OUR NEXT PRESIDENT.

The Cincinnati convention did a noble work yesterday in nominating the patriot soldier and statesman, General Winfield Scott Hancock, as the candidate of the Democratic party for President of the United States.

A majority of the delegates went to the nominee unhampered by pledges, only sincerely desiring to do that which seemed best for the party they represented, and for the whole country. They entered into no scramble on behalf of this or that candidate, but took counsel together for the purpose of learning who among the score or more of eminent men named for the position was best fitted to adorn the office of chief magistrate of the nation—would be the most likely to unite all conflicting interests and reconcile all differences of opinion.

Gen. Hancock's great public services entitle him to the recognition he has received. Entering the military service in 1847, he has ever since devoted himself to that profession, having risen successively from the rank of a second lieutenant to that of ranking major general of the army of the United States.

Gen. Hancock has no civil record to which reference can be made, save for the short time that he acted as military commander of the department of the Reconstruction in 1868. At that time—the reconstruction period—the military commanders in the Southern States were doing all in their power to degrade the civil authority and to supplant it by military rule.

MAJOR GENERAL WINFIELD SCOTT HANCOCK.

Glory to God in the highest, and on earth peace, good will toward men. All hail to the Democracy of the United States. The national convention has nobly responded to the will of the party, the spirit of the age, and to the demands of advancing civilization.

The Democratic party with its million majority of the people, so long ruled and oppressed by a tyrannical and profligate minority of officials and will approve the nomination of Gen. Winfield Scott Hancock for President of the United States without one dissenting voice.

At the close of his useful and honorable Congressional services Mr. English was confronted with the fact that his business life in his own State was inevitable. He had abandoned public life and declined official position. He had grown sturdy in the law, but his native energy forbade that he should remain quiet.
