

A Beautiful Young Society Women's Letter.

St. Paul, Minn.,
521 Wabasha St.
Dr. Hartman, Columbus, O.
Dear Sir:

"I took Peruna last summer when I was all run down, and had a headache and backache, and no ambition for anything. I now feel as well as I ever did in all my life, and all thanks is due to your excellent Peruna."—Bess F. Healy.

The symptoms of summer catarrh are quite unlike in different cases, but the most common ones are general lassitude, played-out, tired-out, used-up, run-down feelings, combined with more or less heavy, stupid, listless, mental condition. Relish for food and the ability to digest food seems to be lost.

Skin eruptions, sallow complexion, biliousness, coated tongue, fitful, irregular sleep, help to complete the picture which is so common at this season.

Peruna so exactly meets all these conditions that the demand is so great for this remedy at this season of the year that it is nearly impossible to supply it.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

HOUSEWIVES HEADACHES

You don't know why you suffer from headache and you are apt to believe you have some dire female trouble, but it's dollars to doughnuts that you are wrong. Women are prone to put off the duties of Nature to attend to the duties of the home and when they do get time to go, the feeling has passed. A constipation results and then the awful racking headache. Take a spoonful of

Dr. Caldwell's Syrup Pepsin

every night before going to bed. Keep it up for a few weeks.

Patient—"Are you sure I can stand this operation?" Doctor—"Why, your rating in Bradstreet is correct isn't it?"

"A two-cent stamp, please," said the lady at the stamp window of the post-office. "Yes, madam," replied the clerk, who had just graduated from a department store; "will you take it or have it sent?"

She—"You used to sneer at men who parted their hair in the middle. But they don't seem to arouse your contempt any more." He (sadly passing a hand over his shining knob)—"No, I have no contempt for any man who has hair enough to part anywhere."

Mother—"You say your husband no longer spends his evenings at the club?" Daughter—"I soon broke him of that." Mother—"Before going to bed I put two easy-chairs close together by the parlor fire, and then held a match to a cigar until the room got a faint odor of smoke."

A faithful Irish maid called upon her former mistress, who, had recently lost her mother. "Och, mum!" Nora began, "an' the shvate lady's gone. Sure, Ol never knowed it till a wake afther 'er buryn'." She wuz lokke wam ave own, an' with a fresh burst of tears—"there wa'n't nobody O'd rather hev seen dead than yure darlin' ould mother."

An Old Lady's Discovery. Garnett, Ark., May 18th.—For 18 years Mrs. Mary Dunlop of this place has suffered with Kidney trouble, which was so bad at times that it made her life a burden. She tried much medicine and many treatments, but got no better.

At last, however, Mrs. Dunlop claims to have found a perfect remedy, and she is so pleased at the wonderful cure she herself has received, that she is telling all her friends and praising the medicine to everyone she meets.

The name of this medicine is Dodd's Kidney Pills, and it has done wonderful work for Mrs. Dunlop. Everybody is talking about it, and some people are claiming to have been cured of Rheumatism by it.

A Mrs. Garrett who lives in Brazil, this state, was at the point of death with some Cerebro-Spinal trouble and was saved by Dodd's Kidney Pills.

It is certain that no other medicine ever introduced here has done so much good in such a short time.

PEASANTS' REVOLT GAINS IN CROATIA

Wild Scenes of Riot Follow Celebration at Agram and Many Are Injured.

MILITIA IS NOW IN CONTROL

Disturbances Due to Poverty and Race Hatred Between Slavs and Magyars—Croats Choose Time When Hungarians Are Having Other Troubles.

Vienna, May 22.—The revolt in Croatia is spreading to every part of the titular kingdom, and threatens to extend to Dalmatia.

The celebration at Agram yesterday of the anniversary of the death of Jellachich von Buzim, the former ban of Croatia, culminated in a fierce conflict with the police, who attacked the crowds with sabres, wounding many persons and making 350 arrests, including several students and women. The city of Agram is now completely under military rule.

At Buccari and Meja thousands of peasants attempted to destroy the railroad in order to prevent the arrival of troops. They tore up the rails at five different points, and when the military arrived they pelted them with stones, injuring several soldiers. The troops retaliated by shooting and bayoneting many of the peasants.

The Slavs resident in various parts of Austria and Bohemia, are holding indignation meetings to protest against the proceedings in Croatia, where, as already cabled, over 2,000 persons have already been arrested. The disturbances in Croatia are primarily due to the long standing race hatred between the Slavs and the Magyars.

The present outbreak has two main sources. First, the general discontent of the peasantry, arising from the extreme poverty prevailing everywhere, and from the fact that in some parts of the country the peasants are on the verge of famine. Second, the indignation aroused by the alleged tyrannical rule of Count Hedervary, the present ban of Croatia.

The Croats attribute much of their poverty to the financial methods of the Hungarian government, which is accused of drawing from Croatia money in excess of its legal proportion of the taxes in spite of the protests of the inhabitants. Consequently, throughout Croatia there is increasing hatred of Hungarian rule and language.

The present agitation covers the entire country from the Danube to the Adriatic coast, its immediate cause varying according to the different localities. In the districts around Kreutz the disturbances have also socialistic origin, the peasants attacking the Hungarians, not on account of their nationality, but because they are wealthy.

In the towns of the Agram district generally the language question is the principal cause of the trouble, the Croats asserting that their own language was guaranteed them by the agreement of 1868.

The Croats, following their old tactics, are stirring up trouble at a time when the Hungarian government is tied up with difficulties at home.

OIL ROADS A SUCCESS.

Report on Subject in Agricultural Blue Book to Be Issued.

Washington, May 22.—The annual official publication of the department of agriculture known as the "Blue Book" will be printed about June 15. James W. Abbott, special agent for the Rocky Mountain and Pacific coast division, in a special report, makes a review of the use of mineral oil in road improvement, which he says has been a great success in California. He says:

"The growth of oil in popular favor in Southern California has been steady and rapid. Many of those who have had most experience with it have come to regard its use as a region as the most important discovery ever made in road making. Quite a considerable number of people have said to the writer: 'We could not go back to the old conditions; if we had to give up our oiled roads, we would move away.'"

Mr. Abbott thinks that oil can be used to advantage at any place in the United States where the roads become very dry and dusty, and where water can be kept out of their foundations in the winter, so that they will remain on the surface in the spring. The reliance must, he said, be upon an oil with an asphalt base.

RUIN AND DEATH IN TORNADO.

Several Residences and Other Buildings Torn Down at York, Neb.

York, Neb., May 22.—Last evening at 7:40 this place was visited by the worst tornado that has passed through the country since 1890, when the town of Bradshaw was torn to pieces. The funnel-shaped cloud came directly from the south until it struck Beaver creek, one-half mile south of the city, when it changed its course to the northeast.

Mrs. Kingsley's barn, a large one, was wrecked. D. N. Blood's residence was partly torn to pieces. Pat McGown's residence was unroofed. The barn torn to pieces was visited by the storm, carried away. Thomas Mathews' residence was turned over, with his wife and baby inside. Then the wind tore down trees and barns, telephone poles, etc., until the United Brethren church, on the corner of Eighth street and East avenue, was reached. This was a fine brick building, costing \$10,000. It is almost a total wreck. E. D. Marset's residence and outbuildings, one mile northeast of the city, were badly damaged. No fatalities have been reported, although there are quite a number who were injured. During the storm rain fell in torrents.

OOM PAUL TO AFRICA.

Ex-Pres. of Transvaal on Way Back to Old Home.

Paris, May 21.—Ex-President Kruger arrived here yesterday from the Hague on his way to South Africa, and received an enthusiastic welcome from a number of his friends. Mr. Kruger made a brief speech of thanks for the kindness France had shown his unhappy countrymen. He said he expected to return to France next year. He spoke in a strong voice and seemed to be in fairly good health.

Thirty-Two Injured in Riot.

Bridgeport, Conn., May 18.—The attempt made by the officials of the Connecticut Railway and Lighting company to run their cars with non-union men yesterday resulted in a riot in which at least thirty-two men were injured.

PEASANT VS. MONEY LENDER.

Count Cassini Says That is the Cause of the Jewish Massacre.

Washington, May 19.—Count Cassini, the Russian ambassador, in conversation yesterday with a representative of the Associated Press, relative to the Jewish troubles in Russia, said: "There is in Russia, as in Germany and Austria, a feeling against certain of the Jews will not work in the fields or engage in agriculture. They prefer to be money lenders. Give a Jew a couple of dollars and he becomes a banker and money broker. In this capacity, he takes advantage of the Russian peasant, who he soon has in his power and destroys. It is when the patience of the peasant is destroyed that a conflict arises. Ordinarily, the Russian is a very patient person, but it is only natural that he should entertain a feeling of resentment for the one who has wrought his ruin."

Emperor Nicholas I sought to help the Jews by ordering the establishment of agricultural colonies in southern Russia, hoping to induce the Jews to engage in agricultural pursuits instead of money lending, but the effort was unsuccessful, nor have other projects establishing Jewish states been successful. The situation in Russia, so far as the Jew is concerned, is that of the peasant against the money lender, instead of the Russian against the Jew. The Jew ruins the peasant, with the result that conflicts occur when the latter have lost all their worldly possessions and have nothing to live upon. The Jews are, in good Russia and they are respected. Jewish genius is appreciated in Russia and the Jewish artist is honored. Jews also appear in the financial world in Russia. The Russian government affords the same protection to its citizens, and when a riot occurs and Jews are attacked, the officials immediately take steps to apprehend those who began the riot and visit severe punishment upon them. In the past, Russians have been punished for attacking the Jews. But, notwithstanding these attacks, the Jews continue to do the very things that have been responsible for the troubles which involve them."

Continuing the conversation, the ambassador said: "I have received no Russian readily assimilates with the people of all other races, and if he cannot assimilate with the Jew, it is apparent that the fault must lie with the Jew and not with the Russian."

The ambassador's attention was called to the statement contained in press dispatches from St. Petersburg today to the effect that a ministerial decree had been issued, forbidding the Jews to arm themselves for their own protection. "I have received no information regarding the nature of the decree," he said, "but I know that when the facts are made known it will appear differently and will be shown that the decree does not discriminate against the Jews. The fact that Lieutenant-General Raabov, governor of Bessarabia, has been called to St. Petersburg shows conclusively that the imperial authorities are seriously regarding the Kishinev affair and are taking prompt measures to punish the guilty and prevent repetition of these disturbances."

EPICRAMS BY THE PRESIDENT.

PIES NO MAN WHO HAS TO WORK—IF WORTH HIS SALT HE WILL WORK.

Ashland, Ore., May 21.—President Roosevelt yesterday completed his tour of California and entered upon the last stages of his long trip, which is to end at Washington on June 5th. His journey today has been through Missouri, Kentucky, Tennessee, and West Virginia. The president made his longest speech of the day at Dunsmuir, Calif., where he reiterated his views on good citizenship.

Among the epigrammatic bits of his thoroughly characteristic speech, were the following: "I pity no man because he has to work. If he is worth his salt he will work."

"To the true American nothing can be more alien than the spirit either of envy or of contempt for another who is leading his life as a decent citizen should lead it."

"We have room for every honest man who spends his life in honest efforts, but we have no room either for the man of means who in a spirit of arrogant business looks down upon the man less well off, or for the man who envies his neighbor because that neighbor happens to be better off."

"If the man is a good American and is doing his work squarely he need not envy anybody, because he occupies a position such as no one else in any country, in any other age has occupied."

"America has gone on as she has gone because we have a high average of citizenship."

"Our government has so far escaped the twin dangers of government by a plutocracy or government by a mob, either of them absolutely alien to American ideals."

"In our life what we need is not so much genius, not so much brilliancy, as the ordinary commonplace everyday qualities which a man needs in private life, and which he needs just as much in public life."

UNITED STATES POWERLESS.

Will Make No Protest to Russia for the Kishineff Massacre.

Washington, May 22.—Another large batch of resolutions came to the state department yesterday, all relating to the Jewish massacre at Kishineff. The department is acknowledging in proper terms the receipt of all these with promises of consideration. As the Russian government appears to have done what it could to restore order in the disturbed section, and seems to be punishing the perpetrators of the outrages, there is said to be no grounds for United States intervention or even representation at this time.

Horrible Butchery of Bulgarians.

Salonica, European Turkey, May 21.—The long list of recent deliberate murders in Monastir, with a preponderance of Bulgarian victims, indicates, it is asserted, that the Turks are getting beyond control. Out of twenty-one officially admitted murders, fifteen Bulgarians were among the victims. One man murdered by the Turks had his eyes torn out, his face burned and his tongue torn out.

Montana's Loss Was Enormous.

Helena, Mont., May 22.—Statistics compiled by President Power, of the state board of sheep commissioners, fix the total number of sheep lost in the recent blizzard at 900,000. Up to the time of the storm, 600,000 had frozen in the snow of previous blizzards, making a grand total of 1,500,000 lost in Montana since December. At an average of \$2.50, this means a monetary loss of \$3,750,000.

The sudden deaths among men are eight times greater than those among women.

MULLAH'S FORCES BADLY BEATEN

Abyssinian Forces Engage His Dervishes and Drive Them Off, Killing 300.

FIGHT WAS HAND TO HAND

First Blow Struck By Abyssinian Contingent Co-operating With Brigadier-General Manning's Advance—Abyssinians Number 10,000.

London, May 20.—An official war office dispatch from Aden, Arabia, under today's date, gives details of the desperate encounter which took place at Burrilli, Somaliland, May 4, between an Abyssinian force operating the Mad Mullah and a large force of the latter's dervishes. After a hand-to-hand fight lasting 45 minutes, the dervishes were driven off with the loss of 300 killed and two wounded. The Abyssinians had 21 killed and 10 wounded. Subsequently the Abyssinians raided the wells northwest of Burrilli and captured several prisoners. The latter said the Mullah was at Ubertal.

The defeat of the Mad Mullah's dervishes is the first blow struck by the Abyssinian contingent which is co-operating with Brigadier-General Manning's advance. The Abyssinian number 10,000, are mostly armed with modern weapons and are accompanied by some British officers. The scene of the Burrilli fight is 120 miles southwest of the scene of the disaster to the British force under Colonel Plunkett on April 17, when the colonel, all of the British officers, and practically his entire force of 170 men were annihilated by the dervishes, and 200 miles from General Manning's present quarters at Bohole.

Ubertal, where the Mad Mullah is now reported to be is 20 miles from Geroligubi, where, under the original plan, the British and Abyssinian columns should have met.

CANCELLED THEIR PROMOTION.

Postoffice Department Does Away With 3,000 Clerks.

Washington, May 21.—The cancellation of the promotions of over 3,000 postoffice clerks throughout the country recently authorized by the department and a formal notice to former First Assistant Postmaster-General Perry S. Heath of the charges made against him by ex-Cashier S. W. Tulloch, of the Washington city postoffice, constituted yesterday's developments in the postoffice investigation. First Assistant Postmaster-General Wynne, late yesterday afternoon reported to Postmaster-General Payne that the investigations of clerks in each grade in postoffices of the first class had been completed. This work was undertaken in accordance with the order made by the postmaster-general to rearrange the salaries of the clerks according to grades so that the number in the several grades shall not exceed the number specifically prescribed in the act of congress making appropriations for the postal service. The former classification was made by George W. Beavers, just prior to his sudden resignation as chief of the division of salaries and allowances.

The new schedule approved by the postmaster-general, after transferring five per cent from grades where there are vacancies, as authorized by a recent decision of the comptroller of the treasury, makes it necessary to cancel 3,046 promotions in the several grades in which there is an excess above the number to which the grades are limited by law, and in which grades 7-12 promotions have been authorized heretofore. The report says: "It will not be necessary in any case to reduce any clerk, but simply to cancel 3,046 out of 7,412 promotions heretofore authorized to take effect July 1, 1908. We will proceed at once to ascertain exactly the number of promotions in each grade it will be necessary to cancel at each postoffice and then will inform the postmasters and allow them to secure the increase which must be cancelled."

Most of the excesses in the number in the respective grades of clerks scattered throughout the United States at first-class presidential offices are in the \$900 and \$1,000 per annum classes.

The postmaster-general yesterday sent to Mr. Perry Heath a copy of the charges filed by Mr. Tulloch, together with a letter requesting any suggestion he may submit on the subject. It is the first official communication with Mr. Heath during the investigation. None of the supplemental answers to the postmaster-general's letter giving the more definite allegations of Mr. Tulloch have yet been received by Mr. Payne.

TEN FEET OF SNOW.

Loss of Stock in Montana Figured at 90,000 Head.

Butte, Mont., May 21.—Ten feet of snow is reported from Coumbs, Montana, near the boundary, and the thermometer is ranging from 4 to 6 degrees below zero. Traffic on the Great Northern is seriously interfered with by the drifting snow and the trains are being operated only under the greatest difficulty.

Conservative estimates place the loss of stock at about two million dollars and the number of head of stock lost is figured at about ninety thousand.

CHINA STANDS FIRM.

Russian Opposition Keeps Manchuria Closed.

Pekin, May 19.—China, in reply to further representations of the United States and Japanese ministers, has again pointed out the impossibility of including in the commercial treaties the opening to the trade of Manchurian towns, on account of Russian opposition. The American minister proposes that China open Mukden, Harbin and a small part of the mouth of the Yalu river.

Governor is Dismissed.

St. Petersburg, May 20.—The report that Lieutenant General Raabov, governor of Kishinev in Bessarabia, where the massacre of the Jews occurred a month ago, has been dismissed by the czar is confirmed. The imperial ukase dismissing the general is dated May 17. The authorities here have suppressed the news, and have prohibited the street sales of the Novosti, for the contravention of the press regulations.

Mrs. F. Wright, of Oelwein, Iowa, is another one of the million women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

Overshadowing indeed is the success of Lydia E. Pinkham's Vegetable Compound—compared with it, all other medicines for women are experiments.

Why has it the greatest record for absolute cures of any female medicine in the world? Why has it lived and thrived and done its glorious work among women for a quarter of a century? Simply because of its sterling worth. The reason that no other medicine has ever reached its success is because there is no other medicine so successful in curing women's ills. Remember these important facts when a druggist tries to sell you something which he says is just as good.

A Young New York Lady Tells of a Wonderful Cure.

"DEAR MRS. PINKHAM:—My trouble was with the ovaries; I am tall, and the doctor said I grew too fast for my strength. I suffered dreadfully from inflammation and doctored continually, but got no help. I suffered from terrible dragging sensations with the most awful pains low down in the side and pains in the back, and the most agonizing headaches. No one knows what I endured. Often I was sick to the stomach, and every little while I would be too sick to go to work for three or four days; I work in a large store, and I suppose standing on my feet all day made me worse."

"At the suggestion of a friend of my mother's I began to take Lydia E. Pinkham's Vegetable Compound, and it is simply wonderful. I felt better after the first two or three doses; it seemed as though a weight was taken off my shoulders; I continued its use until now I can truthfully say I am entirely cured. Young girls who are always paying doctor's bills without getting any help as I did, ought to take your medicine. It costs so much less, and it is sure to cure them. Yours truly, ADELAIDE PRAHL, 174 St. Ann's Ave., New York City."

Women should not fail to profit by Miss Adelaide Prahl's experiences; just as surely as she was cured of the troubles enumerated in her letter, so you certainly will Lydia E. Pinkham's Vegetable Compound cure others who suffer from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability, and nervous prostration; remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

If there is anything in your case about which you would like special advice, write freely to Mrs. Pinkham. She can surely help you, for no person in America has such a wide experience in treating female ills as she has. Address is Lynn, Mass.; her advice is free and always helpful.

\$5000 FORFEIT we cannot furnish the original letter and signature of above testimonial, which will prove its absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.
