp, and it was not believed that it had been burning longer than twelve to eighteen hours.

C. E. Wilhat who has his tailor shop in the rooms down stairs, did not hear Mrs. Westerfield moving about upstairs and he became alarmed. He notified the police station and Officer Jake Parks investigated. The door was locked and a ladder was secured. J. F. Cassel of 1066 Des Moines street, opened a window and unlocked the door.

Body Found in Bed. In the middle room which served as a bed room the body was found in bed. The bed clothes showed that the end came peacefully as there was no evidence of struggle. The body was partially propped against three pillows. The bed spread was turned back, and the coverings were sufficient.

All of the rooms were exceedingly neat in appearance. Everything was put away in its place. The fire had burned out in the stove in the front room, the alarm clock on the same table with the lamp was still running, and a larger clock in the front room was running, also. In the kitchen were two tubs of clothes, ready to be washed. The boiler was on the stove, and in some dishes were articles of food.

Neighbors Saw Her Saturday. One of the neighbors thought she had heard Mrs. Westerfield chopping kindling this morning, but it was evident that she was mistaken. It is probable, however, that she had been around the house yesterday, for awhile Saturday afternoon was the last time, however, that any one could say certainly they had seen her. The condition of the body and the way things were left in the house, pointed to her being dead only since last night.

Mrs. Westerfield told one of the neighbors she was bothered with heart trouble. Dr. Fegers said that he had prescribed for her for this trouble, and that she had a lesion of the heart which could cause death.

Insurance policies showed her to be about 63 years old. She has one son, Clarence L. Westerfield, who is in Manhattan, Kansas, and one sister, Thomas Murray of 1124 Fulton street.

California "Glorious" Climate. Omaha Bee: Press dispatches of the last weeks have brought information from the golden west that warrants the belief something has gone wrong with the glorious climate of California. First we heard of an untimely snowstorm visiting the citrus belt and doing immense damage to the orange groves. Now swirling floods are sweeping the wreckage of flimsy dams and patently developed farmsteads into the Pacific ocean.

HOW TO REDUCE YOUR WEIGHT

A Simple, Safe, Reliable Way. People who are over-burdened with superfluous fat, know only too well the discomfort and ridicule that over-stout people have to bear.

If you are carrying around five or ten pounds of unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, spend as much time as you can in the open air, breathe deeply and get from any good druggist a box of oil of korein capsules; take one after each meal and one before retiring at night.

Weigh yourself once a week so as to know just how fast you are losing weight and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, helps digestion and is designed to consume the excessive fatty tissues by increasing the oxygen-carrying power of the blood. Even a few days' treatment should show a noticeable reduction in weight, footsteps become lighter, your work seem easier and lighter and more buoyant feeling take possession of your whole being.

Every person who suffers from superfluous fat should give this treatment a trial, there is nothing better. Wilkinson & Co. can supply you.

Late Market Quotations

Grain Review. [United Press Leased Wire Service.] CHICAGO, Feb. 8.—Firm southwest markets and increased export demand, coupled with a more reassuring tone to Washington news, gave the bulls good support in the wheat pits today with the result that May and July wheat gained heavily after their five point slump of yesterday. May was up 1/4 at the start and gained 1/4 later, ruling around 130 1/4. July down an eighth at the start, sold at 122 3/4, two points up, in later trades.

Corn followed the wheat trend. May gained 1/4 and July 1/4, selling at 77 1/4 and 76 1/4 respectively. The same was true of oats. May sold at 48 1/4, up 1 from last night's close, and July was up 1 at 46. Provisions ruled easy early but firm up on good demand.

Chicago Estimates for Tomorrow. [Furnished by Long Commission Co., 403 Main, Telephone No. 100.] Hogs, 56,000; cattle, 15,000; sheep, 14,000; wheat, 87; corn, 446; oats, 119.

Liverpool Close. Wheat, unchanged, 1/2 lower; corn, unchanged. Clearances. Wheat and flour, 994,000; corn, 285,000; oats, 28,000.

Northwest Wheat Receipts. Minneapolis, 30 cars; Duluth, 83 cars; Winnipeg, 313 cars. World's Visible. Wheat—Decreased 2,647,000. Corn—Increased 1,442,000. Oats—Increased 153,000.

Chicago Cash Grain. CHICAGO, Feb. 8.—Wheat—No. 2 red, 1.21 1/4; No. 2 red, 1.27 1/4; No. 1.28 1/4; No. 3 hard, 1.23 1/4; No. 3 spring, 1.26 1/4.

Kansas City Cash Grain. [Furnished by Long Commission Co., 403 Main, Telephone No. 100.] KANSAS CITY, Feb. 8.—Wheat—No. 2 hard, 1.22 1/4; No. 3 hard, 1.18 1/4; No. 2 red, 1.28 1/4; No. 3 red, 1.22.

Peoria Grain. PEORIA, Ill., Feb. 8.—Corn—Market uncertain, 1 1/4 higher. No. 5 white, 66 1/4; No. 6 white, 62 1/4; No. 4 yellow, 70 1/4; No. 5 yellow, 66 1/4; No. 6 yellow, 49 1/4; No. 4 mixed, 70; No. 5 mixed, 66.

St. Louis Cash Grain. [Furnished by Long Commission Co., 403 Main, Telephone No. 100.] ST. LOUIS, Mo., Feb. 8.—Wheat—No. 2 red, new, 1.33 1/4; No. 3 red, new, 1.19 1/4.

Omaha Butter Market. [United Press Leased Wire Service.] OMAHA, Neb., Feb. 8.—Butter 30 cents.

Chicago Barley and Rye. CHICAGO, Feb. 7.—Rye, nominal. Barley, 70c to 81c.
