ST. PAUL, MONDAY, JAN. 3, 1881.

The Globe for the Members of the Legisla-

ture. Members of the legislature can have the GLOBE delivered at their hotels or boarding houses by leaving word at the counting

CHICAGO is going to move her board of trade several blocks south of its present location. The antics of the bulls and bears have become too lively to be appreciated in the heart of the business district, where their chamber is now located. The boys on 'change need more elbow room.

FIRE is no respecter of persons. A few weeks ago Jay Gould's conservatory, one of the finest in the world, was destroyed, and now the summer residence of James R. Keene, another of the money magnates, has been burned. Although the loss was heavy in both cases the parties are not yet bankrupt.

BEECHER believes that a belief in eternal punishment is not essential to good fellowship in the Congregational church. As Beecher and his church are not recognized as belonging to that denomination, his assumption of the right to decide upon matters of belief for the sect may be regarded as slightly impertinent.

According to the census the United States can boast of a population of 50,-152,559. This is a very creditable showing, but not quite equal to expectations. The emigration has been unusually large during the past five years, amounting in the aggregate to nearly three millions of people. Another decade, however, will probably swell our population to at least seventy-five millions.

GALUSHA A. GROW claims that he has already secured the pledges of a majority of the members of the Pennsylvania legislature to vote for him for United States Senator. His competitor Oliver, however, is rich, and heretofore Pennsylvania legislators have not been remarkable for their incorruptiblity, especially when the Camerons have had a finger in the pie.

The people of Minnesota will extend their heartfelt sympathies to Aleck Ramsey over his deprivation of the honors and emoluments of the office of secretary of the navy. True, he is still secretary of war, but what is that to a man so generously endowed with the capacity of office-holding. You might as well set a single sprat before a man hungering for a square meal as seek to satisfy Ramsey with a single office.

THERE seems ro be little doubt that Fletcher will secure the speakership. The Ramsey men are claiming that the Senatorial matter does not have anything to do with the speakership. If A. C. Dunn or J. V. Daniels were likely to sucare trying to make out that the success of the wicked Fletcher is a victory for

IF Gen. Jennison had been here yesterwork he could have secured the secretaryship of the Senate almost without opposition. Even yet hisc hances are favorable but other candidates are ng efforts for the prize. Henry A. Castle, F. E. Snow, A. A. Harwood, Mr. Jewell and victims. others are in the field and Gen. Jennison has lost his walk over by his absence.

THE new capitol building at Albany, New York, is literally tottering to its fall. It was built only a few years ago at a cost to the State of over six millions of dollars. The foundations, however, were laid in a quicksand, and the walls have been gradually sinking for a year past, until they have become absolutely dangerous to human life. The people of the State are solicitous about the probable loss of the immense structure, but if it is bound to fall they hope it may fall when the legislature is in session.

THE Whittaker court martial, as formed by Mr. Hayes by advice of Gen. Howard, is wholly ex parte. It is composed, with one exception-Gen. Miles-of men who entertain Howard's views of the social eqality of the negro with the white man. One thing is certain, however: If the court aequits Whittaker in the face of the overwhelming evidence of his guilt, the usefulness of West Point will be at an end. It is foolish to attempt to force unnatural associates into the social life of any man or set of men.

## THE GRECO-TURKISH QUARREL.

The news from Athens portends an early if not an immediate resort to the arbitrament of war between Greece and treaty was ratified, by the terms of which Turkey was dissected and portions of the fillment of the treaty of Berlin. Turkey temporized and asked for time. One proposition after another was suggested, In Dry Goods at A. H. Lindeke & Bro.'s for the but all alike were rejected by Greece, which demanded the pound of flesh which the ministers thought the bond entitled the nation to claim. Then the powers proposed to submit the question to arbitration under certain conditions. These conditions were rejected by Turkey. and another plan was proposed by the

porte, which was finally agreed upon by

arbitration has just been rejected by

solution of the question has been abendoned. Both Turkey and Greece are actively preparing for war, which is now deemed inevitable.

There is a great deal of misconception n the public mind as to the merits of this controversy. The only paragraph in the treaty of Berlin that refers even remotely to the Greek frontier is the following:

ART. 56.—In case the agreement relative to a rectification of frontier provided by protocol 13, between the sublime porte and the Kingdom of Greece, should not be realized, the powers declare themselves ready to offer their

ood services to the two powers, Ottoman and

Protocol 13, to which reference is made in the above article, suggests a rectification of the Greek boundary by the cession to her of so much of her ancient possessions as lies south of a line nearly due west from the head of the Gulf of Salonica, which would embrace nearly the whole of Thessaly and Southern Macedonia. The Greeks, however, demand that the entire pashalics of Macedonia, Thessaly and Epirus be ceded, so as to restore the boundaries precisely as they were before the Mohammedan conquest towards the close of the fourteenth century. To this demand Turkey very naturally demurs, and while giving a reluctant consent to the cession proposed

concede one inch more of ground. In the war that is impending Greece will have the support of the powers to a certain extent, but can hardly expected to be upheld in her unreasonable demands outside of the stipulations of the protocol. If Greece gains the advantage she asks, she will have to do so by force of arms. Yet the consequences of direction. a rupture of the peace may be of far more moment than the questions at present in issue. It is hardly to be expected that Great Britain will sit quietly by and witness the further dismemberment of the Ottoman empire. Her interest in its perpetuity is too great to admit of this. Nor is it probable that Russia will neglect this golden opportunity presented by such a conflict to endeavor to possess herself permanently of that much coveted prize, Constantinople. For a century past it has been the ambition of Russian potentates to possess this key to the East, and a million lives have been sacrificed in the vain attempt to possess

it. If the emperor should now take advantage of the situation and make another attempt upon the city of mosques, a general European war would be inevitable, and the Bosphorus would again be dyed with human blood. Each European nation is jealous of the other. It is to the interest of Germany, Great Britain, France and Austria to prevent Russia from obtaining a foothold on the Mediterranean such as she could command from Constantinople, and all would oppose it with all the force at their command. It is to be hoped, however, that matters will not progress as far as this. In the petty quarrels of Greece and Turkey the people on this side of the Atlantic have little interest. Both are anti-progressive, and for Sabbath religious services. hindrances to the advance of civilization. If the fight about to commence should prove to be a Kilkenny cat affair no tears would be shed.

THE revelations brought to light by the special committee investigating the penitentiary at Syracuse convict the keepers of the greatest cruelty. Instruments of torture that would' have delighted the heart of an inquisitor were used upon the prisoners, whose sufferings must ceed the air would be full of bloviation have been excruciating. Many of them, for the success of the Ramsey crowd. As it is the goody-goody Mike Millan men after being punished by the buck and gag recently on the premises of a farmer of the premises of the premises of a farmer of the premises of the premises of a farmer of the premises of the and the cold water douche, were confined to their beds for days and often weeks, and there is a suspicion that some of the deaths that have occurred in the institution have been caused by cruel day and put in a little Sabbath school treatment. The superintendent, a fellow named Spaulding, seems to be utterly destitute of humane feeling, and on being examined pleaded ignorance of the law as an excuse for his barbarities. He deserves to undergo some of the tortures he has inflicted upon his unfortunate

> [Minneapolis Journal, Jan. 1.] CAN IT BE POSSIBLE?

A Strong Suspicion that Minneapolis is to

Loose One of Her Largest Wholesalc In-A paragraph in one of the St. Paul

papers, this morning, stating that Geo. R. Newell had purchased some property in that city, sent a Journal reporter flying to learn the truth of the item. Unfortunately he learned that it was too true. Mr. Newell has purchased the property on Third street, St. Paul, just below where Pat Kelly's grocery house used to stand, and where Averill, Russell & Carpenler's paper warehouse was located. The lot has a frontage of sixty-six feet and is said to have cost Mr. Newall \$350 per front foot. Such a shrewd business man as Geo. R. Newell never would invest \$23,000 in property on a prominent business street of St. Paul unless he meant something definite thereby. This something, he is understood to have virtually admitted to be the erection of a large block upon his lots and the removal of his wholesale

grocery business to St. Paul. Why this movement is to be made is only a matter of conjecture. Mr. Newell's reputation as a business man has been made in the city, where he can point to naught but success. The re-moval of any of our wholesale interests can illy be spared, especially coming as it does upon the heels of the great dry goods house of N. B. Harwood. Still, Minneapolis is a city and too full of business, life and energy to sit in the Turkey for the settlement of the much corner and mope because one of her debated question of the rectification of the merchants proposes to break loose from Greek frontier. Ever since the Berlin mother home and try his luck in the cold

## To Lovers of Fine Plug Tobacco

"Keno" Plug, manufactured by Musselman & Co., Louisville, Ky., is the choicest plug tobacco sold. Adam Fetsch, wholesale agent.

Use Wm. Clarke & Son's HELIX NEEDLES porte, which was finally agreed upon by Factory at Redditch, England. Office, the powers as just to both parties. This Adams street, up stairs, Chicago.

Lawyers will find Moore's Patent Office Greece, and the last hope of a peaceful Queen Desks at Stees Bro,'s,

MINNESOTA NEWS.

Diphtheria has appeared in Lake City and Hyde Park, Wabashaw county. Christmas day 5,000 bushels of wheat were shipped by rail eastward from Glen-

The Albert Lea Standard of Dec. 30 says a fuel famine is imminent in that It is estimated that fully one-half of

the corn in Freeborn county is still un-Rev. Moses Goodrich, a Universalist minister, died at Anoka, Christmas day,

aged 63 years. Hon. W. H. Lyon has presented an organ to the Congregational Sabbath school,

in Lake City. The late "cold snap" has greatly retarded business operations in all places,

and in all directions. A postoffice has recently been established at Tintah, Minn., and Charles Smith appointed postmaster.

The school teachers in Albert Lea, at the close of their late term, received their wages in gold, aggregating \$1,200.

During the month of December, twenv-seven marriage licenses were issued by the clerk of court in Goodhue county. Diphtheria is said to be raging in the

towns south and southwest of Sauk Center, and many deaths are reported. Another telegraph wire has been stretched into Austin from the south by the American Union telegraph company

by the Berlin conference, will not The house of James Johnson, of Anoka city, was destroyed by fire last week. Several of the firemen were frost bitten. J. W. Shannon, of Lake City, was arrested one day last week on a charge of forgery, and was put in jail for lack of

> McLeod county, has Hutchinson, raised \$400 to start a public library, and is vigorously pushing things in that

The Moorhead, Clay county, Advocate, has changed hands once more. It will henceforth be know as the "Moorhead Arganaut." The house of George King, a few miles

west of Lansing, Mower county, was burned last week. Loss, \$2,500; insurance, \$1,200. From seventy-five to 100 passengers is

said to have been a fair average for outgoing and in-coming trains the past week in Taylors Falls. The postoffice at Cannon City has been re-established under the name of 'Dean,' and William G. Kickenapp has

been appointed postmaster. The Anoka Union says Mrs. P. F. Pratt was presented by her husband, on Christmas, with an elegant gold hunting case watch and chain worth \$85.

The Union says two women met in a restaurant in Anoka recently and while partaking of oysters got into a dispute. One drew a revolver and the other re-

Mr. Poehler has introduced into the House, and had referred to the committee on military affairs, a bill for the relief of the First Minnesota Mounted Ranger volunteers.

On a late evening, some forty members of the Swedish Lutheran church, in Anoka city, called on their pastor, Rev. Hans Nelson, and left with him presents to the value of \$70. The basement of the new Congrega-

church, Lake City, that is now in process of completion, is now used by the society

The Bulletin says the improvements in Wabashaw the last year have been the most notable since the foundation of the city, and the approaching season promises to be just as lively as the one drawing to a close

St. Peter Tribune: Henry L. Moss, of St. Paul, has brought suit against the town of Marshall for damages sustained by defective sidewalks, causing him to fall and dislocate his shoulder. A warning to St. Peter.

The horse supposed to have been stolen from James Cain, of Mt. Pleasant, Wa-bashaw county, last summer, was found Belle Creek, Goodhue county, and restored to its owner. Knudt Mikleson, a young man living near Rose Creek, in Mower county, in de-

scending from a wheat stack last week. was impaled on a crow bar standing side the stack, and received injuries which caused his death.

On Monday evening, Dec. 27, the thermometer indicated a temperature below zero as follows: In Winnipeg, 35; Crookston, 21; St. Vincent, 37; Grand Forks, 40; Fargo, 35; Bismarck; 31; Detroit, 28; Glyndon, 27; Duluth, 28; Waseca, 28.

Issac C. Hart, the Wabashaw agent of the Singer Sewing Machine company, was recently arraigned before Justice Mc-Bride, in Lake City, on the charge of forgery in connection with his business. He waived examination and was put in jail in default of bail.

The Waseca Herald of Dec. 31 says: Emma, aged 12 years and 11 months, daughter of J. W. and M. J. Van Orden, died on Thursday morning at 1 o'clock, of diphtheria. Other members of the family have had slight attacks of the same disease, but have recovered.

The other day a five-year-old son of David Watson, of Red Wing, fell from the outside stair landing of a three-story barn, to the frozen ground, a distance of between thirty and forty feet, and no bones were broken, no serious injury sustained, and he is rapidly recovering.

Red Wing Advance: There probably will be no more wolves sold to the county this year unless some are found frozen to 1872.... death. The last year's wolf product was not heavy. Only twenty-three were de-livered to the auditor for the whole year, ending November 15th, 1880, for which the parties who received warrants expect

to get, some time, \$69. Waseca Radical: Mr. H. F. Bierman, while on his way to town with a load of wheat, having chained one of his wagon wheels, stopped at the foot of the hill to unchain it, which he was in the act of doing, when his team started, and in his efforts to stop them he slipped and fell forward of the wheels and the wagon passed over him. He died the next day, Henderson (Sibley county) Independ-

There is now some hope of a railroad being built at no distant day from a point near Benton, on the Hastings & Dakota road, directly west, passing through Sibley county to Beaver Sioux City road, and the wonder is that that company has remained quiet so long. The people of this county are greatly in need of a road, and it makes very little difference to them what company builds

Windom (Cottonwood county) Report er: Diphtheria is prevailing all around Windom, but as yet, it has not reached us. In the northwestern part of the county several children have died, and over at Fulda there have been several been troubled, and it is not owing to our cleanliness either, but in some other agency. If the village is not cleaned up and diphtheria comes here fatality is generally feared by the physicians.

Herman (Grant county) Herald: A family living in St. Oloff, Otter Tail county, by the name of Ben Vonhardes, were horribly burned by gasoline, one day last week. The particulars, he reported by Patent Counting House King Desks.

Mr. Brent Phinney, are that Mrs. B. undertook to kindle a fire with the oil; the dertook to kindle a fire with the on; the gas took fire, the flames catching her two little children, and in trying to save them her arms and breast were burned to a crisp, leaving her in a critical condition. One child cannot possibly recover, while the other is in a very critical condition. The charges against Marshal Fitzsim-

Delano Eagle, Dee, 30: On Satusday (Christmas) the dwelling house of J. B. Marysville, was destroyed by fire. The family, says our informant, had left a good fire in the stove and had gone to Waverly to attend church, when it was observed across the adjacent lake that the house was one fire and the triangle of the store and the store and the store and the store and the store are stored. the house was on fire, and by the time Mr. Jolicours and assistance arrived, the house was enveloped in flames and was entirely destroyed with most of all its contents. Over 200 bushels of wheat was consumed with the building.

Lake City Leader, Dec. 28: Last Wednesday night, Henry Buisson, a well known steamboat and raft pilot, became intoxicated and went into the billiard and liquor saloon of John McAuliff, in Wabashaw, and, to gratify a grudge, made an attack with billiard balls on the barkeeper. One of the balls caromed on the head of a bystander. Buisson was put out of the room, but returned with a club in his hand, when the barkeeper drew a revolver and shot him in the arm, mak-ing a slight flesh wound. Further hos-tilities were prevented by the other parties present.

Red Wing Advance, Dec. 29: The Diamond Bluff mail driver, C. H. Durgin, lost his team by driving into an air hole in the river Tuesday morning, near Trenton. He cut the traces and got the horses loose from the sled, and came near getting them out, but he was all alone, and the horses becoming chilled, became too heavy for him and went became too heavy for him and went under the ice. Mr. Durgin's clothing was wet through, and covered with ice, and when he reached this city lugging the two mail bags which he managed to save, it was found that his hands were badly frozen.

St. Charles, Winona county, Union: Mr. Henry G. Cox, of Saratoga township, raised half an acre of amber cane last scason as an experiment. He manufac-tured about forty-five gallons of clear, heavy syrup from the cane, and put it in a cask, intending to keep it until the buckwheat pan-cake seep as more and the buckwheat pan-cake season came around, when he thought he would try its virtues. Attempting to draw off some for use a few days since, he found it would not run. Examination showed that the en-tire mass had crystalized into a fair quality of sugar---although not entirely free from a certain tang.

A MODEL MARSHAL,

How the United States Marshal of Georgia Abused his Authority-A Defaulter and Blackmailer. [Washington Special (Dec. 31) to Chicago Tribune ]

mons, of Georgia, are even more serious

than was at first supposed, and, from the

present temper of the commissioner, it is

nearly certain that Fitzsimmons will be

removed. Gen. Raum has been, for the

last eighteen months, endeavoring to secure the dismissal of this officer. The charges in general are neglect of duty and malfessance. Gen. Raum has, during that period, forwarded a number of very strong letters to the secretary of the treasury. There are on file in the office of the attempts general, purpose of fidewith the attorney-general numerous affidavits and reports of special agents of the treasury department, who have examined into the case, making the most serious accusations, and these are said to be acaccompanied by proofs. The commissioner charges Fitzsimmons with having defrauded the government of between \$15,000 and \$20,000. Fitzsimmons is also charged with having repeatedly arrested persons on factitious charges for the sake of the fees, which were paid by the government, and in many ways either obstructed or maladministered the laws. One case is cited, as an illustration, where a deputy marshal meets a colored man with a small quantity of tobacco, and who, upon solicitation, sells the deputy a piece of it, though he originally intended ti for his own use. Thereupon the deputy discloses the fact that he is an officer, and informs the astonished negro that he has violated the law, and is under arrest. In such a case, the man on trial is acquitted, but the fees are collected of the government the same as if the case had been one of genuine inas if the case had been one of genuine in-fraction of the laws. There are also numerous instances in the papers on file like the following: A dealer in to-bacco omits to pay his license-fee at the proper time, and afterwards pays both fee and penalty of 50 per cent,, his only fault having been forgetfulness. In such case the dealer is arrested, and formal proceedings are instituted against him. The rule of the office is, where there is no intent to violate the law or defraud the government, to let the offender off without punishment. It is also charged that, in some instances, lives have been sacrificed through the cupidity or worse of this officer. All

these charges, and many more, have been the subject of Commissioner Raum's correspondence with Secretary Sherman. It is understood that Marshal Fitzsimmons will soon come to Washington to make a reply to the charges against him, and to defend himself with all his personal influence. Should he be removed, it thought that Mr. Kimball, of the Kimball house, Atlanta, Georgia, a large manufacturer, will be his successor. Kimball is a Northern man, having been born in Connecticut, but has long resided in Georgia, where he has invested consider-

Fond du Lac Commonwealth: about 4 o'clock Monday afternoon, Dec. 27, Dennis Roman, residing in the town of Fond du Lac, was driving homeward. and about a mile west of this city found Christopher Evans, a resident of the town, lying behind his own cutter in the middle of the road. Evans' horse was patiently at a stand-still, though the weather was fearfully cold. Evans lay upon the frozen ground with his cap and mittens off, and an investigation disclosed that he was dead drunk. He had fallen from his conveyance, and having been unable to help himself had lain exposed long enough to have both ears frozen solid, while both hands were frozen nearly to the wrist. given immediate attention, but his hands are so badly nipped that it is feared amputation will be necessary. Had he lain much longer he would have frozen

INUNION THERE IS STRENGTH. An Old Firm Under the New Title o George Benz & Co.

The extensive and extending business of the old and familiar firm of Geo. Benz, successor to Benz & Becht, has become so massive that the tax upon the physical powers of one person its management, has proved to be a serio and weighty responsibility. Hence, it has become an obligation upon Mr. Benz that he be partially relieved from the constant demand upon his physical energies. And it is our pleasure to announce to the public that on the ist of January, 1881, the following well-known gentlemen will become associated with Mr. gentlemen will become associated with Mr. Benz in his business, under the firm name of Geo. Benz & Co.: Mr. John Haggenmiller and Mr. Wm. F. Hachmann. Mr. Haggenmiller, late senior partner in the house of Haggenmiller & Kuhl, is an old resident of this city, familiarly known to the business men of the city and State. He brings to the house a thorough knowledge of the business, and will give his undivided attention to the interests of the new firm. Mr. Hachmann has long been the faithful and trusted traveling agent of Benz & Becht and Geo. Benz, and no business man is better known to the trade nor more genwill become associated with Mr man is better known to the trade nor more ge erally respected and deservedly popular than the gentlemanly junior partner of Geo. Benz & Co. This combination of business talent, promises energy, activity and solidity. The immense facilities of this house will be actively exercised in the expansion and extension of their already colossal business. With the new forces in power, the whole strength of so powerful a combination will be felt to the extenses rount of the Northwest and we are tremest point of the Northwest, and we pre-dict for the new firm of Geo. Benz & Co., a business future which shall crown them with honor, and prove in the highest degree emi-nently successful. Owatonna Review, Dec. 25: Mr. A. Rozer, one of the old citizens of the city

was found dead on Sunday morning last He had been suffering from a partial stroke of paralysis for several months. and was not able to move around very much. During the fall he has had someone to stay with him, but Saturday night he was alone, and from appearance when found it was thought that he attempted to reach for something on the when his strength gave way, and he was found lying with his head across a pail, years of age.

### NEIGHBORHOOD NEWS.

Gathered by the Special Reporters of the Daily Globe.

BRECKENRIDGE.

One of the most pleasant parties ever witnessed west of St. Paul, took place here on New Year's eve. Over seventyfive couples were present, and to the beautiful music of "Home's" band from Wild Rice, everybody had to dance. Floor manager Frank Parrage won de-served plaudits for the splendid manner in which he conducted affairs, and the pains he took to make it a success. A grand supper was served at the Minnesota House, and all went merry as a marriage bell.

WAHPETON, D. T. The citizens of Wahpeton generally, a number of people from Breckenridge, including the editor of the Free Press, of that place, and a representative of the GLOBE, were sumptuously entertained on New Year's eve by James Ross, Esq., the occasion being that of the formal opening of the Merchants hotel, just completed by Mr. Ross at a cost of \$4,000, and which, by the way, is a grand thing for Wahpeton, and the far more important occasion of the marriage of Mr. Ross to Miss Jennie Call, of New Hampshire. A splendid collation was served and the genial hospitality evi-denced by the proprietor augurs well for his future success. Mr. Ross was a former citizen of Hammond, Wisconsin, and is an experienced hotel man.

drug store, lies at the point of death. We learn that something over 5,000 tons of

A runaway occurred on North Washington avenue yesterday, but was attended by no erious results.

where his head fits his shoulders. "The

wicked hardeneth his neck." Selah. The diphtheria scourge seems to be on the decrease. Several cases are reported as recovering, and the physicians say that the worst of the season is over.

At the meeting of Social Science class, yesterday, Mr. Morey extended a special invitation to the members of the class to attend the reg-ular monthly meetings of the Academy of Natural Science, held the second Tuesday of

citizens for signatures, by certain industrious ladies, to be presented to our next legislature, praying an enactment which will legalize fe-male suffrage on the temperance, or liquor

as usual, and services were conducted under the guidance of Chaplain Satterlee. The services, as now arranged on the regular programme, are very interesting and attractive, and it is a significant fact that yesterday witnessed the largest attendance ever present at any meeting since the organization of the club, and the semi-religious character of exercises invite a large class of people who attend no other regular religious meeting. Some five hundred were present and many stepped up and signed the pledge.

1 Very Interesting Session at the Academy

yesterday the first hour was devoted to the topic, "The physical forces and their effects upon the earth's crusts." Dr. Barnard read a lengthy, comprehensive and carefully prepared paper, treating the various theories commonly known.

theory of the causes of light and heat. He claims that heat is created by the arresting of the light's rays by the earth's surface—and not as claimed by some of our philosophers, caused by the vibration of ight.
Mr. Alexander thought it was caused solely

by vibration, however. Very rapid vibration caused light, but by decreasing the vibration of objects throughout all space heat was caused.
Other speakers advanced various theories, construction of a sewer on Eighth street from Minnesota to Cedar street and Ce-

construction of a sewer on Eighth street from Minnesota to Cedar street and Cedar from Eighth to center of Ninth street, came up, and no objection being made the same was duly confirmed. Yeas, 2.

Pursuant to due notice, the matter of the confirmation of the assessment for construction of a sewer on Sibley street from Third to Fourth street, came up, and no objection being made the same was duly confirmed. Yeas, 2.

On motion it was ordered that the Common Council be requested to annut the order for the opening and extension of Iglehart street from Mackubin to Kent street, and pass an order for the opening. and dried charman, and find a slate all made up, and to undertake to break that slate would be sheer folly. This results in the practical disfranchisement of the minority party, which is unjust in the extreme. In this State fully four-tenths of the voters were Democrats, but, strange to say, only one Democrat had been elected to our next legislature at the past election. The voice of the people is certainly not the voice of the majority but the voice of

Some strong exceptions were taken to this theory by a certain young Republican. In politics, he claimed there was no such thing possible as a minority rule, or representation. The Republican party recognized no sue theory. He was well satisfied by the presentation. Chairman.
R. L. Gorman, Clerk Board Public Works.

Meeting of Board Public Works.

St. Paul., Dec. 24th, 1880.
Board met at 2 P. M.
Present: Messrs. Farrington and Koch.
Absent: Mr. President. (Excused).
On motion, Mr. Farrington took the chair. Minutes of last meeting read and approved.

The Street Inspectors of the Upper and Lower Districts reported the number of more end teams are publiced by the present system. Again he claimed there could be no such thing as second choice. A politician enters the field for a principle and votes for that principle—not for a second choice. He could have no second choice, unless it be a choice of lesser evils. He here referred to the caucus system. He acknowledge certain corruptions which had come under his individual notice—caucuses throughout the various wards of the city being successfully controlled by ent and dried rings. He thought honest politicians should attend caucuses and renovate them.

The discussions for next Sunday will

Lower Districts reported the number of men and teams employed by them the past week, when employed and the cost of the same. Placed on file.

The matter of the completion of the assessment for the grading of Josette street from Dayton avenue to Martin street, came un pursuant to adjustment.

## Why There Was no Meeting There.

Last Friday night was selected and set apart by the lacal board of a certain insurance association, for the purpose of holding an important business session. The hall, (Elliot's), in which this sage body corporate hold their meetings, is also used by certain Good Tem-plar lodges for their meetings. Now it transpires that a Good Templars lodge—not city limits, and that the Clerk give the confirmation notice.

The matter of the assessment for change of grade on Fourth street, from Neill to Commercial street, came up and no objection being made and after due consideration, it was ordered that all property on the line of said improvement be assessed equally, to-wit: benefits 3c per foot, damages nothing, and that the Clerk give "one by one," came up and peeped in, but seeing the ladies, they each in turn came to the sudden conclusion that there was not to be a meeting of the board there that night and si-lently folded their tents and stole away.

[New York Special.]

Senator Conkling has not hesitated to converse on the subject of the Insinuations made against him for befriending Mrs. Sprague. He talks on this subject with an eloquence, and almost a tearfulness, his oldest friends have never observed in him. He has newspapers from every part of the country, and even from Mexico, charging these imputations on both himself and the lady; and he says it is monstrous that there can be no punish ment for such deliberate and wanton stabbing of innocent people.

He speaks of Mrs. Sprague's children, and of his own family, as common victims of this universal defamation. He says Mrs. Sprague is as pure a woman as lives, and suffered incredibly to keep her good name and her children's. Conking pays the highest kind of eulogy to Chief Jus tice Chase, of whom he says: He is one of the grandest figures produced in our history. He says if there was gratitude of the commonest kind among the people of the land, they would rush to his daughter's defense, instead of assuming the meanest to be true concerning her.

One gentleman, referring to Co excitement on this subject, said be talked as if it were a relief to his feelings to bring this subject out; and never in the secret sessions of the Senate, when he has made the ablest speeches of his life, has he equaled his remarks on the Sprague case,
