THE FINAL ADJOURNMENT

Left to be Governed by the Urgency of Public Business.

House of Representatives.

WASHINGTON, May 14.—Immediately after reading of the journal demands for the regular order were made on both sides of the House and the speaker announced the regular order to be on seconding the demand for the previous question on the resolution offered yesterday by Mr. Butler.

The Republicans refrained from voting this morning on the resolution without a quorum, there were but 111 Democrats present.

Mr. Wood—As the factious minority seem determined to obstruct business, I move that the House adjourn. The motion was opposed by the Republicans, but was carried, yeas 130, nays 104.

Before announcing the result, the speaker laid before the House a communication informing the House of the death of Prof. Joseph Henry, and inviting the members there to be present at the funeral service next Thursday.

On motion of Mr. Clymer, a Senate resolution for the adjournment of the two Houses Thursday next, at 1 o'clock, for the purpose of allowing Senators and members to attend the funeral of the late Joseph Henry was taken up and adopted.

The result of the vote was then announced, after which the clerk gave notice of a Democratic caucus, to take place immediately.

The Democratic Caucus. WASHINGTON, May 14.—The caucus of the Democratic members of the House was held this afternoon immediately after adjournment. Representative Clymer occupied the chair.

The first question was the Senate concurrent resolution proposing the 10th of June as the time for closing the present session.

The House had postponed its consideration until the 15th, to-morrow. Representative Wood moved consideration be further postponed till the 5th of June. This was disagreed to, and on motion of Franklin postponement was extended to the 29th of the present month.

During debate it was claimed the present state of public business would not permit a day to be fixed for adjournment and the House should hold this power in its own hands.

In addition to the proposed investigation into election frauds, some of the general appropriation bills and the tariff and Pacific railway bills were to be acted on, together with other pending business.

Representative Wright briefly expressed his opinion for closing the present session. The House had postponed its consideration until the 15th, to-morrow.

for in any way. All the returning boards were at work up to a late hour. When the contest was closed, he regarded the general result as uncertain for either party in the contest.

He received no communications from the Republican visitors to those or any other States, nor was he in the remotest degree compromised by the proceedings of his friends in the matter.

It is stated, in fact, that his intimate friends say that during the period of uncertainty of the result he manifested an anxiety to occupy the Presidential chair, leaving the determination to others.

The President said this morning there was nothing new in the proposed investigation, but while the frauds, if any were committed, should be exposed it would not invalidate his title to the presidential chair, as this had been settled and declared by the commission constituted by Congress.

Mr. President Wheeler, having returned from New York, this morning called on the President, and having subsequently been asked what the President said regarding the pending proceedings in the House, replied: "The President has not been alluded to the subject. My visit was on other and entirely different business."

The President has nominated Gustave Reiche register of the land office at Booneville, Mo.

regiments are reduced to six and the number of infantry regiments to fifteen, and those are to be effected by transfers and consolidations. The President is authorized in his discretion to honorably to discharge from the army officers who may apply therefor on or before the first of January next with certain allowances of pay. Officers unfit for service are to be mustered out on reports of the commanding officers of the several military geographical divisions and presidios, and the heads of the various staff departments and vacant positions existing, or that may occur by reason of transfer or consolidation, shall be filled in due proportion by the superannuated officers with reference to rank, seniority and fitness. Women are prohibited hereafter from accompanying troops as "laundresses," and the bill regulates officers' pay, and provides for a board to report to the President upon the organization, practice, working and efficiency of the corps of engineers, ordnance, medical, quartermaster's, subsistence and pay departments, the signal and artillery service, the bureau of military instruction, the bureau of military operations, and the bureau of military stores, and to make such suggestions as in the judgment of said board may be deemed proper for the improvement of the military service, except in said vacancies occurring in the grades provided for in this act.

BERLIN, May 14.—Reports are current in Vienna from complications in Rumania. It is stated the Russian 11th army corps has been isolated for the past week so as to entirely preclude Bucharest from Little Wallachia where the Rumanian army is concentrated. The Russian diplomatic representatives used every effort to prevent Prince Charles going to the army, but the latter's position has been made intolerable by the military and political control assumed by the Rumanians in the capital and in the country. It is asserted the Rumanians are urging the Rumanians to refuse to pay taxes and to deprive Prince Charles, who they denounce as a German and Catholic, but the popular feeling is entirely in sympathy with the Prince. The Rumanians are also endeavoring to prevent Prince Charles from being disposed, for the present at least, to go beyond concentration of troops and strengthening of fortresses on the Transylvanian frontier.

PARIS, May 14.—A terrible explosion has occurred at the ammunition factory in the Rue Berger. The building was completely shattered, and a serious fire ensued in neighboring houses. The number of victims by the explosion are unknown, but is believed to be considerable.

ROME, May 14.—The greatest secrecy is maintained regarding Count Schouvaloff's visit. A special from San Stefano says all the troops here will move within a few days into camp near the Russian frontier.

SPRINGFIELD, Mass., May 14.—Ira B. Wright, ten years town treasurer of South Hadley, has appropriated \$25,000 of town funds. He was a prominent churchman.

NEWARK, N. J., May 13.—The Reflected Episcopal church council resolved to hold its next meeting in Christ church, Chicago. Rev. Mr. Sabine, from the committee on state of the church, reported increased parishes. There are 17,000 regular attendants, \$280,000 communications, and \$300,000 worth of church property. Collections during the past year \$280,755.

DELAWARE, May 14.—Indignation and excitement over the attack on the Emperor has increased rather than subsided, but except the Northern German Gazette all newspapers counsel coolness and avoidance of rash measures of reprisal upon the social Democrats. In the Reichstag Monday two socialists openly invited rebuke by refusing to join in the loyal cheers which the president of the chamber proposed, but no attention was paid them. All attempts to establish Hodel's insanity, as well as his independence of action, have failed. His crime is proved by numerous witnesses. Efforts of the police are directed to finding the threads of a general conspiracy, if such exists. One accomplice is suspected, and a detective in Leipzig is looking him up.

VIENNA, May 14.—In the Austrian cabinet to-day, Prince Auerperg, president of the cabinet, in reply to an interpellation respecting the alleged intention to occupy Bosnia and Herzegovina, said the views of the government were unchanged, either regarding the end or the means of the government. While striving to secure the independence of Bosnia and Herzegovina, the government is not prepared to entertain the idea of things which would prevent the periodical recurrence of disturbances which injure Austria, the ministry has never intended to invade the territory of the principality, and by co-operation with any single power. All reports to the contrary are unfounded.

RUSSIAN REINFORCEMENTS. CONSTANTINOPLE, May 14.—Two battalions of Russian reinforcements have arrived at San Stefano. The arrangement concerning Persia has failed in consequence of the St. Petersburg government disapproving Gen. Rodichev's proposal to occupy Adranopol. The position of Sadyk Pasha, chief of the Turkish cabinet council, is consequently established.

ST. LOUIS, Mo., May 14.—Wm. M. Fisher, of the firm of Fisher & Co., wash cloth makers of Providence, R. I., came here last Sunday with a large stock of goods and stopped at the Planters' hotel. He was assigned to room nine on the office floor, and was engaged yesterday and to-day in showing and selling goods. About five o'clock this evening he left his room to see some parties with whom he had business, and during his absence, only about half an hour, his room was entered and the goods, valued at \$2,000 and \$100,000 worth of gold watch chains, necklaces, lockets, etc., the thief entered the adjacent room, which was occupied by a regular boarder of the house with a false key, pried off the folding door, which connected this room with Fisher's, abstracting the property, which was resolved to hold the left the hotel unobserved. The police were notified at once and detectives immediately set to work, but at this writing no clue to the robbers have been obtained.

NOTES REMANDED. TRENTON, N. J., May 14.—In the United States court this morning, Judge Nixon gave a decision in the Noyes case that Noyes could be held on other indictments than the one for which the Noyes were committed, and that the United States district court had no right to go behind the requisition of the governor of New Jersey, as indicated by the requisition of the governor of New Jersey. He also decided that the State has no jurisdiction on the amended return, and therefore decided to remand the prisoners.

LABOR RIOTS. LONDON, May 16.—Serious rioting began at Blackburn yesterday evening. Thousands of the lowest class of operatives, including women, paraded the streets, making violent demonstrations. The residence of Colonel Jackson, chairman of the masters' association, was burned to the ground. The same mob attempted to burn Jackson's mills. The riotous mob, which was partially broken up, wrecked and the windows of all the mills in the town demolished. A strong force of infantry, from Preston arrived, and a troop of cavalry is coming. The troops cleared the streets. Col. Jackson and wife barely escaped in a cab. Alderman Hornby was struck by stones while re-entraining with the rioters.

HUNGARIAN PREMIER TALKING WILD. PESTH, May 14.—In chambers to-day Tisza, Hungarian premier, stated during discussion on the vote of sixty million florins, that the government only guarded the interests of Austria-Hungary for the sake of which several points in the treaty of San Stefano must be modified, as an interest, he said, are also the interests of Europe. We will defend them with Europe, peacefully if we can, but by other means.
