A meeting of the Woman's Christian Temperance Union will be held in the hall over Elliott's music store this afternoon at 3 o'clock.

It is now thought that the Averill, Russell & Carpenter paper mill, on Hennepin island will not be completed and put in operation until January.

The Sophomores of the State University have ordered white plug hats, by which they will hereafter be designated or distinguished from the freshmen.

At the Opera house, Steadman makes the best "Harris" ever seen in the city. Phelps is a powerful "Lagrange," and the jubilee singers are certain of success.

Gen. L. F. Hubbard, the Republican candidate for governor, was in the city yesterday, trying to instill a little enthusiasm into the rank and file of his party.

Prof. Rhys and sons gave a concert in St. Cloud last evening. They will give a musical in Harrison hall. Mrs. Woodhouse will give a number of select readings.

A runaway team collided with Geo. B. Eustis' phaeton on the suspension bridge, and made kindling wood of it. The coachman and Mr. Eustis' little child were the only occupants at the time. Finding that he could not control the team, the coachman sprang from the vehicle with the child unhurt.

A pet dog, owned by John Thompson, of 117 Washington avenue, south, developed positive symptoms of hydrophobia. He snarled at members of the household and frothed at the mouth. Officer Chase was called in when the mad dog made an attack upon him. The officer dispatched the brute with two mortal shots from his revolver.

The price of millwood continues to advance, and with the advance the size of the load decreases. The reporter was informed yesterday that one dealer had left his carts at a wagon shop with instructions to cut six inches from the sides, thereby making the box that much smaller. By the way, would it not be a practicable idea to have an ordinance passed whereby the carts should be scaled and made of uniform size? It might be well to add that there are some dealers who are cutting the sides of their carts, and are still giving as large loads as ever.

As intimated in the GLOBE a week ago, Mrs. E. S. Bowdish, wife of the Methodist preacher who was given the grand bounce at a conference of Methodist churches a few years ago, by a unanimous vote of that body, and was arraigned in the police court last week for having received a fine of \$5 for using indecent and abusive language to her husband, and the custody of her child, upon the ground of cruel and inhuman treatment, extending over a period of several years, on the fact that she was his honorem. The charges specify that "since 1879 he had frequently and repeatedly kicked, struck and beaten her, and at one time pushed her down stairs because she would not yield to his desires."

NEW YORK'S PERIL.

The Soapy Water Supply—The Precautions Taken.

New York, Oct. 28.—The water supply of the city is unchanged in condition except that this morning the city had about 60,000,000 gallons less than yesterday. If it had not been for shutting down the gates to within three inches of the bottom of the pipes the supply this morning would probably have been less by about 10,000,000 gallons.

At no time are the gates wide open. This morning they were lifted three-quarters of an inch to give establishments enough for the day's work. To-night they were lowered again within three inches of the bottom of the pipes. Shutting of the gates one inch reduced the pressure so that in half an hour no water ran above basements, obliging the inmates to carry water up stairs by the pail fulls. The supply would be reduced still further were it not for the danger of having the pipes empty in case of fire. A reduction in supply from eighty to forty millions daily would empty half the pipes, and in case of fire it would take a long time to fill the pipes sufficiently for use by the fire department. In cases where water is wasted the supply will be turned off without warning, whether the waste occurs from carelessness or not. The pressure in water mains is five pounds to the square inch; when the reservoirs are full the pressure is about forty-five pounds to the square inch. Arrangements are made to open the flood gates promptly when an excess of water pressure is needed by the fire department. No factories are yet closed for lack of water. One liquor saloon, at the request of patrons, uses water in moderation, while another announces that it will not use water until the water is restored to its normal level.

It is generally thought she administered poison to her husband then inflicted the blow upon herself.

No evidence of violence was found upon the man, but on the woman's head was cut three inches long. The skull was not fractured, and death was probably caused by concussion of the brain. Mrs. Cook often intimated indications of unsound mind and in the bedroom was found a letter saying she was crazy, and she would at any time be glad to be put in an asylum. Her husband was good to his father. It is generally thought she administered poison to her husband then inflicted the blow upon herself.

Conrad Younger and sister, of Oregon, are in the city, visiting the Younger boys.

L. E. Thompson was in St. Paul yesterday attending to some legal matters.

Over 200 reserved seats for Denham Thompson were sold up to noon yesterday. He will have a crowded house to-night.

The Rev. Mr. McClay, of the Methodist church will speak next Sunday evening on the "Health of Young Manhood."

Louis Pisani, an Italian employed in Mr. Staples' mill, had his finger so badly cut by a saw that it is amputated.

Mr. A. Fredrick's children, which are down with the diphtheria, are no better yet. There is no apparent change, and the physician is very hopeful.

The decision of the supreme court in the case of C. Carle vs. the Stillwater street railway and transfer company, is the topic of conversation with property owners on the line of that road.

The grounds have been staked out for a new warehouse at the lower road, and work will be commenced immediately. A part of the building will be used as a passenger depot until other arrangements are made.

There was considerable excitement created Thursday evening caused by the rumor that John Lyons had declared himself an independent candidate for the office of sheriff. The report had no foundation, whatever, as Mr. Lyons would not allow his name to be used on any ticket, and will not openly take sides with either nominee.

The boys that were arrested Thursday for disturbing the school at Baytown, came up for trial yesterday, and they were fined \$8. Two of the boys paid or promised to work for a party who would security for them, and the other two were set free.

The other boys would not make any satisfactory promise and he was locked up.

FAIRBAULT. FAIRBAULT, Oct. 27.—There was an arrest attempted at Waterville on Monday evening, which came to nothing.

A fellow of an unknown name had come there from Shieldsville, and shortly after a warrant arrived for his arrest. In the meantime he had stolen \$5 at Waterville. The sheriff, Reynolds, who had the matter in hand, followed him to a saloon and arrested him, but, instead of obeying, he drew his revolver and commenced shooting. The first shot grazed the officer's right temple; the next struck him in the thigh, inflicting a flesh wound. In the meantime the man shot twice, neither shot taking effect, and the villain would doubtless have gotten away had not some men present come to the officer's assistance.

Chas. Livingston and Henry Palmer, mechanics, who have been at work in Minneapolis for some time, have both returned home with typhoid fever.

Mrs. D. Grant and returned home last evening. Two boys were expelled from Shattuck on Tuesday afternoon of this week.

FAIRBAULT, Oct. 28.—It rains and the mud is awful deep, it sticks to our shoes and makes us very hating it around.

The store of J. O. N. Cotterall was broken into last night, and about \$75 worth of goods in the shape of pocket-knives and hand-spoons were stolen. No trace yet of the robber.

"Don't Know Half Their Value." "They cured me of ague, biliousness and kidney complaint, as recommended. I had a half bottle left which I used for my two little girls, who the doctors and neighbors said could not be cured. I would have lost both of them one night if I had not given them Hop Bitters. They did them so much good I continued their use until they were cured. That is why I say you do not know half the value of Hop Bitters, and do not recollect having had high enough."—B. Rochester, N. HOLMAN'S PAD

CURES MALARIAL FEVER Simply Without Pain by MEDICINE ABSORPTION

The Only True Malarial Antidote.

Dr. HOLMAN'S PAD is no guess-work remedy—no such hazy experiments—no pointed hodge-podge of some other inventor's idea; it is the original and only genuine curative Pad, the only remedy that has an honestly-acquired right to the title-word "Pad" in connection with a treatment for chronic diseases of the Stomach, Liver and Spleen.

By a recently perfected improvement Dr. HOLMAN has greatly increased the scope of the Pad's usefulness, and appreciably augmented its active curative power.

This great improvement gives HOLMAN'S PAD (with its Adjuncts) such complete and unyielding control over the most persistent and unyielding forms of Chronic Disease of the Stomach and Liver, as well as Malarial Blood-poisoning, as to amply justify the eminent Professor Loomis' high encomium: "IT IS NEARER A UNIVERSAL PANACEA THAN ANYTHING IN MEDICINE!"

The success of HOLMAN'S PADS has inspired imitators who offer Pads similar in form and odor to the genuine HOLMAN PAD. Beware of these Bogus and Imitation Pads, gotten up to sell on the reputation of the GENUINE HOLMAN PAD.

Each Genuine Holman Pad bears the Private Revenue Stamp of the HOLMAN PAD COMPANY with the above Trade-Mark printed in green.

FOR SALE BY ALL DRUGGISTS. Or sent by mail, post-paid on receipt of \$2.00.
