DES MOINES, IOWA

Pick out that automobile yet?

The Selma must have gone insane.

All well-regulated comets have tails to burn.

Sombody greased the slide for the price of butter.

Aviators may be classified as sky riders and joy riders.

In Boston it is considered shocking to see a comet with the naked eye.

While the meat eating slacks up we can see prosperity for the pie factories.

A "cocoon" gown at a "hookworm" dance ought to occasion some comment.

In time to come perhaps a horse will be regarded as merely a gasolineless automobile.

Going shopping for one's yearly supply of automobiles is a way of getting a thrill which is denied to many.

"Drome," for aeroplane flying, looks still an agreeable, well-mannered word. Still, why not say "soar," since that is what you do?

Milk producers think the man who stands between them and the consumer gets too large a rake-off for the work he does.

Moreover, the consumer objects to paying for wooden butter dishes at the rate of 40 cents a pound, since they are not very good to eat.

Even if on account of the high cost of living you cannot afford many beef-steaks, you might invest yourself as to the price of rounabouts.

There is a hitch somewhere in the Nicaraguan revolution. This one should have petered out long ago, and a new one should have started.

A wife sets up in her answer to her husband's suit for divorce that he made her cut her hair for six years. Why does she not allege his insanity?

Fame and fortune beyond the dreams of avarice await the genius who can devise a steam radiator that will always produce the right amount of heat.

The charge is made that the cold-storage men are responsible for a rise of 40 per cent. in the price of food. That still leaves unexplained the 20 per cent.

Some of the royal family of Greece have gone to Russia for peace and quiet, which recalls Mr. Dooley's famous visit for the same purpose to the boiler factory.

American hens, according to Dr. Wiley, are being taught to lay smaller eggs but more of them. The individual American appetite, however, is not growing smaller to fit the eggs.

Alaska has had a blizzard with a temperature 70 degrees below zero. You will recognize that condition of intense cold by thinking of the night you had to get up to put out the cat.

Paulhan in his high flight contests has attracted but mild interest compared with the aerial feat of food-stuffs; they are aviating higher and higher and the man that pays the grocery bill is standing open-mouthed wondering when they will come down again.

Talk about prices, a Pennsylvania hen has just won a \$12,000 prize! A great to-do is being made because somebody stole an egg which she laid in her coop at the show, and no wonder. Her eggs must rate at about \$100 each. Is it surprising that common eggs are so high?

Quail are reported to be starving to death in southern Wisconsin because the heavy snowfalls have cut off supplies of food. If this be the case the farmers should rally to their rescue. The quail is semi-domestic in its habits, and the state has been giving the birds an opportunity to multiply by forbidding all hunting for them, the farmers should be assisted by all sporting clubs in extending help to the quail in these days of their adversity.

Thomas A. Edison foresees a Utopia 200 years hence when no one will have to do any work, because the machines will attend to all that. As this will be too late to benefit either this generation or its grandchildren, it may be suggested that if Mr. Edison will hurry up and perfect that cheap storage battery he has announced so often it may advance the day when people now living can enjoy the golden or electric age.

Now the English sparrow is to be exterminated. And, remembering the success of the movement against the mosquito, the bilthosome sparrow chirps, hopes and hops.

The difference between drudgery and play is all in the point of view. Drudgery is work that one doesn't like and play is work that one does like. As far as muscular effort is concerned, baseball is fully as strenuous as pitching hay. Some men enjoy pitching hay more than they would baseball, and there you are.

The man who claims that the extravagance of American women is responsible for the high cost of living probably forgets that he wouldn't wear socks and mittens knitted by his wife if she were willing to furnish them.

Prof. W. J. Spillman declares that the farms have furnished this country with 92 per cent. of its presidents, 91 per cent. of its governors, 83 per cent. of its cabinet officers, 70 per cent. of its senators, 64 per cent. of its congressmen and 55 per cent. of its railroad presidents.

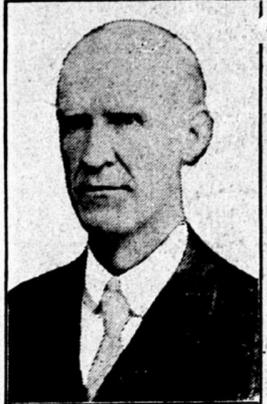

PYTHIANS BANQUET

After Holding District Meeting in Des Moines.

GRAND CHANCELLOR PRESENT

Secret Work of First and Third Degrees Exemplified by Team From Redfield—Many Prominent Knights Present.

Des Moines, Mar. 11.—The Knights of Pythias of Des Moines and the neighboring towns held a banquet at the Knights of Pythias hall over 506 East Locust street. This was the crowning event of the Knights of Pythias convention held here. The program of the afternoon consisted

Dr. J. N. McCoy.

of a school of instruction. In the evening the first and third degrees of the order were exemplified, the work being done by the team from Redfield. A number of prominent Knights from out of town were present. Among these were Grand Chancellor McCoy of Corydon and four of the supreme representatives, Dr. Frank Porterfield of Atlantic, Ben Salinger of Carroll, Bernard Murphy of Vinton and Senator C. C. Dowell of Des Moines. After the degree work was given a banquet was enjoyed.

Pythians Honor Knapp.
Cedar Falls.—Red Center lodge No. 83, Knights of Pythias, honored one of their charter members, Lanter Knapp by presenting him with the knight's gold-jeweled badge set with diamonds. He was also presented with a past chancellor's certificate appropriately framed. His record is exceptional, he having been a continuous member for twenty-eight years and has occupied every position the lodge could offer. He has resided in this city for over fifty years and been justice of the peace for nearly all that period and city assessor for much of the time.

Milk Special Tour Ends.
Burlington.—The tour of the Burlington pure milk special came to an end, with a monster meeting in the Y. M. C. A. auditorium in this city. Professor Van Pelt spoke on the need of better dairying facilities and urged upon the many farmers present the importance of tests and cleanliness in every department. Many questions were asked from the audience and answered with entire satisfaction.

Prof. David J. Roberts of Wisconsin spoke of bovine tuberculosis and upheld the policy of the test for that disease. He commended the movement already taken in Burlington to prevent the spread of the disease from milk. All members of the party declare the two weeks' tour of the special was one of remarkable success.

Thirteen-Year-Old Preacher.
Waterloo.—Linden chapel was crowded with children and adults to hear Will Huffman, age 13, the boy preacher. The lad acquitted himself like a veteran and preached a strong sermon on the "Two Builders." He held the congregation spellbound by his oratory. At the close he was showered with congratulations. His parents live at Ionia. He is here attending high school.

To Visit Old Home in Ireland.
Eldora.—The Rev. William George Ramsey, pastor of the First Congregational church of this city, contemplates leaving in a few months for the old ancestral home in Ireland to visit his aged father and mother, both of whom are well and happy and each of whom has reached the age of 78 years.

Fraternal Orders Merge.
Waterloo.—The Highland Nobles of Waterloo and Modern National reserve of Charles City, fraternal insurance orders, merged at a meeting here. The headquarters of the new order, which retains the name of Highland Nobles, will be in Waterloo.

Killed by Fall From a Tree.
Wapello.—Phillip E. Thompson, about 24 years of age, was killed by a falling tree on the farm of his father-in-law, J. H. Weber, near this city. Death was instantaneous.

Pioneer Banker Dead.
Boone.—Oscar Schleiter of Pittsburg died after a very short illness. He was a pioneer Iowa banker, living here many years ago. He was a brother of Mrs. George Burley of Boone and Mrs. Jack Hornstein of Chicago.

Killed by Train.
Davenport.—J. J. Elison, janitor in an office building, was struck by a Rock Island engine at Davenport, and died two hours afterward in the hospital.

OHIOAN TO SPEAK AT IOWA CITY.

Iowa City.—Prof. Isaac Joslin Cox of the University of Cincinnati, president of the Ohio Valley Historical association, will deliver an address at the meeting of the Mississippi Valley Historical association in Iowa City next May. Professor Cox is the author of a number of monographs and other historical works which are known all over the country. He has written up "The Early Settlers of San Fernando," "The Southwest Boundary of Texas," "The Early Exploration of Louisiana" and other subjects of interest.

The meeting in Iowa City May 25 and 26 will draw many of the most distinguished men of the Mississippi valley to Iowa City. On May 25 there will also be held a meeting of the State Historical society.

Colfax Patron-Teachers' Club.
Colfax.—The organization of the Patron-Teachers' club now has a membership of 100 and has affiliated with the Iowa Congress of Mothers. The association was organized to assist in the move of enlarging and developing closer relationship of the parent and children and to co-operate with the superintendent of the school in any work for the interest of education.

Gen. Logan Inspects Range.
Iowa City.—Adjutant General Guy E. Logan has been inspecting the state rifle range near here with the view of purchasing more ground for the machine gun battery which will probably be installed at either Iowa City or Cedar Rapids in the near future. The head of the state militia is also making plans for making the new range ready for use this summer.

Colts Die Strangely.
Elliott, Ia.—There has been some loss of cattle at Elliott from some unknown cause. They eat, their eyes look bright and they chew their cud, but they get so weak they cannot stand and die in a few hours. Some seem to have no pain, others are in distress, and keep up a moaning sound. One man has lost thirteen head.

Iowa Falls G. A. R. Celebration.
Iowa Falls.—The thirty-seventh anniversary of the organization of Charles Payne post, G. A. R. of this city was elaborately celebrated at the W. R. C. hall by the members of the post and the ladies of the W. M. C. Supper was served by the latter organization at 6 o'clock and was followed by a program.

To Work for Correct Census.
Marshalltown.—The Marshalltown club has determined to render all assistance possible to the government census takers in getting a correct census for this city, and has placed Postmaster Charles H. Smith as the chairman of a committee to take a census preceding the government enumeration in April.

Divorced Couple Rewed.
Iowa City.—Harry W. Fairchild and Grace Fairchild, his former wife, could not get along together and so obtained a divorce, hoping in this way to end their difficulties. This was but a few months ago. They soon found that they could not live without each other and obtained a license to wed.

Plan New School House.
Storm Lake.—The Storm Lake school board will submit a proposition for the issuance of \$35,000 in bonds for the construction of a new high school building at the regular school election. The present facilities are entirely inadequate and the enrollment will be much greater next year.

Hand in Sausage Grinder.
Eldora.—Fred West got his left hand caught in a sausage grinder and the thumb and two first fingers were torn off, and the hand otherwise more or less injured. He was taken to the emergency hospital.

Allison Farm Sales.
Allison.—Herman De Bower has sold his home farm of eighty acres to Louis Hummel for \$105 per acre. He then purchased the Ibling farm of 160 acres, occupied by Dick Freeman, for \$90 per acre.

Milton Youth is Named.
Iowa City.—Congressman Dawson has recommended Arnold W. Jacobsen of Wilton to fill a cadetship vacancy in the naval academy at Annapolis. The young man is a son of C. H. Jacobsen.

Estherville Has \$20,000 Fire.
Estherville.—Fire completely destroyed the opera house. The loss to the Lough estate is \$15,000, with insurance of \$6,000. Jas. B. Cox & Company, lost \$5,000, fully covered by insurance.

Mere Pimple Causes Woman's Death.
Batavia.—A few days ago, Mrs. A. D. McCart, wife of a well known farmer, was bothered by the appearance of a small pimple on the forehead. The pimple grew and spread, bloodpoisoning setting in and death ensued.

Hibernians' Date Set.
Iowa City.—Members of the Ancient Order of Hibernians of Iowa and of the Ladies' Auxiliaries will hold their next state convention in Iowa City during the last week in August.

One School Inspector.
Cedar Rapids.—The state board of education has abolished the office of high school inspector at Ames and at Iowa City and has appointed Forest C. Insign of Iowa City High School inspector for the three state institutions.

Good Roads Convention.
Clinton.—The annual county good roads convention was held at the court house, D. Ward King, of Maitland, Mo., delivered the principal address on the subject "Good Roads."

WORTH KNOWING

Simple But Powerful Prescription for Rheumatism and Lame Back.
This was previously published here and cured hundreds. "Get one ounce of syrup of Sarsaparilla compound and one ounce Toris Compound. Then get half a pint of good whiskey and put the other two ingredients into it. Use a tablespoonful of this mixture before each meal and at bed time. Shake the bottle each time." Good effects are felt the first day. Any druggist has these ingredients on hand or will quickly get them from his wholesale house.

FRIENDS.

"O, well, beauty passes, you know." "Yes, a pity you didn't stop it on its way, isn't it?"

HOW A DOCTOR CURED SCALP DISEASE

"When I was ten or twelve years old I had a scalp disease, something like scald head, though it wasn't that. I suffered for several months, and most of my hair came out. Finally they had a doctor to see me and he recommended the Cuticura Remedies. They cured me in a few weeks. I have used the Cuticura remedies, also, for a breaking out on my hands and was benefited a great deal. I haven't had any more trouble with the scalp disease. Miss Jessie F. Buchanan, R. F. D. 3, Hamilton, Ga., Jan. 7, 1909."

Kept with Barnum's Circus.
P. T. Barnum, the famous circus man, once wrote: "I have had the Cuticura Remedies among the contents of my medicine chest with my shows for the last three seasons, and I can cheerfully certify that they were very effective in every case which called for their use."

Not Willing to Commit Himself.
The teacher had called upon Freddie Brown to give an illustration of the proper manner in which to compare the adjective "clean."

"Mother is clean," said he, faltering. "Father is cleaner—!" Here he paused.

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known for the disease. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the cause of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietor has no objection to the name of his medicine being put on the wrapper of each bottle. Address: J. C. HENNEY & CO., Toledo, O. Sold by all druggists.

Big Bugs.
Dr. Cook was talking to a Washington correspondent on his way to Albany.

"The man is wrong in his attacks," he said. "He errs as ludicrously in his idea of polar conditions as the Brooklyn domestic, who said:

"It must be a filthy place, that north pole, ma'am. I bear it's full of ice bugs as big as cherubs!"—Washington Star.

Important to Mothers.
Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *W. D. Hoagland*. In Use For Over 30 Years. The Kind You Have Always Bought.

Thinking of Garden Time.
Bacon—I think much of the man who can make two blades of grass grow where one grew before.

Where Resinoid Ointment is Known It is Considered a Boon to Humanity.
If the soothing and healing properties of Resinoid Ointment were generally known it would be universally used to the exclusion of all others. It is indeed a boon to humanity.

Called Her Bluff.
"He's a brute!" "What has he been doing now?" "I threatened to leave him and he told me he would button my gown up the back if I would hurry."—Houston Post.

Rheumatism Cured in a Day.
Dr. Deitchon's Relief for Rheumatism radically cures in 1 to 3 days. Its action is remarkable. It removes the cause and the disease quickly disappears. First dose greatly benefits. See Druggists.

Excelsior Connection.
"Is his family well connected?" "Extremely. They have an exclusive private 'phone."

Bear your own burdens first, after that help to carry those of other people.—George Washington.

PERRY DAVIS' PAINKILLER has an enviable reputation of over seventy years as a reliable remedy for neuralgia, sciatica, pleurisy, diphtheria, etc., etc. At all druggists.

ON THE FAIR (LONG) GREEN.

You have my best wishes in all your grand efforts to help your fellow-men.—ROCKEFELLER TO CARNEGIE.

60 PERISH IN A MINE BLAST

EXPLOSION OF POWDER BLOWS MINERS TO FRAGMENTS.
Crash Occurs in 1,100-Foot Level—Men Caught in Trap—100 Are Seriously Injured.

Juneau, Alaska.—By the explosion of a powder magazine in the Mexican shaft of the Treadwell mines Thursday, 60 miners, caught like rats in a trap, at the 1,100-foot level, with no possible chance of escape, were blown to fragments and 100 others were seriously injured, many of whom it is feared may die.

The bodies of the dead were blown into unrecognizable masses of human flesh. The scene when a rescuing party descended to the level, was indescribable. The dead were lying around, piled one on the top of the other and the groans and screams of the injured were heartrending.

It is believed that more of the injured will succumb to their injuries. There is a deplorable lack of medical men and in the company hospitals, which are crowded to the limit, the mangled miners are suffering for want of medical attention.

The cause of the accident is not known at this time. It is believed, however, that the explosion is in consequence of a miner's lamp coming in contact with the powder magazine. Not a man in the portion of the mine where the explosion occurred escaped injury.

The scenes about the mouth of the mine are pitiful. The families of the miners are gathered about the entrance to the shaft and as the bodies are carried from the death trap, there is a wild rush to get near enough to make an effort at identification.

EX-SENATOR T. C. PLATT DEAD

Succumbs to Bright's Disease, Aged 76 Years, at His Home in Albany.

New York.—Former United States Senator Thomas C. Platt died Sunday at his home in this city at the age of 76 years.

His long life ended as a slender cord might snap in twain. By reason of their regular visits to their father rather than from a belief that the end was near, his three sons, Frank, Edward and Harry, and Mrs. Frank Platt, were at his bedside in the apartments of Mr. and Mrs. Gustave Abels, with whom the senator has made his home for the past five years.

Dr. Paul Outerbridge, the family physician, and Mr. and Mrs. Abels also were present. Senator Platt had rallied from a sinking spell which sent him to bed early in the afternoon and was chatting on topics of the news when the doctor arrived and he playfully joked the physician about the coming time when his services would not be needed.

Propped up in bed he took part in the small talk of those present for 15 minutes after the arrival of the physician. Then a tremor passed through his frail frame and by the time Dr. Outerbridge reached the side of his patient Senator Platt was dead.

Rostal Bill Passes Senate.
Washington.—Without a dissenting Republican vote, and with Senator Chamberlain, Democrat, voting with the majority, the senate Saturday passed President Taft's postal savings bank bill. The vote upon the measure was 50 to 22.

Kerens Gives \$20,000 to Newsboys.
St. Louis.—A gift of \$20,000 from R. C. Kerens, recently appointed ambassador to Austria-Hungary, to Father Dunne's newsboys' home was announced Saturday. The money will be used in buying a farm as a summer home for the boys.

Gen. Wood is Recovered.
Baltimore, Md.—Maj. Gen. Leonard Wood, who underwent two operations at a hospital here some weeks ago for an old injury to his head, left that institution Saturday pronounced cured.

Conviction Paralyzes Man.
Abbeville, S. C.—R. A. Richey, a prosperous planter, suffered a stroke of paralysis Friday when he was convicted and sentenced to 14 years' imprisonment for attacking a young orphan girl who was reared in his family.

Mrs. Roosevelt Leaves Naples.
Naples, Italy.—Mrs. Roosevelt and Miss Ethel Roosevelt sailed Friday on the steamer Schleswig for Alexandria, Egypt. They expect to meet Mr. Roosevelt at Khartoum.

LANDSLIDES KILL 92 MORE

Canadian Pacific Workers Buried Under Tons of Debris in Rogers Pass.

Vancouver, B. C.—Snowslides in the Rocky mountains have caused the death of 92 more men. The latest victims were workmen engaged in clearing the Canadian Pacific track in Rogers pass at the summit of the Selkirk range. They were entombed by an avalanche. Fourteen others were injured.

The men were attempting to clear away the debris of a smaller slide which occurred in the Arrow valley of Bear creek, flanked on either side by precipitous mountains covered with a depth of snow varying from twenty to fifty feet. While the men were trapped in this valley the second avalanche descended. It started on the side of the canyon opposite the point where the first slide occurred. Thousands of feet above, a few rolling masses of snow, growing in volume and momentum, started on a pathway of destruction.

The avalanche piled on top of the first slide, burying the tracks for a distance of a quarter of a mile around to a depth of 50 feet. Hundreds of thousands of tons of other debris in the wake of the avalanche bounded off the huge heap and half filled the valley of Bear creek, hundreds of feet below.

BALLINGER INQUIRY LAGS

Pinchot Again Accuses Secretary with Having Made Mistatements and Deceived Taft.

Washington.—Interest in the Ballinger-Pinchot investigation continued to lag Friday as the cross-examination of Mr. Pinchot by Mr. Vertrees developed little which was not gone over in the evidence.

There was much quibbling between counsel and the witness as to the meaning and interpretation of certain statements Mr. Pinchot had made and opinions as to the understanding of various letters and documents. Mr. Pinchot again accused Secretary Ballinger of having made mistatements.

With reference to his claim that Mr. Ballinger had deceived the president concerning a decision of the comptroller of the treasury, Mr. Pinchot admitted that Mr. Ballinger's written statement to the president was "pretty fair" from Mr. Ballinger's point of view, and that the documents that he submitted were all that properly bore on the case. He insisted, however, that the "unavoidable inference" was that Mr. Ballinger had communicated in some other way with the president.

Mr. Ballinger's lawyer brought out that the co-operative agreement with the forest service, which Mr. Ballinger discontinued, was not the usual arrangement whereby one department lends its employes temporarily to another, but provided that employes of the interior department should be under the exclusive control and jurisdiction of the forester.

\$12,000,000 for Buildings.
Washington.—President Taft gave Representative Bartholdt of Missouri, chairman of the house committee on public buildings and grounds, his approval of a public-building bill carrying not more than \$12,000,000 to be passed at this session of congress. The president was given to understand that the measure would provide only for projects which are urgently necessary.

Brazil Has New President.
Rio de Janeiro.—Marshal Hermes Fonseca, the former minister of war, has been elected president of Brazil over the opposition candidate, Dr. Ruy Barbosa.

Dr. Hyde Placed in Jail.
Kansas City, Mo.—Dr. Bennett Clark Hyde is a prisoner in the Jackson county jail, charged with the murder in the first degree of Col. Thomas H. Swope and Chrisman Swope, death of Moses Hunton and attempts to poison eight persons, members of the Swope family, their guests and servants. He was committed to jail Monday without bond by Judge Ralph S. Latschaw in the criminal court after arraignment on the 11 indictments returned Saturday night by the grand jury. He was placed in a hospital ward.

Russia Breaks Chinese Proposal.
Pekin, China.—In a formal note submitted to the Chinese foreign board Friday the Russian government rejects in toto China's proposal for the construction of the Algon & Chinchow railroad.

To Build Warships on Lake.
Washington.—A resolution looking to the building of warships on the great lakes was passed by the house Friday. The plan is a modification of the treaty with Great Britain on the subject.

STOMACH CENTER OF HUMAN LIFE. ALL ELSE SECONDARY

The immense success which has followed L. T. Cooper during the past year with his new preparation has exceeded anything of the kind ever before witnessed in the most of the leading cities where the young man has introduced the medicine. Cooper has a novel theory. He believes that the human stomach is directly responsible for most disease. To quote his own words from an interview upon his arrival in an eastern city: "The average man or woman cannot be sick if the stomach is working properly. To be sure, there are diseases of a virulent nature, such as cancer, tuberculosis, diabetes, etc., which are organic, and are not traceable to the stomach, but even fevers can, in nine cases out of ten, be traced to something taken into the stomach. All of this half-sick, nervous exhaustion that is now so common, is caused by stomachic conditions, and it is because my remedy will and does regulate the stomach that I am meeting with such success.

"To sum the matter up—a sound digestive apparatus that is doing its full duty, getting every particle of vitality out of the food by transferring it to the bowels in a perfectly digested state—this above all else brings health."

Mr. A. C. Brock, chief of the Brock Restaurant, Market District, Boston, Mass., who is a staunch believer in Mr. Cooper's theory and medicine, has this to say: "I had chronic indigestion for over three years. I suffered terribly, and lost about thirty pounds. I was a physical wreck when I started this Cooper medicine, a month or so ago. To-day I am as well as I ever was in my life. I am no longer nervous, my food does not distress me in the least, and I have a splendid appetite. I am gaining flesh very rapidly—in fact, at the rate of a pound a day. I would not believe any medicine on earth could have done for me what this has done. It is a remarkable preparation, and Mr. Cooper deserves all his success."

Cooper's New Discovery is sold by all druggists. If your druggist cannot supply you, we will forward you the name of a druggist in your city who will. Don't accept "something just as good."—The Cooper Medicine Co., Darton, Ohio.

A Bright Idea.
Yeast—It is said that the baya bird of India spends his spare time catching fireflies, which he fastens to the sides of his nest with moist clay. On a dark night a baya's nest glows like an electric street lamp.

Crimespeak—Say, there's a bright idea for decorating that keyhole in my front door!
