

The next Senate is left in the hands of the Democrats. This body may be a check upon the Republican House.

All is not lost though Hancock is defeated. The Senate will be in the hands of the Democrats till the next Presidential election.

REPUTATION got a black eye in Tennessee and Virginia on Tuesday last. Minnesota varied the monetary by declaring in favor of the party of repudiation.

The large success to the Republican vote in Chicago is explained by a paragraph in a local sheet, which states that a hundred thousand hogs arrived in that city during the month of October.

The next House will be Republican. As the House is privileged to originate all appropriation bills, the people may as well begin to search their pocket-books for the wherewithal to pay their taxes.

The Senate is the treaty-making power. A Democratic Senate will never consent to a treaty with a party that has maintained its power by frauds that should make the vilest miscreant who inhabits a penitentiary blush for shame.

One mistake of the campaign just closed is that the Democratic leaders paid any heed to the Tammany organization. If no regard had been paid to John Kelly and his gang of ruffians at Cincinnati, the result might have been different.

Mr. HAYES can hardly consider himself endorsed by the election to the Vice Presidency of a man removed from office by him for incompetency and malfeasance in office. Mr. Sherman must feel in much the same mood with his chief.

THOUGH the Democrats have been defeated they have the consolation of having supported a ticket infinitely superior to that advocated and elected by the Republicans. Morally and intellectually Hancock and English are daylight; Garfield and Arthur darkness.

SOMEbody says—but who that somebody is no one can tell—but that the Independents elected at the South will set with the Republicans in the organization of the next House. This may be true, but if so their opponents will promptly rebuke them for such a betrayal of their trust.

SAYS the Chicago Times: "The Democratic party is dead and might as well acknowledge the fact." If it is dead it is the liveliest corpse ever seen in this part of the habitable globe. A party that has the support of a majority of the popular vote cannot be a fit subject for a coroner's inquest.

It is not too late for the Democratic Congress to adopt measures by which the absurd electoral college may be abolished and the President and Vice President of the United States be elected, like other officers, by a majority of the popular vote. It is a reform that has long been necessary, and should be no longer delayed.

CHAIRMAN BARNUM, of the National Democratic committee, has called a meeting of that organization for to-day, to which prominent members of the party have been invited. The object of the meeting is to discuss the present situation and determine upon the further course of the party. The meeting promises to be of the utmost importance, and will no doubt be largely attended.

JOHN KELLY attempted to dictate the Democratic nomination for governor of New York a year ago. The convention very properly refused to submit to his dictation. Incensed at this he put himself up as an independent candidate, and succeeded in electing the Republican candidate, and robbed the Democratic party, of which he claims to be a member, of at least twenty thousand voters. What consideration is due to John Kelly under these circumstances?

ALL the Chicago papers unite in saying that several thousand voters were excluded from the polls in that city because of the inadequacy of the arrangements for polling their votes. In all the Democratic wards the polling places were too few; in all of the Republican wards arrangements were made for the reception of the votes of every citizen.

And to promote those objects declare ourselves favorable to the nomination, and if nominated, to the election of Gen. Hancock for President in 1884.

We hereby form ourselves into an association to promote the success of Democratic principles, and of just and honorable men who may be Democratic candidates.

We declare that we will give the proper committees of this club our advice and assistance; and we will aid in procuring classified lists of Democratic and Republican voters in our towns, wards and school districts, and in the circulation of Democratic documents and newspapers, and, in other honorable ways, endeavor to promote the objects of this association.

Although the night was dark and stormy and the attendance small, over sixty members were enrolled and the best of feeling prevailed.

The Democratic programme appears to be to make a presentation of the frauds perpetrated by the Republicans in New York to Congress and ask that State counted for the reception of the votes of every citizen.

The facts speak for themselves when it is known that the polling places were determined by a Republican board of commissioners.

The American people have apparently forgotten or condoned the fraud by which the Republican party four years ago obtained possession of the Presidency by a series of outrages that have no parallel in the history of the world. At least they have chosen a representative of the party of fraud to four years over the destinies of the nation for four years to come. This representative was himself besmirched by transactions of a questionable character that were, however, more than public. If this is the deliberate judgment of the people, so be it. If the returns are the result of frauds, these frauds should be exposed.

MINNEAPOLIS NEWS.

nehaha, from grief; but the rumor could not be confirmed. He was married three weeks ago to a daughter of D. M. Baldwin, of Red Wing.

This evening Miss Phoea McAllister will make her debut before the public as Mercy Merrick in the dramatisation of Wilkie Collins's novel entitled "The New Magdalen." This is a capital play and will undoubtedly attract big houses.

The track leading to the new Omaha depot is up a steep grade and forms an abrupt curve. The new trains that have passed over have thrown the track all out of gear, and a dozen men were repairing the mischief yesterday.

For the week ending Friday the Millers' association purchased 580,000 bushels of wheat, which will be parcelled out to the millers to-day. These are the biggest receipts of any one week. Saturday the association deposited \$128,000 for their agents to draw upon to-day.

The board of county commissioners meets to-day. The special committee on corruption can now make their report of mismanagement in the auditor's office, without fear of its having any effect on the election. Their report will be made to the benefit or detriment of the county.

The falling of the North Star amok stack Saturday night was caused by the bursting of the iron bands which the sustaining ropes are attached. The soot took fire and caused the stack to expand, and it was about half past midnight when it repaired yesterday and will be up to-day.

The new time table on the Minneapolis & St. Louis road went into effect yesterday. No change in the existing trains will be made, but a train will leave here at 3 o'clock in the afternoon for Taylor Falls, arriving at 7:30 P. M. The train from Taylor Falls will leave that place at 7 A. M. and arrive at 11:15 A. M.

Saturday the guy ropes on the south side of the suspension bridge, between the east and west, hauled out of the river, where they have laid since spring. When the stone anchorage was undermined by the flood, the ropes were detached from the bridge and dropped into the river. The old stone anchorage will be substituted with iron shaft, which will be sunk deep into the ground.

N. B. Harwood & Co. confessed to six additional judgments Saturday involving the sum of \$325,248.82, making the total of confessions \$420,473.06. Eleven writs of attachment, amounting to \$51,584.27, were also filed against the firm. There will probably be more or less litigation over the claims, unless some arrangement is made with the creditors by which the firm can resume business.

A serious row, growing out of the strike in the St. Louis railroad yard, took place on North Washington street Saturday night. McLaughlin, the newly-appointed yard master, and some of the men got into a quarrel, and McLaughlin drew a knife and was about to cut McLaughlin into pieces when officers interfered and marched him off to the station. Judge Cooley will be ready for this matter this morning.

The following notice was published yesterday: "The West side riflemen, which cleaned out the East side Buckshots and their allies three weeks ago, will give them a chance to win back lost honor on Monday afternoon, at 1 o'clock sharp. Every rifleman on either side of the river who thinks he can hit the bull's eye on the river bluff, at 200 yards, is cordially invited to be present. Any kind of a gun with open sights will be admissible."

The funeral of George A. Torrence, the victim of the disaster at Minnehaha, was held yesterday afternoon at his late residence, 304 South Fourth street. The services were directed by the Knights of Pythias, of which the deceased was a respected member, and there was a large attendance of relatives and friends. The railroad company provided a special train to take the remains and party to and from Layman's cemetery. The deceased was 45 years old, and leaves a wife, two children and an invalid mother to mourn his loss.

Some movement should be made to have the manufacturing department of N. B. Harwood & Co. kept in operation. A business employing between 200 and 300 hands ought not to be allowed to remain idle. It is a great loss to the city, and one that will be felt for a long time if nothing is done. The goods made in the establishment are of a high quality, and would be a ready sale. It is not a losing industry, but profitable if properly managed, and for this reason, if for no other, the manufacturing department of N. B. Harwood & Co. should be kept in operation. The effect cannot be but injurious to Minneapolis as a manufacturing place.

Rev. D. B. Knickerbaker, superintendent of the Cottage hospital, is in a pack of trouble. During his absence from the city some weeks ago the board of supervisors of the poor passed a resolution that no more patients be taken to the Cottage hospital, unless the board was satisfied that the patients would receive proper attention. The resolution stirred up those in charge of the hospital, and the patients were afterwards given decent care. On the Rev. Knickerbaker's return, he wrote an open letter to the supervisors, regretting that the happy action had been taken by the board, expressing his sorrow that the trouble had occurred, and that if it were in his power, he would have Mayor Rand, chairman of the board, now in England, and while telling nothing new, he shows conclusively that the patients at the hospital were grossly neglected, and that some killed and died in the institution, and that he would be glad to see the Rev. Knickerbaker will probably keep his peace now.

On change yesterday No. 1 hard wheat advanced a cent and stood at 91c; No. 2, unchanged; No. 3, 89c; No. 4, 87c; No. 5, 85c; No. 6, 83c; No. 7, 81c; No. 8, 79c; No. 9, 77c; No. 10, 75c; No. 11, 73c; No. 12, 71c; No. 13, 69c; No. 14, 67c; No. 15, 65c; No. 16, 63c; No. 17, 61c; No. 18, 59c; No. 19, 57c; No. 20, 55c; No. 21, 53c; No. 22, 51c; No. 23, 49c; No. 24, 47c; No. 25, 45c; No. 26, 43c; No. 27, 41c; No. 28, 39c; No. 29, 37c; No. 30, 35c; No. 31, 33c; No. 32, 31c; No. 33, 29c; No. 34, 27c; No. 35, 25c; No. 36, 23c; No. 37, 21c; No. 38, 19c; No. 39, 17c; No. 40, 15c; No. 41, 13c; No. 42, 11c; No. 43, 9c; No. 44, 7c; No. 45, 5c; No. 46, 3c; No. 47, 1c; No. 48, 1c; No. 49, 1c; No. 50, 1c.

There were no bids on corn, but offerings were made at 41 cents for No. 2, cash, and 39c for No. 1, November delivery.
