Rev. Mr. Taylor, a professor of theology in Chicago, spoke at the chautauqua on "Sociology" Sunday afternoon. It is a doctrine that tries to teach men and women to be neighborly, kind and sympathetic, and to make them act and do better in this world for its rewards. It contends that life in this world can be made a perfect habitation. The idea of cleanliness, good houses, proper sanitary regulations, and wholesome air, water and food are necessary to make men and women wiser and better. It insists that profit and commerce should not be placed in the way of the laws of nature and the attainment of goodness and happiness. We are sorry that more of our people are not taking advantage of the benefits of the chautauqua assembly.

PRESS COMMENTS.

Independent Patriot, Lemont, Iowa.: Our readers have known for some time that J. L. Thompson, formerly of Decatur City, now of Des Moines, was about to engage in a newspaper venture at the capital. This week we receive for exchange The Iowa Bystander, with John L. Thompson as editor. It is to be republican and to labor for the special benefit of the African race. In the effort to uphold the true principles of republican liberty wherever found, and to uplift and bless his race. We wish Mr. Thompson unqualified and most abundant success.

Decatur City Advocate: J. L. Thompson, formerly one of Decatur city's brightest lights, has assumed the editorship of The Iowa Bystander, at Des Moines. Believing him to be abundantly able to meet the duties that such a position requires, we ardently wish him all the prosperity that can fall to the lot of an editor.

The Negro Solicitor, Oskaloosa, Iowa: The Des Moines State Bystander is, or has been, owned by several different gentlemen, and as is usual in such business combinations there has not always existed "a perfect state of harmony" among the boys. Because of this lack of harmony in the company the Ruff brothers, who edited the paper, have retired, and Mr. J. L. Thompson, of Decatur, was elevated to the chair of editorship. We trust that he may succeed and improve the paper.

Decatur County Journal, Leon, Iowa: The editorship of The Iowa State Bystander, the organ of the colored republicans of the state, published at Des Moines, has been vested solely in John L. Thompson, the Ruff brothers having retired from that position. Mr. Thompson is a very intelligent young colored man, a former resident of Decatur county, and without doubt the paper will maintain its high standard under his direction.

Indianapolis Freeman: The Iowa State Bystander, a well known negro journal, has changed hands, Charles S. and Thaddeus Ruff retiring. John L. Thompson, said to be a young man of energy and push, is the new editor.

Miss Zella Davis is much improved. She is resting easy and under the present conditions is on the way to speedy recovery.

Boston is about to make an experiment in high liquor license. Sixty hotels will be called on to pay \$2,000 each instead of \$1,500, as formerly, and the tax of retail dealers will be \$1,000 each. These are said to be the highest licenses yet required in this country.

Sawdust is turned into transportable fuel in Germany by a very simple process. It is heated under big steam pressure until the resinous ingredients become sticky, when it is pressed into bricks. One man with a two-horse power machine can turn out 9,000 bricks a day.

HINTS TO HOUSEKEEPERS. A red-hot iron will soften old putty so that it can be easily removed. Green tea will revive rusty black lace and render it as good as new. A soft cloth wet in alcohol is excellent for wiping off French plate glass and mirrors.

The tones of the piano improves when the instrument is moved from the wall of the room.

A few lumps of beeswax, wrapped each in a bit of old linen, and put in the folds of a white satin gown will keep it from turning yellow.

To remove sewing machine oil stains rub the stain with sweet oil or lard and let it stand for several hours; then wash it in soap and cold water.

Coarse brooms will cut a carpet, and although imperceptible at first, their ravages will at length show themselves in the increased number of shreds, especially if the carpet be a velvet pile.

A little kerosene oil rubbed briskly over the spots on dark clothing will brighten the garments and remove the stains almost like magic. The kerosene will evaporate quick and leave no stain.

When ordering meats remember that beef, when boiled, loses one pound of weight in every four, and when roasted eighteen ounces. Mutton loses even more than beef. This should be thought of where much meat is used.

Jewelry can be beautifully cleaned by washing it in hot soap suds to which a few drops of ammonia have been added, and then shaking off the water and laying the jewelry in a box of jeweler's sawdust. This method leaves no mark or scratches.

A cup of hot water taken the first thing in the morning will often prevent a bilious attack. Hot water as a beverage is exceedingly wholesome, especially when the digestive organs are weak. It should be taken before each meal as well as after. A half teaspoonful of lemon juice makes it palatable.

If a daily tub bath is enervating, try a daily sponge bath and a tri-weekly tub. The "tubbings" should be taken at night, in water warm or hot, according to the tastes of the bather. The sponge bath, which should be taken in the morning, should be either cold or lukewarm, and should be followed by a brisk rubbing down with a Turkish towel.
