500,000 BUSHELS.

An Important Purchase for Immediate Improvement--St. Paul to Have Another Monster Elevator.

While not permitted to give all the details of the transaction, the GLOBE is authorized to announce this morning the purchase of a tract of land centrally located, upon which improvements are to be commenced within a very short time, the purchase of the realty and the cost of the improvements to be made this season, requiring the expenditure of upwards of

TWO HUNDRED AND FIFTY THOUSAND DOLLARS The consideration for the realty purchased may be stated in round numbers at \$75,000. The improvements to be made are of a character so sweeping that a present resident of the city, absent for the two succeeding years, and returned to the locality blindfolded. would, upon removing the bandage, have to be told of his whereabouts. All these improvements are not intended to be made this season, of course, as it would be a physical impossibility to do it. But among the improvements contemplated, and to be made this season, is that of a

MONSTER ELEVATOR,

of a capacity of 500,000 bushels. This is the same capacity as elevator A, which cost upwards of \$100,000, when first built, and to which several thousand dollars additional ave been added since built in increased facilities for handling grain. As the parties engaged in this new enterprise are men of large means, and have determined to make their elevator as near perfection at the start as it is possible to do, it is safe to estimate the expenditure for this one item at ONE HUNDRED AND TWENTY-FIVE THOUSAND

DOLLARS. Incidental to this and closely allied to it, that they will, if necessary, go forward at the same time, are other improvements that will swell the expenditures to be made, in connection with the realty, to fully \$250,000. The GLOBE, as stated above, is not per-

mitted to go into details at this time, the statements made are no exaggeration. In fact they but faintly outline the importance Paul of this transaction a fact that will be acknowledged when the restriction now placed upon us is removed and we are permitted to go into the matter in detail. Till then our readers must possess themselves in patience, but a little selfgratulation over the evidence here given that St. Paul has got its second wind, and that "the good time coming," so long anxiously waited, has really come, is admissable.

RED RIVER TRANSPORTATION.

An Order from the Canadian Government Which Upsets Previous Calculations-The Red River Transportation Company "in a Box."

For several days past rumors have been going the rounds that the Canadian government had issued orders enforcing the laws of commerce existing between the Dominion and the United States, by which vessels of one country are prohibited from navigating the waters of the other. With a view of ascertaining what, if any, foundation there was for this report, a GLOBE reporter yesterwas for this report, a Chobs reporter yester-day called upon Mr. N. W. Kitt-son, president of the Red River Transportation company, who have been op-erating a line of boats on that river since

But it is no surprise; in fact, was expected. The railroad having been completed to Winnipeg the Canadian government undoubtedly reasons that the people of Manitoba can get along without us, and hence the permission given us to run our boats to Winnipeg is with drawr. That permission was not given us out of any love, but simply for the reason that we were the only parties in position to give them better transportation facilities than wagon hauling from the boundary to Winnipeg."

Then you consider the usefulness of the

sold two of our boats to a company organized in Manitoba, who run them to the boundary line custom house on the Red River and up the Assiniboine. Perhaps this company will want to increase their facilities and establish a regular line from St. Vincent, the terminus of the Minnesota railroads, to Winnipeg and beyond, and to do it may some or all of our remaining boats. But of this nothing positive can be stated now.
"The local business to the boundary line

would not keep the boats employed?"

"Oh, no. That's a small matter."
Subsequently the reporter met Capt. Holcomb, superintendent of the company, who summed up the situation by the concise remark, that "things were mixed." He fur-ther vouchsafed the information that he should leave by the afternoon train for Fisher's Landing, where the boats of the line are located, to look after some local business and, like Micawber, wait for something And now you have the situation on the

Red river of the North, so far as the Red River Transportation company is concerned.

Six tramps were before the municipal cour yesterday, receiving a uniform stretch of fourteen days each with the rock pile gang.

An order dedying the motion to vacate judgment was yesterday filed by Judge Simons in the case of Hanauer, Lichtenauer & Co. vs. Francis & Stuppe. William Heathcote, a young incorrigible, was

Capt. Coleman Macey took possession of hi old quarters in the Metropolitan hotel last evening, and others of the former guests of the house will follow suit in a day or two, but the house will not be opened for travel until the repairs are fully completed, which will be early in May.

Mr. Charles Caldwell, agent for the popular Collender billiard table, has arranged his Jackson street resort for the especial accommoda-tion of customers, and those desiring to pur-chase will meet with a cordial reception, as he is now prepared to fill all orders at the shortest possible notice.

Jennie Banks, the woman who teaches the panine instinct how to prance, was before Judge Flint yerterday, charged with disorderly conduct. She promised to confine her atten-tion in future to giving classic exhibitions with her menagerie of purps, and was discharged upon the payment of \$5 and costs.

It will be given a thorough sodding, where needed; the fences are to be straightened; new paths laid out; paint placed where needed, and otherwise the yard and surroundings are to be adorned and cleaned up to reflect credit as a central feature of the city.

The mistress of a noted bagnio, near the new pound, has a dangerous, vicious bull dog, which ought to be suppressed, if the whole outfit itself doesn't come under the same category. The brate was fermerly the property of a United States soldier, and was used to catch buffalo out on the plains. A powerful and vicious brute, he may likely do great harm, as he is allowed to prowl about at large.

A party by the name of Johnson went into a Seventh street saloon about 11 o'clock last night, and proceeded to get royally budged on the most villainous description of forty-rod tamerack. He took as much of the latter article on board as he could comfortably carry, after which he threatened to raise Cain by cleaning out the shebang, which operation was interrupted by an officer namesake, who con-ducted his obstreperous relative to the station.

The board of immigration held a session vesterday afternoon at the capitol. With a view to the reception of definite co-operation reating a line of boats on that river since 1858, under special permission of the Dominion government.

Mr. Kittson was found in his office, and the reporter having stated the object of his visit, replied substantially as follows:

The boys of the Y. M. C. A. are making preparations for a minstrel entertainment to h iven in the basement of Odd Fellows' block "Yes. I rather guess it is dead. Parties interested in Manitoba are endeavoring to get the order revoked—if issued as I think it is—claiming that the continuance of our line is calculated to give them cheaper transportation during the season of navigation, but I have little faith that it will be done."

"Should the order be enforced what will you do with your boats now on the Red River?"

"I can't answer that as yet. Last year we sold two of our boats to a company organized."

The Right Hon. Sir Joseph Porter, K. C. B. first lord of the admirality, and his sisters, his first lord of the admirality, and his sisters, his cousins and his aunts; and Capt. Corcoran and crew, of H. M. S. Pinafore, regaled themselves with a recherche repast after the performance last evening at Booth's restaurant. The enjoyment of the occasion was unalloyed. The gallant crew, in chorus with "his sister, his cousins and his aunts," joined the admiral and the captain in declaring they "never" had such a delightful time, having "hardly ever" altogether. Each one was luminous with well won honors, and lived anew the excitement and pleasure begotten by the spontaneous applause given them at their most excellent performance of "H. M. S. Pinafore."

At 8 o'clock last evening Officer Cook wa approached by a woman, on Jackson street, who stated that she had arrived on the evening who stated that she had arrived on the evening train from the West in company with her husband, who became separated from her at the depot. The woman gave her name as Merrick, and appeared to be greatly distressed at the unexpected turn affairs had taken, stating that they were on their way from Leadville to Chicago, where their coming was anticipated by two children. Suspecting that it was a case of willful desertion, the officer proceeded to visit the places of public resort in the locality indicated, in one of which they encountered the apparently indifferent Benedict, and when last seen husband and wife appeared equally contented with the situation.

A thrilling scene in the o'er true drama mother and son was enacted at the municipal court yesterday morning, which for fidelity to life and realistic effect far surpassed the origi life and realistic effect far surpassed the origi-nal production of the playright. The mother and son were Mary and William Bruce, and the two extremes of youthful depravity on the one hand, and noble, motherly devotion on the other, were admirably contrasted. The boy, a stripling of sixteen summers, was found on the streets in an intoxicated and disorderly condition. He was taken in charge by an officer, when the mother sought to prevent his arrest, and so great was her connection that arrest, and so great was her opposition that both were taken to the lock-up. Mrs. Bruce was fined \$5 for interfering with an officer, while the boy's case was continued until to-day.

Yesterday afternoon about 3 o'clock an accide it happened to one of the employes of the Volkszeitung, whereby he lost two fingers off the right hand. Mr. Schwartz was engaged in the right hand. Mr. Schwartz was engaged in feeding the press, when his hand was caught between the cog-wheels, and before he could extricate it the fingers and back of the hand were badly mutilated. Capt. Schoenneman, United States gauger, was assisting Schwartz at the time, and quickly came to his rescue, when he gave a cry of pain, by shutting off the machinery. The nature of the injuries were inquired into, and medical assistance summoned, Dr. Smith, just opposite, being called in. He made an examination and found it necessary to amputate the index and middle fingers of the right hand. The patient was then conveyed home in as comfortable a state as possible under the circumstances.

A strip of grass, several feet wide, between two of the entrances, is now nearly killed from people walking ever it. The assurance has been given that the cow ordinance is to be rigidly enforced, but if public sentiment will not put an end to that other nuisance, instead of dispensing with the cutside fence, strong chain guards will have to be stretched across the grounds to compel people to remain on the walks. When that can be done the capitol grounds can be made something of credit to the city, and not until then. the city, and not until then.

Underground Railroad. The Freeport daily Times says of the moral

and musical drama that filled the Opera House last night, the Sam Lucas Colored Combina

tion:

Z. W. Sprague, manager, gave this most successful and taking play, The Underground Railroad last evening to a crowded house, and turned people away at their Sacred Concert, the hall being literally packed. The Cuban Wonder, Jose Brnides de Sallis, colored violinist, is with this company, and appeared in his marvelous and rare violin soles, executing the most difficult selections with great precision and feeling, adding to it that which at once stamps him the greatest of all colored violinists—the voluptous rythm and rare melody, born of the sunny Cuba of which he is a native.

The quartet is the finest colored quartet we have ever heard, the voices being clear, sweet and well trained. This is by far the most refined dramatic colored troupe that has ever visited our city. Sam Lucas elicited roars of laughter, appearing to the best advantage in this new play, written expressly for him.
