The Chicago Times says the levee between New Orleans and Carrollton is being guarded by armed men. The Times does not say whether they are armed with shotguns or shotguns.

It is thought that Congressmen Flower, of New York, will be chosen chairman of the Democratic Congressional campaign committee, instead of Gen. Roscamers, who desires to spend the summer in California. A flower that still blooms, in spite of the effects of the \$75,000 used as a corruption fund to suppress his fragrance, is a flower that was never born to waste his fragrance on the desert air.

The Judiciary Committee of the House of Representatives has reported a bill making important changes in the jurisdiction of the United States courts. These courts now have jurisdiction of cases involving sums of five hundred dollars and upward and the bill reported changes the amount to two thousand dollars. Suit can not be brought on an assigned note in the United States court unless the court had jurisdiction before the assignment. A suit commenced in the State courts can not be transferred to the Federal courts except on an affidavit that the plaintiff can not get jurisdiction in the State courts. The bill takes from the Federal courts jurisdiction of suits between a corporation and a citizen of a state where the corporation may be doing business. The changes will put an end to much of the sharp practice heretofore resorted to in order to get cases into the United States courts.

**THE HISTORICAL SOCIETY.**  
At the meeting of the Historical Society Monday evening Gen. Sibley sent a communication which was one of the most practical ever received by that organization. The importance of a fire proof building for the society and its invaluable library and collections has been recognized for years, and has been especially felt since the burning of the capitol, which entailed irreparable loss upon the organization. Gen. Sibley, with characteristic enterprise and liberality, inaugurated the movement by forwarding a subscription of \$2,000 for a new and suitable fire proof building. This was promptly supplemented by ex-Senator Ramsey and Hon. E. F. Drake, who were present, and each subscribed \$1,000. This was a handsome beginning and on yesterday the enterprise received the further advancement of \$5,000 from Mr. N. W. Kittson, Esq. This is the most generous subscription ever made by any citizen of St. Paul for a public object, and gives such an impetus to the fund as to render the success of the project almost assured.

Gen. Sibley is to be congratulated upon the movement he has inaugurated and, without disparagement to others, it can be justly said that the building, when completed, will be a lasting monument to his public spirit and liberality. The GLOBE congratulates the society and the public upon the prospect of having these valuable collections securely housed at no distant day.

**PROTECTION FROM EXTORTION.**  
There was a rousing meeting of farmers at Good Thunder, Blue Earth county, last Saturday, which has already been noted in the news columns of the GLOBE. That county already has a number of Farmers' Township Alliances and arrangements have now been made for forming a Farmers' County Alliance. This is an excellent organization and one which every county in the state should adopt. There should also be a Farmers' State Alliance formed, composed of representatives from the County Alliances, the County Alliances in turn being formed by representatives from the Township Alliances. This will make the chain of communication and organization complete. The Farmers' State Alliance should open a permanent headquarters at St. Paul and employ an able and competent gentleman as Secretary, to devote his entire time to the interests of the producing classes throughout the State. Information of the plans and schemes of the extortionists can thus be secured and a combined effort made to thwart them.

The farmers hold the key to the situation. They have the numerical majority to enforce and secure their rights. Honest Weights, Honest Grades and an Open Market, should be their shibboleth. It is not a party question, but one of pure business.

All that is necessary is united action. The wheat ring is comparatively small in number and they have concentrated their talent and capital, relying on the inability of the farmers to act together, and knowing that single handed the producers will continue to be an easy prey. The organization of the GLOBE suggests will put this matter in a new light and put millions of dollars into the pockets of the farmers.

Throw politics to the wind and organize your State, County and Township Farmers' Alliances for self protection. Elect your legislature and circumspect the plunderers.

**A Great Literary Success.**  
Atlanta, Ga. I. Donnell's new book seems to have struck the top of the wave. The large edition has been exhausted almost within the first week of its issue. The subject, as well as Mr. D's acknowledged ability, secures the attention of a very large class of people. There is much in the volume to challenge careful observation and which will awaken in many a desire for still further consideration. We are informed that the St. Paul Book and Stationery company have a few copies left and will fill orders from the new edition, which is to be issued in a week or two, in consecutive order. The trade are supplied by them. Price \$2.00.

**THE GLOBE HOROSCOPE.**

As It Casts Its Light on the Chicago Markets.

[Special Telegram to the Globe.]  
CHICAGO, March 14.—The bears got left again yesterday, for although wheat sold off at the opening it soon recovered and closed at noon for \$1.25 1/4 for May. There was much more activity in this option than for some days, and it kept up with the procession consisting of June and July very well. The call price was \$1.27 1/4 for May and the call now is \$1.27 1/4. The market was very active, the bulls proposed keeping up the ball the entire summer, and the boys will have to pay the piper. Corn is strong with an upward tendency and will go higher. Pate this in your hat. Provisions fairly steady, but quiet.

[Special to the Western Associated Press.]  
CHICAGO, March 14.—To-day's markets show far from being affected by disturbing rumors about the bear raid in New York; were still stronger as a rule and on call grain closed at a decided advance, especially for the deferred options. Wheat on the regular board was active speculatively throughout the session but the feeling was unsettled. Rates were irregular and opening prices were weak and 1/4 to 1/2 lower than on call yesterday. With-out any signs of rally they declined an additional 1/4, when the demand becoming more active, there was a recovery of 1/2 for April and 1/4 for the other futures. The close was 7/8 to 1/2 lower, the depression chiefly in July and June. Sales were at \$1.32 1/4 for April, \$1.33 1/4 for May, \$1.34 1/4 for June, \$1.35 1/4 for July, \$1.36 1/4 for August, \$1.37 1/4 for September, \$1.38 1/4 for October, \$1.39 1/4 for November,
