STUDENT DISAPPEARS.

Son of Wealthy Kansas Cattleman May Have Been Murdered. Des Moines.—George J. Wolberd, twenty-eight years of age, son of a millionaire ranchman of Cawker, Kansas, is believed to have been murdered.

Every effort is being expended to locate the missing man. Young Wolberd was said to be of a quiet disposition and was seldom away from his room excepting on business trips.

The theory of kidnaping has been advanced by a number of detectives working on the case. It is claimed that crooks knowing of the wealth of the young man's father probably caught him while he was wandering around the city and are holding him for purposes of ransom.

Five Weeks in Bed with Intensely Painful Kidney Trouble.

Mrs. Mary Wagner, of 1367 Kossuth Ave., Bridgeport, Conn., says: "I was so weakened and generally run down with kidney disease that I could not do my work and was five weeks in bed."

The passages of the kidney secretions were irregular and painful, and there was considerable sediment and odor. I don't know what I would have done but for Doan's Kidney Pills. I could see an improvement from the first box, and five boxes brought a final cure."

AWFUL ITCHING ON SCALP.

Hair Finally Had to Be Cut to Save Any—Scalp Now in Good Condition—Cured by Cuticura.

"I used the Cuticura Soap and Ointment for a diseased scalp, dandruff, and constantly falling hair. Finally I had to cut my hair to save any at all. Just at that time I read about the Cuticura Remedies. Once every week I shampooed my hair with the Cuticura Soap, and I used the Ointment twice a week. In two months' time my hair was long enough to do up in French twist. That is now five years ago, and I have a lovely head of hair. The length is six inches below my waist line, my scalp is in very good condition, and no more dandruff or itching of the scalp. I used other remedies that were recommended to me as good, but with no results. Mrs. W. F. Griess, Clay Center, Neb., Oct. 23, 1905."

SOME BEDROOM DON'TS.

Don't lie in the same position all night if you can help it. Don't cover your head with the bedclothes. Have your covers warm but light. Don't go to bed hungry. Eat any light simple food that you wish if it agrees with you. Don't sleep in a room that is too cold. From 55 to 60 degrees is the right temperature. Don't go to bed with cold feet, but see to it that they are warm and comfortable before you get in bed. Don't fill your bedroom with bric-a-brac and draperies, but have as little as possible in it to catch the dust. Don't put your pillows in the sun, as it draws the oil out of the feathers. Sun the bed and bedding, but place the pillows out of the sunlight in a current of air. Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

POINTED PARAGRAPHS.

He who thinks no evil can do no wrong. A business man should neither doze nor bulldoze. A woman's vanity begins with her hat and ends with her shoes. The stubs in check books cover a multitude of disappointments. It is so easy to find fault with the good things possessed by others. Starch, like everything else, is being constantly improved, the patent starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands. When Herbert Spencer was a boy his father sent him away from home to school. The youngster became homesick and with two shillings in his pocket made his way home, over 120 miles, in three days, walking most of the way. He did 48 miles the first day and 47 on the second. On the third day a friendly coach driver took him most of the way for nothing. By following the directions, which are plainly printed on each package of Defiance Starch, Men's Collars and Cuffs can be made just as stiff as desired, with either gloss or domestic finish. Try it, 16 oz. for 10c, sold by all good grocers. A man might give his wife more spending money, if he wouldn't spend so much of it on things for him that he doesn't want. Defiance Starch—Good, hot or cold—the best for all kinds of laundry work 16 oz. for 10c.

STRIKE STILL HANGS FIRE

Russian Revolutionary Leaders Keep Their Own Council

SECRET CONFERENCE IS HELD

Famine Adds to Difficulty of Immediate Strike—Peasants Need Railroads or They Would Be Cut Off from all Supplies—Police Grow More Active.

St. Petersburg, July 27.—The decision on the question of a general strike is still hanging fire. No word has been received from the revolutionary leaders who again were in secret session last night. In addition to other resolutions the condition of the crops of the districts is advanced as a new argument against a strike, as the peasantry would resent the tying up of railroads upon which they are dependent for grain to keep them from starvation.

The police are becoming more active in breaking up the meetings in the capitals. Yesterday they invaded a conference of St. Petersburg aldermen, which was held in a prominent house, and placed all of those in attendance under arrest for five hours while the house was searched and papers examined.

Warsaw, July 27.—A daring robbery was perpetrated yesterday on the Vistula railway in the outskirts of Warsaw. Revolutionaries stopped a passenger train by pulling the emergency brake. After securing the passage, the robbers uncoupled the locomotive and car containing several strong boxes filled with the receipts of various stations. The gendarme in charge was killed and the engine driver forced to proceed to a spot where the line passes through a wood. At a given signal thirty armed men appeared, broke open the boxes, abstracted \$7,500 and decamped.

London, July 27.—The report at Copenhagen of the Daily Telegraph states as on information received from captains of Danish and foreign steamers that the Russian revolutionaries still continue to smuggle arms and ammunition into Russia. Many cargoes of ammunition, the correspondent says, have been discharged on the Finnish coast.

"STRONG-HANDED REFORM."

Stolypin Outlines His Policy in Two Words.

St. Petersburg, July 27.—"Strong-handed reform" is laid down by M. Stolypin as the keynote of his administration in an interview in which the premier expressed his confidence that this policy, with the aid of the "unite patriotism of the masses" and the army, which, "in spite of all reports, is still loyal and reliable," will tide the country over until the convocation of the next parliament. He emphasized, as did Controller of the Empire Schwanebach on Sunday, the belief that the outlawed parliament was neither representative nor capable of constructive work. He spoke with special scorn of the leaders of the constitutional democrats, not attempting to conceal his impression that the quasi respectability of the party was but a cover for insincerity and trifling with the worst element of the revolution. They did not honestly believe in either a general expropriation of land or in complete amnesty. Their advocacy of these features was merely a campaign ploy. The premier stated that the members of parliament were not arrested for signing the Viborg manifesto, because that merely would have conferred a mild and much desired martyrdom on them, but they would be held responsible for the slightest attempt to preach to their constituents seditious doctrines, such as refusal to pay taxes or furnish recruits to the army.

GIGANTIC PLOT DISCOVERED.

Claim Revolutionists Planned Strike for October.

Paris, July 27.—According to the Journal's St. Petersburg correspondent, the Russian authorities discovered in the course of recent searches the existence of a gigantic organization for a general revolutionary strike in October and the plans of which had been perfectly prepared. The emperor consequently decided to strike a sharp blow by dissolving the representative assembly and thus prevent parliament from becoming a tribune for revolutionists. The Echo de Paris states that it was police interrogations of the newspaper Miskin, which was attended by a number of deputies, that led to the discovery of a plot by the organized labor and Jewish groups of the lower house of the parliament. The government demanded the expulsion of the leader of the movement, Deputy Solomka. The house refused to accede, and consequently it was dissolved, the government believing it was cognizant of the plot.

BRYAN IS RECEIVED BY KING EDWARD

London, July 27.—Wm. J. Bryan, who was introduced by Ambassador Reid, was received in private audience by King Edward at Buckingham palace yesterday. The visit was paid at the king's special request, his majesty having notified Mr. Reid that he desired to meet Mr. Bryan. The interview was quite informal and was marked with the pleasing cordiality which the king is accustomed to show Americans in whom he is interested. Only the king, Mr. Reid and Mr. Bryan were present. The conversation largely turned on the subject of peace and the conference of the inter-parliamentary union, with the objects of which the king showed himself thoroughly in accord.

The Things We Eat.

Too much meat is absolutely hurtful to the body. Sailors on board of ships get scurvy when their supply of vegetable food is exhausted. The digestive organs of the human body demand vegetable food, and if we don't eat enough vegetables we pay for it dearly.

Nature gave us wheat, and in every kernel of wheat nature has distributed iron, starch, phosphorus, lime, sugar, salt and other elements necessary to make bone, blood and muscle.

EGG-O-SEE is wheat scientifically prepared. Cooked, and made into crisp flakes, EGG-O-SEE goes into the stomach ready for the digestive organs to convert it into life-giving substances with but little effort.

EGG-O-SEE eaters are a clean-eyed, strong and happy lot. The proof of a pudding and the proof of EGG-O-SEE is in the eating. EGG-O-SEE besides being solid nourishment is most palatable. Every mouthful is a joy to the taste and direct benefit to your health. A 10-cent package of EGG-O-SEE contains ten liberal breakfasts. Our friends advertise us. They eat EGG-O-SEE for a while. They grow strong. They are well and happy and they pass the good word along.

Next time you send to the grocer's tell your boy or girl to bring home a package of EGG-O-SEE. Have your children eat EGG-O-SEE. It is their friend. They'll eat EGG-O-SEE when nothing else will taste good. You try EGG-O-SEE and you can deduct the cost from your doctor's bills.

We send our book, "Back to Nature," free. It's a good book of plain, good, common sense. If you want a copy, address EGG-O-SEE Company, 10 First St., Quincy, Ill.
