We made several trips to the mountains, but perhaps the most interesting one was the famous Georgetown Loop. We were much impressed with the city of Denver. WASHINGTON DEFAMERS.

A few weeks ago a newspaper sheet styled "The Buxton Eagle." One would infer from the name that said paper was printed or at least published in the town of Buxton, Iowa, yet such is not true, for this paper never was published in Buxton. It is printed some place where, and some times. After Prof. Booker T. Washington had visited and delivered his lecture and was received so cordially by the citizens of Buxton this paper came out and denounces Mr. Washington, stating that he did not meet the representative people there, which is not so, for he remained down in the Y. M. C. A. parlors and met and talked with the people, the damage done was for the Chicago Conservator and the Boston Guardian to take up these misrepresentations and false statements and run them in their journals when they knew better. For the Buxton Gazette, the only paper published in Buxton gave a two column writeup and then the Bystander with all the daily papers gave good reports of the meeting. No these journals want to do Mr. Washington as much harm as possible and they seem to use such little contemptible things. We are not defending Mr. Washington as the race leader or the good work he is doing for the race, for his noble work will stand and defend itself, either do we oppose those of Mr. Washington but we would suggest to you to be honest and fair and secure reliable statements for false statements cannot last long so do not seek to mislead your readers. In another part of this paper we print an excellent article from the pen of Mr. Lewis C. Johnson, secretary of Y. M. C. A. condemning the action of the so called paper. Mr. Washington is to busy a man to bother with little would be leaders of our race, we have a few such men in Iowa that are trying to harm Mr. Washington's work and we would say to those parties produce something and do something for our race.

HENDERSON SECURES A GOOD PLACE.

It is with much pleasure that we note the appointment of Luther L. Henderson to the chair of Psychology at the State University in Oklahoma, by the board of regents of that territory. Indeed we congratulate Mr. Henderson. There is no more worthy or deserving young man than he. He was a graduate from the Lincoln Institute; after teaching in Missouri awhile he came to Iowa and entered Drake University where he took a literary course and graduated with honor.

The next meeting will be held with the Third Baptist church of Davenport.

UNION CONGREGATIONAL CHURCH.

It may not be out of place in this number of the paper, in which Mr. Dixon figures so largely, to say that the Negro Congregationalist of Des Moines are making fine progress in the erection of their new sanctuary. Mr. Porter, the pastor, may be seen any day, Sunday excepted, trowel in hand, laying brick and supervising the work. He was a bricklayer before he was a preacher. His people are rallying to him nobly and the work progresses well. It is to be a comely structure which will seat about four hundred people. We will give the cut of it in our paper before many months, and whether Mr. Dixon likes it or not, we shall bid these brethren Godspeed, and when they dedicate, we will give them as many dollars as we can spare.—Congregational Iowa, Oskaloosa, Iowa.

A FALSE MISREPRESENTATION.

(Special to the Bystander).

Buxton, Ia.—The Chicago Conservator, one of our most valued exchanges, appears to be the victim of the Negro sheet which carries the name of Buxton at its mast head and which has changed its place of location three times within the last six months, and which is not now, never was or ever will be located in Buxton, in regard to the visit of Dr. Washington at Buxton, last July.

The charges that influential Negroes, or any one else, was prevented from meeting Washington is so absolutely false and absurd that it is hardly worthy of contradiction.

This alleged newspaper is merely carrying out its nefarious policy of maliciously endeavoring to create an unfavorable sentiment against the camp of Buxton, simply because this "sheet" has an ax to grind.

It is just that class of journalism that embitters sentiment against the Negro and all of his enterprises by the better thinking classes. All journalists of the Negro race should unite in suppressing these semi-criminal publications, which make their livelihood by attacking public men for the edification of that class which are always "agin the government" right or wrong. An unprincipled paper gains its low character from its editor and there should be laws to take care of both, that the innocent should not suffer.

The Buxton Gazette is the Buxton newspaper, and furthermore, is reliable. The other paper published outside of Buxton is a thing for "graft" only.

THE WESTERN NEGRO PRESS ASSOCIATION.

Colorado Springs, Colo., May 27, '05. Western Negro Press Association meeting in the ninth annual session at Muskogee, I. T., September 20, 21 and 22, 1905.

To the Press: Pursuant to the regular appointment under the constitution, the Western Negro Press Association is hereby called to convene at Muskogee, I. T., in its ninth annual session, Wednesday, Thursday and Friday, September 20, 21 and 22, 1905.

All proprietors, editors, managers and correspondents west of the Mississippi river are eligible to membership in said association and are urged to be present.

We cordially extend an invitation to the members of the fraternity and the friends of the newspapers in general throughout the country to meet with us at Muskogee to consider those questions so vital to the welfare of the race in the United States of America.

We also extend and expect all ministers and college professors, business men, professional men and women to be present in this meeting.

Recent developments show the need of action on the part of the intelligent and thoughtful members of the race and the press with the aid of the pulpit must undoubtedly take the lead. The official program that will be published later will be up to the usual high standard.

We would again urge upon every paper and its entire staff to make this meeting a personal matter in order to secure a large and enthusiastic gathering.

The executive committee: C. S. Muse, chairman, Joseph D. Rivers, Denver, Colo.; J. C. Trimble, Boley, I. T.; W. W. Taylor, Salt Lake City, Utah; S. Ridley, Guthrie, Okla.; W. R. Carter, Topeka, Kan.; Albert Ross, Kansas City, Kan.

The secretary is ordered to apprise the railroads of the convention and will request them to extend courtesies to the members and publishers of the craft.

All communications should be addressed to the secretary at Colorado Springs, Colo.

Nick Chiles, President. C. Muse, Chm. Executive Committee. W. H. Duncan, Sec.

THE DELINEATOR FOR OCTOBER.

From the artistic viewpoint, as well as that of fashion, the October Delineator surpasses even the high standard it has previously attained. Many pages are given to the styles of the month, twenty pages in color being a noteworthy departure, additional space being devoted to the New York and Paris fashions, set forth with chic and individuality by Helen Berkeley-Loyd and Edouard Le Fontaine; and the literary side, household topics and special features are on an unusual plane of excellence. Of widespread interest to parents, teachers and all who lead or follow in educational lines is an exceptional article, "Education for Life through Living," by William H. Maxwell, Superintendent of New York City Schools, N. Hudson Moore writes interestingly of old desks and secretaries, giving the hall-marks that enables the amateur to place them correctly; Allan Sutherland tells the history of "Onward, Christian Soldiers," a hymn that is the inspiration of the young; Clifton Johnson takes the reader across the wild coast of Devon into the wider country that was Lorna Doone's. The marketing of milk is a vital public question in that it deals with the health, and consequently the life of the child. In this issue of the Delineator Mary Hinman Abel discusses the milk question in various phases. The title of another article, "Club Women and the Food Question," shows something of how the campaign instituted in the interest of pure food has spread. Mr. Paine's story, "The Lucky Piece," and the third installment of Miss Winslow's "At Spinster farm," furnish interesting reading of a lighter character and there are also several short stories. Pastime for children include another chapter of "Son Biley Rabbit," that has delighted so many little ones, suggestions for Halloween amusements, and other subjects of juvenile interest.

THE BATTLEGROUND OF MODERN THOUGHT.

The Chicago Record-Herald has conceived the unique idea of assigning a page of its Sunday edition to the public for the free discussion of important questions of the day. Under the head "The Battleground of Modern Thought," an opportunity is offered to the public for the sane discussion of all problems engaging the attention of the American people. Writers of ability present their views on subjects not generally treated in the daily press. Record-Herald readers generally are invited to join the debate. The fairest most forceful and original contributions are published. The following are a few of the subjects which have been discussed since the department was first established:

"Is Blacklist Within the Law?" "Trusts and the Proper Way to Regulate Them."

"Great Peril That Besets Pagan China."

"Liquor Trade and Its Evil Consequences"

"Are Free Books Wanted in Public Schools?"

"Inhumanity to Animals."

"New Struggles for the Negro."

The Record-Herald disclaims any responsibilities for the dogmas upheld, the theories advanced or the panaceas advocated. It reserves the right only to preserve order, to keep out personalities and rancor and to see that good temper and candor characterize the discussions.
