

Iowa State Bystander.

CHARLES S. RUFF, Editor. DES MOINES, IOWA.

The unspeakable Turk is undoubtedly a bad person, but he doesn't cause as much bad feeling in this country as the uncurable Turk.

Presumably on the theory that time is money, the German chancellor has removed the loan-to from his name and may hereafter be addressed as plain Hohenlohe.

The military powers are finding the small caliber firearms most effective, a scientific confirmation of a theory which the toy pistol has already given a strong color of probability.

The more one thinks of it the more astonishing it seems that an employe could rob a great bank for a decade before being detected. Would it not be wise for every financial institution to examine its household affairs right now?

In connection with good roads landscape gardening will come in as a factor to enhance the value of rural property. The surroundings of the home can be made more attractive with trees, shrubs, flowers, fruit and grass.

It is true that the Chinese are universally educated—that is to say, can read and can write beautifully—it only emphasizes the fact that the training of the intellect does not necessarily involve the development of the moral sense.

St. Louis has a leper in her city hospital in the person of John Walker who lived in Buenos Ayres for fifteen years, where it is supposed he contracted the disease. Walker is isolated from other patients, and all efforts will be made to keep the dread disease from spreading.

A theatrical manager in London recently secured a divorce from his wife without her knowledge. She read the account of the proceedings in the paper and guilelessly accepted his explanation that it must refer to some other person of the same name. After a series of complications which would seem absurd in a melodrama the bold miscreant is now in jail for perjury.

Despite the denials through Turkish official sources, the atrocities committed on the Armenian Christians are worse than first reported. But for England 'the Sick Man of Europe' would have been driven back to Asia long ago, and the indignation against him excited by recent events may yet lead to this result notwithstanding all the protection Great Britain dares to give him. Moslem rule over a Christian province is anomalous and intolerable.

It is a noble cause, that in which the woman's Christian temperance union has engaged, a crusade against the slaughter of birds of song and gay plumage. It has been estimated that not less than 5,000,000 birds are annually killed in the United States. Hunters are even scouring the interior of the 'Dark Continent' in pursuit of gay-colored feathers to swell the stock in trade of the London and Parisian and New York jobbing milliners. The milliners are not so culpable as are the persons who are responsible for the demand.

An example of false economy is revealed in the report of Secretary Lamont. He discovered that the horses bought for the cavalry are scarcely better than old plugs. According to his information, about the shabbiest looking horses in the country are to be seen at the cavalry mounts. These animals are not to be compared with those of any of the great foreign nations. A large majority of the horses 'simply answer the purpose of transportation and the mule would probably answer the purpose if that were all required.' In view of the fact that for several years horses have been cheap, one would have naturally supposed that the cavalry service would be splendidly equipped in this respect.

Not content with making a member of the Hohenlohe house chancellor of the empire, the German Kaiser has now appointed a Hohenlohe of an elder branch governor of Alsace-Lorraine in place of Hohenlohe-Schillingfurst, promoted in place, but reduced in salary. The family purse will thus be kept in correct condition. It would be difficult for the emperor to exhaust the Hohenlohe stock, in fact, who are named in the almanack de Gotha are needed to give even the names of the numerous branches, unpronounceable at that, too. If the domestic stock should give out there are Hohenlohes to be found in Pomerania, Silesia, Hungary, Russia, Austria and England. All of them are most accommodating servants to any master who pays them well and are ready to hold office without regard to creed, country or party. The Kaiser has struck a well that never runs dry.

Very archly indeed the English representatives of international athletics decline to come to the United States to engage in a tussle with the American representatives of the same idea. The good brethren on the other side never like to go into a game in which they apprehend a defeat.

A man with a pull is generally considered fortunate, but it would be hard to convince a certain Detroit dentist that this is true. He was recently fined \$500 for pulling the wrong tooth of a lady patron.

We fully believe that if the press, generally, would speak up with a strong and positive voice against the long tolerated abuses at agricultural fairs, a sufficient impression would soon be made upon the managers to induce them to put an end to such evils, at once and forever.

The English love a lord. New Yorkers love a military title. John Jacob Astor attains the dearest wish of his heart, a colonelcy, by virtue of his appointment as aide-de-camp to Governor Morton.

SELECTED HAWKEYE MENTION

COUNCIL BLUFFS TRAGEDY.

Evidence indicating that Huntington was innocent of the crime. COUNCIL BLUFFS, Dec. 20.—The theory that Huntington, the bank clerk who shot two of the bond company inspectors and then committed suicide, was shot by other hands than his own, was exploded and the jury accordingly decided. Crowell's testimony before the coroner's jury did much to strengthen the belief in Huntington's innocence. He said he could not specify any particular check that was missing, and so far as he could see the bank had not lost \$500, excepting as far as bookkeeping was concerned. The mystery surrounding the note about which the inspectors questioned Huntington has been cleared up. The note was for \$50, and was paid this month, although Huntington could not tell where he got the money with which to pay his bill. Bennett, cashier of the State Savings bank, testified that on the same day the note fell due Huntington borrowed \$50 at his bank. There is now no doubt that the whole affair resulted from Huntington getting his accounts mixed, and that he was not a thief, but he thought that he would be so branded.

THE LAST OF THREE.

George Johnson Run to Earth in the Wilds of Kentucky. DES MOINES, Dec. 19.—George Johnson, the last of the three men who tried to murder Deputy United States Marshal Wragg, at Albia, some time ago, is now in jail at Council Bluffs. The other two were captured a few days ago by Deputy United States Marshals William Richards, of Des Moines, and E. W. Hill, of Corning. The officers have been after these men for the past two months and their experiences would fill a volume which would read like a novel. Gabe Johnson, a brother of George, was captured near Bigelow, Mo., and taken to Council Bluffs, and a short time afterward John Collett was run down in the same part of the country. The three men are all moonshiners and came to Iowa from Kentucky several years ago. They are the leaders of a tough gang which is supposed to have illicit stills in the hilly regions about Albia, but the revenue officers have never succeeded in locating any of these places. All three men are now in jail at the Council Bluffs and will be tried at the next term of court and given as heavy penalties as the law allows.

PENSION FRAUDS.

Dr. Kissel Compelled to Pay Heavy Fines. DUBUQUE, Dec. 20.—Dr. Kissel, member of the pension examining board at Cresco, pleaded guilty to three of the cases against him. The first case was for presenting a false claim, which was only \$3; the next was for transmission of a false certificate, although there was no claim that defendant falsified; the third was merely of intent to commit fraud. His attorney pleaded that his offense was merely technical, his sentence be made a mild one. He was then sentenced to eighteen months imprisonment and \$1,000 fine with costs for each offense. The imprisonment, however, was suspended, and the fines and costs were paid at once.

WANDERED FROM HOME.

Misfortunes of a Poor Old Man of Iowa City. IOWA CITY, Dec. 21.—William Jayne, 67 years of age, wandered from home on the 12th, being demented, the result of a paralytic stroke. He was partially blind, and unable to speak or write, and after a tiresome trip of forty miles was found five miles north of Iowa City. Some time during his wanderings he was set upon by tramps, who robbed him of everything, including clothing, substituting their dirty, tattered rags, and letting him go in his stocking feet. J. Jayne, of Iowa City, a brother, and other relatives, have been in diligent search for the unfortunate man, and he was taken home.

BURGLARS.

Attempt to Rob the Dallas County Safe. ADEL, Dec. 21.—An attempt was made to burglarize the county safe. The burglars effected an entrance in a rear window. Outside of scarring up the safe little was effected. It is presumed they were frightened away. Had they succeeded it is said that they would have secured considerable booty.

SUDDEN DEATH.

Wealthy Hardin County Farmer Dies of Heart Disease. ELDERA, Dec. 20.—Patrick Muldoon, a prominent and wealthy farmer living in Jackson township, dropped dead from paralysis of the heart. Mr. Muldoon owned and operated one of the largest farms in northern Iowa.

SUICIDE AT GRINNELL.

Found in His Room with His Throat Cut. GRINNELL, Dec. 21.—Charles Fanno was found in his room in the Union block with his throat cut from ear to ear, the work of his own hand. He had not been seen on the streets for several days, and finally the door of his room was broken open and the old gentleman was found lying on his bed, with his face buried in the pillows, with a stream of congealed blood telling the tale of suicide. Apparently he had been dead for a long time, as the blood was dry.

IN HARD LUCK.

A Farmer Sued for Divorce and Robbed of His Money. STOKES CITY, Dec. 20.—John Collins, a wealthy farmer who lives three miles south of Sloan, was robbed of \$4,400 by two masked men. Collins' wife is suing for a divorce. Fearing he would put his property out of reach, she got out attachments against him. He had anticipated her action and the stolen money was the result of sales. He kept his money in the house, fearing if he banked it she would attach.

ATTEMPTED SUICIDE.

Very Peculiar Acts of a Cedar Rapids Woman.

CEAR RAPIDS, Dec. 21.—Mrs. M. P. Chase attempted to commit suicide by taking carbolic acid, but the bottle was wrested from her hands while she was in the act of swallowing its contents. She then threatened to murder her husband, and snatched a revolver at him, but he escaped. No cause for her conduct is assigned.

CONDENSED ITEMS.

The ordinance authorizing the Gothenburg saloon system at Ida Grove has been declared illegal by the district court. The case will be taken to the supreme court.

The supreme court has decided that the will of the late P. G. Ballingall, of Ottumwa, making several bequests to that city, is valid, thus reversing the decision of the lower court.

Judge William H. Seever, of Oska-loosa, was recently stricken with paralysis. Though conscious, he is still unable to talk, and one side is powerless. The attending physicians have some hope of his recovery, though his age—75 years—is against him. He has been very busily engaged in court the past week and unable to rest well. The attack came on him while at home reading.

A Mason City dispatch says the Peter Larson murder is about to be cleared up. It is stated that Wm. Darrow's wife has said that her husband committed the murder and the body of Larson was buried in a grave in which a child had been buried but a few days before. Larson immediately upon arrival home from the penitentiary, where he served out a sentence for grand larceny, was arrested by Hampton officials for forgery in connection with the Larson murder.

George Uhl was found lying dead in a country road near Smithland. He had formerly lived on a farm in Woodbury county, but had lately been living in South Dakota. He came to Sioux City a short time ago, and late at night walked to Smithland. He went out at night and failed to return, so search was made for him with the result indicated. He was a drinking man, and it is said that at one time he tried to commit suicide by taking chloral. His death was probably caused by too much whisky.

The Citizens' bank of Council Bluffs missed \$500 some time ago, and as all of the employes of the bank were under bonds in the Fidelity and Casualty Co., of New York, Detectives Crowell and Hayden were sent to investigate. They suspected John R. Huntington, a clerk in the bank receiving \$45 a month, and who was believed to be living beyond his income. A meeting was arranged in the private office at which President Edmondson, the detectives and Huntington were present. After considerable questioning, in which little of a damaging nature was elicited and in which Huntington seemed very cool, he arose from his seat as if to get a drink, but instead drew a revolver and began firing. Crowell was shot three times, in the jaw, wrist and back, but his wounds are not necessarily fatal, while Hayden was shot through the fleshy part of the neck and will recover. Huntington then turned the gun upon himself, inflicting a wound from which he died a few hours later. The evidence against Huntington is not very strong and whether he was guilty of the theft may never be known.

JOHN CRONIN HANGED.

He is the First Man to Legally Hang Himself. HALLOWELL, Conn., Dec. 19.—John Cronin was hanged here for the murder of Albert Skinner at South Windsor on October 6, 1893. The alleged cause of the murder was a slighting remark passed upon Cronin by Skinner. The two went hunting early in the fall of that year, and Skinner, meeting some friends, referred to Cronin, who was a few paces behind him, as his "dog." Cronin is the first man who ever legally hanged himself. By an arrangement of the scaffold the platform was so adjusted as to give way the instant any weight was placed upon it, and a 360 pound weight on a pulley sent the body of the condemned man in the air.

PRESIDENTIAL RESIDENCE.

Bills Providing One Introduced in Both Houses.

WASHINGTON, Dec. 21.—Senator Quay has introduced a bill authorizing the secretary of the treasury to purchase the land contained in block 30, of Columbia Heights, a suburb of Washington, as a site for the residence of the president of the United States. The bill limits the price to \$3 per square foot and the total appropriation to a million dollars. Representative Richardson, democrat, of Tennessee, introduced a similar bill in the house.

ELECTION FRAUDS.

Twenty-five Indictments Returned at Chicago. CHICAGO, Dec. 21.—The grand jury has returned twenty-five indictments against persons charged with election frauds in the Thirty-fourth ward at the late election. The parties are charged with intimidation and other interference with voting. A number of the men are policemen.

MURDER.

Probability that It Will End in a Lynching. CRIPPLE CREEK, Col., Dec. 21.—Richard Newell, Jr., chief engineer of the Midland Terminal railroad, was shot and instantly killed by an enraged miner named Van Honten, near Independence mine. The right of way of the road crossed the miner's claim and an adjustment was arranged, which appeared satisfactory to him, but afterward he made new demands. The camp is aflame with excitement over the affair, and there will probably be a lynching.

G. A. R. ENCAMPMENT.

To Be Held at Louisville next September. LOUISVILLE, Ky., Dec. 21.—The executive council of the G. A. R. decided that the twenty-ninth encampment of the G. A. R. would be held here during the week beginning September 8. The exact date has not been fixed, but the encampment will probably begin about the 11th. This will be decided later. The dedication of the Chattanooga battlefield occurs September 19, and it was decided to fix the encampment so the two trips could be taken together.

ITEMS OF GENERAL NEWS

BURNS TALKS.

Thinks This is a Great Country—Still Chance for Improvement. CHICAGO, Dec. 21.—John Burns, the London labor agitator and member of parliament, who had been in Denver in attendance at the convention of the American Federation of Labor, was interviewed here. In regard to his criticism in Denver of the American constitution, Mr. Burns said reports sent out to certain papers were gross exaggerations. What he said on that occasion was that considering all the changes that had been made in America since the pre-industrial period when the constitution was framed, he thought there might advantageously be made some changes in it in accordance with the increased love of liberty of the American people. As it stood now, it was the best constitution ever written, but that did not mean that it could not be improved upon. Mr. Burns stated his opinion of this country as far as he had seen it epigrammatically, as follows: "Schools splendid; libraries excellent; jails too good; roads bad; streets worse; drainage the same; art museums good for the age of the country; corporations exacting, tyrannical and extravagant; railway traveling palatial for the rich and better than any I have ever seen for the poor; cut off the headlines of your newspapers and you have a good carcass left, but still too much of a journalistic slaughter house; municipal life considerably below that of any in Europe. I like America and shall come here again some day. I think one of these days its municipal institutions, like most of its others, will be the greatest in the world."

"I have been treated kindly by the mayors and principal officers in all the cities I have visited," he continued. "No, I won't write a book. I will tell the people in my speeches when I am face to face with them what I think of them; not skunklike, hide myself in a cloud of hostile dust. That's me. That's John Burns."

LABOR RIOT.

Serious State of Affairs in Central America. NEW ORLEANS, Dec. 20.—The Central American Times of December 14, published at Belise, British Honduras, received here by mail, contains a long account of a labor riot which took place there on the 11th inst. Men engaged in mahogany and logwood cutting demanded higher wages than the merchants wanted to pay, and having failed to obtain relief by application to the officials, they began to wreck the stores of their employers. The clerks, armed with pistols, fired over the heads of the mob and wounded a man and woman. Forty blue-jackets and three files of marines were landed, and all signs of disorder ceased. The next day there was an attempt made by the strikers to get eleven prisoners, but the blue-jackets drove them off. Finally the company posted a notice to pay the wood choppers \$15 per month, the amount the strikers demanded.

ARMOR PLATE.

American Manufacturers Get a Big Contract from Russia. BETHLEHEM, Pa., Dec. 17.—The Bethlehem Iron Company has been advised by cablegram from their Ordnance engineer, Lieutenant Meigs, at St. Petersburg, Russia, of receiving the whole of the contract for supplying the armor for Russia's two new battleships, the Sebastopol and Betsopavovak. The contract calls for something over two thousand tons of armor plate to fit up the two ships. The company's officials at Bethlehem say they do not know the exact number of tons, but it amounts to close to \$4,000,000. Lieutenant Meigs secured the contract over fourteen competitors, comprising armor plate manufacturers in the United States, England, France, Italy, and Krupp, in Germany. The superiority of the Harvey armor plate is believed to have placed the contract with the Bethlehem Iron Company.

WILL SERVE IT OUT.

Debs and His Associates Decide to Go to Jail. CHICAGO, Dec. 19.—President Debs and his associates have decided to go to jail and serve the terms imposed upon them by Judge Woods without making any effort to secure a habeas corpus or an appeal. This action was taken directly against the advice of their lawyers, who even now insist that they will try to get the appeal. Debs gave as his reason for this sudden change of front that he and the other directors have no confidence in the courts and believe they would not get a fair show there. "We thought it was better," he said, "to serve out the terms at once. We will get through all the quicker and we think we would certainly have them to serve in any case."

EASTERN WAR.

SHANGHAI, Dec. 17.—Field Marshal Oyama's Japanese army has arrived within a few miles of New Chungang. PARIS, Dec. 19.—A dispatch from Shanghai says the first and second Japanese armies have joined north of Chang and are now marching direct to Tien Tsin.

SHANGHAI, Dec. 16.—An imperial decree has been issued ordering Li Hung Chang to arrest King Taotai, of Port Arthur, who was in command at the port, and send him to Peking for trial for the loss of that dockyard and fortress.

WILL NOT BE URGED.

WASHINGTON, Dec. 19.—The plan of urging Secretary Carlisle's currency bill to passage before the holidays has been abandoned, because many of the democratic members of the house are opposed to it. Speaker Crisp is against haste and the committee on rules agrees with him.

CALIFORNIA GOVERNORSHIP.

Republicans Decide to Contest the Election. SAN FRANCISCO, Dec. 17.—The republican state committee has finally resolved to contest the election of James H. Budd as governor. A committee of seven has been appointed under instructions to go before the state legislature and demand a recount of the entire vote for state officers, particularly the vote of San Francisco. This action means a bitter fight in the coming state legislature, which convenes January 8th.

GETTING AT IT.

The lady witness was on the stand. Q.—What is your age? A.—I haven't any. Q.—What is your youth? A.—Inexhaustible. Q.—How old are you? A.—I am not yet old. Q.—How young are you? A.—As young as I ever was. Q.—How many years have you lived? A.—I do not measure time by years, but by heart throbs. Q.—Are you married? A.—No, thank heaven. Q.—To be a billiard?—Mr. Officer, count the witness' pulse and calculate how long she has lived from 1849 to 1894.

A WOMAN'S HEART.

ONE DISEASE THAT Baffles THE PHYSICIAN.

The Story of a Woman Who Suffered for Nine Years—How She Was Cured.

(From the Newark, N. J., Evening News.) Valvular disease of the heart has always been considered incurable. The following interview, therefore, will interest the medical profession since it describes the successful use of a new treatment for this disease. The patient is Mrs. Geo. Archer of Clinton, N. J., and this publication by the News is the first mention made of the case by any newspaper. All physicians consulted pronounced the patient suffering with valvular disease of the heart, and treated her without the slightest relief. Mrs. Archer said: "I could not go across the floor; neither could I go up stairs without stopping to let the pain in my chest and left arm subside. I felt an awful constriction about my arm and chest as though I were often trampled upon by some creature at my side."

"Last July," continued Mrs. Archer, "I was at Springfield, Mass., visiting and my mother showed me an account in the Springfield Examiner, telling of the wonderful cures effected by the use of Dr. Williams' Pink Pills for Pale People. My mother urged me to try the pills and on November 25 last I bought a box and began taking them, and I have taken them ever since, except for a short interval. The first box did not seem to benefit me, but I persevered, encouraged by the requests of my relatives. After beginning on the second box, to my wonder, the noise at my right ear ceased entirely. I kept right on taking them, and I have taken them ever since, except for a short interval. The first box did not seem to benefit me, but I persevered, encouraged by the requests of my relatives. After beginning on the second box, to my wonder, the noise at my right ear ceased entirely. I kept right on taking them, and I have taken them ever since, except for a short interval. The first box did not seem to benefit me, but I persevered, encouraged by the requests of my relatives. After beginning on the second box, to my wonder, the noise at my right ear ceased entirely. I kept right on taking them, and I have taken them ever since, except for a short interval. The first box did not seem to benefit me, but I persevered, encouraged by the requests of my relatives. After beginning on the second box, to my wonder, the noise at my right ear ceased entirely. I kept right on taking them, and I have taken them ever since, except for a short interval.
