Berri Olive Oil

"Take Olive Oil, live on it, drink it, and don't do without it"

This was the advice given by Sir Thomas Barlow, physician, to King Edward's household. In latin countries where Olive Oil is a staple article of daily food, clear smooth skins and beautiful luxuriant growth of hair are almost invariable and directly attributable to this article of diet.

BERRI OLIVE OIL is a most efficient natural laxative and may be used with excellent effect in all forms of constipation.

The highest medical authorities recommend Olive Oil as a preventive of gall stones and in prevention and treatment of appendicitis.

Women who have seen our garments know that the styles are both refined and dependable.

In our advance exhibit the models shown were the equal in style to the best of those exhibited in the fashion centers. Right now we are showing mid-season models that will be copied later in the season by other makers of women's garments.

Surely you will want to see these new mid-season models this week. Every day you wait cuts down the time, and likewise takes off something of the enjoyment of wearing the new styles while they are new.
